ⓘ This publication provides you with the following level of protection:

This publication (excluding appendixes) is a public ruling for the purposes of the *Taxation Administration Act 1953*.

A public ruling is an expression of the Commissioner's opinion about the way in which a relevant provision applies, or would apply, to entities generally or to a class of entities in relation to a particular scheme or a class of schemes.

If you rely on this ruling, we must apply the law to you in the way set out in the ruling (unless we are satisfied that the ruling is incorrect and disadvantages you, in which case we may apply the law in a way that is more favourable for you – provided we are not prevented from doing so by a time limit imposed by the law). You will be protected from having to pay any underpaid tax, penalty or interest in respect of the matters covered by this ruling if it turns out that it does not correctly state how the relevant provision applies to you.

Class of entities

3. In this Ruling, a person belonging to this class of entities is referred to as a participant.

Qualifications

4. The Commissioner makes this ruling based on the precise scheme identified in this Ruling.

5. The class of entities defined in this Ruling may rely on its contents provided the scheme actually carried out is carried out in accordance with the scheme described in paragraphs 13 to 28 of this Ruling.

6. If the scheme actually carried out is materially different from the scheme that is described in this Ruling, then:

Date of effect

8. This Ruling applies from 1 July 2006 to 30 June 2007. However, the Ruling continues to apply after 30 June 2007 to all entities within the specified class who entered into the specified scheme during the term of the Ruling.

9. The Ruling does not apply to taxpayers to the extent that it conflicts with the terms of settlement of a dispute agreed to before the date of issue of the Ruling. Furthermore, the Ruling only applies to the extent that:

- it is not later withdrawn by notice in the *Gazette*; or
- the relevant provisions are not amended.

10. If this Ruling is inconsistent with a later public or private ruling, the relevant class of entities may rely on either ruling which applies to them (item 1 of subsection 357-75(1) of Schedule 1 to the *Taxation Administration Act 1953* (TAA)).

11. If this Ruling is inconsistent with an earlier private ruling, the private ruling is taken not to have been made if, when the Ruling is made, the following two conditions are met:

- the income year or other period to which the rulings relate has not begun; and
- the scheme to which the rulings relate has not begun to be carried out.

12. If the above two conditions do not apply, the relevant class of entities may rely on either ruling which applies to them (item 3 of subsection 357-75(1) of Schedule 1 to the TAA).

- Qantas Code of Conduct and Ethics dated 19 July 2006; and
- correspondence from Qantas Airways Limited dated between 9 October 2007 and 4 December 2007.

Note: certain information received has been provided on a commercial-in-confidence basis and will not be disclosed or released under the Freedom of Information Legislation.

The Qantas Deferred Share Plan

14. The Qantas Deferred Share Plan (DSP), which commenced on 17 October 2002, was established as part of the employee share strategy of the Qantas group of companies and provides a platform for a broader based delivery of equity ownership to employees.

15. Under the DSP the Qantas board (the board) may from time to time offer shares or grant rights to an eligible employee subject to such terms and conditions as it determines.

2006 Retention Plan Rules

16. The 2006 Retention Plan Rules (the Plan) operate in conjunction with the DSP. Eligible employees (excluding directors) of Qantas were invited to participate in the Plan as part of their annual remuneration package and as part of the Qantas retention plan. Those employees who accepted the invitation became eligible to receive shares in Qantas subject to approval by the board and the application of a holding lock.

17. On 16 August 2006, the board approved the allocation of shares under the Plan, such shares being acquired on-market, registered in the name of the trustee of the Qantas DSP Trust (the trustee), and held beneficially for a participant during the holding lock period.

18. Shares allocated under the Plan are fully paid ordinary shares in Qantas (shares) that are listed on the Australian Securities Exchange (ASX).

Restrictions – holding lock

19. The holding lock applies to all shares held by the trustee such that the shares cannot be dealt with by participants until the expiration of the holding lock period.

20. The holding lock period is ten years from the date of offer but a participant may request the board to exercise its discretion to remove the holding lock prior to the tenth anniversary of the date of offer.

21. The board's discretion is subject to the participant's satisfactory achievement against their key performance indicators during the retention period and provided that the holding lock is not removed before:

- 1 July 2009 – in respect of up to one-third of shares acquired; and
- 1 October 2009 – in respect of up to two-thirds remaining shares; and
- 1 January 2010 – in respect of all the remaining shares.

22. Upon expiry of the holding lock period or removal of the holding lock at the discretion of the board, the shares will be transferred from the trustee and registered in the name of the participant.

