3 Schedule(s)

Each Act that is specified in a Schedule to this Act is amended or repealed as set out in the applicable items in the Schedule concerned, and any other item in a Schedule to this Act has effect according to its terms.

Schedule 1—Thin capitalisation

Part 1—Safe harbour debt amount

Income Tax Assessment Act 1997

1 Section 820-95 (method statement, step 7)

Omit “³/₄”, substitute “³/₅”.

2 Subsection 820-100(2) (method statement, step 8)

Omit “²⁰/₂₁”, substitute “¹⁵/₁₆”.

3 Section 820-195 (method statement, step 5)

Omit “³/₄”, substitute “³/₅”.

4 Subsection 820-200(2) (method statement, step 6)

Omit “²⁰/₂₁”, substitute “¹⁵/₁₆”.

5 Section 820-205 (method statement, step 5)

Omit “³/₄”, substitute “³/₅”.

6 Subsection 820-210(2) (method statement, step 6)

Omit “²⁰/₂₁”, substitute “¹⁵/₁₆”.

Part 2—Worldwide gearing debt amount for outward investing entities (non-ADI)

Income Tax Assessment Act 1997

7 Paragraph 820-90(1)(c)

Before “a negative amount”, insert “nil or”.

8 Subsection 820-90(1) (note)

Repeal the note, substitute:

Note 1: The safe harbour debt amount differs depending on whether the entity is an outward investor (general) or an outward investor (financial), see sections 820-95 and 820-100.

Note 2: The worldwide gearing debt amount for an entity that is not also an inward investment vehicle (general) or an inward investment vehicle (financial) differs depending on whether the entity is an outward investor (general) or an outward investor (financial), see section 820-110.

9 Subsection 820-90(2)

Repeal the subsection, substitute:

Entity is also an inward investment vehicle (general) or inward investment vehicle (financial)

(2) The entity’s **maximum allowable debt** for an income year is the greatest of the following amounts if the entity is also an *inward investment vehicle (general) or an *inward investment vehicle (financial) for all or any part of that year:

- (a) the *safe harbour debt amount;
- (b) the *arm’s length debt amount;
- (c) unless subsection (3) applies to the entity—the *worldwide gearing debt amount.

Note 1: The safe harbour debt amount differs depending on whether the entity is an outward investor (general) or an outward investor (financial), see sections 820-95 and 820-100.

Note 2: The worldwide gearing debt amount for an entity that is also an inward investment vehicle (general) or an inward investment vehicle

(financial) differs depending on whether the entity is an outward investor (general) or an outward investor (financial), see section 820-111.

Inward investment vehicles that are not eligible for the worldwide gearing debt amount

- (3) This subsection applies to an entity, if:
- (a) the entity has *statement worldwide equity, or *statement worldwide assets, of nil or a negative amount; or
 - (b) *audited consolidated financial statements for the entity for the income year do not exist; or
 - (c) the result of applying the following formula is greater than 0.5:

$$\frac{\text{Average Australian assets of the entity}}{\text{*Statement worldwide assets of the entity for the income year}}$$

where:

average Australian assets of an entity is the average value, for the statement period mentioned in subsection (4), of all the assets of the entity, other than:

- (a) any assets attributable to the entity's *overseas permanent establishments; or
 - (b) any *debt interests held by the entity, to the extent to which any value of the interests is all or a part of the *controlled foreign entity debt of the entity; or
 - (c) any *equity interests or debt interests held by the entity, to the extent to which any value of the interests is all or a part of the *controlled foreign entity equity of the entity.
- (4) For the purposes of the definition of **average Australian assets** in subsection (3) the statement period is the period for which the *audited consolidated financial statements for the entity for the income year have been prepared.
- (5) For the purposes of the formula in paragraph (3)(c), if:
- (a) an amount is included in *statement worldwide assets in respect of an asset; and

Schedule 1 Thin capitalisation

Part 2 Worldwide gearing debt amount for outward investing entities (non-ADI)

- (b) the asset was acquired, held or otherwise dealt with by an entity for a purpose (other than an incidental purpose) that included ensuring that subsection (3) does not apply to an entity; and
- (c) as a result of the acquisition, holding or dealing with of the asset, the amount included in statement worldwide assets exceeds the amount (including nil) that would otherwise be so included;

apply the amount of the excess to reduce statement worldwide assets (or statement worldwide assets as reduced by a previous application of this subsection).

10 Section 820-110 (heading)

Repeal the heading, substitute:

820-110 Worldwide gearing debt amount—outward investor that is not also an inward investment vehicle

11 Subsection 820-110(1) (method statement, steps 2, 3 and 4)

Repeal the steps, substitute:

Step 3. Add 1 to the result of step 1.

Step 4. Divide the result of step 1 by the result of step 3.

12 Subsection 820-110(2) (method statement, steps 2, 3 and 4)

Repeal the steps, substitute:

Step 3. Add 1 to the result of step 1.

Step 4. Divide the result of step 1 by the result of step 3.

13 After section 820-110

Insert:

820-111 Worldwide gearing debt amount—outward investor that is also an inward investment vehicle

Outward investor (general)

- (1) If the entity is an *outward investor (general) for the income year, and is also an *inward investment vehicle (general) for all or any part of that year, the **worldwide gearing debt amount** is the result of applying the method statement in this subsection.

Method statement

- Step 1. Divide the entity's *statement worldwide debt for the income year by the entity's *statement worldwide equity for that year.
- Step 2. Add 1 to the result of step 1.
- Step 3. Divide the result of step 1 by the result of step 2.
- Step 4. Multiply the result of step 3 in this method statement by the result of step 6 in the method statement in section 820-95.
- Step 5. Add to the result of step 4 the average value, for that year, of the entity's *associate entity excess amount. The result of this step is the **worldwide gearing debt amount**.

