Part 1—Amendment of the Income Tax Assessment Act 1936

Division 1—Amendment of CGT provisions

1 Section 160AZA (Sub Index—Exemptions, after entry relating to principal residence)

Insert:

Small business retirement assets

Division 17B of Part IIIA

2 After section 160ZZPQ

Insert:

160ZZPQA No election if election already made under Division 17B

A taxpayer must not make an election under paragraph 160ZZPQ(1)(f) in respect of the disposal of an asset if the taxpayer has previously made an election under Division 17B in respect of the disposal.

3 After Division 17A of Part IIIA

Insert:

Division 17B—Disposal of small business assets: proceeds used for retirement

Subdivision A—Introduction

160ZZPZA What this Division is about

Broadly, a capital gain accruing on the disposal of an asset by a small business is exempt from tax under this Part, if the proceeds of the disposal are used in connection with the retirement of an

individual, or 2 individuals, who control that business. The amount of the gain will be treated as a special kind of eligible termination payment made to the individuals.

160ZZPZB Structure of the Division

Sole traders and partnerships

- (1) For a taxpayer who is an individual (carrying on business as a sole trader or as a partner in a partnership) to get an exemption, and for the other consequences set out in this Division to apply, the conditions in Subdivision B must be satisfied.

Companies and trusts

- (2) For a taxpayer that is a private company or trust to get an exemption, and for the other consequences set out in this Division to apply, the conditions in Subdivision C must be satisfied.

Lifetime exemption limit

- (3) There is a lifetime limit of \$500,000 on the total of amounts that may be exempt in relation to a particular individual under this Division (see section 160ZZPZN). The single limit applies to all exempt amounts involving the individual, whether under Subdivision B or C.

Previous years' net capital losses

- (4) An exemption under this Division is not available to the extent that the taxpayer has net capital losses from previous years of income available to set off against the capital gain (see Subdivision D).

Definitions

- (5) Definitions of various expressions used in the Division are in Subdivision E.

Subdivision B—Taxpayers who are individuals

160ZZPZC Scope of Subdivision

The consequences set out in section 160ZZPZE apply to a taxpayer who is an individual if the conditions in section 160ZZPZD are met.

160ZZPZD Conditions for exemption

First condition

- (1) The first condition is that:
 - (a) the requirements of paragraphs 160ZZPQ(1)(a) to (d) must be satisfied in relation to the disposal of an asset by the taxpayer other than as a trustee; and
 - (b) the taxpayer must receive all of the actual consideration (see section 160ZZPZO), if any, in respect of the disposal within the period beginning one year before, and ending 2 years after, the disposal.

The whole of the actual consideration mentioned in paragraph (b) need not be received all at once; parts of the actual consideration may be received at different times during the period.

Second condition

- (2) The second condition is that:
 - (a) the taxpayer must elect in writing, on or before the date of lodgment of the taxpayer's return of income for the year of income mentioned in paragraph 160ZZPQ(1)(a), that this Division is to apply to the taxpayer in respect of the disposal; and
 - (b) the election must specify an amount as the asset's **CGT exempt amount**; and
 - (c) that amount must not be greater than the amount of the capital gain concerned (possibly as reduced by Subdivision D, which deals with previous years' net capital losses); and
 - (d) the asset's CGT exempt amount must not exceed the individual's CGT retirement exemption limit (see section 160ZZPZN) immediately before the election is made; and

- (e) the taxpayer must not have already made an election under section 160ZZPQ in respect of the disposal.

160ZZPZE What happens if the disposal is exempt

- (1) If the conditions in section 160ZZPZD are met, the following consequences apply.

Capital gain reduced by asset's CGT exempt amount

- (2) The amount of the capital gain that otherwise would have accrued to the taxpayer in respect of the disposal of the asset concerned is reduced (but not below nil) by the asset's CGT exempt amount.

Other CGT exemptions/concessions are not available

- (3) Divisions 15, 17, 17A, 18 and 19 do not apply in respect of the disposal.

Proceeds of disposal taken to be an ETP

- (4) Also, for each amount the taxpayer receives as actual consideration in respect of the disposal at a particular time, an ETP of that amount (but possibly reduced by subsection (5)) is taken, for the purposes of this Act, to have been made in relation to the taxpayer at the later of the following times:

- (a) the time the election is made;
(b) the time the actual consideration is received.

Note: For the rules about ETPs (eligible termination payments), see Subdivision AA of Division 2 of Part III.

No ETP to the extent that the total actual consideration received exceeds the asset's CGT exempt amount

- (5) However, if the sum of:
- (a) the amount of the actual consideration; and
(b) the total amount of any actual consideration the taxpayer received earlier in respect of the disposal;
- exceeds the asset's CGT exempt amount, the amount of the ETP is reduced by the amount of the excess.

Note: In some cases, this will reduce the amount of the ETP to nil.

Example: Assume that the asset's CGT exempt amount is \$1,000. Assume that the taxpayer receives an amount of actual consideration of \$300, and has previously received \$900 as actual consideration in respect of the disposal. The sum of that actual consideration is \$1,200, which exceeds the asset's CGT exempt amount by \$200. Therefore the amount of this ETP is reduced by \$200 to \$100.

160ZZPZF Taxpayers under 55 must roll over proceeds, or lose exemption

- (1) If the taxpayer was under 55 immediately before the disposal, an amount equal to the amount of each ETP that is taken to have been made under subsection 160ZZPZE(4) must be rolled over (within the meaning of Subdivision AA of Division 2 of Part III, but assuming that paragraph 27A(12)(c) had not been enacted) by the taxpayer.
- (2) If the taxpayer does not comply with subsection (1), the election is taken never to have been made.

Note: Because making the election is a condition (see paragraph 160ZZPZD(2)(a)), the taxpayer will lose the benefit of this Subdivision in such a case.

Subdivision C—Taxpayers that are private companies or trusts

160ZZPZG Scope of Subdivision

The consequences set out in section 160ZZPZJ apply to a taxpayer that is a company (other than a public company) or a trust (other than a publicly traded unit trust) if either:

- (a) the single-controller conditions set out in section 160ZZPZH are met; or
- (b) the dual-controller conditions set out in section 160ZZPZI are met.

160ZZPZH Single-controller conditions

- (1) This section sets out the conditions that are the *single-controller conditions*.

First condition

- (2) The first condition is that:
-

- (a) the requirements of paragraphs 160ZZPQ(1)(a) to (d) must be satisfied in relation to the disposal of an asset by the taxpayer; and
- (b) the taxpayer must receive all of the actual consideration (see section 160ZZPZO), if any, in respect of the disposal within the period beginning one year before, and ending 2 years after, the disposal.

The whole of the actual consideration mentioned in paragraph (b) need not be received all at once; parts of the actual consideration may be received at different times during the period.

Second condition

- (3) The second condition is that, immediately before the disposal, there must be one, and only one, controlling individual (see section 160ZZPZP) of the taxpayer.

Third condition

- (4) The third condition is that:
 - (a) the taxpayer must elect in writing, on or before the date of lodgment of the taxpayer's return of income for the year of income mentioned in paragraph 160ZZPQ(1)(a), that this Division is to apply to the taxpayer in respect of the disposal; and
 - (b) the election must specify an amount as the asset's **CGT exempt amount**; and
 - (c) that amount must not be greater than the amount of the capital gain concerned (possibly as reduced by Subdivision D, which deals with previous years' net capital losses); and
 - (d) the asset's CGT exempt amount must not exceed the controlling individual's CGT retirement exemption limit (see section 160ZZPZN) immediately before the election is made; and
 - (e) the taxpayer must not have already made an election under section 160ZZPQ in respect of the disposal.

