Guide to Division 115

115-1 What this Division is about

You pay quarterly instalments of MRRT under this Division if you have mining revenue for a quarter or a positive instalment rate.

Instalments give rise to a credit once an assessment of the MRRT is made.

The amount of a quarterly instalment is the product of your instalment income for the quarter and your applicable instalment rate.

The applicable instalment rate may be a rate chosen by you, a rate given to you by the Commissioner, or a statutory default rate.

General interest charge may be payable if a rate you choose for a quarter is too low, having regard to the amount of MRRT you are liable to pay for the year.

Subdivision 115-A—Preliminary

Table of sections

- 115-5 Objects of this Division

115-5 Objects of this Division

The objects of this Division are:

- (a) to ensure the efficient collection of *MRRT by the payment of quarterly instalments; and
- (b) to calculate total instalments for the *MRRT year that are as close as possible to the amount of MRRT you are liable to pay for the year.

Subdivision 115-B—Liability for instalments

Table of sections

115-10	Liability for instalments
115-15	Information to be given to the Commissioner
115-20	Credit for instalments payable
115-25	When instalments are due
115-30	General interest charge on late payment

115-10 Liability for instalments

- (1) You are liable to pay an instalment under this Division in relation to an *instalment quarter in an *MRRT year, if:
- (a) you have a *mining project interest or *hold a *pre-mining project interest; and
 - (b) either:
 - (i) you have *mining revenue or *pre-mining revenue relating to the instalment quarter; or
 - (ii) your *applicable instalment rate for the instalment quarter is greater than nil.

Note 1: For provisions about collection and recovery of amounts you are liable to pay under this Division, see Part 4-15.

Note 2: For *applicable instalment rate*, see section 115-45.

Meaning of instalment quarter

- (2) For an *MRRT year (whether it ends on 30 June or not), the following are the *instalment quarters*:
- (a) your first *instalment quarter* consists of the first 3 months of the MRRT year;
 - (b) your second *instalment quarter* consists of the fourth, fifth and sixth months of the MRRT year;
 - (c) your third *instalment quarter* consists of the seventh, eighth and ninth months of the MRRT year;
 - (d) your fourth *instalment quarter* consists of the tenth, 11th and 12th months of the MRRT year.

Note: There is a special rule for MRRT years that are not 12 months: see Subdivision 115-H.

115-15 Information to be given to the Commissioner

- (1) If you are liable to pay an instalment for an *instalment quarter (even if it is a nil amount), you must notify the Commissioner of the amount of your *instalment income for the quarter.
- (2) You must notify the Commissioner in the *approved form and on or before the day when the instalment is due (regardless of whether it is paid).
- (3) Subsection (1) does not apply to you for an *instalment quarter if:
 - (a) a nil rate determination under subsection 115-45(2) or (3) applies to you for the quarter; and
 - (b) you are exempted from compliance with subsection (1) for the quarter:
 - (i) by a written notice the Commissioner gives you; or
 - (ii) by a legislative instrument that the Commissioner makes, exempting a class of entities.
- (4) An exemption under subsection (3) may be combined in the same document as a nil rate determination.

115-20 Credit for instalments payable

- (1) You are entitled to a credit when the Commissioner makes an assessment of the amount (including a nil amount) of *MRRT you are liable to pay.
- (2) The amount of the credit is:
 - (a) the total of each instalment payable by you for the *MRRT year (even if you have not yet paid it); *less*
 - (b) the total of each credit that you have claimed under section 115-60 or 115-100.
- (3) The making of the assessment, and the resulting credit entitlement, do not affect the liability to pay an instalment.

Note: How the credit is applied is set out in Division 3 of Part IIB.

115-25 When instalments are due

An instalment you are liable to pay in relation to an *instalment quarter is due on or before the 21st day of the month after the end of that quarter.

115-30 General interest charge on late payment

If you fail to pay some or all of an instalment by the time by which the instalment is due to be paid, you are liable to pay the *general interest charge on the unpaid amount for each day in the period that:

- (a) started at the beginning of the day by which the instalment was due to be paid; and
- (b) finishes at the end of the last day on which, at the end of the day, any of the following remains unpaid:
 - (i) the instalment;
 - (ii) general interest charge on any of the instalment.

