OTHER RULINGS ON TOPIC IT 259, IT 343, IT 2068,
IT 2118, IT 2233, IT 2357

PREAMBLE Taxation Ruling No. IT 259 sets out guidelines for determining whether a particular location is a special area within either Zone A or Zone B within the meaning of sub-section 79A(3D) of the Income Tax Assessment Act. A location is a special area within a Zone if it is in excess of 250 kilometers by the shortest practicable surface route from the centre of the nearest locality which has a census population of 2500 or more.

2. Sub-section 79A(4) of the Income Tax Assessment Act was amended to alter the definition of "census population" for zone rebate purposes to take into account the Census of Population and Housing taken by the Australian Statistician on 30 June 1981.

RULING 3. As a result of the amendment, changes have occurred to the status of a number of localities for zone rebate purposes.

4. A list of localities falling within Zone A and Zone B is attached. Towns in the special area in Zone A are marked X. Towns in the special area in Zone B are marked Y.

5. Although the list is intended to be as complete as possible it is recognized there may be localities which are not mentioned in it. Reference to nearby localities should enable a decision to be made in respect of any locality not specifically mentioned in the list.

6. The list supersedes all previous lists.

COMMISSIONER OF TAXATION
25 June 1987
