#### Delete paragraph 124 and replace with:

124. Castor Ltd is a company registered for GST that purchased a car on 1 May 2001. The company provides the car to its company secretary in the FBT year ended 31 March 2002. When Castor Ltd calculates its FBT liability in respect of the car fringe benefits for the 2002 FBT year it will use the lower gross-up rate of 1.9417 as it is not entitled to an input tax credit for the GST it paid on the car's purchase. If Castor Ltd is entitled to input tax credits for the car's running and maintenance costs it incurred after 1 July 2000 it would still use the lower gross-up rate to calculate the fringe benefits taxable amount for the car fringe benefits.

At page 29 heading 'Which gross-up rate do you use for a car bought before 1 July 2001 but the non-business fitted accessories were purchased after 1 July 2000?' delete:

1 July 2001

1 July 2001

#### and replace with:

23 May 2001

#### Delete paragraph 127 and replace with:

127. Diantha Ltd is a company registered for GST that purchased a car on 3 April 2001 for \$33,000 including GST. The company provides the car to its company accountant in the FBT year ended 31 March 2002. When Diantha Ltd calculates its FBT liability in respect of the car fringe benefits for the 2002 FBT year it will use the lower gross-up rate of 1.9417 as it is not entitled to an input tax credit for the \$3,000 GST it paid on the car's purchase. If Diantha Ltd subsequently fitted non-business accessories it would still use the lower gross-up rate to calculate the fringe benefits taxable amount for the car fringe benefit.
