Potential participants must form their own view about the commercial and financial viability of the product. This will involve a consideration of important issues such as whether projected returns are realistic, the 'track record' of the management, the level of fees in comparison to similar products, how this product fits an existing portfolio, etc. We recommend a financial (or other) adviser be consulted for such information.

12. If a taxpayer has a more favourable private ruling (which is legally binding), the taxpayer can rely on the private ruling if the income year to which the private ruling relates has ended, or has commenced but not yet ended. Ruling

Application of this Ruling

50. This Ruling applies only to Members who are accepted to participate in the Project:

- on or before 15 June 2004; or
- during the period 1 July 2004 to 31 March 2005, and

the Member has executed a Lease and Management Agreement. A Member's participation in the Project must constitute the carrying on of a business of primary production.

51. Any Members accepted into the Project between 16 June 2004 and 30 June 2004 are not covered by this Product Ruling.

52. A Member is not eligible to claim any tax deductions until the Member's application to enter the Project is accepted and the Project has commenced.

The Simplified Tax System ('STS')

Division 328

53. For a Member participating in the Project, the recognition of income and the timing of tax deductions, including those related to capital allowances, is different depending on whether the Member is an 'STS taxpayer'. To be an 'STS taxpayer' a Member:

- must be eligible to be an 'STS taxpayer'; and
- must have elected to be an 'STS taxpayer'.

Qualification

54. This Product Ruling assumes that a Member who is an 'STS taxpayer' is so for the income year in which their participation in the Project commences. A Member may become an 'STS taxpayer' at a later point in time. Also, a Member who is an 'STS taxpayer' may choose to stop being an 'STS taxpayer', or may cease to be eligible to be an 'STS taxpayer', during the term of the Project. These are contingencies relating to the circumstances of individual Members that cannot be accommodated in this Ruling. Such Members can ask for a private ruling on how the taxation legislation applies to them.

Tax outcomes for Members who are not 'STS taxpayers'

Assessable Income

Section 6-5

55. That part of the gross sales proceeds from the Project attributable to the Member's produce, less any GST payable on those proceeds (section 17-5), will be assessable income of the Member under section 6-5.

56. The Member recognises ordinary income from carrying on the business of growing grapes and producing and marketing wine at the time that income is derived.

PR 2004/47**Trading Stock***Section 70-35*

57. A Member who is not an 'STS taxpayer' may, in some years, hold grapes, grape juice, base wine or bottled wine that will constitute trading stock on hand. Where, in an income year, the value of trading stock on hand at the *end* of an income year exceeds the value of trading stock on hand at the *start* of an income year a Member must include the amount of that excess in assessable income.

58. Alternatively, where the value of trading stock on hand at the start of an income year exceeds the value of trading stock on hand at the end of an income year, a Member may claim the amount of that excess as an allowable deduction.

Deductions for Management Fees, Rent, and Interest*Section 8-1*

59. A Member who is not an 'STS taxpayer' may claim tax deductions for the following revenue expenses:

Notes:

