An Act to implement the New Business Tax System by amending the law relating to taxation, and for related purposes

1 Short title

This Act may be cited as the *New Business Tax System (Capital Allowances—Transitional and Consequential) Act 2001*.

2 Commencement

- (1) Subject to subsection (2), this Act commences on the day on which it receives the Royal Assent.
- (2) Schedule 3 commences, or is taken to have commenced, just after the commencement of the *Taxation Laws Amendment Act (No. 1) 2001*.

3 Schedule(s)

Subject to section 2, each Act that is specified in a Schedule to this Act is amended or repealed as set out in the applicable items in the Schedule concerned, and any other item in a Schedule to this Act has effect according to its terms.

40-10 Plant

- (1) This section applies to you if:
- (a) you have deducted or can deduct amounts for plant under Division 42 of the *Income Tax Assessment Act 1997* (the **former Act**) as in force just before it was amended by the *New Business Tax System (Capital Allowances) Act 2001*, or you could have deducted amounts under that Division for the plant if you had used it, or had it installed ready for use, for the purpose of producing assessable income before that day; and
 - (b) either:
 - (i) you hold the plant at 1 July 2001; or
 - (ii) subparagraph (i) does not apply and you were the owner or quasi-owner of the plant at the end of 30 June 2001.
- (2) Division 40 of the *Income Tax Assessment Act 1997* as amended by the *New Business Tax System (Capital Allowances) Act 2001* (the **new Act**) applies to the plant on this basis:
- (a) the amount that was your undeducted cost at the end of 30 June 2001 becomes the plant's opening adjustable value; and
 - (b) you use the same cost, effective life and method that you were using under Division 42 of the former Act; and
 - (c) if you excluded an amount from your assessable income under section 42-290 of the former Act for a balancing adjustment event that occurred on or before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999—the cost of the plant, and its opening adjustable value, are reduced by that amount; and
 - (d) if subparagraph (1)(b)(ii) applies to you—you are treated as the holder of the plant while you are its holder or while the circumstances under which you would have been the owner or quasi-owner of the plant under the former Act continue.
-

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

- (3) If you were using a rate for the plant under subsection 42-160(1) or 42-165(1) of the former Act just before 1 July 2001, or would have been using such a rate if you had used it, or had it installed ready for use, for the purpose of producing assessable income before that day, Division 40 of the new Act applies to the plant on this basis:
- (a) for the diminishing value method—replace the component in the formula in subsection 40-70(1) of the new Act that includes the plant's effective life with the rate you were using; and
 - (b) for the prime cost method:
 - (i) replace the component in the formula in subsection 40-75(1) of the new Act that includes the plant's effective life with the rate you were using; and
 - (ii) increase the plant's cost under Division 42 of the former Act by any amounts included in the second element of the plant's cost after 30 June 2001.

Note 1: Recalculating effective life will have no practical effect for an entity to whom subsection (3) applies because the component in the relevant formula that relies on effective life has been replaced.

Note 2: STS taxpayers work out the decline in value of their depreciating assets under Division 328.

40-12 Plant acquired after 30 June 2001

- (1) This section applies to you if:
- (a) you entered into a contract to acquire an item of plant before 1 July 2001 and you acquired it after 30 June 2001; or
 - (b) you started to construct an item of plant before 1 July 2001 and you complete its construction after 30 June 2001.
- (2) Division 40 of the new Act applies to the plant.
- (3) If you entered into the contract, or started to construct the plant, at or before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999, you replace the component in the formula in subsection 40-70(1) or 40-75(1) of the new Act that includes the plant's effective life with the rate you would have been using if you had acquired it, or completed its construction,
-

before 1 July 2001 and had used it, or had it installed ready for use, for the purpose of producing assessable income before that day.

40-15 Recalculating effective life

You cannot recalculate the effective life of a depreciating asset for which:

- (a) you were using, just before 1 July 2001, a rate under subsection 42-160(1) or 42-165(1) of the former Act; or
- (b) you would have been using such a rate if you had used the asset, or had it installed ready for use, for the purpose of producing assessable income before that day.

40-20 IRUs

- (1) This section applies to you if:
 - (a) you have deducted or can deduct an amount for an IRU under Division 44 of the former Act; and
 - (b) you hold the IRU at 1 July 2001.
- (2) Division 40 of the new Act applies to the IRU on this basis:
 - (a) you use the cost, effective life and method you were using under Division 44 of the former Act; and
 - (b) the amount that was your undeducted cost of the IRU at the end of 30 June 2001 becomes the IRU's opening adjustable value.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

40-25 Software

- (1) Despite its repeal by this Act, Division 46 of the former Act continues to apply to expenditure on software that you incurred and that was in a software pool under that Division at the end of 30 June 2001.
- (2) For a unit of software for which you were deducting amounts under Subdivision 46-B of the former Act, Subdivision 40-B of the new Act applies to the unit on this basis:

- (a) its cost is the amount of expenditure you incurred on the unit; and
- (b) you must use the prime cost method; and
- (c) its opening adjustable value at 1 July 2001 is its undeducted cost at the end of 30 June 2001; and
- (d) you must use the same effective life you were using under Subdivision 46-B of the former Act.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

40-30 Spectrum licences

- (1) This section applies to you if you have deducted or can deduct an amount under Division 380 of the former Act for expenditure incurred in obtaining a spectrum licence on or before 30 June 2001.
- (2) Subdivision 40-B of the new Act applies to the spectrum licence on this basis:
 - (a) its cost is your expenditure incurred in obtaining the licence; and
 - (b) its opening adjustable value at 1 July 2001 is the amount of unrecouped expenditure for the licence at the end of 30 June 2001; and
 - (c) its effective life is the same as it had under the former Act; and
 - (d) you must use the prime cost method.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

40-33 Datacasting transmitter licences

- (1) This section applies to you if you hold a datacasting transmitter licence at 1 July 2001.
- (2) Division 40 of the new Act applies to the licence on this basis:
 - (a) its cost is your expenditure incurred in obtaining the licence; and
 - (b) its opening adjustable value at 1 July 2001 is its cost; and

-
- (c) its effective life is 15 years less any period that has elapsed from the day the licence was issued until 1 July 2001; and
 - (d) you must use the prime cost method.

40-35 Mining unrecouped expenditure

- (1) This section applies to you if you have an amount of unrecouped expenditure under Division 330 of the former Act at the end of 30 June 2001.
- (2) Division 40 of the new Act applies to the expenditure as if it were a depreciating asset (the *notional asset*) you hold on this basis:
 - (a) it has an opening adjustable value at 1 July 2001 equal to the amount of unrecouped expenditure reduced by any deductions allowable under section 330-80 of the former Act for your income year ending on 30 June 2001; and
 - (b) it has a cost equal to the total amount of allowable capital expenditure under the former Act; and
 - (c) in applying the formula in section 40-75 of the new Act for the income year in which 1 July 2001 occurs—you use the adjustments in subsection 40-75(3) of the new Act; and
 - (d) it is taken to have been used for a taxable purpose at the start of 1 July 2001; and
 - (e) it has a remaining effective life worked out under subsection (3); and
 - (f) you must use the prime cost method.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

- (3) The remaining effective life of the notional asset at the start of an income year (*present income year*) for which you are working out its decline in value is:
 - (a) for an amount of unrecouped expenditure in respect of expenditure incurred in carrying on eligible mining operations other than in the course of petroleum mining is the lesser of these:
 - (i) the number equal to the difference between 10 and the number of income years (which may be zero) before the present income year for which an amount in respect of expenditure was deductible;

- (ii) the number equal to the number of whole years in the estimated life of the mine, or proposed mine, on the mining property, or, if there is more than one such mine, of the mine that has the longest estimated life, as at the end of the present income year; or
 - (b) for an amount of unrecouped expenditure in respect of expenditure incurred in carrying on eligible mining operations in the course of petroleum mining is the lesser of these:
 - (i) the number equal to the difference between 10 and the number of income years (which may be zero) before the present income year for which an amount in respect of expenditure was deductible;
 - (ii) the number equal to the number of whole years in the estimated life of the petroleum field or proposed petroleum field as at the end of the present income year; or
 - (c) for an amount of unrecouped expenditure in respect of expenditure incurred in carrying on eligible quarrying operations the lesser of these:
 - (i) the number equal to the difference between 20 and the number of income years (which may be zero) before the present income year for which an amount in respect of expenditure was deductible; and
 - (ii) the number equal to the number of whole years in the estimated life of the quarry, or proposed quarry, on the quarrying property, or, if there is more than one such quarry, of the quarry that has the longest estimated life, as at the end of the present income year.
 - (4) Sections 40-95 and 40-110 of the new Act do not apply to the unrecouped expenditure.
 - (5) If either:
 - (a) both of these subparagraphs apply:
 - (i) any of the unrecouped expenditure referred to in subsection (1) relates to a depreciating asset (the *real asset*);
 - (ii) in an income year (the *cessation year*) you stop holding the real asset, or stop using it for a taxable purpose; or
-

-
- (b) both of these subparagraphs apply:
- (i) any of the unrecouped expenditure referred to in subsection (1) relates to property that is not a depreciating asset (the *other property*);
 - (ii) in the cessation year, the other property is disposed of, lost or destroyed, or you stop using it for a taxable purpose;

there is an additional decline in value of the notional asset for the cessation year equal to so much of the notional asset's adjustable value as relates to the real asset or the other property and has not been taken into account in working out the amount of a balancing adjustment in relation to the real asset.

- (6) If the other property is disposed of, lost or destroyed, or you stop using it for a taxable purpose, you must include in your assessable income:
- (a) if the other property is sold for a price specific to that property—that price, less the expenses of the sale (to the extent the expenses are reasonably attributable to selling that particular property); or
 - (b) if the other property is sold with additional property without a specific price being allocated to it—the part of the total sale price, less the reasonably attributable expenses of the sale, that is reasonably attributable to selling the other property; or
 - (c) if the other property is lost or destroyed—the amount or value received or receivable under an insurance policy or otherwise for the loss or destruction; or
 - (d) if you own the other property and you stop using it for a taxable purpose—its market value at that time; or
 - (e) if you do not own the property and you stop using it for a taxable purpose—a reasonable amount.

However, the amount included is reduced to the extent (if any) that it is also included under subsection 40-830(6) of the new Act.

40-40 Transport expenditure

- (1) This section applies to you if you have deducted or can deduct an amount for transport capital expenditure in respect of a transport facility under Subdivision 330-H of the former Act, or you could

have deducted an amount for the expenditure under that Subdivision if you had started to use the facility for a qualifying purpose before 1 July 2001.

- (2) Division 40 of the new Act applies to the expenditure as if it were a depreciating asset (the *notional asset*) you hold on this basis:
- (a) it has an opening adjustable value at 1 July 2001 equal to the total amount of transport capital expenditure under the former Act less the amounts you have deducted or can deduct for that expenditure under the former Act; and
 - (b) it has a cost equal to the total amount of transport capital expenditure under the former Act; and
 - (c) in applying the formula in section 40-75 of the new Act for your income year in which 1 July 2001 occurs—you use the adjustments in subsection 40-75(3) of the new Act; and
 - (ca) it is taken to have been used for a taxable purpose at the start of 1 July 2001; and
 - (d) it has an effective life at the start of 1 July 2001 equal to the years remaining for the expenditure under section 330-395 of the former Act; and
 - (e) you must use the prime cost method.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

- (3) Sections 40-95 and 40-110 of the new Act do not apply to the expenditure.
- (4) If either:
- (a) both of these subparagraphs apply:
 - (i) any of the transport capital expenditure referred to in subsection (1) relates to a depreciating asset (the *real asset*);
 - (ii) in an income year (the *cessation year*) you stop holding the real asset, or stop using it for a taxable purpose; or
 - (b) both of these subparagraphs apply:
 - (i) any of the transport capital expenditure referred to in subsection (1) relates to property that is not a depreciating asset (the *other property*);

- (ii) in the cessation year, the other property is disposed of, lost or destroyed, or you stop using it for a taxable purpose;

there is an additional decline in value of the notional asset for the cessation year equal to so much of the notional asset's adjustable value as relates to the real asset or the other property and has not been taken into account in working out the amount of a balancing adjustment in relation to the real asset.

- (5) If the other property is disposed of, lost or destroyed, or you stop using it for a taxable purpose, you must include in your assessable income:
- (a) if the other property is sold for a price specific to that property—that price, less the expenses of the sale (to the extent the expenses are reasonably attributable to selling that particular property); or
 - (b) if the other property is sold with additional property without a specific price being allocated to it—the part of the total sale price, less the reasonably attributable expenses of the sale, that is reasonably attributable to selling the other property; or
 - (c) if the other property is lost or destroyed—the amount or value received or receivable under an insurance policy or otherwise for the loss or destruction; or
 - (d) if you own the other property and you stop using it for a taxable purpose—its market value at that time; or
 - (e) if you do not own the property and you stop using it for a taxable purpose—a reasonable amount.

However, the amount included is reduced to the extent (if any) that it is also included under subsection 40-830(6) of the new Act.