Subdivision 115-C—Working out instalment amounts

Table of sections

115-35	How to work out the amount of an instalment
115-40	Meaning of <i>instalment income</i>
115-45	Meaning of <i>applicable instalment rate</i>

115-35 How to work out the amount of an instalment

The amount of an instalment you are liable to pay in relation to *MRRT, in relation to an *instalment quarter, is:

$$\text{Your *instalment income for the *instalment quarter} \times \text{*Applicable instalment rate}$$

115-40 Meaning of *instalment income*

Your *instalment income* for an *instalment quarter in an *MRRT year is the sum of the amounts worked out under column 2 of the table in subsection 30-25(2) of the *Minerals Resource Rent Tax Act 2012* for each *mining revenue event that:

- (a) happens during the instalment quarter; and

- (b) results in an amount (including a nil amount) being included:
- (i) under section 30-10 of that Act in your *mining revenue for a *mining project interest for the MRRT year; or
 - (ii) under section 70-40 of that Act in your *pre-mining revenue for a *pre-mining project interest for the MRRT year.

Note 1: Special rules affect the calculation of instalment income for project interests that are transferred or split: see Subdivision 115-G.

Note 2: If you have chosen to use the alternative valuation method under Division 175 of the *Minerals Resource Rent Tax Act 2012*, your unadjusted revenue amounts under section 175-30 of that Act will be the same as the amounts worked out under column 2 of the table in subsection 30-25(2) of that Act.

115-45 Meaning of applicable instalment rate

- (1) Your *applicable instalment rate*, for an *instalment quarter in an *MRRT year (the *current year*), is worked out using the first applicable item in the table.

Applicable instalment rate for an instalment quarter for MRRT		
Item	Column 1 If:	Column 2 Your applicable instalment rate is:
1	A nil rate determination under subsection (2) or (3) applies to you for the *instalment quarter	Nil.
2	You have chosen an instalment rate under Subdivision 115-D for: (a) the *instalment quarter; or (b) an earlier instalment quarter in the current year	The rate you chose for the instalment quarter, or, if you did not choose a rate for the instalment quarter, the rate you chose for the most recent earlier instalment quarter in the current year for which you chose a rate.
3	The Commissioner has given you an instalment rate under Subdivision 115-E before the end of the *instalment quarter (whether in the current year or an earlier *MRRT year)	The most recent instalment rate given to you by the Commissioner before the end of the instalment quarter.
4	None of items 1, 2 and 3 applies	The rate that applies to you under Subdivision 115-F.

Note: If you choose a rate under Subdivision 115-D, you must use it for the rest of the MRRT year even if the Commissioner later gives you a different instalment rate.

Nil rate determinations

- (2) The Commissioner may, by giving you written notice, determine a nil rate for you for an *MRRT year if, in the Commissioner's opinion, you are unlikely to be liable to pay *MRRT for the MRRT year.
- (3) The Commissioner may, by legislative instrument, determine a nil rate for a class of entities for an *MRRT year if, in the Commissioner's opinion, each entity in the class is unlikely to be liable to pay *MRRT for the MRRT year.
- (4) A determination applies for the *instalment quarter in which the Commissioner makes it, and for later quarters in the *MRRT year.

Note: The determination does not apply in later MRRT years.

- (5) However, if the Commissioner later gives you an instalment rate under Subdivision 115-E, the determination stops applying to you for the instalment quarter in which you are given that later rate, and for later quarters.

Note 1: This may mean the nil rate determination does not apply to you for any instalment quarter (if the Commissioner makes the determination, then *later* in the same quarter gives you an instalment rate under Subdivision 115-E).

Note 2: For whether the rate the Commissioner gives you under Subdivision 115-E is your *applicable instalment rate* for an instalment quarter, see the table in subsection (1).

Subdivision 115-D—Instalment rate chosen by you

Table of sections

Choosing an instalment rate

- 115-50 Choosing a varied instalment rate
- 115-55 Notifying Commissioner of varied instalment rate

Variation credits

- 115-60 Credit on using varied rate in certain cases

General interest charge payable in certain cases if instalments are too low

- 115-65 Liability to GIC on shortfall in instalments worked out on the basis of varied rate
- 115-70 Working out your *benchmark instalment rate*

Choosing an instalment rate

115-50 Choosing a varied instalment rate

You may choose an instalment rate for an *instalment quarter in an *MRRT year under this Subdivision.