- (i) If the Member is registered or required to be registered for GST, amounts of outgoing would need to be adjusted as relevant for GST (e.g. input tax credits): Division 27. See example at paragraph 119.
- (ii) The Management Fees and the Rent shown in the Lease and Management Agreement are deductible in full in the year that they are incurred. However, if a Member **chooses** to prepay fees for the doing of a thing (e.g. the provision of management services or the leasing of land) that will not be wholly done in the same income year as the fees are incurred, the prepayment rules of the ITAA 1936 may apply to apportion those fees. In such cases, the tax deduction for the prepaid fee **MUST** be determined using the formula shown in paragraph 104 unless the expenditure is 'excluded expenditure'. 'Excluded expenditure' is an 'exception' to the prepayment rules and is deductible in full in the year in which it is incurred. For the purpose of this Ruling 'excluded expenditure' refers to an amount of expenditure of less than \$1,000.
- (iii) The deductibility or otherwise of interest arising from loan agreements entered into with financiers other than Palandri Finance Ltd is outside the scope of this Ruling. However, all Members, including those who finance their participation in the Project other than with Palandri Finance Ltd, should read carefully the discussion of the prepayment rules in paragraphs 98 to 112 as those rules may be applicable if interest is prepaid. Subject to the 'excluded expenditure' exception, the prepayment rules apply whether the prepayment is required under the relevant loan agreement or is at the Member's choice.
- (iv) For each year commencing from 1 July 2005 until 30 June 2020, Management Fees are payable by each Member yearly consisting of a percentage of the Member's wine proceeds for the year to be deducted on an ongoing basis. The fee calculated in this manner must amount to a minimum of \$4,400 in the year ended 30 June 2005 and at least \$1,100 (indexed) thereafter.
- (v) For each year commencing from 1 July 2005 until 30 June 2017, Annual Rent of \$366.30 is to be indexed

annually by the Inflation Adjustment Factor for the relevant financial year for Members who participate in the Project.

- (vi) The Rent of \$366.30 payable on 30 June 2005 is to be apportioned over the period that the Member leases the land. Therefore Rent of \$30.52 for each month that the Member leases the land is deductible in the year ended 30 June 2005 as it will be paid in the year in which it is incurred. See paragraphs 84 to 85.

Tax outcomes for Members who are ‘STS taxpayers’

Assessable Income

Section 6-5 and section 328-105

60. That part of the gross sales proceeds from the Project attributable to the Member's produce, less any GST payable on those proceeds (section 17-5), will be assessable income of the Member under section 6-5.

61. The Member recognises ordinary income from carrying on the business of growing grapes and producing and marketing wine at the time the income is received (paragraph 328-105(1)(a)).

Trading stock

Section 328-285

62. A Member who is an ‘STS taxpayer’ may, in some years, hold grape, grape juice, base wine or bottled wine that will constitute trading stock on hand. Where, for such a Member, for an income year, the difference between the value of all their trading stock at the start and a reasonable estimate of it at the end, is less than \$5,000, they do not have to account for that difference under the ordinary trading stock rules in Division 70 (subsection 328-285(1)).

63. Alternatively, a Member who is an ‘STS taxpayer’ may instead choose to account for trading stock in an income year under the provisions of Division 70 (subsection 328-285(2)).

Deductions for Management Fees, Rent, and Interest

Section 8-1 and section 328-105

64. A Member who is an ‘STS taxpayer’ may claim tax deductions for the following revenue expenses:

- (vii) If the Member is registered or required to be registered for GST, amounts of capital expenditure would need to be adjusted as relevant for GST (e.g. input tax credits): Division 27. See example at paragraph 119;
- (viii) If, for any reason, an amount shown in the Table above is not fully paid in the year in which it is incurred by a Member who is an 'STS taxpayer' then the amount is only deductible to the extent to which it has been paid, or has been paid for the Member. Any amount or part

of an amount shown in the Table above, which is not paid in the year in which it is incurred, will be deductible in the year in which it is actually paid;