Example: RKR Limited, a company that is an Australian entity, has a worldwide parent entity in Canada. RKR Limited also has permanent establishments in Singapore. RKR Limited has statement worldwide debt of \$120 million and statement worldwide equity of \$40 million. The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 2 and 3) and multiplying the result by \$75 million (which is the result of step 6 of the method statement in section 820-95) equals \$56.25 million. As the average value of the company's associate entity excess amount is \$4 million, the worldwide gearing debt amount is therefore \$60.25 million.

Outward investor (financial)

- (2) If the entity is an *outward investor (financial) for the income year, and is also an *inward investment vehicle (financial) for all or any

Schedule 1 Thin capitalisation

Part 2 Worldwide gearing debt amount for outward investing entities (non-ADI)

part of that year, the **worldwide gearing debt amount** is the result of applying the method statement in this subsection.

Method statement

- Step 1. Divide the entity's *statement worldwide debt for the income year by the entity's *statement worldwide equity for that year.
- Step 2. Add 1 to the result of step 1.
- Step 3. Divide the result of step 1 by the result of step 2.
- Step 4. Multiply the result of step 3 in this method statement by the result of step 7 in the method statement in subsection 820-100(2).
- Step 5. Add to the result of step 4 the average value, for that year, of the entity's *zero-capital amount (other than any zero-capital amount that is attributable to the entity's *overseas permanent establishments).
- Step 6. Add to the result of step 5 the average value, for that year, of the entity's *associate entity excess amount. The result of this step is the **worldwide gearing debt amount**.

Example: TRR Limited, a company that is an Australian entity, has a worldwide parent entity in the United States of America. TRR Limited also has permanent establishments in Malaysia. TRR Limited has statement worldwide debt of \$90 million and statement worldwide equity of \$30 million. The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 2 and 3) and multiplying the result by \$100 million (which is the result of step 7 of the method statement in subsection 820-100(2)) equals \$75 million. The zero capital amount is \$5 million. Adding that amount to \$75 million results in \$80 million. As the company does not have any associate entity excess amount, the worldwide gearing debt amount is therefore \$80 million.

Part 3—Worldwide capital amount

Income Tax Assessment Act 1997

14 Subsection 820-320(2) (method statement, steps 2 and 3)

Repeal the steps, substitute:

Step 3. Multiply the result of step 1 by the entity's worldwide group capital ratio for that year (see subsection (3)).

Part 4—Safe harbour capital amount

Income Tax Assessment Act 1997

15 Subsection 820-310(1) (method statement, step 2)

Omit “4%”, substitute “6%”.

16 Section 820-405 (method statement, step 2)

Omit “4%”, substitute “6%”.

17 Subsection 820-615(3) (method statement, step 2)

Omit “4%”, substitute “6%”.

Part 5—De minimis threshold

Income Tax Assessment Act 1997

18 Section 820-35

Repeal the section, substitute:

820-35 Application—\$2 million threshold

Subdivision 820-B, 820-C, 820-D or 820-E does not apply to disallow any *debt deduction of an entity for an income year if the total debt deductions of that entity and all its *associate entities for that year are \$2 million or less.

Part 6—Worldwide gearing debt amount for inward investing entities (non-ADI)

Income Tax Assessment Act 1997

19 Section 820-190

Repeal the section, substitute:

820-190 Maximum allowable debt

- (1) The entity's *maximum allowable debt* for an income year is the greatest of the following amounts:
- (a) the *safe harbour debt amount;
 - (b) the *arm's length debt amount;
 - (c) unless subsection (2) applies to the entity—the *worldwide gearing debt amount.

Note 1: The safe harbour debt amount differs depending on whether the entity is an inward investment vehicle (general), inward investment vehicle (financial), inward investor (general) or inward investor (financial), see sections 820-195 to 820-215.

Note 2: The worldwide gearing debt amount differs depending on whether the entity is an inward investment vehicle (general), inward investment vehicle (financial), inward investor (general) or an inward investor (financial), see sections 820-216 to 820-219.

Entities that are not eligible for the worldwide gearing debt amount

- (2) This subsection applies to an entity, if:
- (a) the entity has *statement worldwide equity, or *statement worldwide assets, of nil or a negative amount; or
 - (b) *audited consolidated financial statements for the entity for the income year do not exist; or
 - (c) the result of applying the following formula is greater than 0.5:

$$\frac{\text{Average Australian assets of the entity}}{\text{*Statement worldwide assets of the entity for the income year}}$$

where:

average Australian assets:

- (a) of an *Australian entity—is the average value, for the statement period mentioned in subsection (3), of all the assets of the entity, other than:
 - (i) any *debt interests held by the entity, to the extent to which any value of the interests is all or a part of the *controlled foreign entity debt of the entity; or
 - (ii) any *equity interests or debt interests held by the entity, to the extent to which any value of the interests is all or a part of the *controlled foreign entity equity of the entity; and
 - (b) of a *foreign entity—is the average value, for the statement period mentioned in subsection (3), of all the assets of the entity that are:
 - (i) located in Australia; or
 - (ii) attributable to the entity's *Australian permanent establishments; or
 - (iii) debt interests held by the entity, that were *issued by an *Australian entity and are *on issue;
 - (iv) equity interests held by the entity in an *Australian entity.
- (3) For the purposes of the definition of ***average Australian assets*** in subsection (2) the statement period is the period for which the *audited consolidated financial statements for the entity for the income year have been prepared.
- (4) For the purposes of the formula in paragraph (2)(c), if:
- (a) an amount is included in *statement worldwide assets in respect of an asset; and
 - (b) the asset was acquired, held or otherwise dealt with by an entity for a purpose (other than an incidental purpose) that included ensuring that subsection (2) does not apply to an entity; and
 - (c) as a result of the acquisition, holding or dealing with of the asset, the amount included in statement worldwide assets

exceeds the amount (including nil) that would otherwise be so included;

apply the amount of the excess to reduce statement worldwide assets (or statement worldwide assets as reduced by a previous application of this subsection).