- Note 1: If choosing a rate leads you to pay an instalment that is too low, you may be liable to general interest charge under section 115-65.
- Note 2: You would also use this rate for later instalment quarters in the MRRT year, unless you choose another rate for the later instalment quarter under this section (see section 115-45).
- Note 3: Division 119 is about choices under the MRRT law.

115-55 Notifying Commissioner of varied instalment rate

- (1) If you choose an instalment rate for an *instalment quarter under section 115-50, you must notify the Commissioner of the rate.
 - (2) You must notify the Commissioner in the *approved form and on or before the day the instalment for the *instalment quarter is due (regardless of whether it is paid).
- Note: The Commissioner may combine this approved form with the approved form for the notice you are required to give under section 115-15: see subsection 388-50(2).

Variation credits

115-60 Credit on using varied rate in certain cases

- (1) You are entitled to claim a credit if:
 - (a) you are liable to pay an instalment for an *instalment quarter (the *current quarter*) in an *MRRT year; and
 - (b) the amount of your instalment for the current quarter is to be worked out using an instalment rate you chose under section 115-50; and

-
- (c) that rate is lower than your *applicable instalment rate for the previous quarter in the same year; and
 - (d) the amount worked out using the method statement is greater than nil.

Method statement

- Step 1. Add up the instalments you are liable to pay for the earlier *instalment quarters in the year (even if you have not yet paid all of them).
- Step 2. Subtract from the step 1 amount each earlier credit that you have claimed under this section or section 115-100 in respect of the year.
- Step 3. Multiply the total of your *instalment income for those earlier *instalment quarters by your *applicable instalment rate for the current quarter.
- Step 4. Subtract the step 3 amount from the step 2 amount.
- Step 5. If the result is a positive amount, it is the amount of the credit you can claim.

Example: In the first instalment quarter in an MRRT year, a miner has instalment income of \$100m and an applicable instalment rate of 15%, which has been given by the Commissioner.

In the second instalment quarter in the MRRT year, the miner has instalment income of \$80m and uses the same rate given by the Commissioner (15%).

In the third instalment quarter in the MRRT year, the miner has instalment income of \$70m and chooses an instalment rate of 12%.

The miner uses the method statement to work out a credit as follows:

Step 1: The instalment of \$15m for the first instalment quarter (\$100m x 15%), plus the instalment of \$12m for the second instalment quarter (\$80m x 15%) gives a total step 1 amount of \$27m.

Step 2: No earlier credits have been claimed, so there is no amount to subtract from the step 1 amount—the step 2 amount is \$27m.

Step 3: The total of the instalment income for the earlier quarters is \$180m, multiplied by the rate for the current quarter (12%), equals \$21.6m.

Step 4: \$27m - \$21.6m = \$5.4m.

Step 5: The miner has a credit of \$5.4m.

The miner also has an instalment liability for the current quarter of \$8.4m (\$70m x 12%).

After applying the \$5.4m credit, the miner will be liable to pay an amount of \$3m for the quarter.

- (2) A claim for a credit must be made in the *approved form on or before the day on which the instalment for the current quarter is due.

Note: How the credit is applied is set out in Division 3 of Part IIB.

- (3) The credit entitlement does not affect your liability to pay an instalment.

General interest charge payable in certain cases if instalments are too low

115-65 Liability to GIC on shortfall in instalments worked out on the basis of varied rate

- (1) You are liable to pay the *general interest charge under this section if:

- (a) an instalment rate (the *varied rate*) you choose under section 115-50 is your *applicable instalment rate for an *instalment quarter (the *variation quarter*) in an *MRRT year; and
- (b) the varied rate is less than 85% of your *benchmark instalment rate for the MRRT year.

Note: For the Commissioner's power to remit general interest charge, see section 8AAG.

