 - are a 'resident of Australia' (as that term is defined in subsection 6(1) of the *Income Tax Assessment Act 1936*), and

Status: **legally binding**

When this Ruling applies

6. This Ruling applies from 1 July 2024 to 30 June 2025.

Ruling**CGT consequences*****CGT event C2 happened on redemption of Closed Class Units in Magellan Global Fund***

7. CGT event C2 happened when your Closed Class Units were redeemed by the Trustee of MGF (section 104-25).

8. The time of CGT event C2 was on the Implementation Date (22 July 2024) (paragraph 104-25(2)(b)).

9. The capital proceeds from CGT event C2 happening to each Closed Class Unit in MGF is the market value of the fraction of an Open Class Unit in MGF you received in respect of the redemption of a Closed Class Unit (subsection 116-20(1)). The market value of an Open Class Unit is worked out as at the time of CGT event C2.

10. You made a capital gain from CGT event C2 happening if the capital proceeds from the redemption of your Closed Class Unit exceeded the cost base of that unit (subsection 104-25(3)). You made a capital loss from CGT event C2 happening if the capital proceeds from the redemption of your Closed Class Unit were less than the reduced cost base of that unit (subsection 104-25(3)).

Availability of roll-over for the redemption of your Closed Class Units in Magellan Global Fund

11. If you made a capital gain or capital loss from the redemption of your Closed Class Units in MGF, you may choose to obtain a roll-over (section 124-245).

Consequences if you choose the roll-over for your Closed Class Units in Magellan Global Fund***Capital gain or capital loss is disregarded***

12. If you choose the roll-over, your capital gain or capital loss is disregarded (subsection 124-15(2)).

13. For the purposes of determining your eligibility to make a discount capital gain from a subsequent CGT event happening to the Open Class Units in MGF you acquired in exchange for your Closed Class Units in MGF, the Open Class Units are taken to have been acquired on the date you acquired, for CGT purposes, the corresponding Closed Class Units (table item 2 of subsection 115-30(1)).

Cost base and reduced cost base of Open Class Units in Magellan Global Fund

14. If you choose the roll-over, the first element of the cost base and reduced cost base of a replacement Open Class Unit in MGF that you received is worked out by dividing the total cost bases of your Closed Class Units by the number of replacement Open Class Units you received (subsection 124-15(3)).

Status: **legally binding**

Consequences if you do not choose, or cannot choose, the roll-over for your Closed Class Units in Magellan Global Fund

Capital gain or capital loss is not disregarded

15. If you do not choose, or cannot choose, the roll-over, you must take into account any capital gain or capital loss from CGT event C2 happening on the redemption of your Closed Class Units in MGF in working out your net capital gain or net capital loss for the income year in which CGT event C2 happened (sections 102-5 and 102-10).

16. If you make a capital gain where the roll-over is not chosen, or cannot be chosen, you can treat the capital gain as a discount capital gain provided that the conditions of Subdivision 115-A are met. In particular, you must have acquired your Closed Class Units in MGF that were redeemed at least 12 months before the Implementation Date (excluding the date of acquisition and the Implementation Date).

Cost base and reduced cost base of Open Class Units in Magellan Global Fund

17. If you do not choose, or cannot choose, the roll-over, the first element of the cost base and reduced cost base of a replacement Open Class Unit in MGF that you received is equal to the market value of the Closed Class Units in MGF you gave in respect of acquiring the Open Class Unit (subsections 110-25(2) and 110-55(2)).

18. The market value of the Closed Class Units in MGF you gave is to be worked out as at the time when you acquired the Open Class Units in MGF. We accept that the market value of each Closed Class Unit you gave was \$2.2188.

19. The first element of the cost base and reduced cost base of each replacement Open Class Unit in MGF that you received can be worked out by dividing the total market value of your Closed Class Units in MGF by the number of replacement Open Class Units you received.

Acquisition date of Open Class Units in Magellan Global Fund

20. If you do not choose, or cannot choose, the roll-over, the acquisition date of the Open Class Units in MGF is the date on which those units were issued to you, being the Implementation Date (table item 3 of section 109-10).
