Schedule 1—Fuel tax credits

Part 1—Amendments

Fuel Tax Act 2006

1 Section 2-1

Omit:

This Act provides a single system of fuel tax credits. Fuel tax credits are paid to reduce or remove the incidence of fuel tax levied on taxable fuels, ensuring that, generally, fuel tax is effectively only applied to:

- (a) fuel used in private vehicles and for certain other private purposes; and
- (b) fuel used on-road in light vehicles for business purposes.

substitute:

This Act provides a single system of fuel tax credits. Fuel tax credits are paid to reduce the incidence of fuel tax levied on taxable fuels, ensuring that, generally, fuel tax is effectively only applied to:

- (a) fuel used in private vehicles and for certain other private purposes; and
- (b) fuel used on-road in light vehicles for business purposes.

For fuel that is not *covered by the Opt-in Scheme, the fuel tax credit entitlement is (with some exceptions) reduced by an amount equivalent to what the carbon price on the fuel emissions would be (if those emissions were subject to a carbon price). For fuel that is covered by that Scheme, the entitlement is not so reduced.

Fuel tax credits are also provided for fuel for use in aircraft if the fuel is covered by the Opt-in Scheme. The amount of the credit is limited to the carbon component rate that was factored into the rate of fuel tax.

2 Subsection 40-5(2)

Omit “reduce or remove”, substitute “reduce”.

3 At the end of section 40-5 (after the note)

Add:

- (3) For fuel that is not *covered by the Opt-in Scheme, your fuel tax credit entitlement is (with some exceptions) reduced by an amount equivalent to what the carbon price on the fuel emissions would be (if those emissions were subject to a carbon price). For fuel that is covered by that Scheme, your entitlement is not so reduced.
- (4) Fuel tax credits are also provided for fuel for use in aircraft if the fuel is *covered by the Opt-in Scheme. The amount of the credit is limited to the carbon component rate that was factored into the rate of fuel tax.

4 Section 41-1

Omit:

(d) the fuel is for use in aircraft.

substitute:

(d) the fuel is for use in aircraft, and is not covered by the Opt-in Scheme.

5 Paragraph 41-5(3)(b)

Omit “vehicle (or vessel)”, substitute “vehicle, vessel or aircraft”.

6 Subparagraph 41-25(2)(a)(ii)

Omit “agricultural property”, substitute “*agricultural property”.

7 Section 41-30 (heading)

Repeal the heading, substitute:

41-30 No fuel tax credit for fuel to be used in aircraft, unless the fuel is covered by the Opt-in Scheme

8 Section 41-30

Omit “You”, substitute “(1) You”.

9 At the end of section 41-30

Add:

- (2) However, subsection (1) does not apply if the fuel is *covered by the Opt-in Scheme.

10 Section 43-1

Omit:

The amount of your credit for taxable fuel is the amount of fuel tax that was payable on the fuel, reduced to take account of certain grants and subsidies that were payable in respect of the fuel (as the grants or subsidies reduced the amount of fuel tax that effectively applied to the fuel).

substitute:

The amount of your credit for taxable fuel is the amount of fuel tax that was payable on the fuel:

- (a) reduced to take account of certain grants and subsidies that were payable in respect of the fuel (as the grants or subsidies reduced the amount of fuel tax that effectively applied to the fuel); and
- (b) for fuel that is not covered by the Opt-in Scheme—reduced (with some exceptions) to take account of what the carbon price on the fuel emissions would be (if those emissions were subject to a carbon price).

For fuel for use in aircraft that is covered by the Opt-in Scheme, the amount of the credit is reduced so that it is limited to the carbon component rate that was factored into the rate of fuel tax.

11 Subsection 43-5(1)

Repeal the subsection, substitute:

- (1) The *amount of your fuel tax credit for taxable fuel is the amount (but not below nil) worked out using the following formula:

*Amount of *effective fuel tax – *Amount of *carbon reduction

Note: The amount of the credit might be reduced under section 43-10 or 43-11.

