#### **❶ This publication provides you with the following level of protection:**

This publication (excluding appendixes) is a public ruling for the purposes of the *Taxation Administration Act 1953*.

A public ruling is an expression of the Commissioner's opinion about the way in which a relevant provision applies, or would apply, to entities generally or to a class of entities in relation to a particular scheme or a class of schemes.

If you rely on this ruling, we must apply the law to you in the way set out in the ruling (unless we are satisfied that the ruling is incorrect and disadvantages you, in which case we may apply the law in a way that is more favourable for you – provided we are not prevented from doing so by a time limit imposed by the law). You will be protected from having to pay any underpaid tax, penalty or interest in respect of the matters covered by this ruling if it turns out that it does not correctly state how the relevant provision applies to you.

## What this Ruling is about

---

1. This Ruling sets out the Commissioner's opinion on the way in which the relevant provision(s) identified below apply to the defined class of entities, who take part in the scheme to which this Ruling relates.

### Relevant provision(s)

2. The relevant provisions dealt with in this Ruling are:

- section 6-5 of the *Income Tax Assessment Act 1997* (ITAA 1997);
- section 15-10 of the ITAA 1997; and
- section 104-10 of the ITAA 1997

All references are to the ITAA 1997 unless otherwise stated.

## Class of entities

3. The class of entities to which this Ruling applies is eligible New South Wales tenderers who hold eligible water entitlements and receive payments, from the Australian Government Department of Agriculture, Fisheries and Forestry (DAFF), under the *Australian Government Water Through Efficiency* Request for tenders in relation to the supply of permanent water entitlements for the Living Murray Initiative (LMI).

4. The class of entities referred to in paragraph 3 of this Ruling does not include eligible tenderers who carry on a business of trading in water entitlements or eligible tenderers who are end users for irrigation purposes.

## Qualifications

5. The Commissioner makes this Ruling based on the precise scheme identified in this Ruling.

6. The class of entities defined in this Ruling may rely on its contents provided the scheme actually carried out is carried out in accordance with the scheme described in paragraphs 14 to 30 of this Ruling.

7. If the scheme actually carried out is materially different from the scheme that is described in this Ruling, then:

- this Ruling has no binding effect on the Commissioner because the scheme entered into is not the scheme on which the Commissioner has ruled; and
- this Ruling may be withdrawn or modified.

8. This work is copyright. Apart from any use as permitted under the *Copyright Act 1968*, no part may be reproduced by any process without prior written permission from the Commonwealth. Requests and inquiries concerning reproduction and rights should be addressed to:

Commonwealth Copyright Administration  
Attorney General's Department  
Robert Garran Offices  
National Circuit  
Barton ACT 2600

or posted at: <http://www.ag.gov.au/cca>

## Date of effect

---

9. This Ruling applies from 1 July 2006. However, the Ruling does not apply to taxpayers to the extent that it conflicts with the terms of settlement of a dispute agreed to before the date of issue of the Ruling. Furthermore, the Ruling only applies to the extent that:

- it is not later withdrawn by notice in the *Gazette*; or
- the relevant provisions are not amended.

10. If this Class Ruling is inconsistent with a later public or private ruling, the relevant class of entities may rely on either ruling which applies to them (item 1 of subsection 357-75(1) of Schedule 1 to the *Taxation Administration Act 1953* (TAA)).

11. If this Class Ruling is inconsistent with an earlier private ruling, the private ruling is taken not to have been made if, when the Class Ruling is made, the following two conditions are met:

- the income year or other period to which the rulings relate has not begun; and
- the scheme to which the rulings relate has not begun to be carried out.

12. If the above two conditions do not apply, the relevant class of entities may rely on either ruling which applies to them (item 3 of subsection 357-75(1) of Schedule 1 to the TAA).

## Withdrawal

---

13. This Ruling is withdrawn from 1 July 2009.

## Scheme

---

14. The scheme that is the subject of the Ruling is described below. This description is based on the following documents. These documents, or relevant parts of them as the case may be, form part of and are to be read with this description. The relevant documents or parts of documents incorporated into this description are:

- Application for Class Ruling from DAFF dated 3 July 2006;
- *Australian Government Water Through Efficiency* Request for tenders (RFT) in relation to the supply of permanent water entitlements for the Living Murray Initiative dated 11 October 2006;
- *Australian Government Water Through Efficiency* tender form and Legal Principles (LP);
- *Water Management Act 2000* (NSW); and
- Water Management (General) Regulations 2004 (NSW).

15. DAFF is undertaking the RFT process to encourage water use efficiency and recover water that can be used to benefit the icon sites under the LMI.

