Preamble

*The number, subject heading, **What this Class Ruling is about** (including **Tax law(s)**, **Class of persons** and **Qualifications** sections), **Date of effect**, **Arrangement** and **Ruling** parts of this document are a 'public ruling' in terms of Part IVAAA of the **Taxation Administration Act 1953**. CR 2001/1 explains Class Rulings and Taxation Rulings TR 92/1 and TR 97/16 together explain when a Ruling is a 'public ruling' and how it is binding on the Commissioner.*

What this Class Ruling is about

1. This Ruling sets out the Commissioner's opinion on the way in which the 'tax law(s)' identified below apply to the defined class of persons, who take part in the arrangement to which this Ruling relates.

Tax law(s)

2. The tax laws dealt with in this Ruling are:
- Division 70 of the *Income Tax Assessment Act 1997* (ITAA 1997);
 - section 6-5 of the ITAA 1997; and
 - Part IVA of the *Income Tax Assessment Act 1936* (ITAA 1936).

Class of persons

3. The class of persons to whom this Ruling applies is all growers who, after 26 September 2004, enter into a contract for the sale of wheat by delivery or transfer into the 0:90:10 extended wheat pool ('0:90:10 pool') operated by ABB Grain Limited.

Qualifications

4. The Commissioner makes this Ruling based on the precise arrangement identified in this Ruling.

5. The class of persons defined in this Ruling may rely on its contents provided the arrangement actually carried out is carried out in accordance with the arrangement described at paragraphs 10 to 12 in this Ruling.

6. If the arrangement actually carried out is materially different from the arrangement that is described in this Ruling, then:

- this Ruling has no binding effect on the Commissioner because the arrangement entered into is not the arrangement on which the Commissioner has ruled; and
- this Ruling may be withdrawn or modified.

7. This work is copyright. Apart from any use permitted under the *Copyright Act 1968*, no part may be reproduced by any process without prior written permission from the Commonwealth. Requests and enquires concerning reproduction and rights should be sent to:

Commonwealth Copyright Administration

CANBERRA ACT 2601

Or by e-mail to: commonwealth.copyright@dcita.gov.au

Date of effect

8. This ruling applies to the income year commencing 1 July 2004 and subsequent years in which the arrangement is offered by ABB Grain Limited. However, the Ruling does not apply to taxpayers to the extent that it conflicts with the terms of settlement of a dispute agreed to before the date of issue of the Ruling (see paragraphs 21 to 22 of the Taxation Ruling TR 92/20). Furthermore, the Ruling only applies to the extent that:

- it is not withdrawn by *Gazette*;
- it is not taken to be withdrawn by an inconsistent later public ruling; or
- the relevant tax laws are not amended.

Previous Ruling

9. The arrangement described in this ruling is substantially the same as the arrangement described in Class Ruling CR 2002/23 apart from the change of name of the wheat pool operator from AusBulk Limited to ABB Grain Limited.

Arrangement

10. The arrangement that is the subject of this ruling is the 0:90:10 pool operated by ABB Grain Limited and is described in the documents set out below. The relevant documents or parts of documents are:

- (a) Class Ruling application from KPMG requesting the Commissioner to make a class ruling in relation to the assessability of amounts from the sale of wheat by growers into the 0:90:10 pool;
- (b) AusBulk 0:90:10 Extended Wheat Pool Products Terms and Conditions which have been confirmed as being the same as offered by ABB Grain Limited; and
- (c) documents as provided and noted in Class Ruling CR 2002/23.

Note: Certain information has been provided on a commercial-in-confidence basis and will not be disclosed or released under Freedom of Information legislation.

11. When wheat is delivered or transferred into the 0:90:10 pool, a grower accepts the terms and conditions set out in the 'ABB 0:90:10 Extended Wheat Pool Product Terms and Conditions'.