Fourth condition

- (5) The fourth single-controller condition is that, within:

- (a) 7 days after making the election; or
- (b) 7 days after the taxpayer receives the whole or a part (the *payment amount*) of the actual consideration as mentioned in paragraph (2)(b);

whichever comes later, the taxpayer must make an ETP in relation to the controlling individual whose amount is at least equal to the payment amount.

Note: The payment amount may be reduced under subsection (8).

If there are 2 or more ETPs required

- (6) If, at a particular time, subsection (5) requires a taxpayer to make 2 or more ETPs to the controlling individual (whether or not by the same time), the taxpayer may meet that requirement either:
 - (a) by making separate ETPs whose amounts are in total at least equal to the sum of the payment amounts; or
 - (b) by making a single ETP whose amount is at least equal to the sum of the payment amounts.

Fifth condition

- (7) The fifth condition is that, if the controlling individual was under 55 immediately before the disposal, an amount, in relation to the ETP, at least equal to the payment amount must be rolled over (within the meaning of Subdivision AA of Division 2 of Part III, reading references in that Subdivision to “the taxpayer” as references to the controlling individual instead, and assuming that paragraph 27A(12)(c) had not been enacted) by the controlling individual.

Note: The payment amount may be reduced under subsection (8).

ETP not required to the extent that the total actual consideration received exceeds the asset’s CGT exempt amount

- (8) However, if the sum of:
 - (a) the payment amount; and
 - (b) the total amount of any actual consideration the taxpayer received, as mentioned in paragraph (2)(b), earlier in respect of the disposal;

exceeds the asset's CGT exempt amount, the payment amount is reduced, for the purposes of subsections (5), (6) and (7), by the amount of the excess.

Note: In some cases, this will reduce that amount to nil.

Example: Assume that the asset's CGT exempt amount is \$1,000. Assume that the taxpayer receives a payment amount of \$300, and has previously received \$900 as actual consideration in respect of the disposal. The sum of those amounts is \$1,200, which exceeds the asset's CGT exempt amount by \$200. Therefore the amount of this payment amount is reduced by \$200 to \$100.

160ZZPZI Dual-controller conditions

- (1) This section sets out the conditions that are the *dual-controller conditions*.

First condition

- (2) The first condition is that:
- (a) the requirements of paragraphs 160ZZPQ(1)(a) to (d) must be satisfied in relation to the disposal of an asset by the taxpayer; and
 - (b) the taxpayer must receive all of the actual consideration (see section 160ZZPZO), if any, in respect of the disposal within the period beginning one year before, and ending 2 years after, the disposal.

The whole of the actual consideration mentioned in paragraph (b) need not be received all at once; parts of the actual consideration may be received at different times during the period.

Second condition

- (3) The second condition is that, immediately before the disposal, there must be 2 controlling individuals (see section 160ZZPZP) of the taxpayer.

Third condition

- (4) The third condition is that:
- (a) the taxpayer must elect in writing, on or before the date of lodgment of the taxpayer's return of income for the year of income mentioned in paragraph 160ZZPQ(1)(a), that this

Division is to apply to the taxpayer in respect of the disposal;
and

- (b) the election must specify an amount as the asset's **CGT exempt amount**; and
- (c) that amount must not be greater than the amount of the capital gain concerned (possibly as reduced by Subdivision D, which deals with previous years' net capital losses); and
- (d) the election must specify the percentages (the **exemption percentages**) of the asset's CGT exempt amount that are to be regarded as attributable to each of the 2 controlling individuals. One of the percentages may be nil, but the 2 percentages must add up to 100%; and
- (e) for each of the 2 controlling individuals, the individual's exemption percentage of the asset's CGT exempt amount must not exceed that individual's CGT retirement exemption limit immediately before the election is made; and

Example: Fiona is a controlling individual of a taxpayer. Her exemption percentage is 10% (which means that the other controlling individual's exemption percentage must be 90%). Fiona's CGT retirement exemption limit is \$500,000. To determine whether paragraph (e) is complied with, she would take 10% of the asset's CGT exempt amount and see whether that amount exceeds \$500,000.

- (f) the taxpayer must not have already made an election under section 160ZZPQ in respect of the disposal.

Fourth condition

- (5) The conditions in subsections 160ZZPZH(5) to (8) are also dual-controller conditions, except that the subsections apply separately in respect of each of the 2 controlling individuals as if:
 - (a) each were the only controlling individual; and
 - (b) references (other than in paragraph (5)(b) and subsection (8)) to the payment amount were, in relation to each controlling individual, instead a reference to the following amount:

Controlling individual's exemption percentage \diamond Payment amount

160ZZPZJ What happens if the disposal is exempt

- (1) If the conditions in section 160ZZPZH or 160ZZPZI are met, the following consequences apply.

Capital gain reduced by asset's CGT exempt amount

- (2) The amount of the capital gain that otherwise would have accrued in respect of the disposal concerned is reduced (but not below nil) by the asset's CGT exempt amount.

Other CGT exemptions/concessions are not available

- (3) Divisions 15, 17, 17A, 18 and 19 do not apply in respect of the disposal.

Treatment of ETP

- (4) Any ETP, or part of an ETP, the taxpayer makes, to the extent required to comply with subsection 160ZZPZH(5) (including as it is applied by subsection 160ZZPZI(5)):
- (a) is taken, for the purposes of this Act, to consist solely of a CGT exempt component; and
 - (b) is not an allowable deduction of the taxpayer.

Note: For the rules about ETPs (eligible termination payments), see Subdivision AA of Division 2 of Part III.

160ZZPZK Exemption reduced if controlling individual did not control taxpayer throughout taxpayer's ownership of asset

- (1) If:
- (a) immediately before the disposal of the asset concerned, there was only one controlling individual of the taxpayer; and
 - (b) at any time during the period (the *ownership period*) from the later of:
 - (i) the start of the 1992-93 year of income; and
 - (ii) the time when the taxpayer acquired the asset;until immediately before the disposal, the individual was not the controlling individual of the taxpayer;

the asset's CGT exempt amount is reduced by the following amount:

$$\text{Asset's CGT exempt amount} \times \frac{\text{Part of ownership period when individual was not controlling individual of the taxpayer}}{\text{Ownership period}}$$

- (2) However, if, disregarding subparagraph (1)(b)(i), the asset's CGT exempt amount would be reduced by a lesser amount, the asset's CGT exempt amount is instead reduced by that lesser amount.

If there are 2 controlling individuals

- (3) If, immediately before the disposal, there were 2 controlling individuals of the taxpayer, the asset's CGT exempt amount is reduced by the sum of the amounts, worked out for each controlling individual, using the formula:

$$\text{Individual's exemption percentage (see paragraph 160ZZPZI(4)(d))} \times \begin{matrix} \text{Reduction required under subsection} \\ \text{(1) or (2) if the individual were the} \\ \text{only controlling individual} \end{matrix}$$

Subdivision D—Previous years' net capital losses

160ZZPZL Exemption reduced if net capital losses available from previous years

- (1) This section applies if:
- (a) a taxpayer makes one or more elections under paragraph 160ZZPZD(2)(a), 160ZZPZH(4)(a) or 160ZZPZI(4)(a) in respect of disposals of assets during a particular year of income (the *current year*); and
 - (b) the taxpayer incurred one or more net capital losses in respect of years of income before the current year, but after the 1994-95 year of income, that have not been fully applied under section 160ZC in respect of years of income before the current year; and

- (c) the losses would, apart from this Division, be fully or partly applied in determining whether a net capital gain accrues to the taxpayer in respect of the current year (if sufficient capital gains accrue in the current year). The extent to which a loss would be so applied is called the *unapplied loss*.