16. DAFF invites eligible tenderers to submit tenders which:

- propose one or more water efficiency measures to reduce the eligible tenderers' water use;

- offer to permanently transfer one or more eligible water entitlements (in whole or in part) to DAFF on terms and conditions based on the legal principles set out in Attachment 4 of the RFT; and
- allows eligible tenderers to indicate that they wish to participate in allocation back arrangements should capacity be available. Details of allocation back arrangements are not settled and are therefore not the subject of this Ruling.

**Note:** Allocation back arrangements, once finalised, may affect the CGT analysis contained in this Ruling.

17. An eligible tenderer is a person who:

- holds an eligible water entitlement; or
- is in a position to transfer or procure the transfer of an eligible water entitlement (in whole or in part) because it is an end user for an irrigation entity (clause 3.1 RFT).

Eligible tenderers who are end users for irrigation entities are not the subject of this Ruling.

18. Water efficiency measures are measures to reduce the volume of water required to maintain productive capacity, that is, measures to generate water savings to offset the amount to be transferred to DAFF. Water efficiency measures may take a number of forms and may be on-farm or off-farm. However, they must be or have been completed between 1 January 2004 and 30 June 2009. The proposed timeframe for completing the water efficiency measure is specified in the tender form by the eligible tenderer.

19. A water entitlement is an eligible water entitlement if it is listed in Attachment 2 to the RFT. In NSW they are:

Ref.	Category	Eligible water entitlement
1	Murray high security	Regulated river (high security) access licence referred to in paragraph 57(1)(a) of the <i>Water Management Act 2000</i> (NSW) for the New South Wales Murray Regulated River Water Source (as referred to in subclause 4(2) of the <i>Water Sharing Plan for the New South Wales Murray and Lower Darling Regulated Rivers Water Sources 2003</i> )
2	Murray general security	Regulated river (general security) access licence referred to in paragraph 57(1)(b) of the <i>Water Management Act 2000</i> (NSW) for the New South Wales Murray Regulated River Water Source (as referred to in subclause 4(2) of the <i>Water Sharing Plan for the New South Wales Murray and Lower Darling Regulated Rivers Water Sources 2003</i> )

3	Murray conveyance	Regulated river (conveyance) access licence referred to in paragraph 57(1)(c) of the <i>Water Management Act 2000</i> (NSW) for the New South Wales Murray Regulated River Water Source (as referred to in subclause 4(2) of the <i>Water Sharing Plan for the New South Wales Murray and Lower Darling Regulated Rivers Water Sources 2003</i> )
4	Lower-Darling high security	Regulated river (high security) access licence referred to in paragraph 57(1)(a) of the <i>Water Management Act 2000</i> (NSW) for the Lower-Darling Regulated River Water Source (as referred to in subclause 4(3) of the <i>Water Sharing Plan for the New South Wales Murray and Lower Darling Regulated Rivers Water Sources 2003</i> )
5	Lower-Darling general security	Regulated river (general security) access licence referred to in paragraph 57(1)(b) of the <i>Water Management Act 2000</i> (NSW) for the Lower-Darling Regulated River Water Source (as referred to in subclause 4(3) of the <i>Water Sharing Plan for the New South Wales Murray and Lower Darling Regulated Rivers Water Sources 2003</i> )
6	Murrumbidgee high security	Regulated river (high security) access licence referred to in paragraph 57(1)(a) of the <i>Water Management Act 2000</i> (NSW) for the Murrumbidgee Regulated River Water Source (as referred to in clause 4 of the <i>Water Sharing Plan for the Murrumbidgee Regulated River Water Source 2003</i> )
7	Murrumbidgee general security	Regulated river (general security) access licence referred to in paragraph 57(1)(b) of the <i>Water Management Act 2000</i> (NSW) for the Murrumbidgee Regulated River Water Source (as referred to in clause 4 of the <i>Water Sharing Plan for the Murrumbidgee Regulated River Water Source 2003</i> )
8	Murrumbidgee Irrigation conveyance	Murrumbidgee Irrigation (conveyance) access licence referred to in paragraph 8(1)(a) of the <i>Water Management (General) Regulation 2004</i> (NSW) for the Murrumbidgee Regulated River Water Source (as referred to in clause 4 of the <i>Water Sharing Plan for the Murrumbidgee Regulated River Water Source 2003</i> )

9	Coleambally Irrigation conveyance	Coleambally Irrigation (conveyance) access licence referred to in paragraph 8(1)(b) of the Water Management (General) Regulation 2004 (NSW) for the Murrumbidgee Regulated River Water Source (as referred to in clause 4 of the <i>Water Sharing Plan for the Murrumbidgee Regulated River Water Source 2003</i> )
---	-----------------------------------	---

