What is the Medicare levy?

The Medicare levy is an amount you pay in addition to the tax you pay on your taxable income.

Last updated 30 April 2026

The Medicare levy helps fund some of the costs of Australia's public health system known as Medicare. The Medicare levy is 2% of your [taxable income](#).

Media: Medicare levy and Medicare levy surcharge explained <https://tv.ato.gov.au/ato-tv/media?v=bi9or7od7oq6a3> [↗](#) (Duration: 00:56)

You may get a [reduction](#) or [exemption](#) from paying the Medicare levy, depending on you and your spouse's income and circumstances. You need to consider your eligibility for a reduction or an exemption separately.

We calculate your Medicare levy when you lodge your tax return. Generally, the pay as you go amount your employer withholds from your salary or wages includes an amount to cover the Medicare levy.

You can use the [Medicare levy calculator](#) to work out your Medicare levy.

The [Medicare levy surcharge](#) (MLS) is a separate levy to the Medicare levy. Depending on your personal circumstances, you may need to pay the MLS in addition to the Medicare levy.

Example: working out how much Medicare levy to pay

Matthew earns an income of \$76,000 annually. He has \$1,000 of allowable deductions.

Matthew is single and doesn't have any dependants. Matthew isn't entitled to the Seniors and pensioners tax offset (SAPTO) and isn't eligible for any Medicare levy exemptions or reductions.

Matthew will pay a Medicare levy of 2% of his taxable income.

Matthew works out his taxable income as:

Assessable income – allowable deductions = taxable income

\$76,000 – \$1,000 = \$75,000

The amount of Medicare levy Matthew pays is:

$$\$75,000 \times 0.02 = \$1,500$$

The Medicare levy is automatically calculated when Matthew completes his tax return.