40-45 Intellectual property

- (1) This section applies to you if:
- (a) at the end of 30 June 2001, you hold an item of intellectual property referred to in the table in section 373-35 of the former Act; and
 - (b) you have deducted or can deduct an amount for expenditure on the asset under Division 373 of the former Act.
- (2) Subdivision 40-B of the new Act applies to the item on this basis:

- (a) it has an opening adjustable value at 1 July 2001 equal to its unrecouped expenditure under the former Act at the end of 30 June 2001; and
- (b) its cost is its original unrecouped expenditure under the former Act; and
- (c) its effective life is the same as it had under the former Act; and
- (d) you must use the prime cost method.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

40-50 Forestry roads and timber mill buildings

- (1) This section applies to you if:
 - (a) you have deducted or can deduct an amount under Subdivision 387-G of the former Act for an amount (the *qualifying amount*) of expenditure on a forestry road or timber mill building; and
 - (b) you hold the road or building at the end of 30 June 2001.
- (2) Subdivision 40-B of the new Act applies to the asset on this basis:
 - (a) it has an opening adjustable value at 1 July 2001 equal to the qualifying amount less any amounts you have deducted or can deduct for it under the former Act; and
 - (b) in applying the formula in section 40-75 of the new Act for your income year in which 1 July 2001 occurs—you use the adjustments in subsection 40-75(3) of the new Act; and
 - (c) its cost is the qualifying amount; and
 - (d) it has an effective life equal to the remaining life you last estimated for it under the former Act; and
 - (e) you can recalculate its effective life if you conclude that your estimate is no longer accurate (except that the effective life cannot exceed 25 years); and
 - (f) you must use the prime cost method.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

40-55 Environmental impact assessment

- (1) This section applies to you if you have deducted or can deduct an amount under Subdivision 400-A of the former Act for an amount (the *qualifying amount*) of expenditure on or before 30 June 2001 on evaluating the impact on the environment of a project under Subdivision 400-A of the former Act.
- (2) Division 40 of the new Act applies to the qualifying amount as if it were a depreciating asset on this basis:
 - (a) it has an opening adjustable value at 1 July 2001 equal to the qualifying amount less any amounts you have deducted or can deduct for it under the former Act or the *Income Tax Assessment Act 1936*; and
 - (b) it has a cost equal to the qualifying amount; and
 - (c) it has an effective life equal to the number of years for which you could deduct for the qualifying amount worked out under subsection 400-15(3) of the former Act; and
 - (d) you must use the prime cost method.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

40-60 Pooling under Subdivision 42-L of the former Act

- (1) Units of plant that you had allocated to a pool under Subdivision 42-L of the former Act and that were allocated to the pool by 30 June 2001 are treated as a single depreciating asset for the purposes of Division 40 of the new Act.
- (2) Division 40 of the new Act applies to the single depreciating asset on this basis:
 - (a) its cost and opening adjustable value at 1 July 2001 is the closing balance of the pool for your income year in which 30 June 2001 occurred; and
 - (b) you must use the diminishing value method; and
 - (c) in applying the formula in section 40-70 of the new Act for your income year in which 1 July 2001 occurs—it has a base value equal to that opening adjustable value; and

- (d) you replace the component in the formula in subsection 40-70(1) of the new Act that includes an asset's effective life with the pool percentage you were using for the pool; and
- (e) if an item of plant is removed from the pool because a balancing adjustment event occurs for the item or because of subsection (3) of this section, section 40-115 of the new Act applies so that you are treated as having split the single depreciating asset into the removed asset and the remaining assets in the pool; and
- (f) if an amount is included in the second element of the cost of a depreciating asset in the pool, Division 40 of the new Act applies as if that amount had been included in the second element of the cost of the single asset.

Note: There are special rules for entities that have substituted accounting periods: see section 40-65.

- (3) An item of plant in the pool is automatically removed from the pool if you stop using it wholly for taxable purposes (except because a balancing adjustment event occurs for the item).

Note 1: You work out the decline in value of an item removed under this subsection under Subdivision 40-B of the new Act, using the cost for it worked out under section 40-205 of the new Act.

Note 2: There are special rules for entities that have substituted accounting periods: see section 40-65.

40-65 Substituted accounting periods

- (1) This section sets out special rules for the application of Division 40 of the new Act to an entity that:
 - (a) has a substituted accounting period; and
 - (b) because of a provision of this Subdivision, uses Division 40 of the new Act to work out the decline in value of an asset, or of something that is treated as an asset.
- (2) The entity works out its deductions for its income year that includes 1 July 2001 (the *calculation year*) in this way:
 - (a) the entity works out its deductions for that asset under the former Act as from the start of its calculation year up to the end of 30 June 2001 as if that period were an income year; and

-
- (b) the entity works out the decline in value of the asset under Division 40 of the new Act from 1 July 2001 until the end of its calculation year as if that period were an income year in accordance with the following provisions of this section.
- (3) The asset's opening adjustable value for the purposes of Division 40 of the new Act is:
 - (a) for a unit of plant (including IRUs and expenditure on software that is not pooled)—its undeducted cost at the end of 30 June 2001; or
 - (b) for expenditure on eligible mining or quarrying operations, an item of intellectual property or a spectrum licence—the amount of unrecouped expenditure for the expenditure, item or licence under the former Act at the end of 30 June 2001 reduced, in the case of eligible mining or quarrying operations, by an amount you have deducted or can deduct for the calculation year under the former Act and not yet taken into account in calculating unrecouped expenditure; or
 - (c) for transport capital expenditure—the entity's amount of transport capital expenditure under the former Act at the end of 30 June 2001 less any amounts the entity has deducted or can deduct for it under the former Act up to that time; or
 - (d) for expenditure on a forestry road, a timber mill building, a horticultural plant or a grapevine—the amount of that expenditure less any amounts the entity has deducted or can deduct for it under the former Act up to 30 June 2001; or
 - (e) for expenditure on evaluating the impact on the environment of a project—the amount of that expenditure less any amounts the entity has deducted or can deduct for it under the former Act up to 30 June 2001; or
 - (f) for assets that were pooled under Subdivision 42-M or 42-L of the former Act—the closing balance of the pool at the end of 30 June 2001.
 - (4) The asset's base value for applying the formula in section 40-70 of the new Act for the diminishing value method is that opening adjustable value.
 - (5) The decline in value for the assets referred to in this subsection is worked out using the prime cost method without the adjustments in
-

subsection 40-75(3) of the new Act, and the opening adjustable value specified in subsection (3) of this section, in this way:

- (a) for an item of plant for which you were using the prime cost method—using the rules in section 40-10 of this Act; and
 - (b) for an IRU for which you were using the prime cost method—using the rules in section 40-20 of this Act; and
 - (c) for a unit of software for which the entity was deducting amounts under Subdivision 46-B of the former Act—using the rules in subsection 40-25(2) of this Act; and
 - (d) for a spectrum licence—using the rules in section 40-30 of this Act; and
 - (e) for an item of intellectual property—using the rules in section 40-45 of this Act; and
 - (f) for an amount of expenditure on evaluating the impact on the environment of a project—using the rules in section 40-55 of this Act.
- (6) The decline in value for the assets referred to in this subsection is worked out using the prime cost method using the adjustments in subsection 40-75(3) of the new Act, and the opening adjustable value specified in subsection (3) of this section, in this way:
- (a) for an amount of unrecouped expenditure under Division 330 of the former Act—using the rules in section 40-35 of this Act; and
 - (b) for an amount of transport capital expenditure under Division 330 of the former Act—using the rules in section 40-40 of this Act; and
 - (c) for a forestry road or timber mill building—using the rules in section 40-50 of this Act.
- (7) The entity must work out the decline in value of each of the assets for later income years under Division 40 of the new Act.
- (8) The entity must, in working out its deductions under this section for the calculation year for:
- (a) allowable capital expenditure for which the entity had deducted or can deduct an amount under Subdivision 330-C of the former Act; or

-
- (b) transport capital expenditure for which the entity had deducted or can deduct an amount under Subdivision 330-H of the former Act; or
 - (c) a water facility for which the entity had deducted or can deduct an amount under Subdivision 387-B of the former Act; or
 - (d) expenditure on connecting power to land or upgrading the connection for which the entity had deducted or can deduct an amount under Subdivision 387-E of the former Act; or
 - (e) expenditure on a telephone line on or extending to land for which the entity had deducted or can deduct an amount under Subdivision 387-E of the former Act;
- reduce its deductions for each of the periods referred to in paragraphs (2)(a) and (b) by multiplying the deduction for that period by the number of days in that period and dividing the result by 365.
- (9) The entity cannot deduct anything for an asset referred to in this section under the former Act for any part of its calculation year after 30 June 2001.
 - (10) You are entitled to a further deduction for a depreciating asset for which you are using the diminishing value method if the sum of the deductions worked out under paragraphs (2)(a) and (b) (the ***sum amount***) is less than the deduction to which you would have been entitled for the asset if the former Act had continued to apply to the whole of the calculation year (the ***former Act amount***).
 - (11) You increase the amount worked out under paragraph (2)(b) by the difference between the former Act amount and the sum amount.

40-70 References to amounts deducted and reductions in deductions

- (1) A reference in the new Act to an amount that you have deducted or can deduct for a depreciating asset under Division 40 of the new Act includes a reference to an amount that you have deducted or can deduct for a capital allowance relating to the asset under the former Act or the *Income Tax Assessment Act 1936*.
- (2) An amount you have deducted or can deduct for a water facility under Subdivision 387-B of the former Act or section 75B of the

Income Tax Assessment Act 1936 is taken to have been deducted under Subdivision 40-F of the new Act.

- (3) A reference in the new Act to a reduction in your deduction for a depreciating asset includes a reference to amounts by which your deductions for the asset were reduced under the former Act or the *Income Tax Assessment Act 1936*.

40-75 Mining expenditure incurred after 1 July 2001 on an asset

- (1) This section applies to you if:
- (b) you hold a depreciating asset (except a mining, quarrying or prospecting right that you started to hold before 1 July 2001) that you:
 - (i) started to hold under a contract entered into before 1 July 2001; or
 - (ii) constructed where the construction started before that day; or
 - (iii) started to hold in some other way before that day; and
 - (c) your expenditure on the asset, whenever incurred, would have been allowable capital expenditure, transport capital expenditure or expenditure on exploration or prospecting within the meaning of Division 330 of the former Act if it had been incurred before 1 July 2001.
- (2) If you incur expenditure on the asset after 30 June 2001 that forms part of the cost of the asset, you can deduct the expenditure for the income year in which you incur it if it would have been expenditure on exploration or prospecting within the meaning of Division 330 of the former Act.
- (3) Otherwise, Subdivision 40-B of the new Act applies to the asset on the basis that it has a cost, and an adjustable value, of zero at the start of 1 July 2001, and an effective life on that day or at its start time, whichever is the later, worked out under subsection (4) of this section.
- (4) The effective life of the depreciating asset is the shorter of its effective life worked out under Division 40 and:
-

-
- (a) if the expenditure on the asset was incurred in relation to eligible mining operations other than in the course of petroleum mining—the shorter of:
 - (i) 10 years; and
 - (ii) the number of whole years in the estimated life of the mine or proposed mine to which the expenditure relates or, if there is more than one such mine, of the mine that has the longest estimated life; or
 - (b) if the expenditure on the asset was incurred in relation to eligible mining operations in the course of petroleum mining—the shorter of:
 - (i) 10 years; and
 - (ii) the number of whole years in the estimated life of the petroleum field or proposed petroleum field to which the expenditure relates; or
 - (c) if the expenditure on the asset was incurred in relation to eligible quarrying operations—the shorter of:
 - (i) 20 years; or
 - (ii) the number of whole years in the estimated life of the quarry or proposed quarry to which the expenditure relates or, if there is more than one such quarry, of the quarry that has the longest estimated life.

40-77 Mining, quarrying or prospecting rights or information held before 1 July 2001

- (1) Division 40 of the new Act does not apply to a mining, quarrying or prospecting right that you started to hold before 1 July 2001.

Note: If you incur expenditure relating to assets of that kind, you cannot deduct it under Division 40. However, the expenditure may be taken into account in calculating a capital gain or capital loss under Part 3-1 or 3-3 of the *Income Tax Assessment Act 1997*.

- (2) If, after 30 June 2001:
 - (a) you dispose of a mining, quarrying or prospecting right that you started to hold before 1 July 2001 to an associate of yours; or
 - (b) you enter into an arrangement in relation to such a right under which you maintain, in essence, the economic ownership of the right but not its legal ownership;
-

the cost of the right to the purchaser is limited, for the purposes of Division 40 of the new Act, to a maximum of the costs that would have been deductible for the right under Division 330 of the former Act.

- (3) An amount that would be included in your assessable income under section 15-40 or subsection 40-285(1) of the new Act in respect of mining, quarrying or prospecting information you started to hold before 1 July 2001 is reduced (but not below zero) by so much of the capital cost of acquiring the information that you incurred before that day and that:
- (a) you have not deducted and cannot deduct (either immediately or over time) under the former Act; and
 - (b) did not form part of allowable capital expenditure under the former Act; and
 - (c) did not entitle you to a deduction under section 330-235 of the former Act;
- but only to the extent that you have not already applied the amount under this section.

