<b>Vietnam</b>	15831.9320	16093.6920	16604.0000	1

**Notes:**

From 1 January 2020, we have used the exchange rates from the [Reserve Bank of Australia](#) . In previous years we have used exchange rates sourced from the [Commonwealth Bank of Australia](#) .

The Reserve Bank of Australia and the Commonwealth Bank publish rates for different countries.

If we don't publish a rate for the country or year you need, you can use an appropriate exchange rate provided by:

- a banking institution operating in Australia including, where relevant, the banking institution through which your foreign income is received
- another reliable external source.

Keep the rate used and the source of rates with your records. Be mindful that you can't obtain an average rate (or rates) of exchange from an associate, or from yourself, unless otherwise notified by us.

Foreign exchange rates have not been reported by the Reserve Bank of Australia for the Swiss franc from 21 December 2023. In its place, the Canadian dollar has been reported since that date. For this reason, neither of these currencies are reported in the table for the 2023–24 financial year.