Restrictions – Qantas code of conduct and ethics

23. The applicant has advised that various procedures have been implemented under the Qantas Code of conduct and Ethics – Insider Trading Policy (the Code). The procedures are intended to restrict the sale of Qantas securities by participants who are in possession of information (material, non-public information) that could or would be likely to influence persons in deciding to buy or sell Qantas securities.

24. Paragraph 14.8 of the Code provides that various nominated categories of employees (nominated employees) are considered to be routinely in possession of material, non-public information. As such, they are prohibited from dealing in Qantas securities without providing the CEO (or Nominee) a written request to deal in Qantas securities. The request must also state that at the time they do not believe they are in possession of material, non-public information.

25. Other groups of employees (other employees) who are not nominated employees may from time to time be advised that they are considered to be in possession of material, non-public information (they are also advised when they are no longer considered to be in possession of material, non-public information). Such employees are not permitted to deal in Qantas securities unless they obtain permission to do so.

Forfeiture of shares

26. Unless the board otherwise determines, any shares offered which remain subject to the holding lock will be forfeited if a participant:

- ceases employment with the Qantas group of companies; or
- commits an act of gross misconduct (as defined in the Plan) in relation to the Qantas group of companies.

27. When a share is forfeited, all rights of a participant under the Plan in respect of the share cease and no consideration or compensation will be payable for, or in relation to, that forfeiture.

28. The applicant has also advised that:

- the shares acquired by participants meet the conditions of section 139CD;
- the participants pay no consideration to acquire the shares; and
- the Plan, operating in conjunction with the DSP, does not satisfy the exemption conditions in section 139CE.

Ruling

29. A share allocated by the trustee to a participant under the Plan, will be a share acquired under an employee share scheme for the purposes of Division 13A and will be a qualifying share within the meaning of section 139CD.

30. For the purposes of Division 13A, a participant will acquire the share at the time the trustee allocated the share and held it on behalf of the participant.

31. A share allocated to a participant under the Plan:
- is precluded from being a non-cash business benefit for the purposes of section 21A of the ITAA 1936; and
 - is not an item that is included in assessable income under section 15-2 of the ITAA 1997,
- by the operation of section 139DE of the ITAA 1936.

Where a participant makes an election

32. Where a participant makes an election under section 139E, the discount given in relation to a share is included in the participant's assessable income in the year of income in which the share is acquired, under subsection 139B(2).
33. The discount included in the participant's assessable income will be an amount equal to the market value of the share (worked out under Subdivision F) at the time of acquisition pursuant to subsection 139CC(2).
34. Subsection 139BA(2) will not apply to reduce the discount included in the participant's assessable income.

Capital gains tax

35. A participant acquires a share for capital gains tax (CGT) purposes when the share is transferred to them or when they become absolutely entitled to the share, whichever is the earlier, under subsection 109-5(2) of the ITAA 1997.
36. Where the participant subsequently disposes of the share, the participant will make a capital gain, if the capital proceeds from the disposal are more than the cost base of the share. Conversely, a capital loss will arise if the capital proceeds are less than the share's reduced cost base, pursuant to section 104-10 of the ITAA 1997.
37. The first element of the cost base or reduced cost base of the share is the market value (worked out under Subdivision F of the ITAA 1936) of the share at the time it was allocated (that is, when they first acquired a beneficial interest in the share) in accordance with subsection 130-80(3) of the ITAA 1997.
38. For the purposes of determining whether a capital gain is a discount capital gain, a participant is treated as having acquired a share at the time they first acquired a beneficial interest in it, pursuant to subsection 115-30(1) of the ITAA 1997.
39. Where the disposal of the share occurs 12 months or more after acquisition, any capital gain that results from the disposal will be a discount capital gain, pursuant to Subdivision 115-A of the ITAA 1997.

Forfeiture of shares

40. Where a share is forfeited as described in paragraph 26 of this Ruling, Division 13A does not provide for the discount to be excluded or excised from the participant's assessable income.

Capital gains tax

41. If the participant forfeits a share before they become absolutely entitled to the share, they will not make a capital gain or capital loss in relation to the forfeiture of the share.

Where a participant does not make an election

42. Where a participant has not made an election under section 139E, the discount given in relation to a share will be included in the participant's assessable income in the year of income in which the cessation time occurs, pursuant to subsection 139B(3).