40-80 Other expenditure incurred after 1 July 2001 on a depreciating asset

- (1) This section applies to you if:
- (a) you incur expenditure after 30 June 2001 that forms part of the cost of a depreciating asset; and
 - (b) the depreciating asset is one that you:
 - (i) started to hold under a contract entered into before 1 July 2001; or
 - (ii) constructed where the construction started before that day; or
 - (iii) started to hold in some other way before that day; and
 - (c) if you had incurred the expenditure before 1 July 2001, and had satisfied any relevant requirement for deductibility, you would have been able to deduct an amount for it under Division 44, 373 or 380, or Subdivision 46-B or 387-G, of the former Act.

-
- (2) Subdivision 40-B of the new Act applies to the asset on the basis that it has a cost, and an adjustable value, of zero at the start of 1 July 2001.

40-85 Excess deductions

You can deduct any amount of new EPE (see sections 330-30 and 330-35 of this Act) you have at the end of your 2000-01 income year, reduced by the total of the relevant amounts (see subsections 330-30(4) and 330-35(4) of this Act) for an earlier applicable year (see subsections 330-30(3) and 330-35(3) of this Act).

Subdivision 40-C—Cost

Table of sections

40-230 Car limit

40-230 Car limit

- (1) Division 40 of the new Act applies as if references in that Division to the car limit included references to:
- (a) the car depreciation limit under Division 42 of the former Act; and
 - (b) the motor vehicle depreciation limit under section 57AF of the *Income Tax Assessment Act 1936*.
- (2) If you:
- (a) have a substituted accounting period; and
 - (b) start to hold a car in your 2001-02 income year but before 1 July 2001;
- you must use as the car limit the car depreciation limit under section 42-80 of the former Act for the 2000-01 financial year.

Subdivision 40-D—Balancing adjustments

Table of sections

40-285 Balancing adjustments
 40-290 Reduction of deductions under former Act etc.
 40-295 Later year relief

- 40-340 Roll-overs
- 40-345 Balancing adjustments for depreciating assets that retain CGT indexation

40-285 Balancing adjustments

- (1) Paragraphs 40-285(1)(a) and (2)(a) of the new Act have effect in relation to a depreciating asset that you held at 1 July 2001 as if amounts you have deducted or can deduct for the asset under the former Act or the *Income Tax Assessment Act 1936* were part of the asset's decline in value under Division 40.
- (2) You are entitled to a further deduction under subsection (3) if:
 - (a) you are entitled to a deduction under subsection 40-285(2) of the new Act for a balancing adjustment event happening to a depreciating asset:
 - (i) to which Division 58 of the former Act applied; or
 - (ii) to which section 61A of the *Income Tax Assessment Act 1936* applied, or for which the transition time under Division 57 of Schedule 2D to that Act occurred before 1 July 2001; and
 - (b) you would have been entitled to a further deduction under section 42-197 of the former Act.
- (3) The amount of the further deduction is the amount worked out under section 42-197 of the former Act.
- (4) Division 40 of the new Act applies to a balancing adjustment event that occurs on or after 1 July 2001 for a depreciating asset you hold if you held the asset on that day.
- (5) The amount included in your assessable income under subsection 40-285(1) or section 40-370 of the new Act for a balancing adjustment event happening to a depreciating asset is reduced if:
 - (a) the asset is either:
 - (i) a depreciating asset that is not plant and that you started to hold under a contract entered into before 1 July 2001, you constructed where the construction started before that day or you started to hold in some other way before that day; or

- (ii) plant that you acquired at or before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999; and
- (b) any capital gain or capital loss would be disregarded (if Part 3-1 of the new Act applied):
 - (i) because of section 118-5 (about cars, motor cycles and valour decorations); or
 - (ii) because of section 118-10 (about collectables); or
 - (iii) because of section 118-12 (about plant used to produce exempt income); or
 - (iv) because the asset was a pre-CGT asset at the time of the balancing adjustment event.

(6) The reduction is:

$$\text{Termination value} - \text{Cost} - \frac{\text{Sum of reductions}}{\text{Total decline}}$$

where:

sum of reductions is the sum of the reductions in your deductions for the asset because you did not use it for a particular purpose.

total decline is the decline in value of the depreciating asset since you started to hold it.

- (7) Section 118-24 of the new Act applies to CGT event A1 (disposal of a CGT asset) happening to a depreciating asset if the event happens:
 - (a) if the depreciating asset is plant—at or before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999; or
 - (b) if the depreciating asset is not plant—before 1 July 2001;
 where:
 - (c) the time of the event is when you entered into the contract for the disposal of the asset; and
 - (d) the change in ownership constituting the disposal occurred after the applicable time mentioned in paragraph (a) or (b).

40-290 Reduction of deductions under former Act etc.

Subsection 40-290(2) of the new Act has effect in relation to a depreciating asset that you held at 1 July 2001 as if:

- (a) any amount by which your deductions for the asset were reduced under the former Act or the *Income Tax Assessment Act 1936* because you did not use it for a particular purpose were an amount by which your deductions for the asset were reduced under section 40-25 of the new Act; and
- (b) the ***total decline*** element of the formula in that subsection included all amounts you have deducted or can deduct for the asset under the former Act or the *Income Tax Assessment Act 1936*.

40-295 Later year relief

- (1) You may exclude an amount that has been included in your assessable income for plant as a result of a balancing adjustment event that occurred in your 1999-2000 or 2000-01 income year to the extent that you choose under section 42-290 of the former Act to treat that amount as an amount you have deducted for the decline in value of replacement plant.
- (2) You can only make this choice for the replacement plant if:
 - (a) you acquire it:
 - (i) within 2 income years after the end of the income year in which the balancing adjustment event occurred; and
 - (ii) in your 2001-02 or 2002-2003 income year; and
 - (b) at the end of the income year in which you acquired it, you used it, or had it installed ready for use, wholly for the purpose of producing assessable income; and
 - (c) you can deduct an amount for its decline in value; and
 - (d) you had not made a choice under section 42-285 or 42-293 of the former Act for the balancing adjustment event.

-
- (3) The adjustable value of the replacement plant is reduced by the amount covered by the choice as at the first day of the income year in which you acquired it.

40-340 Roll-overs

- (1) This section applies to an entity (the *transferee*) if:
- (a) there is roll-over relief under section 40-340 of the new Act as a result of a balancing adjustment event happening to plant; and
 - (b) the transferor referred to in that section was working out the decline in value of the plant under subsection 40-10(3) of this Act.

Plant acquired before 21 September 1999

- (2) The transferee works out the decline in value of the plant under subsection 40-10(3) or 40-12(3) of this Act using the same method as the transferor if:
- (a) the transferor started to hold the plant under a contract entered into at or before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999; or
 - (b) the transferor constructed it and the construction started at or before that time; or
 - (c) the transferor acquired it in some other way at or before that time; or
 - (d) the transferor acquired it from an entity that was working out the decline in value of the plant under subsection 40-10(3) of this Act and paragraph (a), (b) or (c) of this subsection applied to that entity or to the earliest successive transferor.

Small business taxpayers

- (3) The transferee also works out the decline in value of the plant under subsection 40-10(3) of this Act using the same method as the transferor if:
- (a) the plant was not acquired as mentioned in subsection (2); and

(b) the transferor, or an earlier successive transferor, was using a rate for the plant under subsection 42-160(1) or 42-165(1) of the former Act; and

(c) the conditions set out in this table are satisfied:

Conditions for small business taxpayers retaining accelerated rates

Item Condition

1	The transferee must have been a small business taxpayer for the income year (the <i>start year</i>) that includes the time when the entity first used the plant, or first had it installed ready for use.
2	At that time, at least 50% of the transferee's intended use of the plant must be in carrying on a business for the purpose of producing assessable income.
3	At that time, neither of these applies: (a) it could reasonably be expected that, because of the plant's use, whether in connection with another asset or not, the transferee would not be a small business taxpayer for the income year following the start year or for either of the next 2 income years; (b) the plant is being or is intended to be let predominantly on a lease of a kind specified in subsection (5).

(4) For the purposes of item 2 in the table in subsection (3), an entity is treated as if it is not carrying on a business in relation to the activities of a partnership in which the entity is a partner unless the entity is connected with the partnership.

(5) A lease of plant referred to in item 3 of the table in subsection (3) is an agreement (including a renewal of an agreement) under which the holder of the plant grants a right to use the plant to another entity, but not a hire purchase agreement or a short-term hire agreement.

(6) The transferee works out the decline in value of the plant by:
 (a) for the diminishing value method—replacing the component in the formula in subsection 40-70(1) of the new Act that includes the plant's effective life with the rate the transferor, or the earliest successive transferor, was using; or
 (b) for the prime cost method:
 (i) replacing the component in the formula in subsection 40-75(1) of the new Act that includes the plant's

effective life with the rate the transferor, or the earliest successive transferor, was using; and

- (ii) increasing the plant's cost under Division 42 of the former Act by any amounts included in the second element of the plant's cost after 30 June 2001.

40-345 Balancing adjustments for depreciating assets that retain CGT indexation

- (1) The amount included in your assessable income under subsection 40-285(1) or 104-240(1) of the new Act as a result of a balancing adjustment event occurring for:
 - (a) plant that you acquired at or before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999; or
 - (b) a depreciating asset that is not plant and that you acquired before 1 July 2001;
 is reduced (but not below nil) if:
 - (c) for a paragraph (a) case—there would have been a reduction under subsection 42-192(2) of the former Act as a result of that event; or
 - (d) for a paragraph (b) case—there would have been a reduction under subsection 42-192(2) of the former Act as a result of that event if the asset were plant.
- (2) The amount of the reduction is the amount worked out under subsection 42-192(2) of the former Act.
- (3) There is no reduction under subsection (1) to an amount included in your assessable income under subsection 104-240(1) if the balancing adjustment event results in a discount capital gain under Division 115.
- (4) However, you can choose not to make a reduction under subsection (1) and instead take advantage of the discount capital gain.
- (5) Subsection (6) applies to an entity (the *transferee*) if there is roll-over relief under section 40-340 of the new Act as a result of a balancing adjustment event happening to a depreciating asset held by the transferee.

- (6) Subsections (1), (2), (3) and (4) apply also to the transferee if:
- (a) for a depreciating asset that is plant:
 - (i) the transferor referred to in section 40-340 of the new Act started to hold the plant under a contract entered into at or before 11.45 am, by legal time in the Australian Capital Territory, on 21 September 1999; or
 - (ii) the transferor constructed it and the construction started at or before that time; or
 - (iii) the transferor acquired it in some other way at or before that time; or
 - (iv) the transferor acquired it from an entity that was working out the decline in value of the plant under subsection 40-10(3) or 40-12(3) of this Act and subparagraph (i), (ii) or (iii) of this paragraph applied to that entity or to the earliest successive transferor; or
 - (b) for a depreciating asset that is not plant:
 - (i) the transferor started to hold the asset under a contract entered into before 1 July 2001; or
 - (ii) the transferor constructed it and the construction started at or before that day; or
 - (iii) the transferor acquired it in some other way before that day.

Subdivision 40-E—Low-value and software development pools

40-425	Allocating depreciating assets to low-value pools
40-450	Software development pools

40-420 Low-value pools under Division 42 continue

- (1) A low-value pool you created under Subdivision 42-M of the former Act continues under the new Act as if it had been created under Subdivision 40-E of the new Act.
 - (2) For the purposes of working out the decline in value of depreciating assets in such a pool for your income year in which 1 July 2001 occurs, step 3 of the method statement in subsection
-

40-440(1) of the new Act applies to the pool closing balance, worked out under section 42-470 of the former Act, for the income year before that year.

40-425 Allocating depreciating assets to low-value pools

You can allocate a depreciating asset to a low-value pool under section 40-425 of the new Act if:

- (a) you hold the asset at the start of 1 July 2001; and
- (b) the conditions in subsection 42-455(3) of the former Act are satisfied for the asset at the end of the previous income year.

40-450 Software development pools

Subsection 40-450(2) of the new Act has effect as if the reference to expenditure being allocated to a software development pool included a reference to expenditure being allocated to a software pool under Division 46 of the former Act.

Subdivision 40-F—Primary production depreciating assets

Table of sections

40-520	Special rule for water facilities you no longer hold
40-525	Amounts deducted for water facilities

40-515 Water facilities, grapevines and horticultural plants

- (1) This section applies to you if you have deducted or can deduct an amount under Division 387 of the former Act for an amount (the *qualifying amount*) of expenditure on any of these (the *primary production asset*):
- (a) the construction, manufacture, installation or acquisition of a water facility; or
 - (b) the establishment of horticultural plants; or
 - (c) the establishment of grapevines;
- and you would have been able to deduct amounts for the qualifying amount for the income year in which 1 July 2001 occurs under the former Act if it had continued to apply.
-

- (2) Subdivision 40-F of the new Act applies to the primary production asset on this basis:
- (a) the qualifying amount is taken to be:
 - (i) for a water facility—the amount of capital expenditure you incurred on the construction, manufacture, installation or acquisition of the water facility; or
 - (ii) for a horticultural plant or a grapevine—the amount of capital expenditure incurred that is attributable to the establishment of the plant or grapevine; and
 - (b) for horticultural plants, you use the effective life determined under section 387-175 of the former Act; and
 - (c) amounts that have been deducted or can be deducted for the qualifying amount under the former Act or the *Income Tax Assessment Act 1936* are taken to be a decline in value under Subdivision 40-F of the new Act.