Capital gains are reduced

- (2) The capital gain in respect of each of the disposals is reduced (but not below nil) by an amount (the *reduction amount*) equal to so much of the total amount of the unapplied losses as has not already (see subsection (4)) been applied in reducing other capital gains under this subsection for the current year or an earlier year of income.

Losses are also reduced, in the order in which they were incurred

- (3) The net capital losses are reduced (but not below nil) by the reduction amount, in the order in which the taxpayer incurred the losses.

Order of reduction of capital gains is the order in which elections were made

- (4) Capital gains in respect of disposals are to be reduced under subsection (2) in the order in which the taxpayer made the elections as mentioned in paragraph (1)(a) in respect of the disposals.

This section applies before other net capital loss provisions

- (5) For any given year of income, this section is to be applied in reduction of net capital losses before section 160ZC and Division 17A are to be applied in relation to those losses.

Example

- (6) The following is an example of how this section works:

Example: Assume that a taxpayer has net capital losses from previous years of income of \$200 and \$300 (incurred in that order). Assume that the taxpayer made elections in respect of the disposal of assets A, B and C (in that order) and that the amounts of the respective capital gains were \$200, \$400 and \$700.

First, the capital gain in respect of asset A is reduced to nil by the \$200 loss. (Note that the election for asset A must therefore specify nil as that asset's CGT exempt amount.) The \$300 loss is then applied against the capital gain in respect of asset B, reducing it to \$100.

Now that all of the total amount of the losses has been applied, the capital gain in respect of asset C is not reduced under this section.

Schedule 13—Subsidiary company liquidations and capital gains tax

Part 1—Amendment of the Income Tax Assessment Act 1936

1 After section 160ZZOA:

Insert:

160ZZOB Effect of section 160ZZO on certain liquidations

Summary of section

- (1) This section will in certain circumstances reduce a capital gain or capital loss to a company from the cancellation of shares in a wholly-owned subsidiary in the course of liquidation of the subsidiary. The main requirement is that roll-over relief must have been available to the subsidiary under section 160ZZO for the disposal by the subsidiary of an asset to the company in the course of the liquidation.

Conditions for section applying

- (2) The consequences set out in subsection (3) occur if:
 - (a) either:
 - (i) one or more elections are made under section 160ZZO that that section apply to disposals of one or more assets (each of which is a **160ZZO CGT asset**) acquired on or after 20 September 1985; or
 - (ii) subsection 160ZZO(1AA) applies to one or more disposals of assets (each of which is also a **160ZZO CGT asset**) acquired on or after that date;
 - or both; and
 - (b) the disposals of the 160ZZO CGT assets are distributions in the course of the liquidation of the transferee mentioned in section 160ZZO, but they are not distributions to which subsection 160ZL(1) applies; and

- (c) the market value of the distributed 160ZZO CGT assets constitutes the whole or part of the consideration for the cancellation, in the course of the liquidation, of all of the shares (the *transferee's total shares*) beneficially owned in the transferor mentioned in section 160ZZO by the transferee; and
- (d) throughout the period from the first or only disposal of a 160ZZO CGT asset until the cancellation of the shares, the transferee beneficially owned all of the shares in the transferor; and
- (e) one or more shares (the *transferee's CGT shares*) that were cancelled were acquired by the transferee on or after 20 September 1985; and
- (f) either:
 - (i) there is an overall notional gain on distributions to the transferee of the 160ZZO CGT assets in the course of the liquidation and an overall actual gain on the cancellation of the transferee's CGT shares in the course of the liquidation; or
 - (ii) there is an overall notional loss on distributions to the transferee of the 160ZZO CGT assets in the course of the liquidation and an overall actual loss on the cancellation of the transferee's CGT shares in the course of the liquidation.

Note: Various expressions used in paragraph (f) are defined in section 160ZZOC.

Where overall notional gain on distribution and overall actual gain on cancellation

- (3) If subparagraph (2)(f)(i) applies:
 - (a) except as mentioned in paragraph (b) of this subsection, no capital gain accrues to the transferee, and the transferee incurs no capital loss, on the disposal of any of the transferee's CGT shares constituted by the cancellation; and
 - (b) a capital gain accrues to the transferee, in respect of the disposal of each of the transferee's CGT shares constituted by the cancellation, of an amount worked out using the formula:

$$\frac{\text{Overall actual gain} - \left(\text{Adjustment factor} \times \text{Overall notional gain} \right)}{\text{Number of transferee's CGT shares}}$$

Note: The components in the formula are defined in section 160ZZOC.

Where overall notional loss on distribution and overall actual loss on cancellation

- (4) If subparagraph (2)(f)(ii) applies:
- (a) except as mentioned in paragraph (b) of this subsection, no capital gain accrues to the transferee, and the transferee incurs no capital loss, on the disposal of any of the transferee's CGT shares constituted by the cancellation; and
 - (b) a capital loss accrues to the transferee, in respect of the disposal of each of the transferee's CGT shares constituted by the cancellation, of an amount worked out using the formula:

$$\frac{\text{Overall actual loss} - \left(\text{Adjustment factor} \times \text{Overall notional loss} \right)}{\text{Number of transferee's CGT shares}}$$

Note: The components in the formula are defined in section 160ZZOC.

160ZZOC Definitions used in section 160ZZOB

- (1) This section contains definitions of various expressions used in section 160ZZOB.

Overall notional gain on distributions

- (2) There is an **overall notional gain** on distributions to the transferee of the 160ZZO CGT assets in the course of the liquidation if:
- (a) the sum of the notional gains (see subsection (3)) in respect of all of the distributions of 160ZZO CGT assets by the transferor to the transferee in the course of the liquidation; exceeds:
 - (b) the sum of the notional losses (see subsection (4)) in respect of all such distributions.

The amount of the overall notional gain equals the excess.

Notional gain on distribution

- (3) There is a **notional gain** in respect of the distribution of a 160ZZO CGT asset if, disregarding section 160ZZO, a capital gain would have accrued to the transferor in respect of the distribution assuming it had received consideration for the distribution equal to the asset's market value at the time of the distribution.

Notional loss on distribution

- (4) There is a **notional loss** in respect of the distribution of a 160ZZO CGT asset if, disregarding section 160ZZO, a capital loss would have been incurred by the transferor in respect of the distribution assuming it had received consideration for the distribution equal to the asset's market value at the time of the distribution.

Overall notional loss on distributions

- (5) There is an **overall notional loss** on distributions to the transferee of the 160ZZO CGT assets in the course of the liquidation if:
- (a) the sum of the notional losses in respect of all the distributions of 160ZZO CGT assets by the transferor to the transferee in the course of the liquidation;
- exceeds:
- (b) the sum of the notional gains in respect of all such distributions.

The amount of the overall notional loss equals the excess.

