Each Act that is specified in a Schedule to this Act is amended or repealed as set out in the applicable items in the Schedule concerned, and any other item in a Schedule to this Act has effect according to its terms.

4 Amendment of assessments

Section 170 of the *Income Tax Assessment Act 1936* does not prevent the amendment of an assessment made before the commencement of this section for the purposes of giving effect to this Act.

Schedule 1—Thin Capitalisation: amendments taking effect on 1 July 2001

Part 1—Application of amendments

1 Application

The amendments made by this Schedule apply in relation to an income year that begins on or after 1 July 2001.

Part 2—Exemption of certain special purpose entities

Income Tax Assessment Act 1997

2 After section 820-37

Insert:

820-39 Exemption of certain special purpose entities

- (1) Subdivision 820-B, 820-C, 820-D or 820-E does not apply to disallow any *debt deduction of an entity for an income year if the entity meets the conditions in subsection (3) throughout the income year.
- (2) Subdivision 820-B, 820-C, 820-D or 820-E does not apply to disallow any *debt deduction of an entity for an income year that is an amount incurred by the entity during a part of that year, if the entity meets the conditions in subsection (3) throughout that part.
- (3) The conditions are:
 - (a) the entity is one established for the purposes of managing some or all of the economic risk associated with assets, liabilities or investments (whether the entity assumes the risk from another entity or creates the risk itself); and
 - (b) the total value of *debt interests in the entity is at least 50% of the total value of the entity's assets; and
 - (c) the entity is an insolvency-remote special purpose entity according to criteria of an internationally recognised rating agency that are applicable to the entity's circumstances.
- (4) The condition in paragraph (3)(c) can be met without the rating agency determining that the entity meets those criteria.

Note 1: While an entity meets the conditions in subsection (3), it is treated for the purposes of this Division as *not* being:

- in a resident TC group (see section 820-552); or
- a member of a consolidated group or MEC group (see section 820-584).

Note 2: An entity that does not qualify for the exemption in this section may still be a securitisation vehicle under subsection 820-942(2), in which

case the value of its securitised assets will count towards its zero-capital amount under Subdivision 820-K.

Multi-tier special purpose entities

- (5) An entity is taken to meet the conditions in subsection (3) throughout a period that is all or part of an income year, if the entity is one of 2 or more entities that together satisfy the condition that, assuming:
- (a) each of the entities had been a division or part of the same entity (the *notional entity*), rather than a separate entity, throughout that period; and
 - (b) the notional entity had consisted only of those divisions and parts throughout that period;
- the notional entity would meet the conditions in subsection (3) throughout that period.

3 After subsection 820-550

Insert:

820-552 Treatment of exempt special purpose entities

- (1) The fact that an entity meets the conditions in subsection 820-39(3) (about insolvency-remote special purpose entities established to manage economic risk) throughout a period ending at the end of an income year does *not* prevent the entity from being in a *resident TC group for that income year.
- (2) However, the entity is treated as *not* being in that group for the purposes of sections 820-550, 820-555, 820-565 and 820-575.
- (3) While an entity meets the conditions in subsection 820-39(3), it is treated for the purposes of this Division (except this section) as *not* being in a *resident TC group that it is in.

Note: This section has the effect that the circumstances of the entity are not taken into account in applying this Division to the resident TC group. The entity itself is exempt from this Division because of section 820-39.

4 After subsection 820-583

Insert:

820-584 Exempt special purpose entities treated as not being member of group

While an entity meets the conditions in subsection 820-39(3) (about insolvency-remote special purpose entities established to manage economic risk), the entity is treated for the purposes of this Division (except this section) as *not* being a *member of a *consolidated group or *MEC group of which it is a member.

Note: This section has the effect that the circumstances of the entity are not taken into account in applying this Division to the head company of the group. The entity itself is exempt from this Division because of section 820-39.

5 At the end of 820-942(2)

Add:

Note: An entity that does not qualify as a securitisation vehicle may be exempt from the thin capitalisation rules under section 820-39.