- (2) You are liable to pay the *general interest charge on the amount worked out as follows:

$$\left(\begin{array}{l} \text{Rate} \\ \text{discrepancy} \end{array} \times \begin{array}{l} \text{Your *instalment income} \\ \text{for the variation quarter} \end{array} \right) + \begin{array}{l} \text{Credit} \\ \text{adjustment} \end{array}$$

where:

credit adjustment means:

- (a) if, as a result of using the varied rate for the variation quarter, you claimed a credit under section 115-60—the amount worked out as follows:

$$\text{Rate discrepancy} \times \frac{\text{Your *instalment income for the earlier instalment quarters in the *MRRT year}}{\text{Rate discrepancy}}$$

or the sum of the amounts of the credits, whichever is less;
and

- (b) otherwise—nil.

rate discrepancy means the difference between the varied rate and the lesser of:

- (a) the rate that would have been your *applicable instalment rate for the variation quarter if you did not choose an instalment rate for the variation quarter or an earlier *instalment quarter in the *MRRT year; and
- (b) your *benchmark instalment rate for that MRRT year.
- (3) You are liable to pay the charge for each day in the period that:
- (a) started at the beginning of the day by which the instalment for the variation quarter was due to be paid; and
- (b) finishes at the end of the day on which your *assessed MRRT for the *MRRT year is due to be paid.
- (4) The Commissioner must give you written notice of the *general interest charge to which you are liable under subsection (2). You must pay the charge within 14 days after the notice is given to you.
- (5) If any of the *general interest charge to which you are liable under subsection (2) remains unpaid at the end of the 14 days referred to in subsection (4), you are also liable to pay the general interest charge on the unpaid amount for each day in the period that:
- (a) starts at the end of those 14 days; and
- (b) finishes at the end of the last day on which, at the end of the day, any of the following remains unpaid:
- (i) the unpaid amount;
- (ii) general interest charge on the unpaid amount.

115-70 Working out your *benchmark instalment rate*

Your *benchmark instalment rate* for an *MRRT year is the percentage worked out to 2 decimal places (rounding up if the third decimal place is 5 or more) using the formula:

$$\frac{\text{The amount of *MRRT you are liable to pay for the *MRRT year}}{\text{Your *instalment income for the *MRRT year}} \times 100$$

However, your *benchmark instalment rate* for the MRRT year is a nil rate if either component of the fraction is nil.

Subdivision 115-E—Instalment rate given to you by Commissioner

Table of sections

115-75	Commissioner instalment rate for MRRT
115-80	Commissioner may take changes, and proposed changes, to the law into account

115-75 Commissioner instalment rate for MRRT

- (1) The Commissioner may give you an instalment rate from time to time, by giving you written notice of:
 - (a) the instalment rate; and
 - (b) the modified MRRT liability, as worked out under subsection (2), for the purposes of working out the instalment rate.

Note: For whether the rate the Commissioner gives you is your *applicable instalment rate* for an instalment quarter, see section 115-45.

- (2) An instalment rate that the Commissioner gives you must be the percentage worked out to 2 decimal places (rounding up if the third decimal place is 5 or more) using the formula:

$$\frac{\text{Your modified liability for MRRT for the *base year}}{\text{Your *instalment income for the base year}} \times 100$$

where:

modified liability for MRRT is the amount of *MRRT you are liable to pay for the *base year, subject to section 115-80.

Note: The instalment rate worked out under this subsection could exceed the MRRT rate. One reason for this is that not all amounts of mining revenue are included in instalment income.

- (3) The **base year** is the most recent *MRRT year for which an assessment of *MRRT has been made for you.
- (4) However, the instalment rate must be a nil rate if either component of the fraction is nil.
- (5) Despite subsections (2) to (4), the Commissioner may give you an instalment rate worked out on a different basis if, having regard to the object of this Division and the circumstances, the Commissioner is of the opinion:
 - (a) that it would be reasonable to work out the rate under this subsection; and
 - (b) that the rate so worked out is reasonable.

Example: The following are some examples of circumstances in which a rate may be worked out on a different basis:

- (a) an entity joins or leaves a consolidated group;
 - (b) a mining project interest is transferred or split;
 - (c) there is no base year for the mining project interest;
 - (d) there was a significant amount of one-off capital expenditure in the base year;
 - (e) MRRT allowances applied in a later year are expected to be significantly less than MRRT allowances applied in the base year;
 - (f) there is a change in the economic circumstances of the mining industry.
- (6) To avoid doubt, an instalment rate the Commissioner works out under subsection (5) may be higher, or lower, than the rate worked out under subsection (2) (if a rate can be worked out under that subsection).