Overall actual gain on cancellations

- (6) An **overall actual gain** accrues to the transferor on the cancellation of the transferee's CGT shares if:
- (a) the sum of the capital gains that accrue to it in respect of the cancellation, in the course of the liquidation, of all of the transferee's CGT shares;
- exceeds:
- (b) the sum of the capital losses that it incurs in respect of all such cancellations.

The amount of the overall actual gain equals the excess.

Overall actual loss on cancellation

- (7) An **overall actual loss** accrues to the transferor on the cancellation of the transferee's CGT shares if:
- (a) the sum of the capital losses that accrue to it in respect of the cancellation, in the course of the liquidation, of all of the transferee's CGT shares;
- exceeds:
- (b) the sum of the capital gains that accrue to it in respect of all such cancellations.

The amount of the overall actual loss equals the excess.

Adjustment factor

- (8) The **adjustment factor** is the fraction worked out by dividing the number of the transferee's CGT shares by the number of the transferee's total shares.

Part 2—Application

2 Application

The amendments made by this Schedule apply if the cancellation of the transferee's total shares took place after 7.30 pm, by legal time in the Australian Capital Territory, on 20 August 1996.

**Division 3A—Net capital gain or net capital loss of
company in respect of year of income in which
ownership or control of the company changed**

Guide to Division 3A

160ZNA What this Division is about

A company that has not had the same ownership and control during the year of income, and has not satisfied the same business test, works out its net capital gain or net capital loss in respect of the year of income under this Division.

The tests for finding out whether a company has maintained the same owners, and the same business test, are set out in Divisions 3B, 3C, 3CB, 3CC and 3CD.

Table of sections**When a company must work out its net capital gain or net capital loss under this Division**

- 160ZNB On a change of ownership, unless the company carries on the same business
- 160ZNC Who has more than a 50% stake in the company during a period
- 160ZND On a change of control of voting power in the company, unless the company carries on the same business

Working out the company's net capital gain or net capital loss

- 160ZNE First, divide the year of income into periods
- 160ZNF Next, calculate the notional net capital gain or notional net capital loss for each period
- 160ZNG How to calculate the company's net capital gain or net capital loss for the year of income

When a company must work out its net capital gain or net capital loss under this Division**160ZNB On a change of ownership, unless the company carries on the same business**

- (1) A company must calculate its net capital gain or net capital loss under this Division unless:
- (a) there are persons who had more than a 50% stake in the company during the whole of the year of income; or
 - (b) there is only *part* of the year of income (a part that started at the start of the year of income) during which the same persons had more than a 50% stake in the company, but the company satisfies the same business test for the *rest* of the year of income (the *same business test period*).
- (2) For the purposes of paragraph (1)(b), apply the same business test to the business that the company carried on immediately before the time (the *test time*) when that part ended.

Note: For the same business test: see Division 3C.

160ZNC Who has more than a 50% stake in the company during a period

- (1) If:
- (a) there are persons who had more than 50% of the voting power in the company during the whole of a period (the *ownership test period*) consisting of the year of income or a part of it; and
 - (b) there are persons who had rights to more than 50% of the company's dividends during the whole of the ownership test period; and
 - (c) there are persons who had rights to more than 50% of the company's capital distributions during the whole of the ownership test period;
- those persons had more than a 50% stake in the company during the ownership test period.
- (2) To work out whether a condition in subsection (1) was satisfied during the ownership test period, apply the primary test for that condition unless subsection (3) requires the alternative test to be applied.

Note: For the primary tests: see subsections 160ZNH(1), 160ZNI(1) and 160ZNJ(1).

- (3) Apply the alternative test for that condition if one or more other companies beneficially owned shares, or interests in shares, in the company at any time during the ownership test period.

Note: For the alternative tests: see subsections 160ZNH(2), 160ZNI(2) and 160ZNJ(2).

160ZND On a change of control of voting power in the company, unless the company carries on the same business

- (1) A company must calculate its net capital gain or net capital loss under this Division if, during the year of income, a person begins to control, or becomes able to control, the voting power in the company (whether directly, or indirectly through one or more interposed entities) for the purpose, or for the purposes including the purpose, of:
- (a) getting some benefit or advantage in relation to how this Act applies; or

-
- (b) getting such a benefit or advantage for someone else.
- (2) However, the person's control of the voting power, or ability to control it, does not require the company to calculate its net capital gain or net capital loss under this Division if the company satisfies the same business test for the *rest* of the year of income (the **same business test period**).
- (3) Apply the same business test to the business that the company carried on immediately before the time (the **test time**) when the person began to control that voting power, or became able to control it.

Note: For the same business test: see Division 3C.

Working out the company's net capital gain or net capital loss

160ZNE First, divide the year of income into periods

- (1) Divide the year of income into periods and treat each period as a year of income as follows.
- (2) The first period starts at the start of the year of income. Each later period starts immediately after the end of the previous period.
- (3) The last period ends at the end of the year of income. Each period (except the last) ends at the *earlier* of:
- (a) the *latest* time that would result in persons having more than a 50% stake in the company during the whole of the period; or
 - (b) the *earliest* time when a person begins to control, or becomes able to control, the voting power in the company (whether directly, or indirectly through one or more interposed entities) for the purpose, or for purposes including the purpose, of:
 - (i) getting some benefit or advantage to do with how this Act applies; or
 - (ii) getting such a benefit or advantage for someone else.
- (4) However, what would otherwise be 2 or more successive periods are treated as a single period if the company satisfies the same business test for all of them, considered as a single period (the

same business test period). Apply the same business test to the business the company carried on immediately before the end of the first of the periods (the *test time*).

Note: For the same business test: see Division 3C.

- (5) Treat each period as if it were a year of income and work out the notional net capital gain or notional net capital loss in respect of that period.

160ZNF Next, calculate the notional net capital gain or notional net capital loss in respect of each period

- (1) The company has a *notional net capital gain* in respect of a period if the sum of the capital gains that accrued to the company in the period exceeds the sum of the capital losses that were incurred by the company in the period.
- (2) On the other hand, if the sum of those capital losses exceeds the sum of those capital gains, the company has a *notional net capital loss* in respect of the period.
- (3) If the company has a notional net capital loss in respect of *none* of the periods in the year of income, this Division has no further application, and the company's net capital gain in respect of the year of income is calculated in the usual way.

Note: The usual way of working out a net capital gain is set out in section 160ZC.

- (4) For the purposes of this section, so much of an amount included in the company's assessable income of the year of income under section 97 or 98A as is a capital gain that forms part of a net capital gain is taken to have accrued to the company in a period so far as the amount is reasonably related to the period.

160ZNG How to calculate the company's net capital gain or net capital loss in respect of the year of income

- (1) If the sum of:
 - (a) the company's notional net capital gains in respect of any of the periods in the year of income; and

- (b) so much of any amounts included in the company's assessable income of the year of income under section 97 or 98A as are capital gains that form part of a net capital gain, so far as the amounts are not reasonably related to a period; exceeds the sum of any net capital losses incurred by the company in respect of earlier years of income that may be applied in respect of the year of income under section 160ZC, the excess is taken to be a *net capital gain* that accrued to the company in respect of the year of income.
- (2) The sum of the company's notional net capital losses in respect of any of the periods in the year of income is taken to be a *net capital loss* that was incurred by the company in respect of the year of income.

- 160ZNR Death of beneficial owner

The primary and alternative tests

160ZNH Who has more than 50% of the voting power in the company during a period

The primary test

- (1) Applying the primary test: if there are persons who, at all times during the ownership test period, beneficially own (between them) shares that carry (between them) the right to exercise more than 50% of the voting power in the company, those persons have **more than 50% of the voting power** in the company during that period.