20 After section 820-215

Insert:

820-216 Worldwide gearing debt amount—inward investment vehicle (general)

If the entity is an *inward investment vehicle (general) for the income year, and is not also an *outward investor (general) for all or any part of that year, the **worldwide gearing debt amount** is the result of applying the method statement in this section.

Method statement

- Step 1. Divide the entity's *statement worldwide debt for the income year by the entity's *statement worldwide equity for that year.
- Step 2. Add 1 to the result of step 1.
- Step 3. Divide the result of step 1 by the result of step 2.
- Step 4. Multiply the result of step 3 in this method statement by the result of step 4 in the method statement in section 820-195.
- Step 5. Add to the result of step 4 the average value, for that year, of the entity's *associate entity excess amount. The result of this step is the **worldwide gearing debt amount**.

Example: SJP Limited, a company that is an Australian entity, has a worldwide parent entity in Japan. SJP Limited has statement worldwide debt of \$120 million and statement worldwide equity of \$40 million. The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 2 and 3) and multiplying the result by \$75 million (which is the result of step 4 of the method statement in

section 820-195) equals \$56.25 million. As the average value of the company's associate entity excess amount is \$4 million, the worldwide gearing debt amount is therefore \$60.25 million.

820-217 Worldwide gearing debt amount—inward investment vehicle (financial)

If the entity is an *inward investment vehicle (financial) for the income year, and is not also an *outward investor (financial) for all or any part of that year, the **worldwide gearing debt amount** is the result of applying the method statement in this section.

Method statement

- Step 1. Divide the entity's *statement worldwide debt for the income year by the entity's *statement worldwide equity for that year.
- Step 2. Add 1 to the result of step 1.
- Step 3. Divide the result of step 1 by the result of step 2.
- Step 4. Multiply the result of step 3 in this method statement by the result of step 5 in the method statement in subsection 820-200(2).
- Step 5. Add to the result of step 4 the average value, for that year, of the entity's *zero-capital amount.
- Step 6. Add to the result of step 5 the average value, for that year, of the entity's *associate entity excess amount. The result of this step is the **worldwide gearing debt amount**.

Example: RGR Limited, a company that is an Australian entity, has a worldwide parent entity in France. RGR Limited has statement worldwide debt of \$90 million and statement worldwide equity of \$30 million. The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 2 and 3) and multiplying the result by \$100 million (which is the result of step 5 of the method statement in subsection 820-200(2)) equals \$75 million. The zero capital amount is \$5 million. Adding that amount to \$75 million results in \$80 million. As the company does not have any associate entity excess amount, the worldwide gearing debt amount is therefore \$80 million.

820-218 Worldwide gearing debt amount—inward investor (general)

If the entity is an *inward investor (general) for the income year, the **worldwide gearing debt amount** is the result of applying the method statement in this section.

Method statement

- Step 1. Divide the entity's *statement worldwide debt for the income year by the entity's *statement worldwide equity for that year.
- Step 2. Add 1 to the result of step 1.
- Step 3. Divide the result of step 1 by the result of step 2.
- Step 4. Multiply the result of step 3 in this method statement by the result of step 4 in the method statement in section 820-205.
- Step 5. Add to the result of step 4 the average value, for that year, of the entity's *associate entity excess amount. The result of this step is the **worldwide gearing debt amount**.

Example: MLO Limited, a company that is not an Australian entity, has investments in Australia. MLO Limited has statement worldwide debt of \$120 million and statement worldwide equity of \$40 million.

The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 2 and 3) and multiplying the result by \$75 million (which is the result of step 4 of the method statement in section 820-205) equals \$56.25 million. As the average value of the company's associate entity excess amount is \$4 million, the worldwide gearing debt amount is therefore \$60.25 million.

820-219 Worldwide gearing debt amount—inward investor (financial)

If the entity is an *inward investor (financial) for the income year, the **worldwide gearing debt amount** is the result of applying the method statement in this section.

Method statement

- Step 1. Divide the entity's *statement worldwide debt for the income year by the entity's *statement worldwide equity for that year.
- Step 2. Add 1 to the result of step 1.
- Step 3. Divide the result of step 1 by the result of step 2.
- Step 4. Multiply the result of step 3 in this method statement by the result of step 5 in the method statement in subsection 820-210(2).
- Step 5. Add to the result of step 4 the average value, for that year, of the entity's *zero-capital amount that has arisen because of the Australian investments mentioned in step 1 of the method statement in subsection 820-210(2).
- Step 6. Add to the result of step 5 the average value, for that year, of the entity's *associate entity excess amount. The result of this step is the ***worldwide gearing debt amount***.

Example: MSR Limited, a company that is not an Australian entity, has investments in Australia. MSR Limited has statement worldwide debt of \$90 million and statement worldwide equity of \$30 million. The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 2 and 3) and multiplying the result by \$100 million (which is the result of step 5 of the method statement in subsection 820-210(2)) equals \$75 million. The zero-capital amount is \$5 million. Adding that amount to \$75 million results in \$80 million. As the company does not have any associate entity excess amount, the worldwide gearing debt amount is therefore \$80 million.