115-80 Commissioner may take changes, and proposed changes, to the law into account

For the purposes of working out your modified liability for *MRRT for a *base year, the Commissioner may work out an amount:

- (a) as if provisions of an Act or regulations, as they may reasonably be expected to apply for the purposes of your assessment for a later *MRRT year, had applied for the purposes of the base year; and

- (b) as if provisions of an Act or regulations had applied for the purposes of the base year if:
 - (i) in the Commissioner's opinion, the provisions are likely to be enacted or made; and
 - (ii) the application of the provisions reduces the instalment rate being given to you.

Note: Taking law changes, and proposed law changes, into account in working out the instalment rate means total instalments for the year are as close as possible to your likely MRRT for the year.

Subdivision 115-F—Default instalment rate

Table of sections

115-85 Default instalment rate

115-85 Default instalment rate

Instalment rate for instalment income relating to iron ore

- (1) The rate that applies to you for an *instalment quarter in which your *instalment income only includes amounts relating to iron ore is:
 - (a) if paragraph (b) does not apply—8%; or
 - (b) if the regulations prescribe a rate for the instalment quarter for the purposes of this subsection—that rate.

Instalment rate for instalment income relating to other taxable resources

- (2) The rate that applies to you for an *instalment quarter in which your *instalment income only includes amounts relating to *taxable resources other than iron ore, is:
 - (a) if paragraph (b) does not apply—3%; or
 - (b) if the regulations prescribe a rate for the instalment quarter for the purposes of this subsection—that rate.

Instalment rate for instalment income relating to iron ore and other taxable resources

- (3) The rate that applies to you for an *instalment quarter in which your *instalment income includes amounts relating both to iron ore
-

and to other *taxable resources is the sum of the following, worked out to 2 decimal places (rounding up if the third decimal place is 5 or more):

- (a) the rate that would apply for the quarter if your instalment income only included amounts relating to iron ore, multiplied by the proportion of your total instalment income for the quarter that relates to iron ore;
- (b) the rate that would apply for the quarter if your instalment income only included amounts relating to taxable resources other than iron ore, multiplied by the proportion of your total instalment income for the quarter that relates to taxable resources other than iron ore.

Example: In an instalment quarter, you have \$200m in instalment income from mining project interests that relate to iron ore, and \$100m in instalment income from mining project interests that relate to coal.

Under subsection (1), the default instalment rate for iron ore is 8%, and under subsection (2) the default instalment rate for coal is 3%.

The rate that applies to you for the quarter is 6.33% $[(.08 \times 200\text{m}/300\text{m}) + (.03 \times 100\text{m}/300\text{m})]$.

Regulations not to be made in first MRRT year

- (4) The regulations may prescribe a rate for the purposes of subsection (1) or (2) for an *instalment quarter in the 2013-2014 *MRRT year or a later year.

Table of sections

115-90	Effect of transfer or split of project interest on instalment income
115-95	Additional instalment income for new miner or new explorer
115-100	Credit for original miner or original explorer for instalment quarters before transfer or split
115-105	Adjusted instalment income for original miners or explorers

115-90 Effect of transfer or split of project interest on instalment income

Instalment quarters that have ended before transfer or split happens—instalment income not affected by transfer or split

- (1) In working out, under section 115-40, your *instalment income for an *instalment quarter that ends before a *mining project transfer, *mining project split, *pre-mining project transfer or *pre-mining project split happens:
- (a) include amounts that:
 - (i) relate to *mining revenue events that happen during the instalment quarter; and
 - (ii) would, apart from the application of Division 120, 125, 145 or 150 of the *Minerals Resource Rent Tax Act 2012* in relation to the transfer or split, be included in your *mining revenue or *pre-mining revenue as mentioned in section 115-40; and
 - (b) do not include amounts that:
 - (i) relate to mining revenue events that happen during the instalment quarter; and
 - (ii) are included in your mining revenue or pre-mining revenue as mentioned in section 115-40 only because of the application of those Divisions in relation to the transfer or split.

Note 1: For the original miner or explorer (paragraph (a) case):

- (a) a credit may be available under section 115-100; and
- (b) the effect of paragraph (a) is modified in some circumstances: see section 115-105.

Note 2: For the new miner or explorer (paragraph (b) case), additional “catch up” instalment income may be included in the quarter in which the transfer or split happens: see section 115-95.