- (ix) Where a Member who is an 'STS taxpayer', pays the Management Fees and the Rent in the relevant income years shown in the Lease and Management Agreement, those fees are deductible in full in the year that they are paid. However, if a Member chooses to prepay fees for the doing of a thing (e.g., the provision of management services or the leasing of land) that will not be wholly done in the same income year as the fees are incurred, the prepayment rules of the ITAA may apply to apportion those fees. In such cases, the tax deduction for the prepaid fee must be determined using the formula shown in paragraph 104, unless the expenditure is 'excluded expenditure'. 'Excluded expenditure' is an 'exception' to the prepayment rules, and is deductible in full in the year in which it is incurred. For the purpose of this Ruling 'excluded expenditure' refers to an amount of expenditure of less than \$1,000;
- (x) The deductibility or otherwise of interest arising from loan agreements entered into with financiers other than Palandri Finance Ltd, is outside the scope of this Ruling. However all Members, including those who finance their participation in the Project other than with Palandri Finance Ltd, should read carefully the discussion of the prepayment rules in paragraphs 98 to 112as those rules may be applicable if interest is prepaid. Subject to the 'excluded expenditure' exception, the prepayment rules apply whether the prepayment is required under the relevant loan agreement or is at the Member's choice;
- (xi) For each year commencing from 1 July 2005 until 30 June 2020, a Management Fee is payable by each Member. This annual fee is determined as a percentage of a Member's wine proceeds for the year to be deducted on an ongoing basis. The fee calculated in this manner must amount to a minimum of \$4,400 in the year ended 30 June 2005 and at least \$1,100 (indexed) thereafter;
- (xii) For each year commencing from 1 July 2005 until 30 June 2017, Annual Rent of \$366.30 is to be indexed annually by the Inflation Adjustment Factor for the relevant financial year for Members who participate in the Project; and
- (xiii) The Rent of \$366.30 payable on 30 June 2005 is to be apportioned over the period that the Member leases the land. Therefore Rent of \$30.52 for each month that

the Member leases the land is deductible in the year ended 30 June 2005 as it will be paid in the year in which it is incurred. See paragraphs 84 to 85.

Tax outcomes that apply to all Members

Deferral of losses from non-commercial business activities

Division 35

Section 35-55 – Commissioner’s discretion

65. For a Member who is an individual and who enters the Project by 15 June 2004 or from 1 July 2004 to 30 March 2005, the rule in section 35-10 may apply to the business activity comprised by their involvement in this Project. Under paragraph 35-55(1)(b) the Commissioner will decide for the income years ending 30 June 2004 to 30 June 2006 that the rule in section 35-10 does not apply to this activity provided that the Project is carried out in the manner described in this Ruling. This conditional exercise of the discretion will allow those losses to be offset against the Member’s other assessable income in the income year in which the losses arise.

Sections 82KZME – 82KZMF, 82KL and Part IVA

66. For a Member who participates in the Project and incurs expenditure as required by the Lease and Management Agreement, the following provisions of the ITAA 1936 have application as indicated:

- expenditure by a Member does not fall within the scope of sections 82KZME - 82KZMF (but see paragraphs 98 to 112);
- section 82KL does not apply to deny the deductions otherwise allowable; and
- the relevant provisions in Part IVA will not be applied to cancel a tax benefit obtained under a tax law dealt within this Ruling.

Explanation

Is the Member carrying on a business?

67. For the amounts set out in the Tables above to constitute allowable deductions the Member’s viticulture activities as a participant in the Palandri America Wine Business 2004 must amount to the carrying on of a business of primary production. These viticulture activities will fall within the definitions of ‘horticulture’ and ‘commercial horticulture’ in section 40-535 of the ITAA 1997.

68. For schemes such as that of the Palandri America Wine Business - 2004 Project, Taxation Ruling TR 2000/8 sets out in paragraph 89 the circumstances in which the Member's activities can constitute the carrying on of such a business. As Taxation Ruling TR 2000/8 sets out, these circumstances have been established in court decisions such as *FCT v. Lau* 6 FCR 202, 84 ATC 4929; (1984) 16 ATR 55.

69. Generally, a Member will be carrying on a business of viticulture, and hence primary production, if:

- the Member has an identifiable interest (by lease or by licence) in the land on which the Member's grapevines are established;
- the Member has a right to harvest and sell the grapes from those grapevines each year and to sell the wine produced;
- the viticulture activities are carried out on the Member's behalf;
- the viticulture activities of the Member are typical of those associated with a viticulture business; and
- the weight and influence of general indicators point to the carrying on of a business.

