

# Economic stimulus measures

### Interaction of tax depreciation incentives

In 2020 the government introduced measures to help businesses recover from the impacts of the coronavirus pandemic (COVID-19). Eligible business entities may want to know which tax depreciation incentive is right for them. This information explains the depreciation incentives that are available and when businesses could consider using them.

#### **Applying depreciation incentives**

The general steps to apply depreciation incentives are:

Identify if you are an eligible business by calculating your aggregated turnover

using simplified depreciation

 Determine which incentive to apply. Only one incentive can apply for an asset. If more than one incentive could apply, the order of application is (subject to opt out choices)

small business entities using simplified depreciation

- temporary full expensing
- instant asset write-off
- backing business investment
- general depreciation rules
- Take note of whether you can choose to **opt out** of an incentive.
- Determine when you first held and first used or installed each asset for a taxable purpose.
- Consider if any exclusions or specific limits may apply (such as the car limit), even if incentives are uncapped.

#### Full write-off:

- means deducting the taxable use proportion of the cost of an asset.
- may also be available for improvement costs for eligible assets. Refer to our more detailed guidance on temporary full expensing for information on when these costs can be claimed.