Part 3—Choice by some financial entities to be treated as ADIs for thin capitalisation purposes

Income Tax Assessment Act 1997

6 After Subdivision 820-E

Insert:

Subdivision 820-EA—Some financial entities may choose to be treated as ADIs

Table of sections

820-430	When choice can be made, and what effect it has
820-435	Conditions
820-440	Revocation of choice
820-445	How this Subdivision interacts with Subdivisions 820-F, 820-FA and 820-FB

820-430 When choice can be made, and what effect it has

- (1) An entity may choose to be treated, for the purposes of this Division (except this Subdivision), as set out in the table. However, the entity can make the choice only if subsection (5) is satisfied.

Choice by financial entity to be treated as an ADI

	Column 1	Column 2
Item	For a period that the choice covers, and for which the entity would, apart from this Subdivision, have been:	The entity is treated as if it had instead been:
1	an *outward investor (financial)	an *outward investing entity (ADI)
2	an *inward investor (financial)	an *inward investing entity (ADI)
3	an *inward investment vehicle (financial)	an *outward investing entity (ADI)

- (2) The choice:
-

- (a) has effect accordingly, except as provided in subsection (4);
and
 - (b) ceases to have effect only as provided in this Subdivision;
and
 - (c) covers each period:
 - (i) that started on or after a day specified in the choice (or on the day the choice is made if no day is specified);
and
 - (ii) that is all or part of an income year.
- (3) Subdivision 820-E applies to the entity, in relation to a period for which this section treats it as an *inward investing entity (ADI), as if all the entity's *business were banking business of the entity.
- (4) The choice does not have effect for the purposes of determining whether the entity is covered by paragraph 820-910(2)(a) (about working out the associate entity debt of another entity).

Conditions for making the choice

- (5) For the income year that is or includes the first period for which the entity would be treated in accordance with the choice, the entity must satisfy:
- (a) subsection 820-435(1); or
 - (b) subsections 820-435(2) and (3).

Also, the entity must *not* have made a previous choice under this section that has ceased to have effect.

Conditions are retested every 3 years

- (6) The choice ceases to have effect, or is taken to have ceased to have effect, as appropriate, at the *end* of an income year covered by subsection (7) of this section, unless the entity:
- (a) satisfies subsection 820-435(1) for that income year; or
 - (b) satisfies subsections 820-435(2) and (3) for that income year.
- (7) This subsection covers every third income year after the one referred to in subsection (5).

820-435 Conditions

- (1) An entity satisfies this subsection for an income year if the average value, for that income year, of the entity's *on-lent amount is at least 80% of the average value, for that income year, of all the entity's assets.
- (2) An entity satisfies this subsection for an income year if the first period that is all or part of that income year, and for which the entity would be treated in accordance with a choice under section 820-430, consists of one or more periods, each of which is either or both of these:
 - (a) a period throughout which the entity is a *financial entity because of paragraph (d) of the definition of **financial entity** in subsection 995-1(1) (which covers licensed (or exempt) dealers in derivatives);
 - (b) a period throughout which:
 - (i) the entity is the *head company of a *consolidated group or *MEC group; and
 - (ii) at least one *member of the group is a financial entity because of that paragraph.
- (3) An entity satisfies this subsection for an income year if it satisfies subsection (2) and the amount worked out using this formula is greater than or equal to 0.8:

$$\frac{\text{On-lent amount} + \left(\text{UG on derivatives} - \text{UL on derivatives} \right)}{\text{Total assets} - \text{UL on derivatives}}$$

where:

on-lent amount means the average value, for that income year, of the entity's *on-lent amount.

total assets means the average value, for that income year, of all the entity's assets.

UG on derivatives means the average value, for that income year, of the entity's assets consisting of unrealised gains on trading derivatives within the meaning of the *Corporations Act 2001*.

UL on derivatives means the lesser of:

- (a) the average value, for that income year, of the entity's liabilities consisting of unrealised losses on trading derivatives within the meaning of the *Corporations Act 2001*; and
- (b) the average value, for that income year, of the entity's assets consisting of unrealised gains on trading derivatives within the meaning of that Act.