20. The whole or relevant part of the eligible water entitlement must be transferred between 7 August 2007 and 30 June 2009.
21. The tender must offer to transfer at least 5 units of NSW eligible water entitlements.
22. An irrigation entity can only offer to transfer that part of its eligible water entitlement which is not allocated to, or required to meet, the entitlements of its end users.
23. The terms and conditions of the transfer are based on the legal principles set out in Attachment 4 of the RFT. Some of these are detailed in the paragraphs below.
24. There will be a contract between DAFF and the successful tenderer (LP 1). Nothing in the RFT, or in any tender or the submission of a tender, creates any binding obligation on DAFF, unless and until a contract is entered into.
25. If the tender is a joint tender, there will be a contract between DAFF and each of the joint tenderers. Each of the joint tenderers will be individually responsible for transferring a particular water entitlement and the joint tenderers are jointly and individually responsible for completing the water efficiency measure (LP 2).
26. Transfer of the eligible water entitlement will not occur until all approvals or consents required for or in connection with the transfer of the eligible water entitlements are obtained (LP 12).
27. The tenderer must do everything necessary to transfer the eligible water entitlement to DAFF by the agreed date as specified in the contract (LP 14).
28. Title to the offered water entitlements will pass to DAFF on transfer of the offered water entitlement (LP 10, 15). The requirement to transfer the offered water entitlement will have the effect that all existing and future water allocations related to the offered water entitlement are also transferred (LP 17).
29. The proposed scheme in New South Wales will be by way of assignment of the relevant part of the share component of the access licence. The tenderer is responsible for all fees and charges associated with the transfer of the eligible water entitlement, other than DAFF's costs (LP 23).

30. If the water efficiency measure is proposed to be completed after the transfer of the offered water entitlement, and the successful tenderer does not fully complete the water efficiency measure within the agreed timeframe, DAFF may, at its discretion, by notice to the successful tenderer, require the tenderer to purchase (and that tenderer must purchase) the equivalent of the offered water entitlement from DAFF for the contract price plus interest calculated in accordance with LP 28 (LP 27).

## **Ruling**

---

### **Section 6-5 – income according to ordinary concepts**

31. A payment received for the permanent transfer of the NSW eligible water entitlement (in whole or in part) under the RFT is not income according to ordinary concepts. The receipt is not assessable as ordinary income under section 6-5.

### **Section 15-10 – bounty or subsidy**

32. A payment received for the permanent transfer of the NSW eligible water entitlement (in whole or in part) under the RFT is not a bounty or subsidy that is received in relation to carrying on a business. No part of the total receipts constitutes assessable income under section 15-10.

### **Capital gains tax**

33. CGT event A1 under section 104-10 happens when the contract between DAFF and tenderer for the permanent transfer of the NSW eligible water entitlements is entered into.

---

**Commissioner of Taxation**

15 November 2006

---

## Appendix 1 – Explanation

**❶** *This Appendix is provided as information to help you understand how the Commissioner's view has been reached. It does not form part of the binding public ruling.*

### Section 6-5 – income according to ordinary concepts

34. Subsection 6-5(1) provides that an amount is included in assessable income if it is income according to ordinary concepts (ordinary income). However, as there is no definition of 'ordinary income' in the income tax legislation it is necessary to apply principles developed by the courts to the facts of a particular case.

35. Whether or not a particular receipt is ordinary income depends on its character in the hands of the recipient.<sup>1</sup>

36. In *GP International Pipecoaters Pty Ltd v. Federal Commissioner of Taxation* (1990) 170 CLR 124; 21 ATR 1; 90 ATC 4413, the Full High Court stated at CLR 138; ATR 7; ATC 4420:

To determine whether a receipt is of an income or of a capital nature, various factors may be relevant. Sometimes the character of receipts will be revealed most clearly by their periodicity, regularity or recurrence; sometimes, by the character of a right or thing disposed of in exchange for the receipt; sometimes, by the scope of the transaction, venture or business in or by reason of which money is received and by the recipient's purpose in engaging in the transaction, venture or business.

37. The receipt under the RFT is a once-off receipt. While this is a factor in reaching a conclusion that the receipt is capital in nature, it is not necessarily a determinative factor.<sup>2</sup> Where a recipient provides consideration for a payment, the nature of the consideration is generally taken to be the nature of the payment (*Federal Coke Co Pty Ltd v. Federal Commissioner of Taxation* (1977) 34 FLR 375).

38. The consideration provided by the tenderer is the permanent transfer of an eligible water entitlement. Therefore, the nature of the water entitlement transferred is relevant in determining the nature of the receipt under the RFT.

<sup>1</sup> *Scott v. Federal Commissioner of Taxation* (1966) 117 CLR 514, *Hayes v. Federal Commissioner of Taxation* (1956) 96 CLR 47, *Federal Coke Co Pty Ltd v. Federal Commissioner of Taxation* (1977) 7 ATR 519; 77 ATC 4255.

