 - were registered on the 92 Energy share register as a holder of an ordinary share in 92 Energy at 4:00 pm Australian Western Standard Time on 4 April 2024 (Record Date)
 - disposed of your 92 Energy Shares under the Scheme and received new shares in ATHA as the Scheme Consideration
 - held your 92 Energy Shares on capital account – that is, your 92 Energy ordinary shares were neither held as revenue assets (as defined in section 977-50) nor as trading stock (as defined in subsection 995-1(1))

When this Ruling applies

7. This Ruling applies from 1 July 2023 to 30 June 2024.

Ruling

CGT event A1 happened on the disposal of your 92 Energy Limited ordinary shares

8. CGT event A1 happened when you disposed of your 92 Energy ordinary shares (section 104-10).

9. The time of CGT event A1 was on the Implementation Date (paragraph 104-10(3)(b)).

10. The capital proceeds from CGT event A1 happening to each 92 Energy ordinary share is the market value of the ATHA share you received in respect of your disposal of the 92 Energy ordinary share (subsection 116-20(1)). The market value of the ATHA share is worked out as at the time of CGT event A1 happening.

11. You made a capital gain from CGT event A1 happening if the capital proceeds from the disposal of your 92 Energy ordinary share were more than the cost base of that share.

12. You made a capital loss from CGT event A1 happening if the capital proceeds from the disposal of your 92 Energy ordinary share were less than the reduced cost base of that share (subsection 104-10(4)).

Availability of scrip for scrip roll-over for Australian-resident shareholders

13. Subject to the qualification in paragraph 12 of this Ruling, if you are a resident of Australia and you made a capital gain from the disposal of your 92 Energy ordinary shares, you may choose to obtain scrip for scrip roll-over for the capital gain (sections 124-780 and 124-785).

14. Scrip for scrip roll-over cannot be chosen if any capital gain you might make from a replacement ATHA share would be disregarded, except because of a roll-over (paragraph 124-795(2)(a)).

Status: **legally binding**

Consequences if you choose scrip for scrip roll-over for your 92 Energy Limited shares

Capital gain is disregarded

15. If you choose scrip for scrip roll-over, you disregard the capital gain you made from CGT event A1 happening on the disposal of your 92 Energy ordinary shares (subsection 124-785(1)).

Cost base and reduced cost base of shares in ATHA Energy Corp.

16. If you choose scrip for scrip roll-over, the first element of the cost base and reduced cost base of a replacement ATHA share you received is worked out by reasonably attributing to it the cost base and reduced cost base (respectively) of the 92 Energy ordinary share for which it was exchanged and for which you obtained the roll-over (subsections 124-785(2) and (4)).

17. We accept that one reasonable method of attribution would be to calculate the first element of the cost base and reduced cost base of each replacement ATHA share by dividing the total cost bases of your 92 Energy ordinary shares by the number of replacement ATHA shares you received.

Acquisition date of shares in ATHA Energy Corp.

18. If you choose scrip for scrip roll-over, for the purposes of working out whether a future capital gain from the replacement ATHA share is a discount capital gain, the ATHA share you acquired in exchange for your 92 Energy ordinary share is taken to have been acquired on the date you acquired, for capital gains tax purposes, the corresponding 92 Energy ordinary share involved in the roll-over (table item 2 of subsection 115-30(1)).

Consequences if you do not choose, or cannot choose, scrip for scrip roll-over for your ATHA Energy Corp. shares

Capital gain is not disregarded

19. If you do not choose, or cannot choose, scrip for scrip roll-over, you must take into account any capital gain or capital loss from CGT event A1 happening on the disposal of your 92 Energy ordinary shares in working out your net capital gain or net capital loss for the income year in which CGT event A1 happened (sections 102-5 and 102-10).

20. If you do not choose, or cannot choose, scrip for scrip roll-over and you made a capital gain on the disposal of your 92 Energy ordinary shares, you can treat the capital gain as a discount capital gain provided that the conditions of Subdivision 115-A are met. In particular, the 92 Energy Shares you disposed of must have been acquired at least 12 months before the Implementation Date (section 115-25).

Cost base and reduced cost base of shares in ATHA Energy Corp.

21. If you do not choose, or cannot choose, scrip for scrip roll-over, the first element of the cost base and reduced cost base of a replacement ATHA share you received is equal to the market value of the 92 Energy ordinary share you gave in respect of acquiring the ATHA share.

Status: **legally binding**

22. The market value of the 92 Energy ordinary shares you gave is worked out as at the time when you acquired the replacement ATHA shares on the Implementation Date (paragraph 110-25(2)(b) and subsection 110-55(2)).

23. We accept that you can apportion the total market value of your 92 Energy ordinary shares (worked out as at the Implementation Date) across the total number of ATHA shares you acquired on the Implementation Date (subsection 112-30(1)).

Acquisition date of shares in ATHA Energy Corp.

24. If you do not choose, or cannot choose, scrip for scrip roll-over, the acquisition date of the ATHA shares is the date on which those shares were issued to you, being the Implementation Date (table item 2 of section 109-10).
