

TD 2004/65 - Income tax: consolidation: capital gains: does section 104-530 (CGT event L7) of the Income Tax Assessment Act 1997 apply where:(a) an entity becomes a member of a consolidated group; (b) the entity owes a liability to another member of the group at that time; and (c) the liability is later discharged?

 This cover sheet is provided for information only. It does not form part of *TD 2004/65 - Income tax: consolidation: capital gains: does section 104-530 (CGT event L7) of the Income Tax Assessment Act 1997 apply where:(a) an entity becomes a member of a consolidated group; (b) the entity owes a liability to another member of the group at that time; and (c) the liability is later discharged?*

 This document has changed over time. This is a consolidated version of the ruling which was published on 3 November 2004

Taxation Determination

Income tax: consolidation: capital gains: does section 104-530 (CGT event L7) of the *Income Tax Assessment Act 1997* apply where:

- (a) an entity becomes a member of a consolidated group;
- (b) the entity owes a liability to another member of the group at that time; and
- (c) the liability is later discharged?

Preamble

*The number, subject heading, date of effect and paragraphs 1 to 4 of this document are a 'public ruling' for the purposes of Part IVAAA of the **Taxation Administration Act 1953** and are legally binding on the Commissioner.*

1. No. Section 104-530 (CGT event L7) of the *Income Tax Assessment Act 1997* (ITAA 1997) does not apply to the discharge of a liability that one member of a consolidated group owed, when it became a member of the group, to another member of that group (that is, an intra-group liability).
2. Under CGT event L7, if the amount of a liability taken into account in working out the allocable cost amount (ACA) for an entity that becomes a member of a consolidated group is later discharged for a different amount ('the realised amount'), the head company may make a capital gain or loss. A capital gain will arise if the ACA would have been smaller had the realised amount been taken into account in working out the ACA. Alternatively, a capital loss will arise if the ACA would have been greater had the realised amount been taken into account in working out the ACA.
3. In determining the income tax consequences of the discharge of an intra-group liability the single entity rule (the SER) in section 701-1 will apply. The effect of the SER is that an intra-group liability, the corresponding intra-group asset, and transactions or dealings between group members involving the liability or asset are not recognised for income tax purposes (see paragraphs 7 to 10 of TR 2004/11).
4. Accordingly, from the head company's perspective, neither the intra-group liability nor its discharge, are recognised for income tax purposes. As a result, CGT event L7 will not apply to the discharge of the intra-group liability.

TD 2004/65

Date of Effect

5. This Determination applies to years commencing both before and after its date of issue. However, it does not apply to taxpayers to the extent that it conflicts with the terms of settlement of a dispute agreed to before the date of the Determination (see paragraphs 21 and 22 of Taxation Ruling TR 92/20).