820-932 Worldwide debt and worldwide equity

Worldwide debt

- (1) An entity's **worldwide debt** at a particular time, means the total of the following amounts:
- (a) all the *debt interests issued by the entity:
 - (i) to entities other than any *Australian controlled foreign entities (the **controlled entities**) of which the entity is an *Australian controller at that time; and
 - (ii) that are still *on issue at that time;
 - (b) all the debt interests issued by the controlled entities:
 - (i) to entities other than the entity or other controlled entities; and
 - (ii) that are still on issue at that time.

Worldwide equity

- (2) An entity's **worldwide equity** at a particular time, means the total of the following amounts:
- (a) all the *equity capital of the entity as at that time, but worked out disregarding *equity interests in the entity held at that time by *Australian controlled foreign entities (the **controlled entities**) of which the entity is an *Australian controller at that time;
 - (b) all the equity capital of the controlled entities as at that time, but worked out disregarding equity interests in the controlled entities held at that time by:
 - (i) the entity; or
 - (ii) other controlled entities.

820-933 Statement worldwide debt, statement worldwide equity and statement worldwide assets

Statement worldwide debt

- (1) An entity's **statement worldwide debt** for a period is the amount (see subsection (4)) of liabilities for the entity for the period, reduced (but not below zero) by the sum of the following amounts (see subsection (4)) for the entity for the period:
- (a) provisions;
 - (b) liabilities in relation to distributions to equity participants;
 - (c) trade payables;
 - (d) deferred tax liabilities;
 - (e) liabilities relating to employee benefits;
 - (f) current tax liabilities;
 - (g) deferred revenue;
 - (h) liabilities relating to insurance;
 - (i) any other amount specified in a legislative instrument under subsection (5).

Statement worldwide equity

- (2) An entity's **statement worldwide equity** for a period means the amount (see subsection (4)) of net assets for the entity for the period.

Statement worldwide assets

- (3) An entity's **statement worldwide assets** for a period means the amount (see subsection (4)) of assets for the entity for the period.

Amounts from audited consolidated financial statements to be used

- (4) For the purposes of this section:
- (a) an amount for an entity for a period is taken to be that amount as shown in the *audited consolidated financial statements for the entity for the period; and
 - (b) sections 820-680, 820-682, 820-683 and 820-684 do not apply.

Other amounts

- (5) The Minister may, by legislative instrument, specify one or more amounts for the purposes of paragraph (1)(i).

820-935 Meaning of *audited consolidated financial statements*

- (1) **Audited consolidated financial statements** for an entity for a period are:
- (a) the financial statements that meet the requirements in subsection (2) for the entity for the period; or
 - (b) if more than one set of financial statements meet the requirements in subsection (2) for the entity for the period—whichever of those sets of financial statements the entity chooses.
- (2) Financial statements meet the requirements in this subsection for an entity for a period (the **relevant period**) if:
- (a) the statements have been prepared on a consolidated basis in relation to the entity and one or more other entities in

- accordance with standards covered by subsection (3) or (4) (the *recognised overseas accounting standards*); and
- (b) one of the entities is a worldwide parent entity mentioned in subsection (6); and
 - (c) the statements show the amounts mentioned in subsections 820-933(1), (2) and (3) (however described) on that consolidated basis and in accordance with those standards; and
 - (d) the statements have been audited (and the auditor's report is unqualified) in accordance with a requirement in the law of:
 - (i) a foreign jurisdiction mentioned in subsection (3) of this section; or
 - (ii) another jurisdiction that has adopted the standards mentioned in subsection (4); and
 - (e) the statements are for the most recent period ending:
 - (i) no later than the end of the relevant period; and
 - (ii) no earlier than 12 months before the start of the relevant period.

Recognised overseas accounting standards

- (3) This subsection covers the standards (however described) that apply to the preparation of financial statements and are made, or adopted, by the responsible body in any of the following (a *foreign jurisdiction*):
 - (a) the European Union;
 - (b) the United States of America;
 - (c) Canada;
 - (d) Japan;
 - (e) New Zealand;
 - (f) a jurisdiction specified in an instrument under subsection (5).
- (4) This subsection covers the international financial reporting standards that are made or adopted by the International Accounting Standards Board.
- (5) The Minister may, by legislative instrument, specify one or more jurisdictions for the purposes of paragraph (3)(f).

Schedule 1 Thin capitalisation

Part 6 Worldwide gearing debt amount for inward investing entities (non-ADI)

Worldwide parent entity

- (6) For the purposes of paragraph (2)(b), an entity in relation to which financial statements have been prepared is a worldwide parent entity if, for the purposes of the standards in accordance with which the statements were prepared, the entity is not controlled by another entity.

Part 7—Consequential amendments

Income Tax Assessment Act 1997

22 Section 820-10 (after table item 7)

Insert:

- 7A Subdivision 820-JA worldwide debt and equity concepts.

23 Subsection 820-85 (note 1)

Omit “\$250,000”, substitute “\$2 million”.

24 Section 820-95 (example)

Repeal the example, substitute:

Example: AK Pty Ltd, a company that is an Australian entity, has an average value of assets (other than assets attributable to its overseas permanent establishments) of \$100 million.

The average values of its excluded equity interests, associate entity debt, associate entity equity, controlled foreign entity debt, controlled foreign entity equity and non-debt liabilities are \$5 million, \$10 million, \$8 million, \$5 million, \$2 million and \$5 million respectively. Deducting these amounts from the result of step 1 (through applying steps 1A to 6) leaves \$65 million. Multiplying \$65 million by $\frac{3}{5}$ results in \$39 million. As the average value of the company’s associate entity excess amount is \$4.5 million, the safe harbour debt amount is therefore \$43.5 million.