40-520 Special rule for water facilities you no longer hold

- (1) This section applies to you if:
- (a) you have deducted or can deduct an amount under Division 387 of the former Act for an amount (the *qualifying amount*) of expenditure on a water facility; and
 - (b) you do not hold the water facility at the start of 1 July 2001.
- (2) Subdivision 40-F of the new Act applies to the water facility on the basis specified in subsection 40-515(2) of this Act, and no other taxpayer can deduct amounts for it under the new Act.

40-525 Amounts deducted for water facilities

The reference in subsection 40-555(1) of the new Act to a person having deducted or being able to deduct an amount under Subdivision 40-F of the new Act for expenditure on a water facility includes a reference to the person having deducted or being able to deduct an amount for it under:

- (a) Subdivision 387-B of the former Act; or
- (b) section 75B of the *Income Tax Assessment Act 1936*.

49B Special rules for fixtures that are depreciating assets—Income Tax Assessment Act 1997

- (1) This section applies if:
 - (a) a company obtains a lease relating to particular land under section 21, 22 or 23; and
 - (b) at the time the lease was obtained, a depreciating asset is attached to the land.
- (2) If:
 - (a) just before the land vested in the Commonwealth under Part 2:

- (i) the part of the land to which the depreciating asset was attached was held by another entity under a quasi-ownership right over land granted by an exempt Australian government agency; and
 - (ii) the other entity was the holder of the asset; and
 - (b) on the grant of the lease referred to in paragraph (1)(a), the other entity became a sub-lessee of the company; then, so long as the other entity continues to hold the sub-lease of that part of the land from the company or a successor, the other entity is taken to hold the asset.
- (3) If:
- (a) subsection (2) does not apply to the depreciating asset; and
 - (b) the FAC was the holder of the asset just before the land vested in the Commonwealth under Part 2;
- that Division applies to the asset as if:
- (c) the company held the asset; and
 - (d) the amount paid by the company for the grant of the lease were an amount paid for the acquisition of the right.
- (4) However, the Minister for Finance may make a written determination of the cost of the asset referred to in subsection (3) for the purposes of Division 40 of the *Income Tax Assessment Act 1997*.
- Note: If a determination is made, the cost of the asset will be determined under item 10 of the table in subsection 40-180(2) of the *Income Tax Assessment Act 1997*.
- (5) The FAC must give the Minister for Finance such information as the Minister for Finance requires about the application of Subdivision 40-D of the *Income Tax Assessment Act 1997* to the asset and to the FAC.
- (6) This section does not affect the operation of section 19 of the *Civil Aviation Legislation Amendment Act 1995*.
- (7) In this section:
- entity* has the same meaning as in section 49A.

5 After section 50A

Insert:

**50B Acquisition of depreciating asset from the Commonwealth—
Division 40 of the Income Tax Assessment Act 1997**

- (1) This section applies to a depreciating asset that:
 - (a) was transferred from the Commonwealth to a company under section 23; and
 - (b) at the time of transfer, was not attached to land.
- (2) The Minister for Finance may make a written determination of the cost of the asset for the purposes of Division 40 of the *Income Tax Assessment Act 1997*.

Note: If a determination is made, the cost of the plant will be determined under item 10 of the table in subsection 40-180(2) of the *Income Tax Assessment Act 1997*.
- (3) The FAC must give the Minister for Finance such information as the Minister for Finance requires about the application of Subdivision 40-D of the *Income Tax Assessment Act 1997* to the asset and to the FAC.

6 After section 51A

Insert:

**51B Acquisition of depreciating asset from the FAC—Division 40 of
the Income Tax Assessment Act 1997**

- (1) This section applies to a depreciating asset that was transferred from the FAC to a company under section 30.
- (2) The Minister for Finance may make a written determination of the cost of the asset for the purposes of Division 40 of the *Income Tax Assessment Act 1997*.

Note: If a determination is made, the cost of the plant will be determined under item 10 of the table in subsection 40-180(2) of the *Income Tax Assessment Act 1997*.
- (3) The FAC must give the Minister for Finance such information as the Minister for Finance requires about the application of

Subdivision 40-D of the *Income Tax Assessment Act 1997* to the asset and to the FAC.

7 Subsection 52A(2) (note)

Repeal the note, substitute:

Note: If such a determination is relevant to working out a balancing adjustment, the termination value of the plant will be determined under item 13 or 14 of the table in former section 42-205 of the *Income Tax Assessment Act 1997*, or item 11 of the table in subsection 40-300(2) of that Act.

8 Subsection 52A(3)

Repeal the subsection.

73 Subsection 159GF(1)

Repeal the subsection, substitute:

- (1) Subject to subsection 159GJ(1), in this Division a reference to the residual amount at a particular time (in this subsection referred to as the *relevant time*) in relation to the eligible amount by reason of

which an item of property is eligible depreciation property at the relevant time is a reference to the eligible amount reduced by:

- (a) where the item of property was not dealt with by the taxpayer who holds the item in the prescribed manner at any time during the period (in this subsection referred to as the **relevant period**) before the relevant time when it was held by the taxpayer (within the meaning of Division 40 of the *Income Tax Assessment Act 1997*)—the total amount of deductions for depreciation or decline in value that would, but for any deduction denying provision, have been allowable to the taxpayer under this Act or the *Income Tax Assessment Act 1997* in respect of that item of property for the relevant period if:
 - (i) at all times during the relevant period the taxpayer had wholly and exclusively dealt with the item of property in the prescribed manner; and
 - (ii) those deductions were calculated using the diminishing value method; and
 - (iii) section 57AG, as in force immediately before the commencement of section 1 of the *Taxation Laws Amendment Act 1992*, did not apply in relation to the item of property;
- (b) where the item of property was wholly and exclusively dealt with by the taxpayer who held the item in the prescribed manner at all times during the relevant period—the total amount of deductions for depreciation or decline in value that were or, but for any deduction denying provision, would have been, allowed or allowable to the taxpayer in respect of the item of property for that period under this Act or the *Income Tax Assessment Act 1997*; and
- (c) in any other case—the total amount of deductions for depreciation or decline in value that, but for any deduction denying provision, would have been allowable to the taxpayer who holds the item of property in respect of the item under this Act or the *Income Tax Assessment Act 1997* for the relevant period if:
 - (i) the taxpayer had wholly and exclusively dealt with the item of property in the prescribed manner at all times during the relevant period; and

- (ii) in respect of any part of the relevant period for which deductions for depreciation or decline in value were or, but for any deduction denying provision, would have been allowed or allowable under this Act or the *Income Tax Assessment Act 1997*—the deductions were allowable on the same basis and at the same percentage as was or would have been allowed or allowable for that part of the relevant period; and
- (iii) in respect of any other part (in this subparagraph referred to as the ***relevant part***) of the relevant period—the deductions were allowable:
 - (A) where the relevant part was immediately succeeded by another part of the relevant period in respect of which deductions for depreciation or decline in value were or, but for any deduction denying provision, would have been allowed or allowable under this Act or the *Income Tax Assessment Act 1997*—on the same basis and at the same percentage as was or would have been allowed or allowable in respect of that other part; and
 - (B) in any other case—on the same basis and at the same percentage as was or, but for any deduction denying provision, would have been allowed or allowable under this Act or the *Income Tax Assessment Act 1997* in respect of the part of the relevant period for which deductions for depreciation or decline in value was or would have been allowed or allowable, being the part that immediately preceded the relevant part.

- (6) In this Division, a reference to the residual amount at a particular time in relation to an amount of expenditure because of which an item of property is an eligible spectrum licence is a reference to:
 - (a) the amount of unrecouped expenditure (within the meaning of the former section 380-20 of the *Income Tax Assessment Act 1997*) on that licence at that time; or
 - (b) the adjustable value of that licence (within the meaning of Division 40 of that Act) at that time.

81 Subparagraph 159GJ(1)(c)(iii)

Repeal the subparagraph, substitute:

- (iii) in relation to any part (in this subsection referred to as the *post-application part*) of the year of income that occurs after the application period (not being a part that occurs after the commencement of a subsequent application period):

- (A) the residual amount in relation to the item of eligible depreciation property at any time (in this sub-subparagraph referred to as the **relevant time**) during the post-application part is an amount ascertained in accordance with the formula:

$$A \ominus B - C$$

where:

A is the amount that, but for this application of this section, would be the residual amount at the relevant time in relation to the eligible amount (in this subparagraph referred to as the **relevant eligible amount**) by reason of which the item is an item of eligible depreciation property.

B is:

- (a) where paragraph (b) of this component does not apply—the amount that, in determining the residual amount in component A, would be taken into account as depreciation under subsection 159GF(1) in respect of the application period; and
- (b) where, in determining the residual amount in component A, depreciation deductions taken into account in respect of the post-application part would be calculated under this Act or the *Income Tax Assessment Act 1997* using the diminishing value method—the amount that, in determining the residual amount in component A, would be taken into account under subsection 159GF(1) as depreciation deductions in respect of the application period and the part of the post-application part before the relevant time; and

C is:

- (a) where paragraph (a) of component B applies—an amount equal to the total notional principal in relation to the relevant

- eligible amount in relation to the application period; and
- (b) where paragraph (b) of component B applies—the sum of:
 - (i) the total notional principal in relation to the relevant eligible amount in relation to the application period; and
 - (ii) the amount that, in determining the residual amount in component A, would be taken into account as depreciation deductions under subsection 159GF(1) in respect of the part of the post-application part before the relevant time if the depreciated value under this Act, the undeducted cost under the former Division 42 of the *Income Tax Assessment Act 1997* or the adjustable value under Division 40 of that Act, of the item of eligible depreciation property at the beginning of the year of income in which this Division ceases to apply were equal to the residual amount at the beginning of the application period as reduced by the total notional principal in relation to the relevant eligible amount in relation to the application period;
 - (B) for the purposes of any application of this Act or the *Income Tax Assessment Act 1997*, in relation to the item of property in relation to the post-application part—the depreciated value, within the meaning of Division 3 of this Part, the undeducted cost under the former Division 42 of the *Income Tax Assessment Act 1997* or the adjustable value under Division 40 of that Act, of the item of property at any time during the post-application part shall be taken to be an amount equal to the residual amount in relation to the relevant eligible amount at that
-

time as ascertained in accordance with sub-subparagraph (A); and

- (C) the depreciation deduction (if any) allowable to a taxpayer in relation to the item of property in relation to the post-application part is the depreciation deduction that would be allowable in respect of that period if this Division did not apply and, in the case of an item of property in relation to which paragraph 56(1)(a) of this Act or the diminishing value method under the former Division 42, or Division 40, of the *Income Tax Assessment Act 1997* would, apart from this Division, apply, if the depreciated value, within the meaning of Division 3 of this Part, the undeducted cost, under the former Division 42 of the *Income Tax Assessment Act 1997* or the adjustable value under Division 40 of that Act, of the item of property at the beginning of the year of income were equal to the residual amount, as ascertained under sub-subparagraph (A), in relation to the relevant eligible amount at the commencement of the post-application part;

------	------------	--

201 Subsection 20-40(2) (example)

Repeal the example, substitute:

Example: At the start of the 2002-03 income year, a company incurs \$100,000 to start to hold a depreciating asset. The company uses the prime cost method, and the effective life is 10 years. \$10,000 is deductible for the 2002-03 income year and for each of the following 9 income years under section 40-25.

In the 2002-03 income year, the company receives \$20,000 as recoupment. How much is assessable for the 2002-03 income year?

Applying the method statement:

After step 1: the total assessable recoupment is \$20,000.

After step 2: the recoupment already assessed is nil.

After step 3: the unassessed recoupment is:
total assessable recoupment minus recoupment already assessed,
i.e. \$20,000 minus 0 = \$20,000.

After step 4: the total deductions for the loss or outgoing are \$10,000.

After step 5: the outstanding deductions are:
total deductions for the loss or outgoing minus recoupment already
assessed, i.e. \$10,000 minus 0 = \$10,000.

After step 6: the unassessed recoupment (step 3) is greater than
outstanding deductions (step 5), so the amount of the outstanding
deductions is included in assessable income, i.e. \$10,000.

Applying the method statement to the 2003-04 income year: a further
\$10,000 is included in the company's assessable income.

202 Subsection 20-45(1) (note)

Omit "section 40-25", substitute "Subdivision 40-D".

203 Subsection 20-45(3) (example)

Repeal the example, substitute:

Example: Continuing the example in subsection 20-40(2): at the start of the
2005-06 income year, the company:

- receives a further \$10,000 as recoupment; and
- sells the depreciating asset for \$75,000.

As a result of the sale, a balancing adjustment of \$5,000 is included
under section 40-285 in the company's assessable income for that
income year.

How much of the recoupment amount received in the 2005-06 income
year is assessable for that income year?

Applying the method statement in subsection 20-40(2):

After step 1: the total assessable recoupment is \$30,000 (received
during 2002-03 and 2005-06).

After step 2: the recoupment already assessed is \$20,000 (for 2002-03
and 2003-04).

After step 3: the unassessed recoupment is:
total assessable recoupment minus recoupment already assessed,
i.e. \$30,000 minus \$20,000 = \$10,000.

After step 4: the total deductions for the loss or outgoing are \$30,000 (\$10,000 for each of 2002-03, 2004-04 and 2004-05), reduced by \$5,000 (the amount included in assessable income for the balancing adjustment), i.e. \$25,000.