<sup>2</sup> See *MIM Holdings Ltd v. Commissioner of Taxation* (1997) 363 FCA 13 and Taxation Ruling TR 2006/3.

39. In New South Wales, an eligible water entitlement under the RFT is an access licence referred to in paragraphs 57(1)(a) to 57(1)(c) of the *Water Management Act 2000* (NSW) for a specified water source, or an access licence referred to in subsection 57(1) of the *Water Management Act 2000* (NSW) (an access licence prescribed by the Water Management (General) Regulations 2004 (NSW) for the Murrumbidgee Regulated River Water Source). Under the *Water Management Act 2000* (NSW), an access licence entitles its holder:

- to specified shares in the available water within a specified water management area or from a specified water source (the share component); and
- to take water:
  - at specified times, at specified rates or in specified circumstances; and
  - in specified area or from specified locations (the extraction component).

Unless otherwise permitted by the *Water Management Act 2000* (NSW), it is an offence under that Act for a person to take water from a water source otherwise than in accordance with an access licence. Accordingly, the access licence (with its share and extraction components) confers valuable benefits to its holder.

40. Where a tenderer is not carrying on a business, the receipt under the RFT for the assignment of the share component of the eligible water entitlement is capital in nature and it is not assessable under section 6-5.

41. Where a tenderer is carrying on a business, the eligible water entitlement is a valuable asset that forms part of the tenderers business structure and is capital in nature. The receipt is for the transfer of a capital asset being the eligible water entitlement and is not assessable as ordinary income under section 6-5.

### **Section 15-10 – bounty or subsidy**

42. Section 15-10 provides that an amount is included in assessable income if it is:

- a bounty or subsidy;
- received in relation to carrying on a business; and
- not assessable as ordinary income under section 6-5.

43. The terms 'bounty' and 'subsidy' are not defined in income tax legislation. The word 'subsidy', as noted by Windeyer J in *Placer Development Ltd v. Commonwealth of Australia*,<sup>3</sup> derives from the Latin 'subsidium' meaning 'an aid or help'. The Macquarie Dictionary, 2001, rev. 3<sup>rd</sup> edn, defines subsidy as including 'a grant or contribution of money'. The ordinary meaning adopted by case law is aid provided by the Crown (government) to foster or further some undertaking or industry.

44. A payment received for the permanent transfer of the NSW eligible water entitlements under the RFT is a receipt for the consideration provided by the tenderer and is not a bounty or subsidy for the purposes of section 15-10. Accordingly, no part of the total receipts constitutes assessable income under section 15-10.

### **Capital gains tax**

45. Section 104-10 states that CGT event A1 happens if you dispose a CGT asset.

46. A CGT asset is defined in subsection 108-5(1) as:

- any kind of property; or
- a legal or equitable right that is not property.

47. In NSW, eligible water entitlements entitle their holders to take water subject to the specifications applicable to the licence. They are statutory rights, therefore they are CGT assets within the definition of a CGT asset under subsection 108-5(1).

48. Furthermore, each entitlement is a separate legal right and is a separate CGT asset for the purposes of subsection 108-5(1).

49. CGT event A1 under section 104-10 happens when the contract between DAFF and tenderer for the permanent transfer of each eligible NSW water entitlement (whether the access licence or the share and extraction rights under the access licence) under the RFT is entered into.

50. A capital gain is made if the capital proceeds from the disposal of a CGT asset exceed the asset's cost base. A capital loss is made if the capital proceeds from the disposal of a CGT asset are less than the asset's reduced cost base (subsection 104-10(4)).

51. The capital proceeds from the CGT event that happens to the NSW eligible water entitlement is the payment from DAFF for the permanent transfer of the eligible water entitlement. If you receive a payment in connection with a transaction that relates to more than one CGT event, the capital proceeds from each event are so much of the payment as is reasonably attributable to that event (subsection 116-40(1)).

---

<sup>3</sup> (1969) 121 CLR 353.

52. Allocation back arrangements are not dealt with in this Ruling. When final details of the allocation back arrangements are known, the value of the right to participate in such arrangements may constitute additional capital proceeds for the transfer of the water entitlement.

53. Any capital gain or capital loss which results from the disposal of a CGT asset acquired before 20 September 1985 (pre-CGT) is disregarded (paragraph 104-10(5)(a)).

54. A capital gain can be reduced by the general CGT discount if the relevant requirements of Subdivisions 115-A, 115-B and 115-C are met.

55. A capital gain can be reduced or deferred by the small business CGT concessions if the asset is an active asset and the other requirements of Division 152 are met. The concessions available are:

- small business 15-year exemption;
- small business 50% active asset reduction;
- small business retirement exemption; and
- small business rollover.
