Example 1A: test period

32A. *A trust with two separate classes of members incurs a tax loss in year 1. In year 2, the trustee elects for the trust to be an AMIT and makes a separate class election. The carried forward tax loss is allocated between the separate classes fairly and reasonably. To deduct the losses, the separate class AMITs must satisfy the tests in Schedule 2F to the ITAA 1936. These tests apply in relation to a 'test period'. In this example, the test period starts before the trust and separate class elections took effect. Under subsection 276-20(2), the separate classes are treated as separate AMITs from the start of year 2. For the purpose of applying the tests in Schedule 2F, the Commissioner will treat the separate classes as separate AMITs from the start of year 1.*