70. In this Project, each Member enters into a Lease and Management Agreement.

71. Under the Lease and Management Agreement each individual Member will have rights over a specific and identifiable area of 0.05 hectares of land consistent with the intention to carry on a business of growing grapes and the production, marketing and sale of wine. The Lease and Management Agreement provides the Member with an ongoing interest in the specific grapevines on the leased area for the term of the Project. Under the lease the Member must use the land in question for the purpose of carrying out viticultural activities, and for no other purpose. The lease allows the Responsible Entity to come onto the land to carry out its obligations under the Lease and Management Agreement.

72. Under the Lease and Management Agreement the Responsible Entity is engaged by the Member to maintain a Frankland Vineyard Lot on the Member's leasehold land during the term of the Project. The Responsible Entity has provided evidence that it holds the appropriate professional skills and credentials to provide the management services to maintain the Frankland Vineyard Lots on the Member's behalf.

73. Under the Lease and Management Agreement Members engage the Responsible Entity, Palandri Investment Management Ltd, to cultivate, tend, train, prune, fertilise, replant, spray and otherwise care for the grape vines as and when required that is consistent with good viticultural practice and to use all reasonable

measures to keep the Frankland Vineyard Lot free from vermin, noxious weeds, pests and diseases. The Responsible Entity is also engaged to harvest on the Member's behalf, the grapes grown on the Member's Frankland Vineyard Lot and all aspects of wine production for the Members.

74. The general indicators of a business, as used by the Courts, are described in Taxation Ruling TR 97/11. Positive findings can be made from the arrangement's description for all the indicators.

75. The activities that will be regularly carried out during the term of the Project demonstrate a significant commercial purpose. Based on reasonable projections, a Member in the project will derive assessable income from the sale of the grape produce and wine that will return a 'before-tax' profit, i.e., a 'profit' in cash terms that does not depend in its calculation on the fees in question being allowed as a deduction.

76. The pooling of grapes grown on the Member's Frankland Vineyard Lots with the grapes of other Members does not detract from a view that the Member is carrying on a business of viticulture. Each Member's proportionate return from the sale of the wine will reflect the number of Frankland Vineyard Lots held by that Member.

77. The Responsible Entity's services are based on accepted viticulture practices. They are of the type ordinarily found in viticulture ventures that would commonly be said to be businesses. While the size of the Member's allotment is relatively small, it is of a size and scale that would allow it to be commercially viable, particularly when it is part of a larger overall project such as the Palandri America Wine Business - 2004 (see Taxation Ruling IT 360).

78. The Member's degree of control over the Responsible Entity as evidenced by the Lease and Management Agreement, and supplemented by the Corporations Act, is sufficient. During the term of the Project, the Manager will provide the Member with regular progress reports on the Member's Frankland Vineyard Lots and the activities carried out on the Member's behalf. Members are able to terminate arrangements with the Responsible Entity in certain instances, such as cases of default or neglect.

79. The viticulture activities, and hence the fees associated with their procurement, are consistent with an intention to commence regular activities that have an 'air of permanence' about them. For the purposes of this Ruling, the Member's viticulture activities in the Palandri America Wine Business - 2004 will constitute the carrying on of a business.

The Simplified Tax System

Division 328

80. Subdivision 328-F sets out the eligibility requirements that a Member must satisfy in order to enter the STS and Subdivision 328-G sets out the rules for entering and leaving the STS.

81. The question of whether a Member is eligible to be an 'STS taxpayer' is outside the scope of this Product Ruling. Therefore, any Member who relies on those parts of this Ruling that refer to the STS will be assumed to have correctly determined whether or not they are eligible to be an 'STS taxpayer'.