43. Pursuant to subsection 139CA(2), the cessation time will be the earliest of the following times:

- when the participant disposes (including by forfeiture) of a share;
- when the participant ceases to be employed by their employer, a holding company of their employer, or a subsidiary of their employer or of a holding company of their employer;
- the end of the 10 year period starting when the participant acquired the share; and
- the later of the following times:
 - when the holding lock on a share is removed by the board;
 - when any forfeiture conditions on a share cease to have effect;
 - when any additional disposal restrictions imposed under the Code, cease to have effect, that are in effect or imposed on participants who are nominated employees or other employees. This will only be the case where any additional disposal restrictions applied at the time the holding lock on any share is removed by the board:
 - (i) from 1 July 2009 in respect of up to one-third of the shares acquired;
 - (ii) from 1 October 2009 in respect of up to two-third of the shares acquired; and
 - (iii) from 1 January 2010 in respect of all the remaining shares;

- (iv) in relation to participants who are nominated employees or other employees; and
- (v) who are in possession of material, non-public information (at the time the holding lock restrictions are removed).

Disposal within 30 days

44. Where the participant disposes of a share in an arm's length transaction at, or within 30 days of, the cessation time, the discount calculated under subsection 139CC(3) will be the amount or value of any consideration received on the disposal of the share.

Capital gains tax

45. Any capital gain or capital loss made as a consequence of such a disposal will be disregarded, pursuant to subsection 130-83(2) of the ITAA 1997.

Disposal after 30 days

46. Where the participant does not dispose of a share in an arm's length transaction at or within 30 days of the cessation time, the discount assessable will be the market value of the share at the cessation time, determined in accordance with Subdivision F.

Capital gains tax

47. The participant acquires a share for CGT purposes when the share is transferred to them or when they become absolutely entitled to the share, whichever is the earlier, under subsection 109-5(2) of the ITAA 1997.

48. The first element of the cost base or reduced cost base of the share will be the market value (worked out under Subdivision F of the ITAA 1936) of the share at cessation time, in accordance with subsection 130-83(3) of the ITAA 1997.

49. Where the share is subsequently disposed of by, or on behalf of, the participant, the participant makes a capital gain, if the capital proceeds from the disposal are more than the cost base of the share. Conversely, a capital loss will arise if the capital proceeds are less than the reduced cost base, under section 104-10 of the ITAA 1997.

50. Where the disposal of the share occurs 12 months or more after the time a participant became absolutely entitled to the share, any capital gain that results from the disposal will be a discount capital gain, pursuant to Subdivision 115-A of the ITAA 1997.

Forfeiture of shares

51. Where a participant forfeits a share in respect of which no section 139E election has been made, and the forfeiture triggers the cessation time (or the forfeiture happens within 30 days of the cessation time) no amount is included in the assessable income of the participant for the purposes of subsection 139B(3).

Capital gains tax

52. Where the participant forfeits a share before they become absolutely entitled to the share, they will not make a capital gain or capital loss in relation to the forfeiture of that share.

Appendix 1 – Explanation

❶ *This Appendix is provided as information to help you understand how the Commissioner's view has been reached. It does not form part of the binding public ruling.*

Share acquired under employee share scheme

53. A participant will acquire a share under an employee share scheme, for the purposes of Division 13A, if the share is:

- acquired within the meaning of section 139G, and

in accordance with section 139C, the share is:

- acquired in respect of the employment of the employee; and
- acquired for less than market value.

54. Section 139G provides that a person will acquire a share in several circumstances, including by acquiring a beneficial interest in the share.

55. Under the Plan, a participant will acquire a beneficial interest in a share when the trustee allocates the share to the participant and holds it on their behalf. Thus, at that time, the participant will acquire a share within the meaning of section 139G.

56. The DSP was established as part of the employee share scheme strategy of the Qantas group of companies and provides a platform for a broader based delivery of equity ownership to employees. As such, where a participant acquires a beneficial interest in a share under the Plan, that share is considered to be acquired in respect of their employment, pursuant to subsection 139C(1).

57. As no consideration is paid or given by a participant, they will acquire a share for less than market value for the purposes of subsection 139C(3).

58. Thus, at the time that a participant is allocated a share under the Plan, they will acquire a share under the employee share scheme for the purposes of Division 13A.

59. The Commissioner accepts the applicant's statement that the qualifying conditions specified in section 139CD are satisfied. Thus, a share acquired under the Plan will be a qualifying share for the purposes of Division 13A.

Section 21A of the ITAA 1936 and section 15-2 of the ITAA 1997 do not apply

60. Where a share is acquired under an employee share scheme, section 139DE of the ITAA 1936 specifically provides that section 21A of the ITAA 1936 and section 15-2 of the ITAA 1997 do not apply to such a share. Thus, a share acquired under the Plan is not income derived as a non-cash business benefit for the purposes of section 21A of the ITAA 1936 and is not an item that is included in assessable income under section 15-2 of the ITAA 1997.