On-lent amount increased for financial entity whose assets include precious metals

- (4) In working out whether an entity satisfies subsection (1) or (3) for an income year, the average value, for that income year, of the entity's *on-lent amount is increased by the average value, for that income year, of the entity's assets that consist of *precious metals, but only if the entity satisfies subsection (5) for that income year.
- (5) An entity satisfies this subsection for an income year if the first period that is all or part of that income year, and for which the entity would be treated in accordance with a choice under section 820-430, consists of one or more periods, each of which is either or both of these:
 - (a) a period throughout which the entity is a *financial entity;
 - (b) a period throughout which:
 - (i) the entity is the *head company of a *consolidated group or *MEC group; and
 - (ii) at least one *member of the group is a financial entity.

820-440 Revocation of choice

- (1) A choice under section 820-430 can be revoked only with the written approval of the Commissioner. The Commissioner may approve a revocation only if satisfied that the entity's circumstances have changed significantly since the choice was made.
- (2) If revoked, the choice does not have effect for a period that starts on or after the day on which the Commissioner's approval is given, unless the revocation is expressed to take effect on an earlier day. In that case, it does not have effect for a period that starts on or after the earlier day.

820-445 How this Subdivision interacts with Subdivisions 820-F, 820-FA and 820-FB

Subdivision 820-F

- (1) A choice under section 820-430 does not affect how section 820-550 (Classification of the resident TC group) applies to a *resident TC group for an income year unless the group could have made a choice under section 820-430 covering the whole of that income year if:
- (a) the group had been a company throughout the income year; and
 - (b) each entity in the group had been a division or part of that company, rather than a separate entity, at all times during the income year when the entity was in the group.

Note: To work out the times during the income year when an entity was in the group, see section 820-530.

- (2) A choice under section 820-430 does not have effect for so much of a period as happens while the entity is in a *resident TC group for an income year if, apart from the choice, section 820-575 would apply Subdivision 820-E to the group for that income year as if the group were an *inward investing entity (ADI).

Subdivision 820-FA

- (3) A choice under section 820-430 does not have effect for so much of a period as happens while the entity is a *subsidiary member of a *consolidated group or *MEC group.

Note: If the head company of the group makes a choice under that section, that choice will have effect instead.

Subdivision 820-FB

- (4) A choice under section 820-430 does not have effect for so much of a period as happens during the grouping period for a choice by the entity under section 820-597 or 820-599 (about treating foreign bank branches as part of the entity).

Note: Instead, the choice under section 820-597 or 820-599 will result in the entity being an outward investing entity (ADI) or an inward investing entity (ADI) for the grouping period: see section 820-609.

7 Subsection 995-1(1) (at the end of the definition of *inward investing entity (ADI)*)

Add:

Note: Section 820-430 allows an inward investor (financial) to be treated as an inward investing entity (ADI) in certain cases.

8 Subsection 995-1(1) (at the end of the definition of *inward investment vehicle (financial)*)

Add:

Note: Section 820-430 allows an inward investment vehicle (financial) to be treated as an outward investing entity (ADI) in certain cases.

9 Subsection 995-1(1) (at the end of the definition of *inward investor (financial)*)

Add:

Note: Section 820-430 allows an inward investor (financial) to be treated as an inward investing entity (ADI) in certain cases.

10 Subsection 995-1(1) (at the end of the definition of *outward investing entity (ADI)*)

Add:

Note: Section 820-430:

- allows an outward investor (financial) to be treated as an outward investing entity (ADI) in certain cases; and
- allows an inward investment vehicle (financial) to be treated as an outward investing entity (ADI) in certain cases.

11 Subsection 995-1(1) (at the end of the definition of *outward investor (financial)*)

Add:

Note: Section 820-430 allows an outward investor (financial) to be treated as an outward investing entity (ADI) in certain cases.

12 Subsection 995-1(1)

Insert:

precious metal has the same meaning as in the *A New Tax System (Goods and Services Tax) Act 1999*.

Part 4—Revaluing assets for thin capitalisation purposes

Income Tax Assessment Act 1997

13 At the end of subsection 820-680(2)

Add:

Note: The entity must also keep records in accordance with section 820-985 about the revaluation, unless the exception in subsection (2A) of this section applies.