Instalment quarter in which transfer or split happens—instalment income transfers with interest

- (2) In working out, under section 115-40, your *instalment income for an *instalment quarter in which a *mining project transfer, *mining project split, *pre-mining project transfer or *pre-mining project split happens:
- (a) include amounts that:

- (i) relate to *mining revenue events that happen during the instalment quarter; and
 - (ii) because of the application of Division 120, 125, 145 or 150 of the *Minerals Resource Rent Tax Act 2012* in relation to the transfer or split, are included in your *mining revenue or *pre-mining revenue as mentioned in section 115-40; and
- (b) do not include amounts that:
- (i) relate to mining revenue events that happen during the instalment quarter; and
 - (ii) because of the application of those Divisions in relation to the transfer or split, are not included in your mining revenue or pre-mining revenue as mentioned in section 115-40.

115-95 Additional instalment income for new miner or new explorer

- (1) Your *instalment income* for an *instalment quarter in an *MRRT year includes an amount worked out under subsection (2) if:
- (a) a *mining project transfer, *mining project split, *pre-mining project transfer or *pre-mining project split happens in the instalment quarter; and
 - (b) you have the relevant *mining project interest or *pre-mining project interest after the transfer or split.
- (2) The amount is the sum of the amounts worked out under column 2 of the table in subsection 30-25(2) of the *Minerals Resource Rent Tax Act 2012* for each *mining revenue event that:
- (a) happens before the start of the *instalment quarter in which the transfer or split happens; and
 - (b) because of the application of Division 120, 125, 145 or 150 of the *Minerals Resource Rent Tax Act 2012* in relation to the transfer or split, results in an amount (including a nil amount) being included in your *mining revenue or *pre-mining revenue as mentioned in section 115-40.

Note 1: The additional instalment income amount is nil if the transfer or split happens in the first quarter of an MRRT year, and the miner or explorer that has the interest before the transfer or split has the same MRRT year as each miner or explorer that has the interest after the transfer or split.

Note 2: For the instalment quarter in which the transfer or split happens, instalment income from before the transfer or split is included under subsection 115-90(2).

115-100 Credit for original miner or original explorer for instalment quarters before transfer or split

- (1) You are entitled to claim a credit if:
- (a) a *mining project transfer, *mining project split, *pre-mining project transfer or *pre-mining project split happens in relation to a *mining project interest or *pre-mining project interest in an *instalment quarter in an *MRRT year; and
 - (b) your *instalment income for an earlier instalment quarter in the MRRT year for which you are liable to pay an instalment includes one or more amounts relating to the mining project interest; and
 - (c) the amount worked out using the method statement is greater than nil.

Method statement

- Step 1. Add up the instalments you are liable to pay for the earlier *instalment quarters in the year (even if you have not yet paid all of them).
- Step 2. Subtract from the step 1 amount each earlier credit that you have claimed under this section or section 115-60 in respect of the year.
- Step 3. For each earlier *instalment quarter in the year, work out your *instalment income under section 115-40 without including amounts that:
- (a) relate to *mining revenue events that happen during the instalment quarter; and
 - (b) because of the application of Division 120, 125, 145 or 150 of the *Minerals Resource Rent Tax Act 2012* in relation to a transfer or split, are not included in your *mining revenue or *pre-mining revenue as mentioned in section 115-40.

Note:	Step 3 effectively recalculates instalment income disregarding paragraph 115-90(1)(a).
Step 4.	Multiply the step 3 amount by your *applicable instalment rate for that quarter.
Step 5.	Sum the amounts worked out under step 4.
Step 6.	Subtract the step 5 amount from the step 2 amount.
Step 7.	If the result is a positive amount, it is the amount of the credit you can claim.

Claim to be made in approved form

- (2) A claim for a credit must be made in the *approved form on or before the day on which the instalment for the current quarter is due.

115-105 Adjusted instalment income for original miners or explorers

- (1) Despite subsection 115-90(1), the provisions mentioned in subsection (2) have effect as if your *instalment income for an *instalment quarter that ends before a *mining project transfer, *mining project split, *pre-mining project transfer or *pre-mining project split happens did not include amounts that:
- (a) relate to *mining revenue events that happen during the instalment quarter; and
 - (b) because of the application of Division 120, 125, 145 or 150 of the *Minerals Resource Rent Tax Act 2012* in relation to the transfer or split, are not included in your *mining revenue or *pre-mining revenue as mentioned in section 115-40.