The alternative test

- (2) Applying the alternative test: if it is the case, or it is reasonable to assume, that there are persons (none of them companies) who between them control, or are able to control, the voting power in the company at all times during the ownership test period (whether directly, or indirectly through one or more interposed entities), those persons have **more than 50% of the voting power** in the company during that period.

160ZNI Who has rights to more than 50% of the company's dividends during a period

The primary test

- (1) Applying the primary test: if there are persons who, at all times during the ownership test period, beneficially own (between them) shares that carry (between them) the right to receive more than 50% of any dividends that the company may pay, those persons have rights to **more than 50% of the company's dividends** during that period.

The alternative test

- (2) Applying the alternative test: if it is the case, or it is reasonable to assume, that there are persons (none of them companies) who, at all times during the ownership test period, have between them the right to receive for their own benefit (whether directly, or

indirectly through one or more interposed entities), more than 50% of any dividends that the company may pay, those persons have rights to *more than 50% of the company's dividends* during that period.

160ZNJ Who has rights to more than 50% of the company's capital distributions during a period

The primary test

- (1) Applying the primary test: if there are persons who, at all times during the ownership test period, beneficially own (between them) shares that carry (between them) the right to receive more than 50% of any distribution of capital of the company, those persons have rights to *more than 50% of the company's capital distributions* during that period.

The alternative test

- (2) Applying the alternative test: if it is the case, or it is reasonable to assume, that there are persons (none of them companies) who, at all times during the ownership test period, have between them the right to receive for their own benefit (whether directly, or indirectly through one or more interposed entities), more than 50% of any distribution of capital of the company, those persons have rights to *more than 50% of the company's capital distributions* during that period.

160ZNK Rules about the primary test for a condition

- (1) A person need not beneficially own exactly the same shares at all times during the ownership test period for the primary test for a condition to be satisfied.
- (2) A private company must satisfy the primary test for a condition in order for the test to be satisfied. A public company is taken to satisfy the primary test if it is reasonable to assume that the test is satisfied.

160ZNL Tests can be satisfied by a single person

To avoid doubt, a test for a condition can be satisfied by one person.

Rules affecting the operation of the tests

160ZNM Arrangements affecting beneficial ownership of shares

- (1) For the purposes of a test, the Commissioner may treat a person as not having beneficially owned particular shares at a particular time during the ownership test period if the conditions in subsections (2) and (3) are met.
- (2) Before or during the year of income an arrangement must have been entered into that in any way (directly or indirectly) related to, affected, or depended for its operation on:
 - (a) the beneficial interest in the shares, or the value of that beneficial interest; or
 - (b) a right carried by, or relating to, the shares; or
 - (c) the exercise of such a right.
- (3) The arrangement must also have been entered into for the purpose, or for purposes including the purpose, of eliminating or reducing a liability of an entity to pay income tax for a year of income.

160ZNN Shares treated as never having carried rights

For the purposes of a test, shares are taken *never* to have carried particular rights during the year of income if the Commissioner is satisfied that:

- (a) the shares *stopped* carrying those rights after the year of income; or
 - (b) the shares will or may *stop* carrying those rights after the year of income;
- because of:
- (c) the company's constitution as in force at some time *during* the year of income; or
 - (d) an arrangement entered into before or during the year of income.

160ZNO Shares treated as always having carried rights

For the purposes of a test, shares are taken to have carried particular rights *at all times* during the year of income if the Commissioner is satisfied that:

- (a) the shares *started* to carry those rights after the year of income; or
- (b) the shares will or may *start* to carry those rights after the year of income;

because of:

- (c) the company's constitution as in force at some time *during* the year of income; or
- (d) an arrangement entered into before or during the year of income.

160ZNP Disregard redeemable shares

For the purposes of a test, a person who beneficially owns redeemable shares at a time during the year of income, is taken not to own the shares beneficially at that time.

160ZNQ Rules do not affect totals of shares or rights

Sections 160ZNM, 160ZNN, 160ZNO and 160ZNP do not affect how shares, and rights carried by shares, are counted for the purposes of determining:

- (a) the total voting power in the company; or
- (b) the total dividends that the company may pay; or
- (c) the total distributions of capital of the company.

160ZNR Death of beneficial owner

For the purposes of a test, after a person dies, shares that the person owned beneficially at the time of death are taken to continue to be owned beneficially by the person so long as:

- (a) they are owned by the trustee of the person's estate; or
- (b) they are owned beneficially by someone who received them as a beneficiary of the estate.

Division 3C—The same business test

160ZNS The test

- (1) The company satisfies the *same business test* if throughout the same business test period it carries on the same business as it carried on immediately before the test time.
- (2) However, the company does *not* satisfy the same business test if, at any time during the same business test period, it derives assessable income from:
 - (a) a business of a kind that it did not carry on before the test time; or
 - (b) a transaction of a kind that it had not entered into in the course of its business operations before the test time.
- (3) The company also does *not* satisfy the same business test if, before the test time, it:
 - (a) started to carry on a business it had not previously carried on; or
 - (b) in the course of its business operations, entered into a transaction of a kind that it had not previously entered into; and did so for the purpose, or for purposes including the purpose, of being taken to have carried on throughout the same business test period the same business as it carried on immediately before the test time.
- (4) The company also does *not* satisfy the test if, at any time during the same business test period, it incurs expenditure:
 - (a) in carrying on a business of a kind that it did not carry on before the test time; or
 - (b) as a result of a transaction of a kind that it had not entered into in the course of its business operations before the test time.

Division 3CA—Net capital gain or net capital loss of listed public company or its 100% subsidiary for year of income in which ownership or control of the company changed

Guide to Division 3CA

160ZNSA What this Division is about

This Division modifies the way in which the rules in Division 3A apply to a listed public company (and also its 100% subsidiaries). It makes it easier for the company to comply with those rules.

If the company has maintained the same owners as between certain points of time, it does not need to prove it has maintained the same owners throughout the periods in between.

The tests for finding out whether the company has maintained the same owners are set out in Divisions 3CB, 3CC and 3CD.

160ZNSC How to work out the net capital gain or net capital loss

160ZNSD How Division 3A applies to 100% subsidiary of a listed public company

160ZNSE Companies can choose that this Division is not to apply to them

160ZNSB How Division 3A applies to a listed public company

- (1) This Division modifies the way Division 3A applies to a company that is a listed public company at all times during the year of income (the *test period*).

Note 1: Division 3A is about when a company must calculate its net capital gain or net capital loss for the year of income in a special way.

Note 2: This Division also modifies how Division 3A applies to a 100% subsidiary of a listed public company: see section 160ZNSD.

Note 3: A company can choose that this Division is not to apply to it: see section 160ZNSE.

No abnormal trading

- (2) If there is *no* abnormal trading in shares in the listed public company during the test period, it is taken to have met the condition in paragraph 160ZNB(1)(a) (which is about there being persons having more than a 50% stake in it during the whole of the year of income).

Abnormal trading, but substantial continuity of ownership

- (3) If there *is* abnormal trading, but there is substantial continuity of ownership of the company as between the start of the test period and the time of each abnormal trading, the company is also taken to have met the condition in paragraph 160ZNB(1)(a).

Note: See section 160ZNSG to work out whether there is substantial continuity of ownership.