Deductibility of Management Fees and Rent

Section 8-1

82. Consideration of whether the Management Fees and the Rent are deductible under section 8-1 begins with the first limb of the section. This view proceeds on the following basis:

- the outgoing in question must have a sufficient connection with the operations or activities that directly gain or produce the taxpayer's assessable income;
- the outgoings are not deductible under the second limb if they are incurred when the business has not commenced; and
- where all that happens in a year of income is that a taxpayer contractually commits themselves to a venture that may not turn out to be a business, there can be doubt about whether the relevant business has commenced, and hence, whether the second limb applies. However, that does not preclude the application of the first limb in determining whether the outgoing in question has a sufficient connection with activities to produce assessable income.

83. The Rent and Management Fees associated with the viticulture activities will relate to the gaining of income from the Member's business of viticulture (see above), and hence have a sufficient connection to the operations by which income (from the regular sale of grape produce and wine) is to be gained from this business. They will thus be deductible under the first limb of section 8-1. Further, no 'non-income producing' purpose in incurring the fees is identifiable from the arrangement. The fees appear to be reasonable. There is no capital component of the Management Fee. The tests of deductibility under the first limb of section 8-1 are met. The exclusions do not apply.

84. One of the exclusions under section 8-1 relates to expenditure which is capital, or capital in nature. Any part of the expenditure of a Grower entering into a viticulture business which is attributable to acquiring an asset or advantage of an enduring kind is generally capital or capital in nature and hence will not be deductible under section 8-1. The Commissioner is of the view that a portion of the Rent is capital expenditure and therefore the amount allowed as a deduction under section 8-1 will be reduced as follows.

85. A Member who enters the Project between 1 July 2004 and 31 March 2005 does not lease the land for a full income year in the Second Period. As there is no reduction in the Rent in the Second Period to reflect the actual period of the lease, it is considered that part of the Rent is a premium paid by the Member for the grant of the lease and is capital in nature. Therefore, Members will be entitled to a partial deduction of \$61.04, calculated on a pro-rata monthly basis for each month that they lease the land, in the initial year.

Possible application of prepayment provisions

86. Under the Lease and Management Agreement neither the Management Fees nor the Rent are for things to be done beyond 30 June in the year in which the relevant amounts are incurred. In these circumstances, the prepayment provisions in sections 82KZME and 82KZMF have no application to these fees.

87. However, where a Member chooses to prepay these fees for a period beyond the income year in which the expenditure is incurred, the prepayment provisions (see paragraphs 98 to 112) will apply to determine the amount and timing of the deductions regardless of whether the Member is an 'STS taxpayer' or not. These provisions apply to 'STS taxpayers' because there is no specific exclusion contained in section 82KZME that excludes 'STS taxpayers' from the operation of section 82KZMF. This is subject to the 'excluded expenditure' exception. For the purpose of this Ruling 'excluded expenditure' refers to an amount of expenditure of less than \$1,000.

Timing of deductions

88. In the absence of any application of the prepayment provisions, the timing of deductions for the Management Fees or the Rent will depend upon whether a Member is an 'STS taxpayer' or is not an 'STS taxpayer'.

89. If the Member is not an 'STS taxpayer', the Management Fees and the Rent are deductible in the year in which they are incurred.

90. If the Member is an 'STS taxpayer' the Management Fees and the Rent are deductible in the income year in which they are paid, or are paid for the Member (paragraph 328-105(1)(b)). If any amount that is properly incurred in an income year remains unpaid at the end of that income year, the unpaid amount is deductible in the income year in which it is actually paid or is paid for the Member.

Interest deductibility

Section 8-1

(i) Members who use Palandri Finance Ltd as the finance provider

91. Some Members may finance their participation in the Project through a loan facility with Palandri Finance Ltd. Whether the

resulting interest costs are deductible under section 8-1 depends on the same reasoning as that applied to the deductibility of Rent and Management Fees.

92. The interest incurred for the year ended 30 June 2004 and in subsequent years of income will be in respect of a loan to finance the Project business operations – the cultivation and growing of grapes and the lease of the land on which the grapevines have been planted and is therefore directly connected with the gaining of ‘business income’ from the Project. Such interest will, therefore, have a sufficient connection with the gaining of assessable income to be deductible under section 8-1.

