- held your Triangle shares on capital account (and not as trading stock (as defined in subsection 995-1(1)) or revenue assets (as defined in section 977-50) for income tax purposes

- were not exempt from Australian income tax.

5. This Ruling does not apply to anyone who is subject to the taxation of financial arrangements rules in Division 230 in relation to the scheme outlined in paragraphs 26 to 40 of this Ruling.

Ruling

Dividend Component

Resident shareholders

7. If you are a 'resident' as defined in subsection 6(1), you include the Dividend Component in your assessable income (paragraph 44(1)(a)).

Non-resident shareholders

8. If you are a 'non-resident' as defined in subsection 6(1), you do not include the Dividend Component in your Australian assessable income (paragraph 44(1)(b) and section 128D).

9. You are liable to withholding tax on the Dividend Component pursuant to subsection 128B(1). The withholding tax rate is 30% (subsection 128B(4) and paragraph 7(a) of the *Income Tax (Dividends, Interest and Royalties Withholding Tax) Act 1974*), unless reduced by an applicable tax treaty (section 4 and subsection 17A(1) of the *International Tax Agreements Act 1953*).

Capital Component

Demerger relief is not available

10. Demerger relief (being demerger roll-over under Division 125) is not available as the scheme does not satisfy one or more of the conditions in subsection 125-70(1).

Return of capital is not a dividend

11. The Capital Component is not a 'dividend' as defined in subsection 6(1). This is because the Capital Component was debited to the share capital account of Triangle.

Status: **legally binding**

Therefore, no part of the Capital Component will be included in your assessable income under subsection 44(1).

CGT event G1

12. CGT event G1 happened on the Payment Date when you received the Capital Component for each Triangle share you owned on the Record Date and continued to own on the Payment Date (section 104-135).

13. You made a capital gain from CGT event G1 happening if the Capital Component per Triangle share you received was more than the share's cost base (subsection 104-135(3)). The capital gain is equal to the amount of the excess and the cost base and reduced cost base of your Triangle share is reduced to nil.

14. If the Capital Component per Triangle share you received was not more than the cost base of the share, the cost base and reduced cost base of the share is reduced by the Capital Component (but not below nil) (subsection 104-135(4)).

15. You cannot make a capital loss from CGT event G1 happening (Note to subsection 104-135(3)).

CGT event C2

16. CGT event C2 happened on the Payment Date when you received the Capital Component for each Triangle share you owned on the Record Date but ceased to own before the Payment Date (section 104-25).

17. You made a capital gain from CGT event C2 happening if the capital proceeds (being the Capital Component) were more than the cost base of your right to receive the Capital Component. You made a capital loss if the capital proceeds were less than the reduced cost base of the right (subsection 104-25(3)).

18. The cost base of your right to receive the Capital Component does not include the cost base or reduced cost base of the Triangle share you disposed of, to the extent that it was applied in working out a capital gain or capital loss made when you disposed of the share (Division 110, as modified by Division 112). If the cost base or reduced cost base of your Triangle share had been fully applied in working out a capital gain or capital loss on its disposal, your right to receive the Capital Component will have a nil cost base and you will have made a capital gain equal to the capital proceeds (being the Capital Component) per Triangle share you owned at the Record Date but disposed of before the Payment Date.

Discount capital gain

19. You can treat a capital gain made when CGT event G1 or CGT event C2 happened as a discount capital gain if you acquired your Triangle shares at least 12 months before the Payment Date (subsection 115-25(1)), provided the other conditions in Subdivision 115-A are satisfied.

Cost base and reduced cost base of your Tetragon Energy Pty Ltd shares

20. The first element of the cost base and reduced cost base of each Tetragon share you acquired is the market value of that Tetragon share on the Payment Date (subsections 110-25(2), 110-55(2) and 112-20(1)).

Status: **legally binding**

Acquisition date of your Tetragon Energy Pty Ltd shares

21. You are taken to have acquired the Tetragon shares on the Payment Date (table event number A1 (case 1) of subsection 109-5(2)).

Section 45B does not apply

22. The Commissioner will not make a determination under paragraph 45B(3)(b) that section 45C applies to any part of the Capital Component you received on the Payment Date. Accordingly, no part of the Capital Component will be taken to be an unfranked dividend.

Foreign resident shareholders

23. If you were a 'foreign resident' or the trustee of a 'foreign trust for CGT purposes' (as defined in subsection 995-1(1)) just before the Payment Date, you disregard any capital gain made from CGT event G1 (or any capital gain or capital loss from CGT event C2) under subsection 855-10(1), unless your Triangle share (or your right to receive the Capital Component) was 'taxable Australian property' (as defined in section 855-15).

24. Your Triangle share (or your right to receive the Capital Component) was taxable Australian property if it was:

- an 'indirect Australian real property interest' (table item 2 of section 855-15 and section 855-25), or
- a CGT asset covered by subsection 104-165(3) (about individuals choosing to disregard a capital gain or capital loss on ceasing to be Australian residents) (table item 5 of section 855-15).

25. Your Triangle share (or your right to receive the Capital Component) was an 'indirect Australian real property interest' (as defined in section 855-25) if it passed:

- the non-portfolio interest test (section 960-195) – that is, you (and any of your associates as defined in section 318) held 10% or more of the shares in Triangle
 - at the time of the CGT event, or
 - throughout a 12-month period that began no earlier than 24 months before the time of the CGT event and ended no later than the time of the CGT event, and
- the principal asset test (section 855-30) – that is, at the time of the CGT event, more than 50% of Triangle's assets were taxable Australian real property (as defined in section 855-20).