Abnormal trading without substantial continuity of ownership

- (4) If there *is* abnormal trading, and there is *no* substantial continuity of ownership of the company as between the start of the test period and the time of the abnormal trading, the company is taken to have *failed* to meet the condition in paragraph 160ZNB(1)(a).

Satisfies the same business test

- (5) However, if the company satisfies the same business test for the rest of the year of income (the *same business test period*) after the first abnormal trading covered by subsection (4), it is taken to have satisfied the condition in paragraph 160ZNB(1)(b) (which is about the company carrying on the same business).

Note: For the same business test: see Division 3C.

- (6) Apply the same business test to the business that the company carried on immediately before the time of the first abnormal trading (the *test time*) covered by subsection (4).

160ZNSC How to work out the net capital gain or net capital loss

- (1) If the listed public company must calculate its net capital gain or net capital loss for the year of income under Division 3A, then, in

dividing the year of income into periods, apply subsection (2) instead of subsection 160ZNE(3).

- (2) The last period ends at the end of the year of income. Each period (except the last) ends at the *earlier* of:
- (a) the *earliest* time when there is an abnormal trading in shares in the listed public company (except one covered by subsection (3)); or
 - (b) the *earliest* time when a person begins to control, or becomes able to control, the voting power in the listed public company (whether directly, or indirectly through one or more interposed entities) for the purpose, or for purposes including the purpose, of:
 - (i) getting some benefit or advantage to do with how this Act applies; or
 - (ii) getting such a benefit or advantage for someone else.
- (3) In working out when a period ends, disregard an abnormal trading if there is substantial continuity of ownership of the company as between the start of the period and the time of the abnormal trading.

Note: See section 160ZNSG to work out whether there is substantial continuity of ownership.

160ZNSD How Division 3A applies to 100% subsidiary of a listed public company

- (1) This Division also modifies the way Division 3A applies to a company that is *not* a listed public company, but only if the conditions in subsections (2) and (3) are met.

Note: Division 3A is about when a company must calculate its net capital gain or net capital loss for the year of income in a special way.

- (2) The company (the *subsidiary*) must be a 100% subsidiary of another company (the *holding company*) at all times during the subsidiary's year of income.
- (3) Also, the holding company must be a listed public company at all times during that year of income.

- (4) If the conditions are met, then, for the purposes of applying Division 3A to the subsidiary, this Division applies to the subsidiary as if:
- (a) the subsidiary were itself a listed public company at all times during the year of income; and
 - (b) an abnormal trading in shares in the holding company during the year of income were an abnormal trading in shares in the subsidiary.
- (Divisions 3CB, 3CC and 3CD apply to the subsidiary in the same way and for the same purpose).

160ZNSE Companies can choose that this Division is not to apply to them

- (1) The listed public company or subsidiary can choose that Division 3A is to apply to it for the year of income *without* the modifications made by this Division.
- (2) The company must choose on or before the day it lodges its return under section 161, 162 or 163 for the year of income, or before a later day if the Commissioner allows.

Division 3CB—Tests for finding out whether the listed public company has maintained the same owners

Guide to Division 3CB

160ZNSF What this Division is about

This Division has the tests to work out whether a listed public company has maintained the same owners as between different times.

Divisions 3CC and 3CD have rules that make it easier for the company to satisfy these ownership tests.

Note: The rules in this Division also apply to a company that is a 100% subsidiary of a listed public company: see section 160ZNSD.

- (1) There is *substantial continuity of ownership* of the listed public company as between the start of the test period and another time in the test period if (and only if) the conditions in this section are met.

Voting power

- (2) There must be persons (none of them companies) who had more than 50% of the voting power in the listed public company at the start of the test period. Also, those persons must have had more than 50% of the voting power in the listed public company immediately after the other time in the test period.

Note: To work out who had rights to more than 50% of the listed public company's capital distributions: see section 160ZNSJ.

When to apply the test

- (5) To work out whether a condition in this section was satisfied at a time (the *ownership test time*), apply the ownership test for that condition.

The ownership tests

160ZNSH Who has more than 50% of the voting power in the listed public company at a particular time

If it is the case, or it is reasonable to assume, that there are persons (none of them companies) who, at the ownership test time, between them control, or are able to control, the voting power in the listed public company (whether directly, or indirectly through one or more interposed entities), those persons have *more than 50% of the voting power in the listed public company* at that time.

160ZNSI Who has rights to more than 50% of the listed public company's dividends at a particular time

If it is the case, or it is reasonable to assume, that there are persons (none of them companies) who, at the ownership test time, have between them the right to receive for their own benefit (whether directly, or indirectly through one or more interposed entities), more than 50% of any dividends that the listed public company may pay, those persons have rights to *more than 50% of the listed public company's dividends* at that time.

160ZNSJ Who has rights to more than 50% of the listed public company's capital distributions at a particular time

If it is the case, or it is reasonable to assume, that there are persons (none of them companies) who, at the ownership test time, have between them the right to receive for their own benefit (whether directly, or indirectly through one or more interposed entities), more than 50% of any distribution of capital of the listed public company, those persons have rights to *more than 50% of the listed public company's capital distributions* at that time.

Rules affecting the operation of the ownership tests**160ZNSK Rules in Division 3B apply**

- (1) The rules in these sections also apply for the purposes of an ownership test in this Division:
 - (a) 160ZNL (which is about how an ownership test can be satisfied by a single person);
 - (b) 160ZNN (which treats some shares as never having carried rights);
 - (c) 160ZNO (which treats some shares as always having carried rights);
 - (d) 160ZNP (which disregards redeemable shares);
 - (e) 160ZNQ (which is about how other rules do not affect how shares or rights are counted);
 - (f) 160ZNR (which deals with deaths of beneficial owners).
- (2) The rule in section 160ZNM (which is about arrangements affecting beneficial ownership of shares) also applies for the purposes of an ownership test in this Division as if the reference to a particular time during the ownership test period were a reference to the ownership test time.

Division 3CC—How to treat shareholdings of less than 1%

Guide to Division 3CC

160ZNSL What this Division is about

This Division has rules that make it easier for the listed public company to satisfy the ownership tests in Division 3CB.

All shareholdings of less than 1% in the company are treated as if they were held by a single notional entity. This means that the company does not have to trace through to the persons who beneficially own those shares.

A similar rule applies if another listed public company is interposed between the company and those persons. All shareholdings of less than 1% in the *interposed* company are treated as if they were held by a different single notional entity. This means that the company does not have to trace through the interposed company to the persons who beneficially own those shares in the interposed company.

Note 1: The rules in this Division also apply to a company that is a 100% subsidiary of a listed public company: see section 160ZNSD.

Note 2: The rules in this Division do not apply if they would hide a failure by the company to maintain the same owners: see sections 160ZNSR and 160ZNSS.

160ZNSM Shareholdings of less than 1% in the listed public company

This Division modifies how the ownership tests are applied to the listed public company (the *head company*) if the company has:

- (a) voting shareholdings of less than 1%; or
- (b) dividend shareholdings of less than 1%; or
- (c) capital shareholdings of less than 1%.

Note: For the ownership tests: see sections 160ZNSH, 160ZNSI and 160ZNSJ.

160ZNSN Shareholdings of less than 1% in an interposed listed public company

- (1) This Division also modifies how the ownership tests are applied to the head company if another listed public company (the *interposed company*) meets the conditions in subsections (2) and (3).