12 After section 43-7

Insert:

43-8 Working out amount of carbon reduction

Amount of carbon reduction: general rule

- (1) Subject to subsections (3) and (4), the *amount of **carbon reduction** that applies to a particular quantity of taxable fuel you acquire, manufacture or import is worked out, to 3 decimal places (rounding up if the fourth decimal place is 5 or more), using the following formula:

Quantity of fuel × Carbon price × Carbon emission rate

where:

carbon emission rate means:

- (a) if the fuel is gasoline—0.0024; or
- (b) if the fuel is LPG—0.0016; or
- (c) if the fuel is LNG—0.0029; or
- (d) if the fuel is CNG—0.0029; or
- (e) if the fuel is denatured ethanol for use in an internal combustion engine—nil; or
- (f) if the fuel is biodiesel or renewable diesel—nil; or
- (g) for any other taxable fuel (other than a blend of taxable fuels)—0.0027.

Note: If the fuel is a blend, see subsection (3).

carbon price means:

- (a) if you acquire, manufacture or import the fuel in the financial year starting on 1 July 2012—2,300 cents; or
- (b) if you acquire, manufacture or import the fuel in the financial year starting on 1 July 2013—2,415 cents; or
- (c) if you acquire, manufacture or import the fuel in the financial year starting on 1 July 2014—2,540 cents; or

- (d) if you acquire, manufacture or import the fuel in the *half-year starting on 1 July 2015 or a later half-year—the amount that applies to that half-year under subsection (2).

quantity of fuel means:

- (a) unless paragraph (b) applies—the number of litres of the fuel;
or
(b) if the fuel is LNG or CNG—the number of kilograms of the fuel.

Carbon price for half-years starting on or after 1 July 2015

- (2) For the purpose of paragraph (d) of the definition of **carbon price** in subsection (1), the amount that applies to a *half-year is the amount that:
- (a) is worked out under section 196 of the *Clean Energy Act 2011* taking account of auctions conducted in the 6 months ending at the end of:
- (i) the last May before the start of the half-year, if the half-year starts on 1 July (in 2015 or a later year); or
(ii) the last November before the start of the half-year, if the half-year starts on 1 January (in 2016 or a later year);
and
- (b) is the first amount that is worked out in that way for those 6 months and published under that section.

Amount of carbon reduction: blends

- (3) If the fuel is a blend of 2 or more kinds of taxable fuel (the **constituent fuels**), the *amount of **carbon reduction** that applies to the blend is to be worked out as follows:
- (a) work out the quantity of each of the constituent fuels that is included in the blend;
(b) work out the amount of carbon reduction that would apply to each of those quantities of the constituent fuels;
(c) the amount of carbon reduction that applies to the blend is the sum of the amounts worked out under paragraph (b).

Situations in which no carbon reduction applies

- (4) The *amount of **carbon reduction** that applies to the fuel is nil to the extent that:
-

- (a) the fuel is *covered by the Opt-in Scheme; or
- (b) you acquire, manufacture or import the fuel for use in:
 - (i) *agriculture; or
 - (ii) *fishing operations; or
 - (iii) *forestry; or
- (c) you acquire, manufacture or import the fuel for use in a vehicle with a gross vehicle mass of more than 4.5 tonnes travelling on a public road; or
- (d) you acquire, manufacture or import the fuel for use otherwise than by combustion of the fuel.

13 Section 43-10 (heading)

Repeal the heading, substitute:

43-10 Reducing the amount of your fuel tax credit: fuel other than for use in aircraft

14 Before the heading to subsection 43-10(1)

Insert:

Fuel to which this section applies

- (1A) This section applies to taxable fuel other than fuel that you acquire, manufacture or import for use in aircraft.

15 At the end of Subdivision 43-A

Add:

43-11 Reducing the amount of your fuel tax credit: fuel for use in aircraft

Fuel to which this section applies

- (1) This section applies to taxable fuel that you acquire, manufacture or import for use in aircraft if the fuel is *covered by the Opt-in Scheme.

Reduction so that credits only cover carbon component rate of fuel tax

- (2) The *amount of your fuel tax credit for the taxable fuel is reduced by the amount of fuel tax that would have been payable by you on the fuel if the carbon component rate that applied under whichever of sections 6FA and 6FB of the *Excise Tariff Act 1921* affected the rate of fuel tax on the fuel had instead been nil.

Note: The reference to sections 6FA and 6FB of the *Excise Tariff Act 1921* includes a reference to those sections as they have effect in relation to rates of duties of customs because of section 19A of the *Customs Tariff Act 1995*.