61. Where a participant acquires a share under the Plan, the discount given in relation to the share is included in the assessable income of the participant, pursuant to subsection 139B(1).

62. Where a share is a qualifying share, the year of income in which the discount is included in assessable income and the amount of the discount (for the purposes of Division 13A) depend on whether the participant has made a section 139E election in relation to the year of income in which the share was acquired.

Where a participant makes an election

63. A participant can elect under section 139E that subsection 139B(2) applies in respect of all shares acquired by the participant in a year of income. Subsection 139B(2) provides that the discount in relation to a share is included in the participant's assessable income in the year of income in which the share is acquired.

64. The amount of the discount to be included in the participant's assessable income is calculated in accordance with subsection 139CC(2). The discount is the market value of the share (determined in accordance with Subdivision F) at the time it was acquired by the participant as no consideration was paid or given by the participant for the acquisition of the share.

65. As Qantas shares are listed on the ASX, section 139FA provides that their market value will be:

- if there was at least one transaction on the ASX in those shares in the week up to and including the date of acquisition – the weighted average of the prices at which those shares were traded on the ASX during that week;
- if there were no such transactions in the week up to and including the date of acquisition – the last price at which an offer was made on the ASX in that period to buy such a share; or
- if no offer was made, the value as determined under section 139FB.

66. As the applicant has advised that the exemption conditions in section 139CE are not satisfied in relation to a share acquired under the Plan, subsection 139BA(2) does not apply to reduce the discount included in the assessable income (by up to \$1,000) of a participant.

Capital gains tax

67. Where a share is acquired under an employee share scheme from an employee share trust, the share will be acquired for CGT purposes, in accordance with subsection 109-5(2) of the ITAA 1997, at the time:

- when the share is transferred from the trustee to the participant (CGT event A1); or
- when the participant becomes absolutely entitled to the share (CGT event E5) if this occurs before the share is transferred.

68. Where a participant makes a section 139E election, the cost base or reduced cost base of the share is determined in accordance with subsection 130-80(3) of the ITAA 1997. That subsection provides that the first element of the cost base or reduced cost base is the market value of the share at the time the participant first acquires a beneficial interest in the share. The market value of the share is determined under Subdivision F.

69. Where the share is subsequently disposed of, a capital gain will arise if the capital proceeds from the disposal exceed the cost base of the share. Conversely, a capital loss will arise if the reduced cost base exceeds the capital proceeds, pursuant to subsection 104-10(4) of the ITAA 1997.

70. Section 115-30 of the ITAA 1997 contains special rules about the time of acquisition of some CGT assets for the purposes of determining whether a capital gain is a discount capital gain. Item 8 of the table in subsection 115-30(1) of the ITAA 1997 provides that:

- where an employee acquires a share under an employee share scheme from an employee share trust; and
- where the share is a qualifying share and the employee has made an election under section 139E covering the share;

then, for the purposes of determining whether a capital gain is a discount capital gain, the employee will be treated as having acquired the share at the time they first acquired a beneficial interest in the share.

71. Thus, where a participant makes an election in relation to a share they acquire under the Plan, for the purposes of determining whether any capital gain they make in respect of the share is a discount capital gain, they will be treated as having acquired the share at the time it was first allocated by the trustee and they acquired a beneficial interest in the share.

72. Where the disposal of the share is 12 months or more after the date of acquisition (of a beneficial interest), any capital gain that results from the disposal will be a discount capital gain and the discount percentage for a participant will be 50%, pursuant to Subdivision 115-A of the ITAA 1997.

Forfeiture of shares

73. Where a share is forfeited and the participant has made a section 139E election in relation to the income year that the share is acquired, the amount of the discount on that share is included in a participant's assessable income, pursuant to subsection 139B(2). Division 13A does not provide for the discount to be excluded or excised from the participant's assessable income.

Capital gains tax

74. No capital gain or capital loss will arise in relation to a forfeited share where the participant has not become absolutely entitled to that share because the share will not have yet been acquired by the participant for CGT purposes.

Where a participant does not make an election

75. Where a participant acquires a share under the Plan and does not make an election under section 139E, the discount given in relation to the share is included in assessable income in the year of income in which the cessation time occurs, in accordance with subsection 139B(3).