14 After subsection 820-680(2)

Insert:

Revaluation reflected in statutory financial statements for the same period

- (2A) A revaluation of an asset need not comply with subsection (2) if:
- (a) the revaluation is for the purpose of the entity calculating the value of its assets for the purposes of this Division as applying to the entity for a particular period; and
 - (b) the entity is required by an Australian law to prepare financial statements for a period that is or includes all or part of that period; and
 - (c) those financial statements reflect the revaluation.

External validation of a revaluation made internally

- (2B) A revaluation of assets mentioned in paragraph (1)(a) may be made by a person (the *internal expert*) if:
- (a) apart from this subsection, paragraph (2)(b) would prevent the internal expert from making the revaluation, but only because, in making it, he or she would be:
 - (i) performing duties as an employee of the entity; or
 - (ii) providing services under an *arrangement with the entity that is substantially similar to a contract of employment; and
 - (b) another person (the *external expert*):

- (i) is not prevented by subsection (2) from making the revaluation; and
 - (ii) has reviewed the methodology for making it (including the validity of any assumptions to be made, and the accuracy and reliability of the data and other information to be used); and
 - (iii) has agreed that that methodology is suitable for making it; and
- (c) the internal expert makes the revaluation in accordance with that methodology.

Revaluation of individual assets

- (2C) Subsection (1) does not prevent the entity from revaluing one or more assets in a class of assets (as distinct from revaluing all the assets in the class) if the value of no asset in that class has fallen since the entity last calculated the total value of all the assets in that class in accordance with the *accounting standards.

When further revaluation of assets required

- (2D) If:
- (a) the entity revalues one or more assets (whether constituting a class of assets or not) for the purpose of calculating the value of its assets for the purposes of this Division as applying to the entity for a particular period (the **first period**); and
 - (b) the revaluation is *not* required by the *accounting standards; and
 - (c) if the revaluation *had* been required by the accounting standards, the entity could have relied on it in preparing financial statements that the entity is required by an Australian law to prepare for a period (the **later period**) that ends *after* the first period;
- the entity may also rely on the revaluation in calculating the value of its assets for the purposes of this Division as applying to the entity for a period that is or includes all or part of the later period.

- (2E) If subsection (2D) does *not* permit the entity to rely on the revaluation in calculating the value of its assets for the purposes of this Division as applying to the entity for a period that is later than the first period, the revaluation is disregarded in determining

whether subsection (1) requires the entity to revalue the one or more assets in calculating the value of its assets for those purposes.

Note: As a result, the entity may not be required to make a further revaluation of the one or more assets. However, if the entity does not, it must use the value of the one or more assets that is reflected in financial statements for the relevant period that comply with the accounting standards.

Accounting standards need not otherwise apply to the entity

15 After section 820-980

Insert:

Records about asset revaluations

820-985 Methodology of revaluation and independence of valuer

- (1) An entity must keep records under this section for a revaluation of assets mentioned in subsection 820-680(2) (except a revaluation that need not comply with that subsection because of subsection 820-680(2A)).
- (2) The records must contain particulars about:
 - (a) the methodology used in making the revaluation (including any assumptions made); and
 - (b) how that methodology was applied (including the data and other information used); and
 - (c) who made the revaluation; and
 - (d) that person's qualifications and experience as an expert in valuing assets of the relevant kind; and
 - (e) the remuneration and expenses paid to that person.
- (3) If the revaluation was made in accordance with subsection 820-680(2B) (about external validation of a revaluation made internally), the records must also contain particulars of:
 - (a) who was the external expert referred to in that subsection; and
 - (b) his or her qualifications and experience as an expert in valuing assets of the relevant kind; and
 - (c) the remuneration and expenses paid to him or her; and

- (d) his or her review of the methodology for making the revaluation (as required by subparagraph 820-680(2B)(b)(ii)); and
 - (e) his or her agreement that the methodology is suitable for making it (as required by subparagraph 820-680(2B)(b)(iii)).
- (4) The entity must prepare the records before the time by which the entity must lodge its *income tax return for the income year in relation to all or a part of which the revaluation is made.