After step 5: the outstanding deductions are:
total deductions for the loss or outgoing minus recoupment already assessed, i.e. \$25,000 minus \$20,000 = \$5,000.

After step 6: the unassessed recoupment (step 3) is greater than outstanding deductions (step 5), so the amount of the outstanding deductions is included in assessable income, i.e. \$5,000.

Subdivision 27-B—Division 40

Table of sections

27-80	Cost or opening adjustable value of depreciating assets reduced for input tax credits
27-85	Cost or opening adjustable value of depreciating assets reduced: decreasing adjustments
27-90	Cost or opening adjustable value of depreciating assets increased: increasing adjustments
27-95	Balancing adjustment events
27-100	Pooling
27-105	Other Division 40 expenditure
27-110	Input tax credit etc. relating to 2 or more things

27-80 Cost or opening adjustable value of depreciating assets reduced for input tax credits

- (1) A *depreciating asset's *cost is reduced if:
- (a) an entity's acquisition or importation of the asset constitutes a *creditable acquisition or *creditable importation; and
 - (b) the entity is or becomes entitled to an *input tax credit for the acquisition or importation; and
 - (c) the entity can deduct amounts for the asset under Division 40 or 328.

The reduction is the amount of the input tax credit.

- (2) A *depreciating asset's *cost is also reduced if:
- (a) the entity that *holds the asset incurs expenditure that is included in the second element of the asset's *cost for the income year in which the asset's *start time occurs; and
 - (b) the entity is or becomes entitled to an *input tax credit for the *creditable acquisition or *creditable importation to which the expenditure relates; and
 - (c) the entity can deduct amounts for the asset under Division 40 or 328.

The reduction is the amount of the input tax credit.

- (3) However, subsections (1) and (2) do not apply if the *cost of the *depreciating asset is modified under Division 40 to be its *market value.

- (3A) A *depreciating asset's *opening adjustable value for an income year is reduced if:

- (a) an entity's acquisition or importation of the asset constitutes a *creditable acquisition or *creditable importation; and
 - (b) the entity is or becomes entitled to an *input tax credit in an income year (the *credit year*) for the acquisition or importation and the credit year occurs after the income year in which the acquisition or importation occurred; and
 - (c) the income year is after the one in which the asset's *start time occurs; and
 - (d) the entity can deduct amounts for the asset under Division 40 or 328.
- (4) A *depreciating asset's *opening adjustable value for an income year is reduced if:
- (a) the entity that *holds the asset incurs expenditure that is included in the second element of the asset's cost for that income year; and
 - (b) that income year is after the one in which the asset's *start time occurs; and
 - (c) the entity is or becomes entitled to an *input tax credit for the *creditable acquisition or *creditable importation to which the expenditure relates for the income year in which the expenditure was incurred; and
 - (d) the entity can deduct amounts for the asset under Division 40 or 328.

The reduction is the amount of the input tax credit.

- (5) If the reduction under subsection (2) or (4) is more than:
- (a) for a subsection (2) case—the *depreciating asset's *cost; or
 - (b) for a subsection (4) case—the depreciating asset's *opening adjustable value;
- the excess is included in the entity's assessable income unless the entity is an *exempt entity.

Exception: pooling

- (6) This section does not apply to:
- (a) a depreciating asset allocated to a low-value pool or a pool under Division 328 for or in the *current year; or

- (b) *in-house software if expenditure on the software is allocated to a software development pool for the current year; or
- (c) a project pool.

27-85 Cost or opening adjustable value of depreciating assets reduced: decreasing adjustments

- (1) This section applies to an entity if:
 - (a) the entity can deduct amounts for a *depreciating asset under Division 40 or 328; and
 - (b) the entity has a *decreasing adjustment in an income year that relates directly or indirectly to the asset.
- (1A) However, this section does not apply to a *decreasing adjustment that arises under Division 129 or 132 of the *GST Act.

Note: See instead section 27-87.
- (2) The asset's *cost is reduced by an amount equal to the *decreasing adjustment if the adjustment arises in the income year in which the asset's *start time occurs.
- (3) The asset's *opening adjustable value for an income year is reduced by an amount equal to the *decreasing adjustment if the adjustment arises in that year and that year is after the one in which the asset's *start time occurs.
- (4) If the reduction under subsection (2) or (3) is more than:
 - (a) for a subsection (2) case—the *depreciating asset's *cost; or
 - (b) for a subsection (3) case—the depreciating asset's *opening adjustable value;the excess is included in the entity's assessable income unless the entity is an *exempt entity.

Exception: pooling

- (5) This section does not apply to:
 - (a) a depreciating asset allocated to a low-value pool or a pool under Division 328 for or in the *current year; or
 - (b) *in-house software if expenditure on the software is allocated to a software development pool for the current year; or
-

-
- (c) a project pool.

27-87 Certain decreasing adjustments included in assessable income

- (1) This section applies to an entity if:
 - (a) the entity can deduct amounts for a *depreciating asset under Division 40 or 328; and
 - (b) the entity has a *decreasing adjustment that arises under Division 129 or 132 of the *GST Act in an income year that relates directly or indirectly to the asset.
- (2) The amount of the *decreasing adjustment is included in the entity's assessable income for the income year unless the entity is an *exempt entity.

27-90 Cost or opening adjustable value of depreciating assets increased: increasing adjustments

- (1) This section applies to an entity if:
 - (a) the entity can deduct amounts for a *depreciating asset under Division 40 or 328; and
 - (b) the entity has an *increasing adjustment in an income year that relates directly or indirectly to the asset.
- (1A) However, this section does not apply to an *increasing adjustment that arises under Division 129 or 132 of the *GST Act.
Note: See instead section 27-92.
- (2) The asset's *cost is increased by an amount equal to the *increasing adjustment if the adjustment arises in the income year in which the asset's *start time occurs.
- (3) The asset's *opening adjustable value for an income year is increased by an amount equal to the *increasing adjustment if the adjustment arises in that year and that year is after the one in which the asset's *start time occurs.

Exception: pooling

- (4) This section does not apply to:

- (a) a depreciating asset allocated to a low-value pool or a pool under Division 328 for or in the *current year; or
- (b) *in-house software if expenditure on the software is allocated to a software development pool for the current year; or
- (c) a project pool.

27-92 Certain increasing adjustments can be deducted

- (1) This section applies to an entity if:
 - (a) the entity can deduct amounts for a *depreciating asset under Division 40 or 328; and
 - (b) the entity has an *increasing adjustment that arises under Division 129 or 132 of the *GST Act in an income year that relates directly or indirectly to the asset.
- (2) The entity can deduct the amount of the *increasing adjustment for the income year.
- (3) However, the entity cannot deduct the amount to the extent (if any) that the adjustment arises from an increase in the extent to which the activity giving rise to the adjustment is of a private or domestic nature.

27-95 Balancing adjustment events

- (1) The *termination value of a *depreciating asset is reduced if the relevant *balancing adjustment event is a *taxable supply. The reduction is an amount equal to the *GST payable on the supply.
 - (2) However, subsection (1) does not apply if the *termination value of the *depreciating asset is modified under Division 40 to be its *market value.
 - (3) The *termination value of a *depreciating asset is increased if the entity that *held the asset has a *decreasing adjustment that relates directly or indirectly to that *taxable supply in the income year in which the *balancing adjustment event occurred. The increase is the amount of the decreasing adjustment.
 - (4) The *termination value of a *depreciating asset is decreased if the entity that *held the asset has an *increasing adjustment that relates
-

directly or indirectly to that *taxable supply in the income year in which the *balancing adjustment event occurred. The decrease is the amount of the increasing adjustment.

- (5) An amount is included in the assessable income of the entity that *held the asset if the entity has a *decreasing adjustment that relates directly or indirectly to that *taxable supply in a later income year. The amount included is the amount of the decreasing adjustment.
- (6) The entity that *held the asset can deduct an amount if the entity has an *increasing adjustment that relates directly or indirectly to that *taxable supply in a later income year. The amount it can deduct is the amount of the increasing adjustment.

27-100 Pooling

- (1) This section contains special rules for expenditure (the *pooled expenditure*) incurred by an entity:
 - (a) on a *depreciating asset allocated to a low-value pool; or
 - (b) on a depreciating asset allocated to a pool under Division 328 for or in an income year; or
 - (c) on *in-house software if the expenditure on the software is allocated to a software development pool; and
 - (d) on *project amounts if the amounts are allocated to a project pool.

Reduction to pools etc.

- (2) There is a reduction under subsection (3) or (5) if:
 - (a) the pooled expenditure relates directly or indirectly to a *creditable acquisition or *creditable importation; and
 - (b) the entity is or becomes entitled to an *input tax credit in an income year (the *credit year*) for the acquisition or importation and the credit year occurs after the income year in which the acquisition or importation occurred.
- (2A) There is a reduction under subsection (4) if:
 - (a) the pooled expenditure relates directly or indirectly to a *creditable acquisition or *creditable importation; and

- (b) the entity is or becomes entitled to an *input tax credit in an income year (the *credit year*) for the acquisition or importation.

Reduced cost of assets allocated to a pool

- (2B) A *depreciating asset's *cost is reduced if:
 - (a) an entity's acquisition or importation of the asset constitutes a *creditable acquisition or *creditable importation; and
 - (b) the entity is or becomes entitled to an *input tax credit for the acquisition or importation and the income year in which the acquisition or importation occurred is the same as the one in which the input tax credit arose; and
 - (c) the asset is allocated to a low-value pool or a pool under Division 328 for or in that year.

The reduction is the amount of the input tax credit.

Low-value pools

- (3) For a low-value pool, the *closing pool balance of the pool for:
 - (a) if the credit year is later than the first income year for which *depreciating assets were allocated to the pool—the income year before the credit year; or
 - (b) if the credit year is the first income year for which *depreciating assets were allocated to the pool—the credit year;

is reduced by an amount equal to the input tax credit.

Software development pools and project pools

- (4) For a software development pool or a project pool, the expenditure in the pool for the credit year, or the *pool value for the credit year, is reduced by an amount equal to the *input tax credit.

STS pools

- (5) For a pool under Division 328, the *opening pool balance of the pool for the credit year is reduced by an amount equal to the input tax credit.

No reduction if market value

- (5A) However, there is no reduction to the *cost of a *depreciating asset if its cost is modified under Division 40 to be its *market value.

Second element of cost

- (6) There is a reduction under subsection (7) if:
- (a) the entity incurs expenditure in an income year (also the **credit year**) that is included in the second element of the *cost of a *depreciating asset allocated to a low-value pool or a pool under Division 328 for or in the credit year; and
 - (b) the entity is or becomes entitled, after the credit year, to an *input tax credit for the expenditure.
- (7) An amount equal to the amount of the *input tax credit is applied in reduction of:
- (a) for a low-value pool:
 - (i) if the credit year is later than the first income year for which *depreciating assets were allocated to the pool—the *closing pool balance of the pool for the income year before the credit year; or
 - (ii) if the credit year is the first income year for which *depreciating assets were allocated to the pool—the *closing pool balance of the pool for the credit year; or
 - (b) for a pool under Division 328—the *opening pool balance of the pool for the credit year.
- (7A) There is a reduction to an amount of expenditure included in the second element of the *cost of a *depreciating asset if:
- (a) the asset is allocated to a low-value pool or a pool under Division 328 for or in the income year in which the expenditure was incurred; and
 - (b) the entity that incurred the expenditure is or becomes entitled to an *input tax credit for the expenditure; and
 - (c) the entitlement arises in the income year in which the expenditure was incurred.

The reduction is the amount of the input tax credit.

Increasing adjustments

- (8) There is an increase under subsection (9) if the entity has an *increasing adjustment (except one that arises under Division 129 or 132 of the *GST Act) in an income year (the ***adjustment year***) that relates directly or indirectly to a *creditable acquisition or *creditable importation to which the pooled expenditure relates.

Note: For an increasing adjustment that arises under Division 129 or 132 of the GST Act, see section 27-92.

- (9) An amount equal to the amount of that *increasing adjustment is added to:
- (a) for a low-value pool:
 - (i) if the adjustment year is later than the first income year for which *depreciating assets were allocated to the pool—the *closing pool balance of the pool for the income year before the adjustment year; or
 - (ii) if the adjustment year is the first income year for which *depreciating assets were allocated to the pool—the *closing pool balance of the pool for the adjustment year; or
 - (b) for a pool under Division 328—the *opening pool balance of the pool for the adjustment year; or
 - (c) for *in-house software—the amount of expenditure allocated to the software development pool for the adjustment year; or
 - (d) for a project pool—the *pool value for the adjustment year.

Decreasing adjustments

- (10) There is a decrease under subsection (11) if the entity has a *decreasing adjustment (except one that arises under Division 129 or 132 of the *GST Act) in an income year (also the ***adjustment year***) that relates directly or indirectly to a *creditable acquisition or *creditable importation to which the pooled expenditure relates.

Note: For a decreasing adjustment that arises under Division 129 or 132 of the GST Act, see section 27-87.

