Schedule 1—Reduced tax offset rate for expenditure above \$100 million

Part 1—Main amendments

Income Tax Assessment Act 1997

1 Subsection 67-30(1)

Before “the amount”, insert “all or part of”.

2 Section 67-30 (note 2)

Repeal the note, substitute:

Note 2: This subsection can apply to an entitlement under any subsection of section 355-100.

3 Subsection 355-100(1) (heading)

Repeal the heading, substitute:

If notional deductions are between \$20,000 and \$100 million

4 At the end of section 355-100

Add:

If notional deductions exceed \$100 million

- (3) Despite subsection (1), if the total of those amounts exceeds \$100 million, the *R&D entity is instead entitled to a *tax offset for the income year equal to the sum of:
- (a) that percentage of \$100 million; and
 - (b) the product of the excess and the *corporate tax rate.

Note: The R&D entity may be able to reduce related amounts that would otherwise be:

- (a) included in its assessable income because of a balancing, or feedstock, adjustment; or
- (b) payable as extra income tax because of an R&D recoupment; (see section 355-720).

5 At the end of section 355-525

Add:

Amount to be included in assessable income may be reduced if notional deductions exceeded \$100 million

- (4) For the purposes of subsection (3), the partner may choose to reduce the adjusted section 40-285 amount in that subsection if:
 - (a) subsection 355-100(3) applied to the partner for an earlier income year or the event year (the *excess year*); and
 - (b) the partner's deductions for the excess year included deductions covered by paragraph (1)(c) of this section for the asset.
- (5) Subsection 355-720(3) applies to the partner as if a reduction under subsection (2) of that section for the present year included a reduction under subsection (4) of this section for the event year.
- (6) The way the partner prepares its income tax returns is sufficient evidence of the making of a choice under subsection (4).
- (7) A choice under subsection (4) is irrevocable.

6 At the end of Subdivision 355-W

Add:

355-720 Certain related amounts may be reduced if notional deductions exceeded \$100 million

- (1) The object of this section is to prevent the portion of a *tax offset worked out using the *corporate tax rate being clawed back in later income years.

Note: This applies when the R&D entity's notional deductions exceed \$100 million (see subsection 355-100(3)).

- (2) For the purposes of working out a matter referred to in column 1 of an item of this table for an income year (the *present year*), the *R&D entity may choose to reduce the amount referred to in column 3 of that item if:
 - (a) subsection 355-100(3) applied to the R&D entity for an earlier income year or the present year (the *excess year*); and
-

- (b) the R&D entity's deductions for the excess year included deductions covered by a provision referred to in column 2 of that item.

Reducing extra income tax or amounts included in assessable income			
Item	Column 1	Column 2	Column 3
	For the purposes of working out this matter:	If its excess year deductions included those covered by:	This can be reduced:

2	any amount of extra income tax payable by the *R&D entity under section 355-435 for the present year	subsection 355-450(1)	those excess year deductions
3	any amount to include in the *R&D entity's assessable income for the present year under section 355-465	paragraph 355-465(1) (b)	those excess year deductions

Note 1: Item 2 is about R&D recoupments and item 3 is about feedstock adjustments.

Note 2: Reducing the amount in column 3 will reduce the amount in column 1.

- (3) The *R&D entity's circumstances may allow it to choose multiple reductions under subsection (2) for the present year. The total of any reductions cannot be more than the amount of its excess under subsection 355-100(3) for the excess year.
- (4) The way an *R&D entity prepares its income tax returns is sufficient evidence of the making of a choice under this section.
- (5) A choice under this section is irrevocable.

355-750 Review of rate when notional deductions exceed \$100 million

- (1) The Minister must cause a review of the operation of subsection 355-100(3) (about the rate of tax offset when notional deductions exceed \$100 million) to be undertaken as soon as possible after the fifth anniversary of the commencement of that subsection.

 - (b) the partner's deductions for the excess year included deductions covered by paragraph (1)(c) of this section for the asset.
- (4B) Subsection 355-720(3) of the *Income Tax Assessment Act 1997* applies to the partner as if a reduction under subsection (2) of that section for the present year included a reduction under subsection (4A) of this section for the event year.
- (4C) The way the partner prepares its income tax returns is sufficient evidence of the making of a choice under subsection (4A).
- (4D) A choice under subsection (4A) is irrevocable.

8 At the end of Division 355