Note: A person must comply with the requirements in section 262A of the *Income Tax Assessment Act 1936* about the keeping of these records (see subsections (2AA) and (3) of that section).

6 At the end of section 36-10

36-15 How to deduct tax losses of entities other than corporate tax entities

8 Subsection 36-15(1)

- (1) Your *tax loss for a *loss year is deducted in a later income year as follows if you are not a *corporate tax entity at any time during the later income year.

Note: See section 36-17 for the deduction of a tax loss of an entity that is a corporate tax entity at any time during the later income year.

9 After section 36-15

Insert:

36-17 How to deduct tax losses of corporate tax entities

- (1) A *tax loss of an entity for a *loss year is deducted in a later income year as follows if the entity is a *corporate tax entity at any time during the later income year.

If the entity has no net exempt income

- (2) If the entity's total assessable income for the later income year exceeds the entity's total deductions (except *tax losses), the entity is to deduct from that excess so much of the tax loss as the entity chooses. The entity may choose a nil amount.

If the entity has net exempt income

- (3) If the entity has *net exempt income for the later income year and the entity's total assessable income (if any) for that year exceeds the entity's total deductions (except *tax losses), the entity is to:
 - (a) first, deduct the tax loss from the net exempt income; and
 - (b) secondly, deduct from the part of the total assessable income that exceeds those deductions so much of the undeducted amount of the tax loss (if any) as the entity chooses.

The entity may choose a nil amount under paragraph (b).

Note: To work out the corporate tax entity's net exempt income: see section 36-20.

- (4) However, if the entity has *net exempt income for the later income year and those deductions exceed the entity’s total assessable income, the entity is to:
- (a) subtract that excess from the net exempt income; and
 - (b) deduct the *tax loss from any net exempt income that remains.

Note: This means there is no choice available under this subsection.

Limit to how much the entity can choose

- (5) The choice that the entity has under subsection (2) or (3) for the later income year is subject to both of the following:
- (a) the entity must choose a nil amount if, disregarding the *tax loss and other tax losses of the entity, the entity would have an amount of *excess franking offsets for that year;
 - (b) if, disregarding the tax loss and other tax losses of the entity, the entity would *not* have an amount of excess franking offsets for that year—the entity must not choose an amount that would result in the entity having an amount of excess franking offsets for that year.

Example: For the 2002-2003 income year, Company A has:

- a tax loss of \$150 from a previous income year; and
- assessable income of \$200 (franked distribution of \$70, franking credit of \$30 and \$100 of income from other sources); and
- no allowable deductions; and
- no net exempt income.

The tax offset of \$30 from the franking credit is not subject to the refundable tax offset rules in Division 67.

Company A would not have an amount of excess franking offsets for that year if the tax loss were disregarded (see section 36-55). This is because the tax offset of \$30 is less than \$60, the amount of income tax that Company A would have to pay if it did not have the tax offset and the tax loss. Paragraph (a) therefore does not apply.

If Company A chooses to deduct the full amount of the tax loss, it would have an amount of excess franking offsets of \$15:

$$\$30 - \left(\left(\$200 - \$150 \right) \times 30\% \right)$$

Company A therefore cannot make this choice because of paragraph (b).

However, if Company A chooses to deduct \$100 of the tax loss, it would not have an amount of excess franking offsets:

$$\$30 = \left(\left(\$200 - \$100 \right) \times 30\% \right)$$

Company A therefore can choose to deduct \$100 of the tax loss.

- (6) The entity must state its choice under subsection (2) or (3) in its *income tax return for the later income year.

General

- (7) If the entity has 2 or more *tax losses, the entity is to deduct them in the order in which the entity incurred them.
- (8) A *tax loss can be deducted under this section only to the extent that it has not already been deducted.
- (9) If, under this section, a *corporate tax entity does not or cannot deduct all or part of a *tax loss in an income year, the entity can carry forward the undeducted amount to the next income year. This Subdivision then applies in working out how it can deduct the tax loss in that income year.

Note: The entity's tax losses may be reduced if any of its commercial debts have been forgiven in the income year: see Subdivision 245-E of Schedule 2C to the *Income Tax Assessment Act 1936*.