Note: For the ownership tests: see sections 160ZNSH, 160ZNSI and 160ZNSJ.

- (2) The interposed company must be interposed between the head company and persons (none of them companies) who:
- (a) control (or are able to control) voting power in the head company indirectly through the interposed company; or
 - (b) have the right to receive, for their own benefit and indirectly through the interposed company, any dividends the head company may pay; or
 - (c) have the right to receive, for their own benefit and indirectly through the interposed company, any distributions of capital of the head company.
- (3) The interposed company must have:
- (a) voting shareholdings of less than 1%; or
 - (b) dividend shareholdings of less than 1%; or

- (c) capital shareholdings of less than 1%.

160ZNSO Notional shareholder

Notional shareholder of the head company

- (1) The ownership tests in sections 160ZNSH, 160ZNSI and 160ZNSJ are applied to the head company as if, at the ownership test time, a single notional entity (the ***notional shareholder***):
 - (a) directly controlled the voting power in the head company that is carried by each voting shareholding of less than 1% in the company at that time; and
 - (b) had the right to receive, for its own benefit and directly:
 - (i) any dividends the head company may pay in respect of each dividend shareholding of less than 1% in the company at that time; and
 - (ii) any distributions of capital of the head company in respect of each capital shareholding of less than 1% in the company at that time; and
 - (c) were a person (other than a company).

Notional shareholder of the interposed company

- (2) The tests are also applied to the head company as if, at the ownership test time, for each interposed company, a different single notional entity (the ***notional shareholder***):
 - (a) directly controlled the voting power in the interposed company that is carried by each voting shareholding of less than 1% in the interposed company at that time; and
 - (b) had the right to receive, for its own benefit and directly:
 - (i) any dividends the interposed company may pay in respect of each dividend shareholding of less than 1% in the interposed company at that time; and
 - (ii) any distributions of capital of the interposed company in respect of each capital shareholding of less than 1% in the interposed company at that time; and
 - (c) were a person (other than a company).

Persons who actually control or have rights are taken not to

- (3) The tests are also applied to the head company as if, at the ownership test time:
- (a) the persons (other than companies) who control (or are able to control) the voting power in the head company or interposed company (whether directly, or indirectly through one or more interposed entities) that is carried by each voting shareholding of less than 1% in the company had *not* had that control; and
 - (b) the persons (other than companies) who have the right to receive for their own benefit (whether directly, or indirectly through one or more interposed entities):
 - (i) any dividends that the head company or interposed company may pay in respect of each dividend shareholding of less than 1% in the company; and
 - (ii) any distributions of capital of the head company or interposed company in respect of each capital shareholding of less than 1% in the company;
 had *not* had that right.

160ZNSP Notional shareholder taken to have minimum voting control, dividend rights and capital rights

Minimum control of voting power

- (1) If the ownership test time is *after* the start of the test period and:
- (a) the voting power in the head company or interposed company that the notional shareholder controls at that time; is greater than:
 - (b) the voting power in the company that the notional shareholder controlled at the start of that period;
- the notional shareholder is taken to control voting power in the company at that time only to the extent that it controlled it at the start of that period.

Minimum percentage of rights to dividends and capital

- (2) If the ownership test time is *after* the start of the test period and:

- (a) the percentage of the dividends or distributions of capital of the head company or interposed company that the notional shareholder has the right to receive at that time;

is greater than:

- (b) the percentage (the *lower percentage*) of the dividends or distributions of capital of the company that the notional shareholder had the right to receive at the start of that period; the notional shareholder is taken to have the right to receive the lower percentage of the dividends or distributions of capital at that time.

160ZNSQ Voting, dividend and capital shareholding of less than 1%

Meaning of voting shareholding of less than 1%

- (1) If all the shares in the head company or interposed company of which an entity is the registered holder at the ownership test time carry (between them) less than 1% of the voting power in the company, those shares (except shares that are part of a substantial shareholding) constitute a ***voting shareholding of less than 1%*** in the company at that time.

Meaning of dividend shareholding of less than 1%

- (2) If all the shares in the head company or interposed company of which an entity is the registered holder at the ownership test time carry (between them) the right to receive less than 1% of any dividends that the company may pay, those shares (except shares that are part of a substantial shareholding) constitute a ***dividend shareholding of less than 1%*** in the company at that time.

Meaning of capital shareholding of less than 1%

- (3) If all the shares in the head company or interposed company of which an entity is the registered holder at the ownership test time carry (between them) the right to receive less than 1% of any distribution of capital of the company, those shares (except shares that are part of a substantial shareholding) constitute a ***capital shareholding of less than 1%*** in the company at that time.

When the rules in this Division do not apply**160ZNSR Limit on listed public company splitting its shares into different classes**

This Division does not apply unless, at the ownership test time, all the voting shares in the head company carry (between them):

- (a) the right to receive more than 75% of any dividends the head company may pay; and
- (b) the right to receive more than 75% of any distributions of capital of the head company.

160ZNSS If listed public company would not have otherwise passed the ownership tests

This Division does not apply for the purposes of section 160ZNSB if the Commissioner considers it reasonable to assume that the head company would not meet the conditions in that section if it were not for the rules in this Division.

Note: The conditions in section 160ZNSB require the listed public company to maintain the same owners at each ownership test time during the test period.

Division 3CD—How to treat interposed superannuation funds, approved deposit funds and special companies**Guide to Division 3CD****160ZNST What this Division is about**

This Division has rules that make it easier for the listed public company to satisfy the ownership tests in Division 3CB.

The company does not have to trace through any complying superannuation funds, complying approved deposit funds or special companies that are interposed between the company and

persons who control any of the voting power in the company or have rights to its dividends or capital.

Note: The rules in this Division also apply to a company that is a 100% subsidiary of a listed public company: see section 160ZNSD.

Modification of application of ownership test about voting power

- (1) This section modifies how the ownership test in section 160ZNSH (about control of voting) is applied to the listed public company if:
 - (a) a superannuation fund, approved deposit fund or special company is interposed, at the ownership test time, between persons (none of them companies) and the listed public company; and
 - (b) at the ownership test time, those persons control (or are able to control) any of the voting power in the listed public company indirectly through the fund or special company (or through entities including it); and
 - (c) the fund or special company is a complying superannuation fund, complying approved deposit fund or special company at all times during the year of income of the listed public company in which the ownership test time occurs.

If fund or special company has more than 50 members

- (2) If the fund or special company has more than 50 members, the test is applied as if, at the ownership test time, the fund or special company were a person (other than a company) who controlled the

voting power in the listed public company that those persons control (or are able to control).

If fund or special company has 50 members or less

- (3) However, if the fund or special company has 50 members or less, the test is applied as if, at the ownership test time, each member were a person (other than a company) who controlled an equal proportion of the voting power in the listed public company that those persons control (or are able to control).

Persons who actually control are taken not to control

- (4) The test is applied as if, at the ownership test time, the voting power in the listed public company that those persons control (or are able to control) were *not* controlled by them (except as provided by subsection (3)).

160ZNSV When fund or special company is taken to have rights to dividends and capital

Modification of application of ownership test about dividend rights and capital rights

- (1) This section modifies how the ownership test in section 160ZNSI (about dividend rights) or 160ZNSJ (about capital rights) is applied to the listed public company if:
- (a) a superannuation fund, approved deposit fund or special company is interposed, at the ownership test time, between persons (none of them companies) and the listed public company; and
 - (b) at the ownership test time, those persons have the right to receive for their own benefit, and indirectly through the fund or special company (or through entities including it):
 - (i) a percentage of any dividends that the listed public company may pay; or
 - (ii) a percentage of any distributions of capital of the listed public company; and

at all times during the year of income of the listed public company in which the ownership test time occurs.