93. As with the Management Fees and Rent, in the absence of any application of the prepayment provisions (see paragraphs 98 to 112), the timing of deductions for interest will again depend upon whether a Member is an ‘STS taxpayer’ or is not an ‘STS taxpayer’.

94. If the Member is not an ‘STS taxpayer’, interest is deductible in the year in which it is incurred.

95. If the Member is an ‘STS taxpayer’ interest is not deductible until it has been both incurred and paid, or is paid for the Member. If interest that is properly incurred in an income year remains unpaid at the end of that income year, the unpaid amount is deductible in the income year in which it is actually paid, or is paid for the Member.

(ii) Members who DO NOT use Palandri Finance Ltd as the finance provider

96. The deductibility of interest incurred by Members who finance their participation in the Project through a loan facility with a bank or financier other than Palandri Finance Ltd is outside the scope of this Ruling. Product Rulings only deal with arrangements where all details and documentation have been provided to, and examined by, the Tax Office.

97. While the terms of any finance agreement entered into between relevant Members and such financiers are subject to commercial negotiation, those agreements may require interest to be prepaid. Alternatively, a Member may choose to prepay such interest. Unless such prepaid interest is ‘excluded expenditure’ any tax deduction that is allowable will be subject to the prepayment provisions of the ITAA 1936 (see paragraphs 98 to 112).

Prepayment provisions

Sections 82KZL to 82KZMF

98. The prepayments provisions contained in Subdivision H of Division 3 of Part III of the ITAA 1936 affect the timing of deductions for certain prepaid expenditure. These provisions apply to certain expenditure incurred under an agreement in return for the doing of a thing under the agreement (e.g. the performance of management

services or the leasing of land) that will not be wholly done within the same year of income as the year in which the expenditure is incurred. If expenditure is incurred to cover the provision of services to be provided within the same year, then it is not expenditure to which the prepayment rules apply.

99. For this Project only section 82KZL (an interpretative provision) and sections 82KZME and 82KZMF are relevant. Where the requirements of sections 82KZME and 82KZMF are met, taxpayers determine deductions for prepaid expenditure under section 82KZMF using the formula in subsection 82KZMF. These provisions also apply to 'STS taxpayers' because there is no specific exclusion contained in section 82KZME that excludes 'STS taxpayers' from the operation of section 82KZMF.

Sections 82KZME and 82KZMF

100. Where the requirements of subsections 82KZME(2) and (3) are met, the formula in subsection 82KZMF(1) (see below) will apply to apportion expenditure that is otherwise deductible under section 8-1 of the ITAA 1997. The requirements of subsection 82KZME(2) will be met if expenditure is incurred by a taxpayer in return for the doing of a thing that is not to be wholly done within the year the expenditure is made. The year in which such expenditure is incurred is called the 'expenditure year' (subsection 82KZME(1)).

101. The requirements of subsection 82KZME(3) will be met where the agreement (or arrangement) has the following characteristics:

- the taxpayer's allowable deductions under the agreement for the 'expenditure year' exceed any assessable income attributable to the agreement for that year;
- the taxpayer does not have effective day to day control over the operation of the agreement. That is, the significant aspects of the arrangement are managed by someone other than the taxpayer; and
- either:
 - (a) there is more than one participant in the agreement in the same capacity as the taxpayer; or
 - (b) the person who promotes, arranges or manages the agreement (or an associate of that person) promotes similar agreements for other taxpayers.

102. For the purpose of these provisions, the agreement includes all activities that relate to the agreement (subsection 82KZME(4)). This has particular relevance for a Member in this Project who, in order to participate in the Project may borrow funds from a financier other than Palandri Finance Ltd. Although undertaken with an

unrelated party, that financing would be an element of the arrangement. The funds borrowed and the interest deduction are directly related to the activities under the arrangement. If a Member prepays interest under such financing arrangements, the deductions allowable will be subject to apportionment under section 82KZMF.