25 Subsection 820-100(2) (example)

Repeal the example, substitute:

Example: GLM Limited, a company that is an Australian entity, has an average value of assets (other than assets attributable to its overseas permanent establishments) of \$160 million.

The average values of its relevant excluded equity interests, associate entity debt, associate entity equity, controlled foreign entity debt, controlled foreign entity equity, non-debt liabilities and zero-capital amount are \$5 million, \$5 million, \$5 million, \$9 million, \$6 million, \$5 million and \$4 million respectively. Deducting these amounts from the result of step 1 (through applying steps 1A to 7) leaves \$121 million. Multiplying \$121 million by $\frac{15}{16}$ results in \$113.4375 million. Adding the average zero-capital amount of \$4 million results in \$117.4375 million. As the company does not have any associate

entity excess amount, the total debt amount is therefore \$117.4375 million.

26 Subsection 820-100(3) (method statement, step 7)

Omit “³/₄”, substitute “³/₅”.

27 Subsection 820-100(3) (example)

Repeal the example, substitute:

Example: GLM Limited, a company that is an Australian entity, has an average value of assets (other than assets attributable to its overseas permanent establishments) of \$160 million.

The average values of its relevant excluded equity interests, associate entity equity, controlled foreign entity debt, controlled foreign entity equity, non-debt liabilities and on-lent amount are \$5 million, \$5 million, \$9 million, \$6 million, \$5 million and \$35 million respectively. Deducting these amounts from the result of step 1 (through applying steps 1A to 6) leaves \$95 million. Multiplying \$95 million by ³/₅ results in \$57 million. Adding the average on-lent amount of \$35 million results in \$92 million. Reducing the result of step 8 by the associate entity debt amount of \$5 million equals \$87 million. As the company does not have any associate entity excess amount, the adjusted on-lent amount is therefore \$87 million.

28 Subsection 820-110(1) (heading)

Repeal the heading, substitute:

Outward investor (general) that is not also an inward investment vehicle (general)

29 Subsection 820-110(1)

After “the income year,”, insert “and not also an *inward investment vehicle (general) for all or any part of that year,”.

30 Subsection 820-110(1) (example)

Repeal the example, substitute:

Example: AK Pty Ltd, a company that is an Australian entity, has an average value of worldwide debt of \$90 million and an average value of worldwide equity of \$30 million. The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 3 and 4) and multiplying the result by \$65 million (which is the result of step 6 in the method statement in section 820-95) equals \$48.75 million. As the average value of the company’s associate entity excess amount is \$4.5

million, the worldwide gearing debt amount is therefore \$53.25 million.

31 Subsection 820-110(2) (heading)

Repeal the heading, substitute:

Outward investor (financial) that is not also an inward investment vehicle (financial)

32 Subsection 820-110(2)

After “that year,”, insert “and not also an *inward investment vehicle (financial) for all or any part of that year,”.

33 Subsection 820-110(2) (example)

Repeal the example, substitute:

Example: GLM Limited, a company that is an Australian entity, has an average value of worldwide debt of \$120 million and an average value of worldwide equity of \$40 million. The result of applying step 1 is therefore 3. Dividing 3 by 4 (through applying steps 3 and 4) and multiplying the result by \$121 million (which is the result of step 7 of the method statement in subsection 820-100(2)) equals \$90.75 million. The average value of zero-capital amount (see step 7 of the method statement in subsection 820-100(2)) is \$4 million. Adding that amount to \$90.75 million results in \$94.75 million. As the company does not have any associate entity excess amount, the worldwide gearing debt amount is therefore \$94.75 million.

34 Subsection 820-185 (note 1)

Omit “\$250,000”, substitute “\$2 million”.

35 Section 820-195 (example)

Repeal the example, substitute:

Example: ALWZ Ltd, a company that is an Australian entity, has an average value of assets of \$100 million.

The average values of its excluded equity interests, associate entity debt, associate entity equity and non-debt liabilities are \$5 million, \$10 million, \$5 million and \$5 million respectively. Deducting these amounts from the result of step 1 (through applying steps 1A to 4) leaves \$75 million. Multiplying \$75 million by $\frac{3}{5}$ results in \$45 million. As the average value of the company’s associate entity excess amount is \$2 million, the safe harbour debt amount is therefore \$47 million.

36 Subsection 820-200(2) (example)

Repeal the example, substitute:

Example: KJW Finance Pty Ltd, a company that is an Australian entity, has an average value of assets of \$120 million.

The average values of its excluded equity interests, associate entity debt, associate entity equity, its non-debt liabilities and its zero-capital amount are \$5 million, \$5 million, \$3 million, \$2 million and \$5 million respectively. Deducting these amounts from the result of step 1 (through applying steps 1A to 5) leaves \$100 million. Multiplying \$100 million by $\frac{15}{16}$ results in \$93.75 million. Adding the zero-capital amount of \$5 million to \$93.75 million results in \$98.75 million. As the company does not have any associate entity excess amount, the total debt amount is therefore \$98.75 million.

37 Subsection 820-200(3) (method statement, step 5)

Omit “ $\frac{3}{4}$ ”, substitute “ $\frac{3}{5}$ ”.

38 Subsection 820-200(3) (example)

Repeal the example, substitute:

Example: KJW Finance Pty Ltd, a company that is an Australian entity, has an average value of assets of \$120 million.