- (11) An amount equal to the amount of the *decreasing adjustment is applied in reduction of:
- (a) for a low-value pool:

-
- (i) if the adjustment year is later than the first income year for which *depreciating assets were allocated to the pool—the *closing pool balance of the pool for the income year before the adjustment year; or
 - (ii) if the adjustment year is the first income year for which *depreciating assets were allocated to the pool—the *closing pool balance of the pool for the adjustment year; or
 - (b) for a pool under Division 328—the *opening pool balance of the pool for the adjustment year; or
 - (c) for *in-house software—the amount of expenditure allocated to the software development pool for the adjustment year; or
 - (d) for a project pool—the *pool value for the adjustment year.
- (12) If the amount available for reduction under subsection (11) is more than the amount referred to in paragraph (11)(a), (b), (c) or (d) (whichever is applicable), the excess is included in the entity's assessable income unless the entity is an *exempt entity.

27-105 Other Division 40 expenditure

- (1) This section applies to expenditure for which an entity can deduct amounts under Division 40 (but not under Subdivision 40-B or 40-E, or Subdivision 40-I to the extent that that Subdivision relates to project pools).
- (2) The amount of the expenditure is reduced if the entity is or becomes entitled to an *input tax credit for a *creditable acquisition or *creditable importation to which the expenditure directly or indirectly relates. The reduction is the amount of the input tax credit that relates to that expenditure.
- (3) If the entity has a *decreasing adjustment in an income year that relates directly or indirectly to the expenditure, an amount equal to the decreasing adjustment is included in the entity's assessable income for that income year.
- (4) If the entity has an *increasing adjustment in an income year that relates directly or indirectly to the expenditure, the entity can deduct an amount equal to the increasing adjustment for that income year.

- (5) If the entity is a partnership and section 40-570 or 40-665 applies, an amount equal to the *input tax credit, the *decreasing adjustment or the *increasing adjustment is apportioned to each of the partners as appropriate.
- (6) However, this section does not apply to an *exempt entity.

27-110 Input tax credit etc. relating to 2 or more things

This Subdivision applies to an *input tax credit, or an *increasing adjustment or *decreasing adjustment, that relates directly or indirectly to 2 or more things of which at least one is a *depreciating asset as if a reasonable proportion of the input tax credit or adjustment related directly or indirectly to each of those depreciating assets and each of those other things.

43-72 Meaning of forestry road, timber operation and timber mill building

- (1) A *forestry road* is a road constructed primarily and principally for the purpose of providing access to an area to enable:
 - (a) trees to be planted or tended in the area; or
 - (b) timber felled in the area to be removed.

For this purpose, a road includes any bridge, culvert or similar work forming part of the road.

- (2) A *timber operation* is:
 - (a) planting or tending trees for felling; or
 - (b) felling standing timber; or
 - (c) removing felled timber; or
 - (d) milling felled timber or processing it in another way.
- (3) A *timber mill building* is a building:
 - (a) for use primarily and principally:
 - (i) in carrying on your *business of milling timber for a *taxable purpose; or
 - (ii) as residential accommodation for your employees engaged in connection with the business, or for their dependants; and
 - (b) located in a forest, and in or adjacent to the area where timber milled in the business is, or is to be, felled.

- (b) animals used as beasts of burden or working beasts in a *business, other than a *primary production business; and
- (c) fences, dams and other structural improvements, other than those used for domestic or residential purposes, on land that is used for agricultural or pastoral operations; and
- (d) structural improvements, other than a *forestry road or structural improvements used for domestic or residential purposes, on land used in a business involving:
 - (i) planting or tending trees in a plantation or forest that are intended to be felled; or
 - (ii) felling trees in a plantation or forest; or
 - (iii) transporting trees, or parts of trees, that you felled in a plantation or forest to the place where they are first to be milled or processed, or from which they are to be

transported to the place where they are first to be milled or processed; and

- (e) structural improvements, other than those used for domestic or residential purposes, that are used wholly for operations (carried out in the course of a business) relating directly to:
 - (i) taking or culturing pearls or pearl shell; or
 - (ii) taking or catching trochus, bêche-de-mer or green snails;

and that are situated at or near a port or harbour from which the business is conducted; and

- (f) structural improvements that are excluded from paragraph (c), (d) or (e) because they are used for domestic or residential purposes if they are provided for the accommodation of employees, tenants or sharefarmers who are engaged in or in connection with the activities referred to in that paragraph.

- (2) **Plant** also includes plumbing fixtures and fittings (including wall and floor tiles) provided by an entity mainly for:

- (a) either or both:
 - (i) employees in a *business carried on by the entity for the *purpose of producing assessable income; or
 - (ii) employees in a business carried on for that purpose by a company that is a member of the same *wholly-owned group of which the entity is a member; or
- (b) *children of any of those employees.

- (3) The **written down value** of a *depreciating asset is its *cost less the sum of:

- (a) the amounts you have deducted or can deduct for its decline in value; and
- (b) if section 40-340 applied to your acquisition of it—the amounts the transferor, and earlier successive transferors, deducted or can deduct for its decline in value.

Guide to Division 58

58-1 What this Division is about

This Division sets out special rules that apply in calculating deductions for the decline in value of depreciating assets and balancing adjustments for assets previously owned by an exempt entity if the assets:

- continue to be owned by that entity after the entity becomes taxable; or
- are acquired from that entity, in connection with the acquisition of a business, by a purchaser that is a taxable entity.

There is a choice of 2 methods for each depreciating asset:

- the notional written down value method; and
- the undeducted pre-existing audited book value method.

Subdivision 58-A—Application

Table of sections

58-5 Application of Division

58-10 When an asset is acquired in connection with the acquisition of a business

58-5 Application of Division

- (1) This Division applies in 2 situations.

Entity sale

- (2) The first (an *entity sale situation*) is where:
- (a) at a particular time on or after 1 July 2001, an entity is an exempt entity; and
 - (b) just after that time, the entity's *ordinary income or *statutory income becomes to any extent assessable income.
- (3) In an entity sale situation:
- (a) the entity is a *transition entity*; and
 - (b) the time when the entity's *ordinary income or *statutory income becomes to that extent assessable is the *transition time*; and
 - (c) the income year in which the *transition time occurs is the *transition year* for the entity; and
 - (d) the *depreciating assets the *transition entity *held just before the transition time are *privatised assets*.

Asset sale

- (4) The second (an *asset sale situation*) is where:
- (a) at a particular time on or after 1 July 2001, an entity (the *purchaser*) whose *ordinary income or statutory income is to any extent assessable acquires a *depreciating asset from an *exempt entity; and
 - (b) the asset is acquired in connection with the acquisition of a *business from the exempt entity.
- (5) In an asset sale situation:
- (a) the *exempt entity is the *tax exempt vendor*; and
 - (b) the time when the *depreciating asset is acquired is the *acquisition time*; and

- (c) the income year in which the *acquisition time occurs is the *acquisition year*; and
- (d) each *depreciating asset the purchaser acquires from the *tax exempt vendor at the acquisition time is a *privatised asset*.

58-10 When an asset is acquired in connection with the acquisition of a business

- (1) A *depreciating asset is taken to be acquired in connection with the acquisition of a *business from the *exempt entity if and only if:
 - (a) the asset was used by the exempt entity in carrying on a business and the purchaser or another person uses the asset in carrying on the business; or
 - (b) subsection (2) applies.
- (2) This subsection applies if:
 - (a) the asset was used by the *exempt entity in performing functions, or engaging in activities, that did not constitute the carrying on of a *business by the exempt entity and the asset is used by the purchaser or another person in performing those functions or engaging in those activities as part of carrying on a business; or
 - (b) all of these subparagraphs apply:
 - (i) the acquisition by the purchaser of the asset was connected with the acquisition of another asset by the purchaser or another person from the exempt entity or from an *associate of the exempt entity;
 - (ii) ownership of the other asset gives the purchaser or other person a right, or imposes on the purchaser or other person an obligation, to perform functions or engage in activities as part of the carrying on of a business or confers on the purchaser or other person a commercial advantage or opportunity in connection with performing functions or engaging in activities as part of the carrying on of a business;
 - (iii) the asset is used by the purchaser or other person in performing those functions or engaging in those activities under the right or obligation or in taking the benefit of the advantage or opportunity; or

- (c) the asset was acquired by the purchaser under an *arrangement under which the purchaser or another person acquired another asset from the exempt entity or from an associate of the exempt entity and:
- (i) the other asset is taken by paragraph (1)(a), or by paragraph (a) or (b) of this subsection; or
 - (ii) where the other asset is not a depreciating asset, it would, if it were a depreciating asset, be taken by paragraph (1)(a), or by paragraph (a) or (b) of this subsection;
- to be acquired in connection with the acquisition of a business from the exempt entity.
- (3) Paragraphs (2)(a), (b) and (c) do not apply if the asset is used by the purchaser solely to derive assessable income from the provision of office or residential accommodation.

Subdivision 58-B—Calculating decline in value of privatised assets under Division 40

Table of sections

58-60	Purpose of rules in this Subdivision
58-65	Choice of method to work out cost of privatised asset
58-70	Application of Division 40
58-75	Meaning of <i>notional written down value</i>
58-80	Meaning of <i>undeducted pre-existing audited book value</i>
58-85	Pre-existing audited book value of depreciating asset
58-90	Method for transition entity

58-60 Purpose of rules in this Subdivision

This Subdivision sets out rules that affect the way in which the *transition entity or the purchaser work out the decline in value of, and balancing adjustments for, *privatised assets under Division 40 after the *transition time or the *acquisition time.

58-65 Choice of method to work out cost of privatised asset

- (1) The *transition entity or the purchaser has a choice to work out the first element of the *cost of each *privatised asset.
-

- (2) The choice is to use either:
 - (a) the *notional written down value of the asset; or
 - (b) the *undeducted pre-existing audited book value (if any) of the asset.
- (3) The choice must be made:
 - (a) for the *transition entity—by the day on which the transition entity lodges its income tax return for the *transition year; or
 - (b) for the purchaser—by the day on which the purchaser lodges the purchaser's income tax return for the *acquisition year; or within a further period allowed by the Commissioner.
- (4) The choice, once made, cannot be changed.

58-70 Application of Division 40

Application of Division 40

- (1) The *transition entity and the purchaser work out the decline in value of, and the effect of a *balancing adjustment event occurring for, each *privatised asset using Division 40 (Capital allowances) as if the asset had been acquired under a contract entered into on or after 1 July 2001.

Entity sale situation

- (2) Division 40 applies to a *privatised asset *held by the *transition entity as if the asset had not been used, or *installed ready for use, for any purpose before the *transition time.
- (3) The first element of the *cost to the *transition entity at the *transition time is the *notional written down value of the asset or the *undeducted pre-existing audited book value of the asset (depending on the choice made for the asset).
- (4) No amount incurred before the *transition time is included in the second element of the *cost of a *privatised asset.

Asset sale situation

- (5) The first element of the *cost of a *privatised asset to the purchaser at the *acquisition time is the sum of:

- (a) the *notional written down value of the asset or the *undeducted pre-existing audited book value of the asset (depending on the choice made for the asset); and
- (b) the amount of any incidental costs to the purchaser in acquiring the asset.

58-75 Meaning of notional written down value

- (1) The *notional written down value* of a *privatised asset is its *adjustable value in the hands of:
 - (a) the *transition entity just before the *transition time; or
 - (b) the *tax exempt vendor just before the *acquisition time;worked out using the assumptions in this section.

Application of Division 40

- (2) Assume that Division 40 had always applied to work out the decline in value of the *privatised asset.

Use for taxable purposes

- (3) Assume that, in applying Division 40 to the *privatised asset, it had always been used by the *transition entity or the *tax exempt vendor wholly for *taxable purposes.

Cost and acquisition time: exempt Australian government agency

- (4) If the *transition entity or the *tax exempt vendor was an *exempt Australian government agency just before the *transition time and had acquired the *privatised asset from another exempt Australian government agency:
 - (a) assume that the transition entity or tax exempt vendor acquired it at the time when it was acquired or constructed by the other exempt Australian government agency and that the first element of its *cost to the transition entity or tax exempt vendor is the amount that was its cost to the other exempt Australian government agency; or
 - (b) if it had, before its acquisition by the transition entity or tax exempt vendor, been successively *held by 2 or more exempt Australian government agencies—assume that:

- (i) the transition entity or tax exempt vendor acquired it at the time when it was acquired or constructed by the first of those exempt Australian government agencies that owned it; and
- (ii) the first element of its cost to the transition entity or tax exempt vendor is the sum of the amount that was the first element of its cost to the first of those exempt Australian government agencies that owned it and any amount included in the second element of its cost for that first agency or a later successive agency.

Effective life

- (5) Assume that:
 - (a) the *transition entity or the *tax exempt vendor had chosen to use an *effective life determined by the Commissioner for the *privatised asset as in force at the *transition time or the *acquisition time; and
 - (b) subsection 40-95(2) did not apply.
- (6) Assume also that section 40-110 (about recalculating effective life) did not apply.

58-80 Meaning of undeducted pre-existing audited book value

- (1) The *undeducted pre-existing audited book value* of a *privatised asset is its *adjustable value in the hands of:
 - (a) the *transition entity just before the *transition time; or
 - (b) the *tax exempt vendor just before the *acquisition time;worked out using the assumptions in this section.

Application of Division 40

- (2) Assume that Division 40 had always applied to work out the decline in value of the *privatised asset.

Use for taxable purposes

- (3) Assume that, in applying Division 40 to the *privatised asset, it had always been used by the *transition entity or the *tax exempt vendor wholly for *taxable purposes.