103. There are a number of exceptions to these rules, but for Members participating in this Project, only the 'excluded expenditure' exception in subsection 82KZME(7) is relevant. 'Excluded expenditure' is defined in subsection 82KZL(1). However, for the purposes of Members in this Project, 'excluded expenditure' is prepaid expenditure incurred under the arrangement that is less than \$1,000. Such expenditure is immediately deductible.

104. Where the requirements of section 82KZME are met, section 82KZMF applies to apportion relevant prepaid expenditure. Section 82KZMF uses the formula below, to apportion prepaid expenditure and allow a deduction over the period that the benefits are provided.

Expenditure x $\frac{\text{Number of days of eligible service period in the year of income}}{\text{Total number of days of eligible service period}}$

105. In the formula 'eligible service period' (defined in subsection 82KZL(1)) means, the period during which the thing under the agreement is to be done. The eligible service period begins on the day on which the thing under the agreement commences to be done or on the day on which the expenditure is incurred, whichever is the later, and ends on the last day on which the thing under the agreement ceases to be done, up to a maximum of 10 years.

Application of the prepayment provisions to this Project

106. In this Project, an initial Management Fee of \$11,000 per Frankland Vineyard Lot will be incurred on the Commencement Date of the Member being accepted into the Project under the Lease and Management Agreement. The Management Fee is charged for providing management services to a Member by the end of the Initial Period. Under the Agreement, further annual expenditure is required each year during the term of the Project for the provision of management services and lease of land until 30 June in those years.

107. In particular, the Management Fee is expressly stated to be for a number of specified services. No explicit conclusion can be drawn from the description of the arrangement that the initial Management Fee has been inflated to result in reduced fees being payable for Management Fees in subsequent years.

108. There is also no evidence that might suggest the management services covered by the fee could not be provided within the relevant expenditure year. Thus, for the purposes of this Ruling, it can be accepted that no part of the initial Management Fee, and the fees for subsequent years, is for the Manager doing 'things' that are not to be wholly done within the expenditure year. Under the Lease and Management Agreement, Rent is payable annually for the lease of

the land during the expenditure year. Similarly, under the loan agreements to be executed between Members and Palandri Finance Ltd interest is payable monthly in arrears.

109. On this basis, provided a Member incurs expenditure as required under the Project agreements, as set out in paragraphs 40 to 46, then the basic precondition in subsection 82KZME(2) is not satisfied and, in these circumstances, section 82KZMF will have no application.

Members who choose to pay fees for a period in excess of that required by the Project's agreements

110. Although not required under either the Lease and Management Agreement or the Loan Agreement with Palandri Finance Ltd, a Member participating in the Project may **choose** to prepay fees/interest for a period beyond the 'expenditure year'. Similarly, Members who use financiers other than Palandri Finance Ltd may either choose, or be required to prepay interest. Where this occurs, contrary to the conclusion reached in paragraph 109, section 82KZMF will apply to apportion the expenditure and allow a deduction over the period in which the prepaid benefits are provided.

111. For these Members, the amount and timing of deductions for any relevant prepaid Management Fees, prepaid Rent, or prepaid interest will depend upon when the respective amounts are incurred and what the 'eligible service period' is in relation to these amounts.

112. However, as noted above, prepaid fees of less than \$1,000 incurred in an expenditure year will be 'excluded expenditure' and will be not subject to apportionment under section 82KZMF.

