

Salary and wage occupation codes

Use this guide to help with completing the occupation code on your tax returns.

Published 30 May 2024

About this guide

This guide contains a list of codes to help you correctly complete the occupation code in the individual tax return.

You must provide an accurate description of a taxpayer's main salary and wage occupation at question 1 of the tax return and insert the appropriate 6-digit code from the list at question 1 – label **X**.

If the taxpayer is involved in more than one salary and wage income-earning activity, provide the description and code for the activity that produced the greatest amount of income. Note the occupation description and codes apply to salary and wage income only and not to other types of income such as pensions and business or investment income.

The codes below are in alphabetic order. Use the alphabetic list to select the appropriate code to enter in the tax return by searching under keywords that describe the taxpayer's main salary and wage income-earning occupation.

For example:

- Ambulance officer – search under the keyword 'ambulance' to find the code 411111.
- Shipping clerk – search under either of keywords 'shipping' and 'clerk' to find the code 591211.
- Security guard – search under either of the keywords 'security' and 'guard' to find the code 442217, or make a more specific choice

(such as Security worker – payroll, code 442212).

Once you have identified the most appropriate code from the list, enter it at question 1 – label **X** in the tax return.

If you can't find an appropriate specific occupation code, enter an accurate description of the taxpayer's occupation as you understand it and use the 'Occupation not listed' code 999000. Use this code as a last resort only.

Only use codes from this publication and take care to describe and code occupations as accurately as possible. An incorrect code could lead to incorrect targeting of an audit or may result in your client not receiving necessary service or material from us.

In addition, the ATO provides the Australian Bureau of Statistics (ABS) with aggregated client records for the preparation of national accounts and related economic surveys. Salary and wage occupation codes are an important part of the information the ATO gives to the ABS.

Salary and wage occupation code tables

Select from the letters below to find your salary and wage occupation code for use in your tax return.

Alphabet listing for code tables

A	B	C	D	E	F	G	H	I	J	K	L

Our commitment to you

We are committed to providing you with accurate, consistent and clear information to help you understand your rights and entitlements and meet your obligations.

If you follow our information and it turns out to be incorrect, or it is misleading and you make a mistake as a result, we will take that into account when determining what action, if any, we should take.

Some of the information on this website applies to a specific financial year. This is clearly marked. Make sure you have the information for the right year before making decisions based on that information.

If you feel that our information does not fully cover your circumstances, or you are unsure how it applies to you, contact us or seek professional

advice.
