PREAMBLE Taxation Ruling No. IT 2437 sets out the relevant legislative provisions and general criteria which apply in determining whether a foreign tax is a creditable tax under the general foreign tax credit system (FTCS).

2. That Ruling contains a non-exhaustive list of foreign taxes which are recognised as creditable taxes. Paragraph 7 of the Ruling foreshadows periodical updates of that list - in the form of future Rulings incorporating an updated consolidated list of creditable taxes - as a consequence of changes in other countries' taxes and as other foreign taxes are admitted as creditable taxes. This Ruling represents the first such update.

3. While the issue of this Ruling in that form will obviate the need for reference back to the list of creditable taxes contained in IT 2437, the comments in the Preamble to that Ruling concerning the relevant statutory provisions and guidelines for creditable tax determinations remain pertinent. In particular, it is emphasised that taxpayers who seek credit for foreign taxes not identified in this Ruling (or in the subsequent Rulings) should supply the following details of those taxes in the relevant income tax returns:

- . the precise title of the tax;
- . the title of the law under which the tax is imposed;
- . whether the tax is levied by a national, state or local authority and the name of that authority; and
- . a description of the nature of the tax and the basis for its implementation.

4. Decisions as to whether particular foreign taxes not included in this Ruling (or in subsequent Rulings) are creditable taxes under the FTCS will continue to be taken in National Office. Branch Offices should therefore refer enquiries received, or claims in returns, in relation to such taxes to National Office

for consideration and advice. It would also continue to assist with the processing of returns if taxpayers were to supply relevant details to National Office as soon as a liability to pay such a foreign tax becomes apparent.

RULING 5. Subject to the provisions of Division 18 of Part III of the Income Tax Assessment Act 1936, a taxpayer will be entitled to a credit against Australian tax payable on foreign income for any of the foreign taxes listed below paid in respect of that income (changes and additions to the taxes listed in IT 2437 are marked with an asterisk):
