Ruling

CGT event A1 happened on the disposal of your Greatland Gold Plc shares

7. CGT event A1 happened when you disposed of your GGP shares to GRL (section 104-10).
8. The time of CGT event A1 was the Effective Date (paragraph 104-10(3)(b)).

Capital proceeds from the disposal of your Greatland Gold Plc shares

9. The capital proceeds from CGT event A1 happening to each GGP share is the market value of 0.05 of a share in GRL you received in respect of the disposal of your GGP share (paragraph 116-20(1)(b)). The market value of the GRL shares is worked out at the time of CGT event A1 happening.

Capital gain or capital loss from the disposal of your Greatland Gold Plc shares

10. You made a capital gain from CGT event A1 happening if the capital proceeds from the disposal of your GGP share were more than the cost base of that share (subsection 104-10(4)). The capital gain is the amount of the excess.
11. You made a capital loss from CGT event A1 happening if the capital proceeds from the disposal of your GGP share were less than the reduced cost base of that share (subsection 104-10(4)). The capital loss is the amount of the difference.

Non-resident shareholders

12. If you were a non-resident just before the Effective Date, you disregard a capital gain or capital loss derived from CGT event A1 happening when you disposed of your GGP shares to GRL (section 855-10), unless your GGP shares were 'taxable Australian property' (as defined in section 855-15).
13. Your GGP shares were taxable Australian property if they were:
- an 'indirect Australian real property interest' (table item 2 of section 855-15 and subsection 855-25(1))
 - used by you at any time in carrying on a business through a permanent establishment in Australia (table item 3 of section 855-15), or
 - a CGT asset that is covered by subsection 104-165(3) (choosing to disregard a capital gain or capital loss on ceasing to be an Australian resident) (table item 5 of section 855-15).

Status: **legally binding**

14. Your GGP shares were an 'indirect Australian real property interest' if they passed:
- the non-portfolio interest test (section 960-195) – that is, you (and any of your associates as defined in section 318 of the *Income Tax Assessment Act 1936*) held 10% or more of the shares in GGP
 - at the time of CGT event A1, or
 - throughout a 12-month period that began no earlier than 24 months before the time of CGT event A1 and ending no later than the time of CGT event A1, and
 - the principal asset test (section 855-30) at the time of CGT event A1 if the sum of the market values of GGP's assets that are taxable Australian real property (as defined in section 855-20) exceeds the sum of the market values of GGP's assets that are not taxable Australian real property.

Scrip for scrip roll-over is not available if you made a capital loss.

16. Scrip for scrip roll-over cannot be chosen if any capital gain you might make from the replacement GRL shares would be disregarded, except because of a roll-over (paragraph 124-795(2)(a)).

17. If you were a non-resident just before the Effective Date, you cannot choose scrip for scrip roll-over unless your replacement GRL shares were taxable Australian property (as defined in section 855-15) just after the Effective Date.

Cost base and reduced cost base of Greatland Resources Limited shares

19. If you choose scrip for scrip roll-over, the first element of the cost base and reduced cost base of a replacement GRL share you received is worked out by reasonably attributing to it the cost base and reduced cost base (respectively) of the GGP shares for which the roll-over relief was obtained (subsections 124-785(2) and (4)).

Acquisition date of Greatland Resources Limited shares

20. For the purposes of determining whether a future capital gain from GRL shares is a discount capital gain, the date of acquisition of the replacement GRL shares is taken to be the date you acquired your original shares in GGP (table item 2 of subsection 115-30(1)).

Status: **legally binding**

The market value of the GRL option or warrant is worked out at the time of CGT event C2 happening.