Cost

- (4) Assume that:
- (a) the first element of the *privatised asset's *cost to the *transition entity or the *tax exempt vendor is its *pre-existing audited book value as at the latest time (the *test time*) at which it had a pre-existing audited book value; and
 - (b) no amount was included in the second element of the asset's cost before the test time; and
 - (c) any amount included in the second element of the asset's cost after the test time had been incurred by the transition entity or the tax exempt vendor.

Acquisition time

- (5) Assume that the *transition entity or the *tax exempt vendor had acquired the *privatised asset at the test time.

Effective life

- (6) Assume that:
- (a) the *transition entity or the *tax exempt vendor had chosen to use an *effective life determined by the Commissioner for the *privatised asset as in force at the *transition time or the *acquisition time; and
 - (b) subsection 40-95(2) did not apply.
- (7) Assume also that section 40-110 (about recalculating effective life) did not apply.

58-85 Pre-existing audited book value of depreciating asset

- (1) A *privatised asset has a *pre-existing audited book value* if:
- (a) a balance sheet, as at the end of an annual accounting period (the *balance date*), that was prepared as part of an *exempt entity's final accounts for that period showed the asset as an asset of the exempt entity and specified a value for it; and
 - (b) a qualified independent auditor who was engaged, or was required by law, to undertake an audit of those accounts had prepared and signed, before 4 August 1997, a final audit report on those accounts; and
-

- (c) the report did not state that the auditor was not satisfied that the specified value fairly represented the value of the asset.
The asset is taken to have had a *pre-existing audited book value* at the balance date of an amount equal to the specified value.
- (2) If a balance sheet did not specify a value for the asset but specified a total value for 2 or more assets including the asset, the balance sheet is taken to have specified as the value of the asset so much of that total value as is reasonably attributable to the asset.

58-90 Method for transition entity

The *transition entity must, in working out the decline in value of a *privatised asset, use the *diminishing value method or the *prime cost method for the asset that it used to work out the *notional written down value, or the *undeducted pre-existing audited book value, of the asset.

247 At the end of subsection 65-25(2)

Add:

Note: Division 388 was repealed by the *New Business Tax System (Capital Allowances—Transitional Provisions and Consequential Amendments) Act 2001*.

248 Subsection 70-30(1) (example)

Omit “a unit of depreciable plant”, substitute “a depreciating asset”.

249 Subsection 70-30(1) (example)

Omit “Subdivision 42-F provides for the consequences of selling depreciated property”, substitute “Subdivision 40-D provides for the consequences of selling depreciating assets”.

250 Subsection 70-65(3)

Omit “*undeducted cost”, substitute “*adjustable value”.

251 Section 70-110 (example 2)

Repeal the example, substitute:

Example 2: You stop holding an item as trading stock and begin to use it as a depreciating asset for the purpose of producing your assessable income. You are treated as having sold it for its cost. This amount is assessable income, just like the proceeds of sale of any of your trading stock.

You are also treated as having bought the item for the same amount, which is relevant to working out the item’s cost for capital allowance purposes (see Subdivision 40-C) and the item’s cost base for CGT purposes (see Division 110).

252 Paragraph 86-85(b)

Omit “a unit of *plant”, substitute “a *depreciating asset”.

253 Section 86-85

Omit “depreciation of the plant”, substitute “the decline in value of the asset”.

254 Paragraph 86-85(c)

Omit “plant”, substitute “depreciating asset”.

255 At the end of section 100-15

Add:

Note: Capital proceeds and cost base are not relevant for CGT event K7.

256 Section 104-5 (table item K1)

Repeal the item.

257 Section 104-5 (at the end of the table)

Add:

K7 Balancing adjustment occurs for a depreciating asset that you used for purposes other than taxable purposes <i>[See section 104-235]</i>	When balancing adjustment event occurs	Termination value less cost times fraction	Cost less termination value times fraction
--	--	--	--

258 Section 104-205

Repeal the section.

259 At the end of Division 104

Add:

104-235 Balancing adjustment events for depreciating assets: CGT event K7

- (1) *CGT event K7* happens if:
 - (a) a *balancing adjustment event occurs for a *depreciating asset you *held; and
 - (b) at some time when you held the asset, you used it, or had it *installed ready for use, for a purpose other than a *taxable purpose.
- (2) The time of *CGT event K7 is when the *balancing adjustment event occurs.
- (3) Any *capital gain or *capital loss is worked out:
 - (a) under section 104-240; or
 - (b) under section 104-245 if the *depreciating asset was allocated to a low-value pool.
- (4) A *capital gain or *capital loss you make is disregarded if:
 - (a) the *depreciating asset is a *pre-CGT asset; or
 - (b) you can deduct an amount for the asset's decline in value under Division 328 (about STS taxpayers) for the income year in which the *balancing adjustment event occurred.

104-240 Working out capital gain or loss for CGT event K7: general case

- (1) You make a *capital gain* if the *depreciating asset's *termination value is more than its *cost. The amount of the *capital gain is:

$$*Termination\ value - *Cost - \frac{\text{Sum of reductions}}{\text{Total decline}}$$

where:

sum of reductions is the sum of the reductions in your deductions for the asset under section 40-25.

total decline is the decline in value of the *depreciating asset since you started to *hold it.

Note: The CGT concepts of cost base and capital proceeds are not relevant for this event.

- (2) You make a *capital loss* if the *depreciating asset's *cost is more than its *termination value. The amount of the *capital loss is:

$$*Cost - *Termination\ value - \frac{\text{Sum of reductions}}{\text{Total decline}}$$

where:

sum of reductions and *total decline* have the same meanings as in subsection (1).

104-245 Working out capital gain or loss for CGT event K7: pooled assets

- (1) You make a *capital gain* if the *depreciating asset's *termination value is more than its *cost. The amount of the *capital gain is:

$$*Termination\ value - *Cost - \text{Taxable use fraction}$$

where:

taxable use fraction is the taxable use percentage (expressed as a fraction) that you estimated for the asset when you allocated it to the pool.

Note: The CGT concepts of cost base and capital proceeds are not relevant for this event.

- (2) You make a *capital loss* if the *depreciating asset's *cost is more than its *termination value. The amount of the *capital loss is:

$$\text{Cost} - \text{*Termination value} \times \text{Taxable use fraction}$$

where:

taxable use fraction has the same meaning as in subsection (1).

260 At the end of section 106-5

Add:

- (5) This section does not apply to a *CGT event happening in relation to a *depreciating asset.

261 Subsection 108-55(1)

Repeal the subsection, substitute:

- (1) A building or structure on land that you *acquired *on or after* 20 September 1985 is taken to be a separate *CGT asset from the land if one of these balancing adjustment provisions applies to the building or structure (whether or not there is a balancing adjustment):
- (a) for *depreciating assets—Subdivision 40-D; or
 - (b) for research and development—section 73B of the *Income Tax Assessment Act 1936*.

Example: You construct a timber mill building on land you own. The building is subject to a balancing adjustment on its disposal, loss or destruction. It is taken to be a separate CGT asset from the land.

262 Section 108-60

Repeal the section, substitute:

108-60 Depreciating asset that is part of a building is a separate asset

A *depreciating asset that is part of a building or structure is taken to be a separate *CGT asset from the building or structure.

Example: You own a factory from which you carry on a business. You install rest rooms for your employees. The plumbing fixtures and fittings are depreciating assets. These are taken to be a separate CGT asset from the factory.

263 Subsection 108-70(1)

Omit “the table in section 108-55”, substitute “subsection 108-55(1)”.

264 Subsection 108-70(1) (example)

Repeal the example, substitute:

Example: You own land that you use for pastoral operations. You build some fences that are destroyed by fire. The fences are depreciating assets and are subject to a balancing adjustment on their destruction under Division 40. The fences are taken to be a separate CGT asset from the land.

265 Paragraph 108-70(5)(d)

Omit “*plant”, substitute “a *depreciating asset”.

266 Paragraph 108-75(1)(d)

Omit “*plant”, substitute “a *depreciating asset”.

267 Subsection 108-75(2) (table item 4)

Omit “*Plant”, substitute “A *depreciating asset”.

268 Subsection 109-5(2) (table item K1)

Repeal the item.

269 Section 110-10 (at the end of the table)

Add:

K7	Balancing adjustment event happens to depreciating asset	104-235
----	--	---------

270 Subsection 110-45(2)

Repeal the subsection, substitute:

Other deductible expenditure

- (2) Expenditure (except expenditure excluded by subsection (1B)) does *not* form part of the **cost base** to the extent that you have deducted or can deduct it for an income year, except so far as:
- (a) the deduction has been reversed by an amount being included in your assessable income for an income year by a provision of this Act (outside this Part and Part 3-3 and Division 243); or
- Note: Division 20 contains some of the provisions that reverse deductions. Section 20-5 lists some others.
- (b) the deduction would have been so reversed apart from a provision listed in the table (relief from including a balancing charge in your assessable income).
- Note: In the table, provisions of the *Income Tax Assessment Act 1997* are identified in normal text. The other provisions, **in bold**, are provisions of the *Income Tax Assessment Act 1936*.

Provisions for relief from including a balancing charge in your assessable income

Item	Provision	Subject matter
1	section 40-340	Roll-over relief for *depreciating asset
2	section 40-365	Involuntary disposal of *depreciating asset
3	Section 73E	Research and development activity expenditure

271 Subsection 110-45(5)

Before “section 388-55”, insert “the former”.

272 Subsection 110-50(5)

Before “section 388-55”, insert “the former”.

273 Subparagraph 110-55(3)(a)(ii)

Omit “depreciation”, substitute “the decline in value”.

274 Subparagraphs 110-55(3)(b)(i) and (ii)

Repeal the subparagraphs, substitute:

- (i) section 40-365; or

- (ii) any of these former sections—section 42-285, 42-290 or 42-293; or
- (iii) subsection 59(2A) or (2D) of the *Income Tax Assessment Act 1936*.

275 Subsection 110-55(5)

Repeal the subsection, substitute:

- (5) The *reduced cost base* does not include an amount that you could have deducted for a *CGT asset had you used it wholly for the *purpose of producing assessable income.

276 Subsection 110-55(6A)

Repeal the subsection, substitute:

- (6A) Expenditure does *not* form part of the *reduced cost base* to the extent that you chose a *tax offset for it under the former section 388-55 (about the landcare and water facility tax offset) instead of deducting it.

277 Subparagraphs 110-60(1)(b)(i) and (ii)

Repeal the subparagraphs, substitute:

- (i) section 40-365; or
- (ii) any of these former sections—section 42-285, 42-290 or 42-293; or
- (iii) subsection 59(2A) or (2D) of the *Income Tax Assessment Act 1936*;

278 Subsection 110-60(3)

Repeal the subsection, substitute:

- (3) Expenditure does *not* form part of an entity's *reduced cost base* for its interest in a *CGT asset of a partnership to the extent that a partnership in which the entity is or was a partner could have deducted an amount for the asset if it had used it wholly for the *purpose of producing assessable income.

279 Subsection 110-60(4A)

Repeal the subsection, substitute:

(4A) Expenditure does *not* form part of an entity's **reduced cost base** for its interest in a *CGT asset of a partnership to the extent that the entity chose a *tax offset for the expenditure under the former section 388-55 (about the landcare and water facility tax offset) instead of deducting it.

280 Section 112-45 (table item K1)

Repeal the item.

281 Section 112-115 (table item 13)

Omit “Plant”, substitute “Depreciating assets”.

282 Paragraph 115-25(3)(i)

Repeal the paragraph.

283 Paragraph 116-20(3)(b)

Repeal the paragraph, substitute:

(b) disregard any *depreciating assets for whose decline in value the lessor has deducted or can deduct an amount under this Act.

284 Subsection 116-20(4)

Omit “*plant”, substitute “a *depreciating asset”.

285 Section 116-25 (table item K1)

Repeal the item.

286 Section 116-25 (at the end of the table)

Add:

K7	Balancing adjustment event happens to depreciating asset	1, 2, 3, 4	None
----	--	------------	------

287 Subsection 116-30(4) (table item K1)

Repeal the item.

288 Subsection 116-85(1) (table item 2)

Omit “(about plant)”, substitute “(about depreciating assets)”.

289 Subsection 118-10(1)

After “*cost base”, insert “, or the first element of its *cost if it is a *depreciating asset,”.

290 Subsection 118-10(3)

After “*cost base”, insert “, or the first element of its *cost if it is a *depreciating asset,”.

291 At the end of subsection 118-10(1)

Add:

Example: On 10 July 2001, Gayle buys a print for \$450 and hangs it in her home. On 30 November 2001 she takes the print to her office and hangs it in the lobby. Gayle self assesses the effective life of the print to be 7 years.

Gayle sells the print to Anna for \$700 on 2 January 2002.

How much can Gayle deduct for the 2001-02 income year?

The cost of the print is \$450. Gayle chooses to use the prime cost method to calculate its decline in value.

The print’s decline in value is:

$$\$450 \times \frac{177}{365} \times \frac{100\%}{7 \text{ years}}$$

$$= \$31$$

Gayle can deduct \$6 as the taxable use portion of the decline in value under Division 40:

$$\frac{34}{177} \times 31$$

Due to the balancing adjustment event that occurred on 2 January 2002, \$54 is included in Gayle’s assessable income for the 2001-02 income year under section 40-285. The amount is reduced for non-taxable use by section 40-290.