The average values of its excluded equity interests, associate entity equity, non-debt liabilities and on-lent amount are \$5 million, \$3 million, \$2 million and \$35 million respectively. Deducting these amounts from the result of step 1 (through applying steps 1A to 4) leaves \$75 million. Multiplying \$75 million by $\frac{3}{5}$ results in \$45 million. Adding the average on-lent amount of \$35 million results in \$80 million. Reducing \$80 million by the associate entity debt amount of \$5 million results in \$75 million. As the company does not have any associate entity excess amount, the adjusted on-lent amount is therefore \$75 million.

39 Section 820-205 (example)

Repeal the example, substitute:

Example: RJ Corporation is a company that is not an Australian entity. The average value of its Australian investments is \$100 million.

The average value of its relevant excluded equity interests, associate entity debt, associate entity equity and non-debt liabilities is \$5 million, \$10 million, \$5 million and \$5 million respectively. Deducting those amounts from the result of step 1 leaves \$75 million. Multiplying \$75 million by $\frac{3}{5}$ results in \$45 million. As the company

does not have any associate entity excess amount, the safe harbour debt amount is therefore \$45 million.

40 Subsection 820-210(2) (example)

Repeal the example, substitute:

Example: FXS Financial SA is a company that is not an Australian entity. The average value of its Australian investments is \$120 million.

The average value of its relevant excluded equity interests, associate entity debt, associate entity equity, non-debt liabilities and zero-capital amount are \$5 million, \$5 million, \$2 million, \$3 million and \$5 million respectively. Deducting those amounts from the result of step 1 (through applying steps 1A to 5) leaves \$100 million. Multiplying \$100 million by $\frac{15}{16}$ results in \$93.75 million. Adding the average zero-capital amount of \$5 million results in \$98.75 million. As the company does not have any associate entity excess amount, the total debt amount is therefore \$98.75 million.

41 Subsection 820-210(3) (method statement, step 5)

Omit “ $\frac{3}{4}$ ”, substitute “ $\frac{3}{5}$ ”.

42 Subsection 820-210(3) (example)

Repeal the example, substitute:

Example: FXS Financial SA is a company that is not an Australian entity. The average value of its Australian investments is \$120 million.

The average value of its relevant excluded equity interests, associate entity equity, non-debt liabilities and on-lent amount are \$5 million, \$2 million, \$3 million and \$35 million respectively. Deducting those amounts from the result of step 1 (through applying steps 1A to 4) leaves \$75 million. Multiplying \$75 million by $\frac{3}{5}$ results in \$45 million. Adding the average on-lent amount of \$35 million results in \$80 million. Reducing the result of step 6 by the associate entity debt amount of \$5 million results in \$75 million. As the company does not have any associate entity excess amount, the adjusted on-lent amount is therefore \$75 million.

43 Subsection 820-300(1) (note 1)

Omit “\$250,000”, substitute “\$2 million”.

44 Subsection 820-310(1) (example)

Repeal the example, substitute:

Example: The Southern Cross Bank is an Australian bank that carries on its banking business through its overseas permanent establishments and through foreign entities that it controls. For the income year, its average value of risk-weighted assets and intangible assets comprising capitalised software expenses is \$150 million (having discounted those assets that are excluded by step 1) and the average value of its relevant tier 1 prudential capital deductions is \$2 million. Multiplying \$150 million by 6% equals \$9 million, which is the result of step 2. Adding \$2 million to \$9 million equals \$11 million, which is the safe harbour capital amount.

45 Subsection 820-320(2) (example)

Repeal the example, substitute:

Example: Southern Cross Bank has an average value of risk-weighted assets of \$150 million (having discounted those risk-weighted assets that are excluded by step 1) and the average value of its relevant tier 1 prudential capital deductions is \$2 million. The entity's worldwide group capital ratio is 0.0875. Multiplying \$150 million by 0.0875 equals \$13.125 million, which is the result of step 3. Adding that amount to the average value of the relevant tier 1 prudential capital deductions equals \$15.125 million, which is the worldwide capital amount.

46 Subsection 820-395(1) (note 1)

Omit "\$250,000", substitute "\$2 million".

47 Section 820-405 (example)

Repeal the example, substitute:

Example: The Global Bank is a foreign bank that carries on its banking business in Australia through a permanent establishment. The average value of its relevant risk-weighted assets is \$140 million. Multiplying that amount by 6% results in \$8.4 million, which is the safe harbour capital amount.

48 Paragraph 820-910(2)(b)

Omit "\$250,000", substitute "\$2 million".

49 Subsection 820-920(3) (method statement, step 4, paragraph (a))

Omit "²⁰/₂₁", substitute "¹⁵/₁₆".

50 Subsection 820-920(3) (method statement, step 4, paragraphs (b) and (c))

Omit “³/₄”, substitute “³/₅”.

51 Paragraph 820-946(1)(c)

Omit “\$250,000”, substitute “\$2 million”.

52 Subsection 995-1(1)

Insert:

Foreign equity distributions on participation interests

768-5 Foreign equity distributions on participation interests

Foreign equity distributions received directly

- (1) A *foreign equity distribution is not assessable income, and is not *exempt income, of the entity to which it is made if:
- (a) the entity is an Australian resident and a *corporate tax entity; and
 - (b) at the time the distribution is made, the entity satisfies the participation test in section 768-15 in relation to the company that made the distribution; and
 - (c) the entity:
 - (i) does not receive the distribution in the capacity of a trustee; or
 - (ii) receives the distribution in the capacity of a trustee of a *corporate unit trust or *public trading trust.

