## Addendum

Income tax: under Division 7A of Part III of the *Income Tax* Assessment Act 1936 ('the Act'), how is the benchmark interest rate used for private company loans to shareholders or associates?

This Addendum forms part of the Determination but is not a 'public ruling' in terms of Part IVAAA of the **Taxation Administration Act 1953**. Taxation Rulings TR 92/1 and TR 97/16 together explain when a Determination is a public ruling and how it is binding on the Commissioner.

This Addendum amends Taxation Determination TD 98/22 as follows:

## Paragraph 6

Delete the formula for calculating the minimum yearly loan repayment and replace it with:

Amount of the loan not repaid by x Current year's the end of the previous year of income benchmark interest rate

$$1 - \left(\frac{1}{1 + Current \ year's \ benchmark \ interest \ rate}\right)^{Remaining \ term}$$

$$= \frac{100,000 \times 0.067}{1 - \left(\frac{1}{1 + 0.067}\right)^{5}}$$

## **Commissioner of Taxation**