Note: Subsection (1) effectively recalculates instalment income disregarding paragraph 115-90(1)(a).

- (2) The provisions are:
- (a) subsection 115-65(2) (about GIC on instalment shortfalls); and
 - (b) section 115-70 (about your benchmark instalment rate for an *MRRT year); and

- (c) subsection 115-75(2) (about working out a Commissioner instalment rate).

- (a) you do not have any *instalment quarters* that begin after the end of an *MRRT year; and
 - (b) an *instalment quarter* that would otherwise end after the end of an MRRT year consists instead of the period from the start of the instalment quarter to the end of the MRRT year.

Note: You will only have an MRRT year that is not a 12 month period if you are moving from one accounting period to another: see Division 190 of the *Minerals Resource Rent Tax Act 2012*.

Operative provisions

- 119-5 Making choices
- 119-10 Choices are irrevocable
- 119-15 Division subject to more specific rules

Operative provisions

119-5 Making choices

- (1) If a provision of the *MRRT law allows, or requires, you to make a choice about a matter, the choice is not valid unless you make it:
 - (a) no later than:
 - (i) if you are required to give the Commissioner an *MRRT return for the first *MRRT year in which the choice applies—the earlier of the day on which that obligation is met or the day on which that obligation falls due; or
 - (ii) otherwise—the last day in the period within which you would be required to give the Commissioner such a return if you were required to give the Commissioner such a return; or
 - (b) within a further time that the Commissioner allows.
- (2) The way your *MRRT return for an *MRRT year is prepared is sufficient evidence of you making the choice.
- (3) However, you must give the Commissioner notice of the choice in the *approved form if:
 - (a) you are not required to give the Commissioner an *MRRT return for that MRRT year; or
 - (b) the *MRRT law expressly requires you to give the choice to the Commissioner; or
 - (c) the Commissioner requests you to do so.

(2) The liability is for each day in the period:

- (a) beginning at the start of the day on which *MRRT under your first assessment for that *MRRT year was due to be paid, or would have been due to be paid if there had been any; and
 - (b) ending at the end of the day before the day on which the Commissioner gave you notice of the amended assessment.
- (3) However, if an amended assessment reinstates all or part of a liability in relation to a particular that had been reduced by an earlier amended assessment, the period for the reinstated liability begins at the start of the day on which *MRRT under the earlier amended assessment was due to be paid, or would have been due to be paid if there had been any.

Note: See Division 50 of the *Minerals Resource Rent Tax Act 2012* for when the amount of assessed MRRT and shortfall interest charge becomes due and payable. 5 Hire purchase agreements entered into before 1 July 2012

Without limiting section 35-55 of the *Minerals Resource Rent Tax Act 2012*, that section also applies in relation to hire purchase agreements entered into before 1 July 2012.

Part 3—MRRT allowances

6 Royalty amounts paid on taxable resources extracted before 1 July 2012

To avoid doubt, a liability a miner incurs on or after 1 July 2012 gives rise to a royalty credit under section 60-20 of the *Minerals Resource Rent Tax Act 2012* if the requirements in that section are met, whether the relevant taxable resource was extracted on, before, or after that day.

Part 4—Specialist liability rules

7 Combining mining project interests before commencement

Combining mining project interests

- (1) Two or more mining project interests are taken by Division 115 of the *Minerals Resource Rent Tax Act 2012* to be the same mining project interest from a particular time before 1 July 2012 if those interests would be taken to be the same mining project interest under that Division from that time if the time was after 1 July 2012.

Downstream integration of mining project interests

- (2) If:
- (a) disregarding paragraph 255-10(d) of the *Minerals Resource Rent Tax Act 2012* (choosing to treat mining project interests as integrated), a mining project interest would have been integrated with another mining project interest at a time during the period:
 - (i) starting on 2 May 2010; and
 - (ii) ending just before the start of 1 July 2012; and
 - (b) the miner makes a valid choice under section 255-20 of that Act on or before the day on which the obligation to give an MRRT return for the first MRRT year falls due;
- the requirement in paragraph 255-10(d) of that Act is taken to be satisfied at all times during the period starting at the time mentioned in paragraph (a) of this subitem and ending when the miner makes that choice.