76. As shares acquired under the Plan are subject to disposal restrictions and may be forfeited, the cessation time will be determined pursuant to subsection 139CA(2) and will be the earliest of the following times:

- when the participant disposes of the share (including by forfeiture of their interest in the share);
- when the participant ceases to be employed by either their employer (being their employer at the time they acquired the share), a holding company of their employer, or a subsidiary of their employer or of a holding company of their employer;
- the end of the 10 year period starting when the participant acquired the share; and
- the later of the following times:
 - when the holding lock on any share is removed, where the board on request by a participant, exercises its discretion in accordance with paragraph 21 of this Ruling;

- when any forfeiture conditions on a share cease to have effect;
- when any additional disposal restrictions under the Code cease to have effect, that are in effect or imposed on a participant who is a nominated employee or other employee. This will only apply to additional disposal restrictions imposed or in place at the time the holding lock on any share is removed by the board:
 - (i) from 1 July 2009 in respect of up to one-third of the shares acquired;
 - (ii) from 1 October 2009 in respect of up to two-thirds of the shares acquired; and
 - (iii) from 1 January 2010 in respect of all the remaining shares;
 - (iv) in relation to participants who are nominated employees or other employees; and
 - (v) who are in possession of material, non-public information (at the time the holding lock restrictions are removed).

When restrictions under the Code are not applicable for Division 13A purposes

77. Participants who are nominated employees or other employees:

- who are not in possession of material, non-public information at the time of the removal of the holding lock period on a share by the board; and
- who subsequently acquire material, non-public information at any time after the removal of holding lock,

will not be considered to be subject to (additional) disposal restrictions for the purposes of determining when a cessation time occurs under section 139CA(2).

78. When a cessation time occurs, the amount of the discount to be included in a participant's assessable income is determined under section 139CC and will depend on whether the share is disposed of in an arm's length transaction at or within 30 days of the cessation time.

Disposal within 30 days

79. Where a participant disposes of a share in an arm's length transaction at, or within 30 days of the cessation time the amount of the discount to be included in the participant's assessable income is calculated in accordance with subsection 139CC(3). The discount is the amount or value of any consideration received by the participant for the disposal as no consideration is paid or given by the participant for the acquisition of the share.

Capital gains tax

80. Subsection 130-83(2) of the ITAA 1997 has the effect that where CGT event A1 (disposal of a CGT asset), C2, E1, E2, E5 or I1 happens in relation to a share in an arm's length transaction at, or within 30 days of the cessation time, any capital gain or capital loss the participant makes from the CGT event is disregarded.

Disposal after 30 days

81. Where a participant does not dispose of a share in an arm's length transaction at, or within 30 days of, the cessation time the discount to be included in a participant's assessable income is calculated in accordance with subsection 139CC(4). The discount is the market value of the share (as calculated under Subdivision F) at the cessation time as no consideration is paid or given by the participant for the acquisition of the share.

Capital gains tax

82. Where a share is acquired under an employee share scheme from an employee share trust, the share will be acquired for CGT purposes, in accordance with subsection 109-5(2) of the ITAA 1997, at the time:

- when the share is transferred from the trustee to the participant (CGT event A1); or
- when the participant becomes absolutely entitled to the share (CGT event E5) if this occurs before the share is transferred.

83. Subsection 130-83(3) of the ITAA 1997 has the effect that where CGT event A1 (disposal of a CGT asset), C2, E1, E2, E5 or I1 does not happen in relation to a share in an arm's length transaction at, or within 30 days of, the cessation time, the first element of the cost base or reduced cost base of the share is its market value (as calculated under Subdivision F) at the cessation time.

84. Where the share is subsequently disposed of, a capital gain will arise if the capital proceeds from the disposal exceed the cost base of the share. Conversely, a capital loss will arise if the reduced cost base exceeds the capital proceeds, pursuant to subsection 104-10(4) of the ITAA 1997.

85. Where the disposal of the share occurs 12 months or more after the date a participant became absolutely entitled to the share, any capital gain that results from the disposal will be a discount capital gain and the discount percentage for a participant will be 50%, pursuant to Subdivision 115-A of the ITAA 1997.

86. **Note:** where a share is acquired under an employee share scheme from an employee share trust and the share is a qualifying share and no election under section 139E of the ITAA 1936 is made, for the purposes of determining whether any capital gain is a discount capital gain, subsection 115-30(1) of the ITAA 1997 will not operate to treat the share as being acquired when the employee became beneficially entitled to the share.

Forfeiture of shares

87. Where a participant forfeits a share and the forfeiture triggers a cessation time (or the forfeiture happens within 30 days of the cessation time) the Commissioner accepts that the forfeiture will constitute an arm's length disposal. As such, the discount given in relation to the share will be determined under subsection 139CC(3). As no consideration will be received by the participant upon forfeiture of the share, no amount will be included in the participant's assessable income under subsection 139B(3).

Capital gains tax

88. If the participant forfeits the share before they become absolutely entitled to it, no capital gain or capital loss will arise in relation to that share as the share will not have yet been acquired for CGT purposes.