A capital gain of \$202 is disregarded under this section because the asset is a collectable acquired for less than \$500.

292 Section 118-24

Repeal the section, substitute:

118-24 Depreciating assets

- (1) A *capital gain or *capital loss you make from a *CGT event that is also a *balancing adjustment event that happens to a *depreciating asset is disregarded if the asset was:
- (a) a depreciating asset you *held; or
 - (b) if you are a partner, a depreciating asset of the partnership; or
 - (c) if you are absolutely entitled to the asset as against the trustee of a trust (disregarding any legal disability), a depreciating asset of the trustee;
- where the decline in value of the asset was worked out under Division 40 or Division 328, or would have been if the asset had been used.
- (2) However, subsection (1) does not apply to a *capital gain or *capital loss you make from *CGT event K7 happening.

293 Section 118-45

Before “section 330-60”, insert “the former”.

294 Subsection 122-25(3)

Repeal the subsection, substitute:

- (3) A *precluded asset* is:
- (a) a *depreciating asset; or
 - (b) *trading stock; or
 - (c) an interest in the copyright in a film referred to in section 118-30.

295 Paragraph 124-75(2)(a)

Repeal the paragraph, substitute:

- (a) incur expenditure in *acquiring another *CGT asset (except a *depreciating asset); or

296 At the end of subsection 124-75(5)

Add “, nor can it be a *depreciating asset”.

297 Subsection 124-80(2)

Repeal the subsection, substitute:

- (2) The other asset cannot become an item of your *trading stock just after you *acquire it, nor can it be a *depreciating asset.

298 Subsection 124-85(2) (example)

Repeal the example, substitute:

Example: In 1999 Simon bought a small factory. In 2000 a fire destroys part of it. He receives \$100,000 under an insurance policy.

The capital gain is worked out under section 112-30.

Suppose the factory's cost base at the time of the fire is \$75,000 and the market value of the part that is not destroyed is \$150,000. The cost base of the part that is destroyed is:

$$\$75,000 \times \frac{\$100,000}{\$100,000 + \$150,000} = \$30,000$$

The capital gain is:

$$\$100,000 - \$30,000 = \$70,000$$

Case 1

Suppose Simon spent \$80,000 on repairing the factory. The money he received under the insurance policy exceeds the repair cost by \$20,000. The gain exceeds that by \$50,000.

The result is that the gain is reduced to \$20,000 and the \$80,000 he spent on repairs is reduced to \$30,000.

Case 2

Suppose Simon spent \$15,000 on repairs instead. The money he received under the policy exceeds that amount by \$85,000. This is more than the gain he made.

The gain is relevant to working out Simon's net capital gain or loss for the income year and the \$15,000 he spent on repairs forms part of the factory's cost base.

Case 3

Suppose Simon spent \$120,000 on repairs instead. The gain is disregarded and the \$120,000 is reduced to \$50,000.

299 Subdivision 124K (heading)

Repeal the heading, substitute:

Subdivision 124-K—Depreciating assets

300 Section 124-655

Repeal the section, substitute:

124-655 Roll-over for depreciating assets

There is a roll-over for a *depreciating asset if:

- (a) the asset is attached to land you hold under a *quasi-ownership right granted by an *exempt Australian government agency or an *exempt foreign government agency; and
- (b) you *hold the asset because of section 40-40; and
- (c) the quasi-ownership right expires or is terminated or you surrender it; and
- (d) you are granted a new quasi-ownership right over the land or an estate in fee simple in the land; and
- (e) there is no roll-over for you under Subdivision 124-J (about Crown leases) or Subdivision 124-L (about prospecting and mining entitlements).

Note 1: The roll-over consequences are set out in Subdivision 124-A.

Note 2: This section provides a roll-over for a depreciating asset in the limited circumstances where Subdivision 124-J cannot because a quasi-ownership right over land covers situations that a Crown lease does not (for example, an easement over land).

Note 3: If there has been a capital improvement to the quasi-ownership right: see section 108-75.

301 Paragraph 124-660(a)

Repeal the paragraph, substitute:

- (a) your *reduced cost base of the *depreciating asset is reduced by the *adjustable value of the asset just before the original quasi-ownership right expired or was surrendered or terminated; and

302 Paragraph 132-10(2)(b)

Repeal the paragraph, substitute:

- (b) the *cost of any *depreciating asset for which the lessor has deducted or can deduct an amount for the asset's decline in value under this Act.

303 Section 136-10 (table item K1)

Repeal the item.

304 Section 136-10 (at the end of the table)

Add:

K7	Balancing adjustment	the depreciating asset	2
	event happens to a		
	depreciating asset		

305 Section 138-5

Omit “Depreciable plant” (wherever occurring), substitute “Depreciating asset that is plant”.

306 Section 138-5 (note 1)

Omit “depreciable plant”, substitute “a depreciating asset that is plant”.

307 Subdivision 138-B (heading)

Repeal the heading, substitute:

Subdivision 138-B—Value shifts involving depreciating asset that is plant: reductions of direct interests

308 Paragraph 138-85(1)(b)

Repeal the paragraph, substitute:

- (b) it involved *plant (that is not a building or structure) for whose decline in value the originating company has deducted or can deduct an amount; and

309 Subsection 138-100(1) (example 1)

Omit “depreciable asset”, substitute “depreciating asset that is plant”.

310 Section 138-110

Omit “depreciable plant group”, substitute “*depreciating asset group”.

Note: The heading to section 138-110 is altered by omitting “**depreciable plant**” and substituting “**depreciating assets that are plant**”.

311 Section 138-360

Omit “depreciable *plant group”, substitute “*depreciating asset group”.

312 Subsection 138-365(3)

Repeal the subsection, substitute:

- (3) An additional condition for allocating a *CGT asset to a *depreciating asset group is that the asset is *plant for whose decline in value the originating company has deducted or can deduct an amount.

313 Section 138-370

Repeal the section, substitute:

138-370 Condition for applying this Division to depreciating asset group

There is an additional condition that must be satisfied before you can apply this Division to a *depreciating asset group. The sum of the market values of the assets in the group must not be more than 110% of the sum of those residual values.

314 Subsection 152-10(1)

After “*capital gain”, insert “(except a capital gain from *CGT event K7)”.

315 Paragraphs 165-55(2)(a), (b) and (c)

Repeal the paragraphs, substitute:

- (a) deductions for the decline in value of a *depreciating asset;

See Division 40.

- (b) deductions for *exploration or prospecting, or *mining capital expenditure, in connection with mining or quarrying;

See section 40-80 and Subdivisions 40-H and 40-I.

- (c) deductions for expenditure, deductions for which are spread over 2 or more income years, but not:

- (i) deductions for exploration or prospecting, or capital expenditure, in connection with mining or quarrying; or

See Subdivision 40-I.

- (ii) *full year deductions (see subsection (5));

316 Subsection 165-115F(6)

Repeal the subsection, substitute:

- (6) This subsection applies to an asset at the relevant time if:
- (a) the asset is a *depreciating asset (not a building or structure) for whose decline in value the company has deducted or can deduct an amount; and
 - (b) the expenditure incurred by the company to *acquire the asset was less than \$1,000,000 (the expenditure can include the giving of property: see section 103-5); and
 - (c) it would be reasonable for the company to conclude that the *market value of the asset at that time was not less than 80% of its *written down value at that time.

317 Subsection 165-115R(6) (note)

Repeal the note, substitute:

Note: Where the income tax law allows, as all or part of a loss, an amount for the decline in value of a depreciating asset that exceeds the actual economic depreciation or depletion of the asset concerned, the excess is not to be regarded for the purposes of this subsection as representing an outlay or loss of economic resources of the company.

318 Subsection 165-115S(6) (note)

Repeal the note, substitute:

Note: Where the income tax law allows, as all or part of a loss, an amount for the decline in value of a depreciating asset that exceeds the actual economic depreciation or depletion of the asset concerned, the excess is not to be regarded for the purposes of this subsection as representing an outlay or loss of economic resources of the company.

319 Subsection 165-115V(7)

Repeal the subsection, substitute:

- (7) This subsection applies to an asset at the alteration time if:
- (a) the asset is a *depreciating asset (not a building or structure) for whose decline in value the company has deducted or can deduct an amount; and
 - (b) the expenditure incurred by the company to *acquire the asset was less than \$1,000,000 (the expenditure can include the giving of property: see section 103-5); and

-
- (c) it would be reasonable for the company to conclude that the market value of the asset at the alteration time was not less than 80% of its *written down value at that time.

320 Subsection 170-210(3B) (note)

Repeal the note, substitute:

Note: Where the income tax law allows, as all or part of a loss, an amount for the decline in value of a depreciating asset that exceeds the actual economic depreciation or depletion of the asset concerned, the excess is not to be regarded for the purposes of this subsection as representing an outlay or loss of economic resources of the company.

321 Subsection 170-215(4A) (note)

Repeal the note, substitute:

Note: Where the income tax law allows, as all or part of a loss, an amount for the decline in value of a depreciating asset that exceeds the actual economic depreciation or depletion of the asset concerned, the excess is not to be regarded for the purposes of this subsection as representing an outlay or loss of economic resources of the company.

322 Subsection 170-220(3B) (note)

Repeal the note, substitute:

Note: Where the income tax law allows, as all or part of a loss, an amount for the decline in value of a depreciating asset that exceeds the actual economic depreciation or depletion of the asset concerned, the excess is not to be regarded for the purposes of this subsection as representing an outlay or loss of economic resources of the company.

323 Subsection 170-225(4A) (note)

Repeal the note, substitute:

Note: Where the income tax law allows, as all or part of a loss, an amount for the decline in value of a depreciating asset that exceeds the actual economic depreciation or depletion of the asset concerned, the excess is not to be regarded for the purposes of this subsection as representing an outlay or loss of economic resources of the company.

324 Paragraph 320-255(2)(a)

Omit “Division 42”, substitute “Division 40”.

325 Subsection 320-255(5)

Repeal the subsection, substitute:

- (5) If a *depreciating asset is transferred from the *segregated exempt assets of a *life insurance company, the company must assume, for the purposes of Division 40, that the asset had, at all times during the period beginning when it was acquired or constructed by the company and ending immediately before the time of the transfer, been used by the company wholly for the *purpose of producing assessable income.

326 Subsection 320-255(6)

Omit “an asset that is a unit of *plant”, substitute “a *depreciating asset”.

327 Subsection 320-255(6)

Omit “Division 42”, substitute “Division 40”.

328 Subsection 320-255(7)

Repeal the subsection, substitute:

- (7) If a *depreciating asset that has been included in the *segregated exempt assets of a *life insurance company since the asset was acquired by the company or the initial segregation of those assets took place is transferred from those assets, then the company must assume for the purposes of Division 40 that:
- (a) if the asset’s *market value at the time of the transfer is greater than its *notional adjustable value at that time, the company:
 - (i) had, at the time immediately before the transfer, sold the asset for a consideration equal to its notional adjustable value at that time; and
 - (ii) had, at the time of the transfer, purchased the asset again for a consideration equal to its notional adjustable value at that time; or
 - (b) if the asset’s market value at the time of the transfer is equal to or less than its notional adjustable value at that time, the company:
 - (i) had, at the time immediately before the transfer, sold the asset for a consideration equal to its market value at that time; and

-
- (ii) had, at the time of the transfer, purchased the asset again for a consideration equal to its market value at that time.

329 Subsection 320-255(8)

Omit “an asset that is a unit of *plant”, substitute “a *depreciating asset”.

330 Subsection 320-255(8)

Omit “Division 42”, substitute “Division 40”.

331 Division 330

Repeal the Division.

332 Division 373

Repeal the Division.

333 Division 380

Repeal the Division.

334 Section 385-5 (table item 3)

Omit “Division 387”, substitute “Subdivisions 40-F and 40-G”.

335 Division 387

Repeal the Division.

336 Division 388

Repeal the Division.

337 Paragraph 396-45(4)(a)

Omit “*plant”, substitute “*depreciating assets”.

338 Paragraph 396-45(4)(c)

Omit “plant”, substitute “depreciating assets”.

339 Division 400

Repeal the Division.

340 Paragraph 900-30(7)(a)

Omit “depreciation”, substitute “the decline in value”.

341 Subsection 900-115(1)

Omit “depreciation”, substitute “the decline in value of a *depreciating asset”.

342 Section 900-120

Repeal the section, substitute:

900-120 Written evidence of depreciating asset expense

- (1) You may use this set of rules only for a *depreciating asset expense.
- (2) You must get evidence of the original acquisition of the *depreciating asset. It must be a document that you get from the supplier of the asset and that specifies:
 - (a) the name or business name of the supplier; and
 - (b) the cost of the asset to you; and
 - (c) the nature of the asset; and
 - (d) the day you acquired the asset; and
 - (e) the day it is made out.
- (3) However, if the document the supplier gave you does not specify the nature of the asset, you may write in the missing details yourself before you lodge your *income tax return for the income year in which you first claim a deduction for the decline in value of the asset.
- (4) If you don't get the document in time, for example because you only decided to use the asset for income-producing purposes several years after you acquired it, there are rules that might help you in Subdivision 900-H (Relief from effects of failing to substantiate).
- (5) The document must be in English. However, if you *imported the asset into Australia, the document can instead be in a language of the country from which the asset was originally exported.