Foreign equity distributions received through interposed trusts and partnerships

- (2) An amount is not assessable income, and is not *exempt income, of an entity if:

Schedule 2 Foreign dividends

Part 1 Foreign equity distributions on participation interests

- (a) the entity is a beneficiary of a trust or a partner in a partnership, an Australian resident and a *corporate tax entity; and
 - (b) the amount is all or part of the net income of the trust or partnership that would, apart from this subsection, be included in the entity's assessable income because of Division 5 or 6 of Part III of the *Income Tax Assessment Act 1936*; and
 - (c) the amount can be attributed (either directly or indirectly through one or more interposed trusts or partnerships that are not *corporate tax entities) to a *foreign equity distribution; and
 - (d) at the time the distribution is made, the entity satisfies the participation test in section 768-15 in relation to the company that made the distribution; and
 - (e) the entity:
 - (i) does not receive the distribution in the capacity of a trustee; or
 - (ii) receives the distribution in the capacity of a trustee of a *corporate unit trust or *public trading trust.
- (3) An amount that is *non-assessable non-exempt income under subsection (2) is taken, for the purpose of section 25-90 (about deductions relating to foreign non-assessable non-exempt income) to be derived from the same source as the *foreign equity distribution.

768-10 Meaning of *foreign equity distribution*

A ***foreign equity distribution*** is a *distribution or *non-share dividend made by a company that is a foreign resident in respect of an *equity interest in the company.

768-15 Participation test—minimum 10% participation

An entity satisfies the participation test in this section in relation to another entity at a time if, at that time, the sum of the following is at least 10%:

- (a) the *direct participation interest the entity would have in the other entity if rights on winding-up were disregarded;
-

- (b) the *indirect participation interest the entity would have in the other entity if:
- (i) rights on winding-up were disregarded; and
 - (ii) section 960-185 only applied to intermediate entities that are not *corporate tax entities.

 - (b) are created under *arrangements under which corresponding liabilities are created in other members of the group.
- (2) For the purposes of subsections 855-30(2) and (4), subsection (4) of this section applies to an asset that is not *taxable Australian real property if:
 - (a) the parties to an *arrangement included the 2 entities referred to in subsection (3); and

Schedule 3 Foreign resident CGT integrity measures

Part 1 Duplicated assets of corporate groups

- (b) an effect of the arrangement was to create, before the *CGT event happened:
 - (i) the asset as an asset of one of those 2 parties; and
 - (ii) a corresponding liability of the other (the *other party*).
- (3) The 2 entities are either:
 - (a) the first entity and the other entity (see subsection 855-30(3)), if table item 2 in subsection 855-30(4) applies to those entities; or
 - (b) both:
 - (i) that first entity or that other entity; and
 - (ii) an entity that is a first entity or other entity for the purposes of a related application of subsection 855-30(3) and table item 2 in subsection 855-30(4).
- (4) Disregard:
 - (a) if the other party is the test entity (see subsection 855-30(2))—the asset's *market value; or
 - (b) otherwise—the percentage of the asset's market value equal to the percentage that is the test entity's *total participation interest in the other party.

Example: The test entity loans money to its wholly-owned subsidiary. The market value of the loan asset created as an asset of the test entity is disregarded for the purposes of subsection 855-30(2).

5 Application of amendment

Section 855-32 of the *Income Tax Assessment Act 1997* (as inserted by this Part) applies in relation to a CGT event if:

- (a) in a case where the 2 entities that are parties to the arrangement were members of the same consolidated group or MEC group at the time the asset was created—the CGT event happens after 7.30 pm, by legal time in the Australian Capital Territory, on 14 May 2013; and
- (b) otherwise—the CGT event happens on or after 13 May 2014.

Part 2—Assets used by permanent establishments

Income Tax Assessment Act 1997

6 Section 855-15 (cell at table item 3, column headed “Description”)

Repeal the cell, substitute:

A *CGT asset that:

- (a) you have used at any time in carrying on a *business through:
 - (i) if you are a resident in a country that has entered into an *international tax agreement with Australia containing a *permanent establishment article—a permanent establishment (within the meaning of the relevant international tax agreement) in Australia; or
 - (ii) otherwise—a *permanent establishment in Australia; and
- (b) is not covered by item 1, 2 or 5 of this table

7 After section 855-15

Insert:

855-16 Meaning of *permanent establishment article*

A *permanent establishment article* is:

- (a) Article 5 of the United Kingdom convention (within the meaning of the *International Tax Agreements Act 1953*); or
- (b) a corresponding provision of another *international tax agreement.

8 Subsection 855-35(1)

Omit “(within the meaning of section 23AH of the *Income Tax Assessment Act 1936*)”, substitute “(as mentioned in that item)”.

9 Subsection 995-1(1)

Insert:

permanent establishment article has the meaning given by section 855-16.

10 Application of amendments

The amendments made by this Part apply to CGT events happening on or after the commencement of item 112 of Schedule 4 to the *Tax Laws Amendment (2006 Measures No. 4) Act 2006*.

Schedule 4—Tax receipts

Income Tax Assessment Act 1997

1 Subsection 995-1(1)

Insert:

tax receipt means a receipt given to you under subsection 70-5(1) of Schedule 1 to the *Taxation Administration Act 1953*.

Division 70—Tax receipts

Table of Subdivisions

	Guide to Division 70
70-A	Tax receipts

Guide to Division 70

70-1 What this Division is about

The Commissioner must provide you with a tax receipt for an income year if you are an individual taxpayer and the total tax assessed to you for the income year is \$100 or more (or such other amount as determined by the Commissioner from time to time).

The tax receipt must include information about how the total tax assessed to you for the income year is notionally used to finance different categories of Commonwealth government expenditure.

The tax receipt must also include information about the total amount of Commonwealth government debt, for the current and previous financial years, and the expected total amount of interest to be paid on that debt during the current financial year.