Recalculation of amounts resulting in a choice or a change of a choice

- (10) Subsection (11) or (12) applies if at least one of the following amounts is recalculated after an entity has lodged its *income tax return for an income year:
- (a) the amount of a *tax loss that the entity can deduct in that year;
 - (b) the amount of the difference between the entity's total assessable income for that year and the entity's total deductions (other than *tax losses) for that year;
 - (c) the amount of the entity's *net exempt income for that year; whether or not the amount is recalculated in an amendment of the entity's assessment for that year, and whether or not the amount was a nil amount before the recalculation (or has become a nil amount after the recalculation).

-
- (11) If:
- (a) before the recalculation, a choice under subsection (2) or (3) for the income year was not available to the entity; but
 - (b) as a result of the recalculation, the choice has (apart from subsection (6)) become available to the entity;
- the entity can make that choice by written notice given to the Commissioner.
- (12) If:
- (a) the entity made a choice under subsection (2) or (3) for the income year; but
 - (b) as a result of the recalculation, the entity wishes to change that choice;
- the entity can do so by written notice given to the Commissioner.
- (13) Subsections (10) to (12) have effect subject to section 170 of the *Income Tax Assessment Act 1936* (about amendment of assessments).

36-50 What this Subdivision is about

Amounts of tax offsets to which a corporate tax entity is entitled under Division 207 and Subdivision 210-H may in some circumstances be converted into an amount of a tax loss for the entity.

Operative provision

36-55 Converting excess franking offsets into tax loss

Excess franking offsets

- (1) An entity that is a *corporate tax entity at any time during an income year has an amount of ***excess franking offsets*** for that year if:
 - (a) the total amount of *tax offsets to which the entity is entitled for that year under Division 207 and Subdivision 210-H (except those that are subject to the refundable tax offset rules because of section 67-25);
exceeds:
 - (b) the amount of income tax that the entity would have to pay on its taxable income for that year if:
 - (i) it did not have those tax offsets; and
 - (ii) it did not have any tax offsets that are subject to the tax offset carry forward rules or the refundable tax offset rules;
but had all its other tax offsets.

The excess is the amount of *excess franking offsets*.

Note: Division 65 sets out the tax offset carry forward rules. Division 67 sets out the refundable tax offset rules.

Example: For the 2002-2003 income year, Company E has:

- assessable income of \$200 (franked distribution of \$140 and franking credit of \$60); and
- \$100 of deductions that are allowable.

The tax offset of \$60 from the franking credit is not subject to the refundable tax offset rules in Division 67.

Disregarding the tax offset of \$60 from the franking credit, the amount of income tax that Company E would have to pay is \$30:

$$\left(\left(\$140 + \$60 \right) - \$100 \right) \times 30\%$$

This amount is \$30 less than the tax offset of \$60. Company E therefore has an amount of excess franking offsets of \$30 for that year.

How to work out the amount of the tax loss

- (2) For the purposes of this Act, if:
- (a) an entity has an amount of *excess franking offsets for an income year; and
 - (b) the result of applying the following method statement is a positive amount;
- then:
- (c) the entity is taken to have a *tax loss for that year equal to that positive amount (instead of an amount of tax loss worked out under section 36-10, 165-70, 175-35 or 701-30); and
 - (d) that year is taken to be a *loss year for the entity if the entity would not otherwise have a tax loss for that year.

Method statement

Step 1. Work out the amount (if any) that would have been the entity's *tax loss for that year under section 36-10, 165-70, 175-35 or 701-30 if the entity's *net exempt income for that year (if any) were disregarded.

Note: See section 36-20 for the calculation of net exempt income.

Step 2. Divide the amount of *excess franking offsets by the *corporate tax rate.

Step 3. Add the results of steps 1 and 2.

Step 4. Reduce the result of step 3 by the entity's *net exempt income for that year (if any).

The result of this step is taken to be the entity's *tax loss for that year. However, if the result of this step is nil or a negative amount, the company does not have any tax loss for that year.

Example: Assume that company E did not derive any exempt income for the 2002-2003 income year and that it would not otherwise have any tax loss for that year under section 36-10, 165-70, 175-35 or 701-30.