12. The ABB 0:90:10 Extended Wheat Pool Product Terms and Conditions provide that:

- Transfer of title and risk of physical loss occur:
 - (a) in respect of physical delivery when you or your agent have presented commodity to a bulk handler and signed a weigh note nominating an ABB Grain Limited pool product as the purchase option; or
 - (b) in respect of delivery by way of in-store transfer of commodity stored on your behalf by a bulk handler – when the bulk handler signs or otherwise authorises on your behalf a title transfer to an ABB Grain Limited pool;
- ABB Grain Limited makes estimates from time to time of the likely pool return as a guide to suppliers. ABB Grain Limited does not warrant that the pool will return these estimates, or any other amount. The estimated pool return is subject to change and therefore you cannot quantify in absolute terms your future returns until declarations are made;

- The specific timing (i.e., exact date) for the declaration and payment of the pool distributions for any particular harvest season will be detailed in the product brochure for the 0:90:10 pool which is published by ABB Grain Limited for each harvest season;
- Unless otherwise stated in the relevant product brochure ABB Grain Limited may deduct prior to calculating your pool payments, all receival, transport, transfer, storage, handling and outturn charges and compulsory levies applicable to your pool deliveries (and, in the case of commodities delivered to ABB Grain Limited sites, charged as if the pool was a separate client of ABB Grain Limited);
- Pool payments for all suppliers will be net of any selling costs and expenses incurred by the pool and a pool management fee as determined by ABB Grain Limited from time to time;
- Once a distribution is declared it is a debt due to you from ABB Grain Limited and is payable within 30 days from declaration; and
- The 0:90:10 pool payment distributions will be made in two separate intervals. The first payment will be 90% of the estimated 0:90:10 pool return (as determined by ABB Grain Limited) at that time. The second and final pool distribution payment will be the actual 0:90:10 pool return (as determined by ABB Grain Limited) less the amount of the first distribution.

Ruling

Sales of wheat into the 0:90:10 pool

13. For growers returning their income on an accruals basis, distributions made by ABB Grain Limited are included in assessable income in the income year in which ABB Grain Limited declares each distribution.

14. For growers returning their income on a cash basis, distributions are included in assessable income in the income year in which the grower receives the payments.

Trading stock

15. The wheat ceases to be trading stock of the grower at the time ABB Grain Limited accepts delivery of the wheat.

Application of Part IVA

16. Having regard to the facts of the arrangement, Part IVA of the ITAA 1936 does not apply.

Explanation**Sales of wheat into the 0:90:10 pool**

17. By delivering or transferring wheat into the 0:90:10 pool, ABB Grain Limited and the grower enter into a contract of sale. At the time ABB Grain Limited accepts delivery of the grower's wheat or approves an in-store transfer, the grower has sold and ABB Grain Limited has purchased the wheat.

18. At the time growers sell their wheat they have a right to receive payment of their share of the pool proceeds, but that right is not presently existing as the payment is neither quantified nor quantifiable. ABB Grain Limited quantifies the amount payable to growers by determining and declaring pool distributions.

19. The amount of the distribution is a presently existing recoverable debt for payment of that part of the pool return. The determination and declaration of the amount by ABB Grain Limited is the point at which this debt becomes presently existing, unconditional, and not subject to any contingency.

20. For growers returning their income on an accruals basis, distributions made by ABB Grain Limited are included in assessable income under section 6-5 of the ITAA 1997 in the year of income in which ABB Grain Limited declares each distribution.

21. For growers returning income on a cash basis, distributions are included in assessable income under section 6-5 of the ITAA 1997 in the year in which the grower receives the payments.

Trading stock

22. As stated at paragraph 17, the grower has sold and ABB Grain Limited has purchased the wheat at the time ABB Grain Limited accepts delivery of the wheat.

23. When accepted into the 0:90:10 pool by ABB Grain Limited, the wheat delivered by the grower is mixed with that of other growers. Accordingly, the grower has lost dispositive power over the wheat as the wheat of that particular grower is no longer identifiable. In the circumstances title in the wheat has passed to ABB Grain Limited and the grower has disposed of the wheat (*Farnsworth v. FC of T* (1949) 78 CLR 504; (1949) 9 ATD 33).

24. Consequently, the wheat ceases to be trading stock of the grower for the purposes of Division 70 of the ITAA 1997 at that time.

Application of Part IVA

25. Having regard to the commercial character of the arrangement, Part IVA of the ITAA 1936 does not apply.