Deferral of losses from non-commercial business activities

Section 35-55 – Exercise of Commissioner's discretion

113. In deciding to exercise the discretion in paragraph 35-55(1)(b) on a conditional basis for the income years 30 June 2004 to 30 June 2006 the Commissioner has applied the principles set out in Taxation Ruling TR 2001/14 *Income tax: Division 35 – non commercial business losses*. Accordingly, based on the evidence supplied, the Commissioner has determined that for those income years ended 30 June 2004 up to and including 30 June 2006:

- it is because of its nature the business activity of a Member will not satisfy one of the four tests in Division 35;
- there is an objective expectation that within a period that is commercially viable for the viticulture industry, a Member's business activity will satisfy one of the four tests set out in Division 35 or produce a taxation profit; and

- A Member who would otherwise be required to defer a loss arising from their participation in the Project under subsection 35-10(2) until a later income year is able to offset that loss against their other assessable income.

114. The exercise of the Commissioner's discretion under paragraph 35-55(1)(b) is conditional on the Project being carried on in the manner described in this Ruling during the income years specified. If the Project is carried out in a materially different way to that described in the Ruling a Member will need to apply for a private ruling on the application of section 35-55 to those changed circumstances.

Section 82KL - recouped expenditure

115. The operation of section 82KL depends, among other things, on the identification of a certain quantum of 'additional benefits(s)'. Insufficient 'additional benefits' will be provided to trigger the application of section 82KL. It will not apply to deny the deduction otherwise allowable under section 8-1.

Part IVA - general tax avoidance provisions

116. For Part IVA to apply there must be a 'scheme' (section 177A), a 'tax benefit' (section 177C) and a dominant purpose of entering into the scheme to obtain a tax benefit (section 177D).

117. The Palandri America Wine Business 2004 will be a 'scheme'. A Member will obtain a 'tax benefit' from entering into the scheme, in the form of tax deductions for the amounts detailed at paragraphs 59 and 64 that would not have been obtained but for the scheme. However, it is not possible to conclude the scheme will be entered into or carried out with the dominant purpose of obtaining this tax benefit.

118. Members to whom this Ruling applies intend to stay in the scheme for its full term and derive assessable income from the harvesting of the grapes and sale of the wine. There are no facts that would suggest that Members have the opportunity of obtaining a tax advantage other than the tax advantages identified in this Ruling. There is no non-recourse financing or round robin characteristics, and no indication that the parties are not dealing with each other at arm's length, or, if any parties are not at arm's length, that any adverse tax consequences result. Further, having regard to the factors to be considered under paragraph 177D(b) it cannot be concluded, on the information available, that participants will enter into the scheme for the dominant purpose of obtaining a tax benefit.

Example

Example: Entitlement to GST input tax credits

119. Susan, who is a sole trader and registered for GST, contracts with a manager to manage her viticulture business. Her manager is registered for GST and charges her a Management Fee payable every six months in advance. On 1 December 2003 Susan receives a valid tax invoice from her manager requesting payment of a Management Fee in advance, and also requesting payment for an improvement in the connection of electricity for her vineyard that she contracted him to carry out. The tax invoice includes the following details:

Management fee for period 1/1/2004 to 30/6/2004	\$4,400*
Carrying out of upgrade of power for your vineyard as quoted	<u>\$2,200*</u>
Total due and payable by 1 January 2004 (includes GST of \$600)	<u>\$6,600</u>

*Taxable supply

Susan pays the invoice by the due date and calculates her input tax credit on the management fee (to be claimed through her Business Activity Statement) as:

$$1/11 \times \$4,400 = \$400.$$

Hence her outgoing for the management fee is effectively \$4,400 less \$400, or \$4,400.

Similarly, Susan calculates her input tax credit on the connection of electricity as:

$$1/11 \times \$2,200 = \$200.$$

Hence her outgoing for the power upgrade is effectively \$2,200 less \$200, or \$2,000.

In preparing her income tax return for the year ended 30 June 2003, Susan is aware that the management fee is deductible in the year incurred. She calculates her management fee deduction as \$4,400 (not \$4,400).

Susan is aware that the electricity upgrade is deductible 10% per year over a 10 year period. She calculates her deduction for the power upgrade as \$200 (one tenth of \$2,000 only, not one tenth of \$2,200).