Applying the method statement, the amount of excess franking offsets of \$30 generates a tax loss of \$100 for that year, which can be deducted in a later income year under section 36-15 or 36-17.

12 Subsection 165-70(5) (note)

Omit "36-15", substitute "36-17".

13 At the end of section 165-70 (before the notes)

Add:

Note: The meanings of *tax loss* and *loss year* are modified by section 36-55 for a corporate tax entity that has an amount of excess franking offsets.

14 Subsection 170-20(1)

Omit "36-15", substitute "36-17".

15 Subsection 170-45(1)

Repeal the subsection, substitute:

Loss company can only transfer what it cannot use itself

- (1) The amount transferred cannot exceed the amount of the *loss company's *tax loss that, apart from the transfer, the loss company would carry forward to the next income year after deducting in the *deduction year the maximum amount of tax losses that the loss company can deduct under section 36-17.

16 Subsection 175-35(5) (note)

Omit “36-15”, substitute “36-17”.

17 At the end of section 175-35 (before the notes)

Add:

Note: The meanings of *tax loss* and *loss year* are modified by section 36-55 for a corporate tax entity that has an amount of excess franking offsets.

17A Subsection 707-310(3) (table item 6, paragraph (c) of column 2)

Repeal the paragraph, substitute:

(c) any *net assessable film income; reduced by the amount (the *transferee’s grossed-up franking offset amount*) worked out in accordance with paragraph (3A)(c)

17B After subsection 707-310(3)

Insert:

(3A) For the purposes of subsection (3):

- (a) the transferee’s *tax losses to which paragraph (b) of, or the table in, that subsection applies are to be worked out on the assumption that the transferee chooses to deduct under subsection 36-17(2) all of the tax losses and that subsection 36-17(5) does not apply to that choice; and
- (b) except as mentioned in paragraph (a) of this subsection, amounts worked out as described in column 2 of an item of the table in subsection (3) are to be worked out making the same choices as the transferee actually makes in working out its taxable income as stated in its *income tax return for the income year; and
- (c) the transferee’s grossed-up franking offset amount mentioned in column 2 of item 6 in the table is the amount worked out using the formula:

$$\frac{1}{\text{*General company tax rate for the income year}} \times \text{Franking offsets}$$

where:

franking offsets means the total amount of *tax offsets to which the transferee is entitled for the income year under Division 207 and Subdivision 210-H (except those that are subject to the refundable tax offset rules because of section 67-25).

18 Subsection 995-1(1)

Insert:

excess franking offsets has the meaning given by section 36-55.

19 Subsection 995-1(1) (at the end of the definition of *loss year*)

Add:

Note: The meaning of *loss year* in sections 36-10, 165-70 and 175-35 is modified by section 36-55 for a corporate tax entity that has an amount of excess franking offsets.

20 Subsection 995-1(1) (the note at the end of paragraph (a) of the definition of *tax loss*)

Omit “Note”, substitute “Note 1”.

21 Subsection 995-1(1) (before paragraph (b) of the definition of *tax loss*)

Insert:

Note 2: The meaning of *tax loss* in sections 36-10, 165-70, 175-35 and 701-30 is modified by section 36-55 for a corporate tax entity that has an amount of excess franking offsets.

(2A) If an entity:

(a) has *tax losses transferred to it under Subdivision 707-A of the *Income Tax Assessment Act 1997*; or

(b) is a *corporate tax entity at any time during the *base year; the **adjusted taxable income** of the entity for the base year is worked out under subsection (1) as if paragraph (1)(c) were replaced by the following provision:

Special rule for life insurance companies

- (3) The **adjusted taxable income** of a *life insurance company for the *base year is worked out as follows:

Step 2. Add to the step 1 result the *complying superannuation class of the taxable income for the *base assessment.

Step 3. Add to the step 2 result the deductions for *tax losses used in making the *base assessment.

Step 4. Reduce the step 3 result by the lesser of the following amounts:

- (a) the amount of any tax loss, to the extent that the *life insurance company can carry it forward to the next income year;
- (b) deductions for *tax losses used in making the *base assessment.