Subdivision 70-A—Tax receipts

Table of sections

70-5 Tax receipt to be provided to certain individual taxpayers

70-5 Tax receipt to be provided to certain individual taxpayers

- (1) The Commissioner must give you a *tax receipt in respect of an income year if:
 - (a) the Commissioner is required to give you a notice of assessment in respect of the income year and has not previously given you a notice in respect of the income year; and
 - (b) you are an individual; and
 - (c) the amount of income tax you owe (as worked out under step 4 of subsection 4-10(3) of the *Income Tax Assessment Act 1997*) for the *financial year that corresponds to the income year is equal to or greater than:
 - (i) if subparagraph (ii) does not apply—\$100; or
 - (ii) if the Commissioner has made a determination under subsection (2)—the amount specified in the determination; and
 - (d) the notice is given to you within the period of 18 months after the end of the income year.
- (2) The Commissioner may, by legislative instrument, make a determination that specifies an amount for the purposes of subparagraph (1)(c)(ii).
- (3) The *tax receipt must include the following information:
 - (a) your name;
 - (b) the amount mentioned in paragraph (1)(c);

-
- (c) how the amount mentioned in paragraph (1)(c) is notionally used to finance different categories of Commonwealth government expenditure (other than expenditure that relates to amounts collected under the *GST law that are paid to the States and Territories);
 - (d) an estimate of the total face value of Commonwealth stock and securities on issue at the end of the previous *financial year;
 - (e) an estimate of the expected total face value of Commonwealth stock and securities on issue at the end of the financial year;
 - (f) the expected total interest to be paid during the financial year in respect of the Commonwealth stock and securities referred to in paragraph (e).

Note: The allocation of how the total tax assessed to you is spent is a notional calculation and may not represent how the tax assessed to you is actually spent.

- (4) For the purposes of determining the amounts in paragraphs (2)(d) to (f), the Commissioner must use the information in the budget economic and fiscal outlook report prepared for the purpose of section 10 of the *Charter of Budget Honesty Act 1998* in respect of the *financial year referred to in paragraph (1)(c).
- (5) For the purposes of determining the form of the information to be included in the *tax receipt, the Commissioner must seek the advice of the Minister and take that advice into account.
- (6) The Commissioner must give you the *tax receipt as soon as practicable.

74 Transitional—amendments do not affect things done

Things done under amended provisions

- (1) Subitem (2) applies to a thing done under a provision of an Act if:
 - (a) the provision is amended by an item of this Part; and
 - (b) the thing was in force immediately before the commencement of that item.
- (2) The thing has effect, after the commencement of that item, as if it had been done under that provision as amended by that item. However, this is not taken to change the time at which the thing was actually done.

Amendments do not affect requirements for things done

- (3) Subitem (4) applies to a thing done under an Act if:
- (a) the thing was in force, and complied with a requirement of that Act, immediately before the commencement of an item of this Part; and
 - (b) immediately after the commencement of that item, the thing fails to comply with that requirement solely because of the amendments of that Act made by that item.
- (4) Disregard those amendments when considering, on and after the commencement of that item, whether the thing complies with that requirement.

Meaning of thing done

- (5) In this item, doing a thing includes:
- (a) making an instrument; and
 - (b) making a decision.

75 Rules may deal with transitional etc. matters

- (1) The Minister may, by legislative instrument, make rules prescribing matters of a transitional nature (including prescribing any saving or application provisions) relating to the amendments or repeals made by this Part.
- (2) This Part does not limit the rules that may be made for the purposes of subitem (1).

165-205 Death of share owner

- (1) If an individual beneficially owns *shares in a company when he or she dies, this section applies if and while the shares:
 - (a) are owned by the trustee of the deceased’s estate; or
 - (b) are beneficially owned by someone who receives them as a beneficiary of the deceased’s estate.

- (2) For the purposes of a test:
 - (a) the *shares are taken to continue to be beneficially owned by the deceased; and
 - (b) as a result of being taken to continue to beneficially own the shares, the deceased is taken to continue:
 - (i) to have any rights to exercise, or to be able to control (whether directly, or indirectly through one or more interposed entities), any of the voting power in the company; and
 - (ii) to have any rights to receive for the deceased’s own benefit (whether directly or *indirectly) any *dividends that the company may pay; and
 - (iii) to have any rights to receive for the deceased’s own benefit (whether directly or indirectly) any distributions of capital of the company.

107 Application of amendment

The amendment made by item 106 applies to assessments for the 1997-98 income year and later income years.

108 Section 219-70

Repeal the section, substitute:

219-70 Tax offset under section 205-70

- (1) For the purposes of paragraph 205-70(1)(c), if a *life insurance company was entitled to a *tax offset under section 205-70 for a previous income year, assume section 63-10 applied to the part of the company's basic income tax liability for that previous income year that was attributable to its shareholders.
- (2) In working out the part of the company's basic income tax liability that was attributable to its shareholders, have regard to the company's accounting records.

Example: The following apply to a life insurance company that satisfies the residency requirement for an income year:

- (a) the company has a tax offset of \$60,000 under section 205-70 (the franking deficit offset) for that year;
- (b) the company's basic income tax liability for that year would be \$100,000 if the franking deficit offset were disregarded;
- (c) 20% of the \$100,000 is attributable to the company's shareholders (the shareholders' part).

As a result of applying \$20,000 of the franking deficit offset to reduce the shareholders' part to nil, the company's basic income tax liability becomes \$80,000. The remaining \$40,000 of the offset will be included in a franking deficit tax offset for the next income year for which the company satisfies the residency requirement.

109 Subsection 219-75(1) (note)

Omit "amount mentioned in paragraph 219-70(1)(b)", substitute "company's basic income tax liability mentioned in subsection 219-70(1)".