8 Transferring and splitting mining project interests

To avoid doubt, Divisions 120 and 125 of the *Minerals Resource Rent Tax Act 2012* apply in relation to mining project interests before 1 July 2012 in the same way as those Divisions apply in relation to mining project interests after that day.

9 Transferring and splitting pre-mining project interests

To avoid doubt, Divisions 145 and 150 of the *Minerals Resource Rent Tax Act 2012* apply in relation to pre-mining project interests before 1 July 2012 in the same way as those Divisions apply in relation to pre-mining project interests after that day.

10 Substituted accounting periods

Despite section 10-25 of the *Minerals Resource Rent Tax Act 2012*, if:

- (a) a miner has, under section 18 of the *Income Tax Assessment Act 1936*, accounting periods that are not financial years; and
- (b) one of those accounting periods starts before 1 July 2012 and ends after that day;

the period starting on 1 July 2012 and ending at the end of that accounting period is an *MRRT year*.

11 Schemes entered into before 2 May 2010

Without limiting Division 210 of the *Minerals Resource Rent Tax Act 2012* (or that Division as it applies because of item 12 of this Schedule), that Division also applies in relation to a scheme if:

- (a) the scheme was entered into before 2 May 2010; and
- (b) it is reasonable to conclude that an entity (whether alone or with others) would have entered into or carried out the scheme, or part of the scheme, with the purpose mentioned in paragraph 210-10(1)(c) of that Act had the MRRT law been in force when the scheme was entered into.

12 Schemes to increase the base value of starting base assets

- (1) Without limiting Division 210 of the *Minerals Resource Rent Tax Act 2012*, that Division also applies as if an entity gets or got an MRRT benefit from a scheme if:
 - (a) the entity holds a starting base asset; and
 - (b) the base value of that asset for the first MRRT year is, or could reasonably be expected to be, larger than it would be apart from the scheme.
- (2) For the purposes of subitem (1), the Commissioner may make, under section 210-25 of the *Minerals Resource Rent Tax Act 2012*, a determination stating the base value of the starting base asset for the first MRRT year.

- (3) This item applies to property or rights that are expected to be starting base assets as mentioned in subsection 117-20(2) in Schedule 1 to the *Taxation Administration Act 1953* as if the property or rights were a starting base asset.

13 Choice to consolidate for MRRT purposes before commencement

Despite paragraph 215-10(4)(a) of the *Minerals Resource Rent Tax Act 2012*, a choice that the head company of a consolidated group or MEC group or the provisional head company of a MEC group makes under section 215-10 of that Act has effect on and after a day (the day of effect) if:

- (a) the choice is made on 1 July 2012 or within such further time as the Commissioner allows; and
- (b) the day of effect is between 2 May 2010 and the day the choice is made; and
- (c) the consolidated group or MEC group existed on the day of effect; and
- (d) the company notifies the Commissioner, under subsection 215-10(3) of that Act, that the choice is to apply from the day of effect.

Part 5—Administration

14 Reporting requirements for transfers and splits of interests before 1 July 2012

- (1) Without limiting Division 121 in Schedule 1 to the *Taxation Administration Act 1953*, that Division also applies in relation to a mining project transfer, mining project split, pre-mining project transfer or pre-mining project split that happened between 1 May 2010 and 30 June 2012.
- (2) However, despite paragraphs 121-10(4)(b) and (c) in that Schedule, an entity's obligation to give a notice that arises because of subitem (1) is taken to have been complied with if it is given by the later of the following:
 - (a) 21 July 2012;
 - (b) 21 days after receiving a notice that another entity is obliged to give the entity because of subitem (1).

15 Starting base assessments

- (1) Without limiting Division 155 in Schedule 1 to the *Taxation Administration Act 1953*, that Division also applies in relation to a starting base asset as if:
 - (a) the base value of the starting base asset for the first MRRT year were an assessable amount within the meaning of that Division that was mentioned in column 1 of the table in subsection 155-15(1) of that Division; and
 - (b) a starting base return for that year in relation to the starting base asset were a document mentioned in column 3 of that table in relation to that assessable amount.
- (2) This item applies to property or rights that are expected to be starting base assets as mentioned in subsection 117-20(2) in Schedule 1 to the *Taxation Administration Act 1953* as if the property or rights were a starting base asset.
