TD 93/D157 - Income tax: is a lease acceptable if it is based on a $1 residual value?

This cover sheet is provided for information only. It does not form part of *TD 93/D157 - Income tax: is a lease acceptable if it is based on a $1 residual value?*

This document has been finalised by TD 94/20.

Draft Taxation Determinations (TDs) represent the preliminary, though considered, views of the ATO. Draft TDs may not be relied on; only final TDs are authoritative statements of the ATO.

Draft Taxation Determination

Income tax: is a lease acceptable if it is based on a $1 residual value?

1. No. The residual value of a leased item should either conform with the table of minimum residual values set out in IT 28 or a well considered estimate of the market value of the leased item at the end of the lease.

2. A $1 residual value would only conform to this test if the market value of the asset was $1, indicating that the term of the lease was the effective life of the asset. A lease for the substantial life of an asset is not accepted as a genuine lease (see IT 2594).