If fund or special company has more than 50 members

- (2) If the fund or special company has more than 50 members, the test is applied as if, at the ownership test time, the fund or special company were a person (other than a company) who had the right to receive, for the person's own benefit, that percentage of those dividends or distributions of capital of the listed public company.

If fund or special company has 50 members or less

- (3) However, if the fund or special company has 50 members or less, the test is applied as if, at the ownership test time, each member were a person (other than a company) who had the right to receive, for the person's own benefit, an equal proportion of those dividends or distributions of capital.

Persons who actually control are taken not to have it

- (4) The test is applied as if, at the ownership test time, the persons (other than companies) who have the right to receive that percentage of those dividends or distributions of capital did *not* have that right (except as provided by subsection (3)).

Division 3D—Anti-avoidance measures for capital losses of companies

Table of sections

160ZNT	Capital gain accruing to company because of available capital losses
160ZNU	Deduction or capital loss injected into company because of available capital gain
160ZNV	Someone else obtains a tax benefit because of a capital loss or capital gain available to company
160ZNW	Loss resulting from disallowed deductions
160ZNX	Net capital loss resulting from disallowed capital losses

160ZNT Capital gain accruing to company because of available capital losses

- (1) The Commissioner may disallow capital losses of a company (or parts of them) for a year of income if:
 - (a) a capital gain accrued to the company and some or all of the capital gain (the *injected capital gain*) would not have accrued if the company had not incurred those capital losses; and
 - (b) the capital gain accrued in that year of income.

The disallowed capital losses and parts of capital losses may exceed the amount of the injected capital gain.

Note: The disallowance may result in a net capital loss for the year of income (see section 160ZNX).

- (2) The Commissioner cannot disallow the capital losses or parts of the capital losses if the continuing shareholders will benefit from the accrual of the injected capital gain to an extent that the Commissioner thinks fair and reasonable having regard to their respective shareholding interests in the company.
- (3) A reference to *disallowing a capital loss or a part of a capital loss* for a year of income is a reference to determining that a capital loss or a part of a capital loss, as the case may be, is not to be applied in determining whether a net capital gain has accrued, or a net capital loss is incurred, in respect of the year of income.
- (4) The *continuing shareholders* are the individuals who have shareholding interests in the company both immediately before the injected capital gain accrued, and immediately afterwards.

160ZNU Deduction or capital loss injected into company because of available capital gain

- (1) The Commissioner may:
 - (a) disallow a deduction of a company for a year of income to the extent that the company would not have incurred the loss, outgoing or expenditure that the deduction is for; or

- (b) disallow a capital loss of a company for a year of income to the extent that the company would not have incurred the capital loss;

if some or all of a capital gain that accrued to it in the year of income had not accrued.

Note: The disallowance may result in a loss or a net capital loss for the year of income (see sections 160ZNW and 160ZNX).

- (2) The Commissioner cannot disallow any of the deduction or capital loss if:
 - (a) the continuing shareholders will benefit from any profit or advantage that has arisen or might arise directly or indirectly from the incurring of the loss, outgoing or expenditure or of the capital loss, as the case may be; and
 - (b) the Commissioner thinks that the extent to which they will benefit is fair and reasonable having regard to their respective shareholding interests in the company.
- (3) A reference to *disallowing a capital loss or a part of a capital loss* for a year of income is a reference to determining that a capital loss or a part of a capital loss, as the case may be, is not to be applied in determining whether a net capital gain has accrued, or a net capital loss is incurred, in respect of the year of income.
- (4) The *continuing shareholders* are the individuals who had shareholding interests in the company both immediately before the loss, outgoing or expenditure, or the capital loss, as the case may be, was incurred, and immediately afterwards.

160ZNV Someone else obtains a tax benefit because of a capital loss or capital gain available to company

- (1) The Commissioner may disallow a deduction or a capital loss of a company if:
 - (a) a person (other than the company) has obtained or will obtain a tax benefit in connection with a scheme; and
 - (b) the scheme would not have been entered into or carried out if the company had not incurred some or all (the *available expense*) of:
 - (i) the loss, outgoing or expenditure that the deduction is for; or
-

- (ii) the capital loss;
as the case may be.

However, the deduction or capital loss may be disallowed only to the extent of the available expense.

- (2) The Commissioner may disallow deductions or capital losses of a company (or parts of them) if:
 - (a) a person has obtained or will obtain a tax benefit in connection with a scheme; and
 - (b) the scheme would not have been entered into or carried out if some or all (the **available capital gains**) of the capital gains that accrued to the company had not accrued:
 - (i) before it incurred the losses, outgoings or expenditure that the deductions were for, or the capital losses, as the case may be; and
 - (ii) in the same year of income as it incurred them.

The disallowed deductions or capital losses and parts of deductions or capital losses may exceed the amount of the available capital gains.

Note: The disallowance may result in a loss or a net capital loss for the year of income (see sections 160ZNW and 160ZNX).

- (3) The Commissioner cannot disallow under this section if:
 - (a) the person who has obtained or will obtain the tax benefit had a shareholding interest in the company at some time during the year of income; and
 - (b) the Commissioner considers the tax benefit to be fair and reasonable having regard to that shareholding interest.
- (4) A reference to **disallowing a capital loss or a part of a capital loss** for a year of income is a reference to determining that a capital loss or a part of a capital loss, as the case may be, is not to be applied in determining whether a net capital gain has accrued, or a net capital loss is incurred, in respect of the year of income.
- (5) An expression means the same in this section as in Part IVA.

160ZNW Loss resulting from disallowed deductions

- (1) If a company has a taxable income for a year of income because the Commissioner disallows under this Division deductions of the company for the year of income (or parts of them), the company may also have a loss for the year of income.
- (2) The company's *loss* for the income year is calculated as follows.
- (3) Total what the Commissioner has disallowed under this Division.
- (4) If the company has exempt income for the year of income, subtract its net exempt income.
- (5) Any amount remaining is the company's *loss* for the year of income.

Note: For the allowance of the loss as a deduction in later years of income see subsection 50C(2).

160ZNX Net capital loss resulting from disallowed capital losses

- (1) If a company has a net capital gain for a year of income because the Commissioner disallows under this Division capital losses of the company for the year of income (or parts of them), the company may also have a net capital loss in respect of the year of income.
- (2) The company's net capital loss in respect of the year of income is the total of the amounts of the capital losses that the Commissioner has disallowed under this Division.

Note: To find out how the net capital loss is applied in determining whether the company has a net capital gain in a later year of income, see section 160ZC.

33 Subparagraph 160ZP(7AAA)(b)(i)

Repeal the subparagraph, substitute:

- (i) if the gain year is the same year of income as the loss year, the gain company is not required to calculate a net capital gain or net capital loss under Division 3A in respect of the gain year and the gain company is not required to calculate a net capital loss under Division

3D in respect of the gain year—a capital loss incurred by the gain company during the gain year; or

35 After subsection 160ZP(8D)

Insert:

- (a) a capital gain does not accrue to the loss company because of the receipt of the consideration; and
 - (b) the consideration is not taken to be income derived by the loss company.
