## Superannuation Contributions Determination

---

### **Superannuation contributions: what are the indexable amounts for the 1998-99 financial year under the *Termination Payments Tax Imposition Act 1997*?**

[*Note: This is a consolidated version of this document. Refer to the Tax Office Legal Database (<http://law.ato.gov.au>) to check its currency and to view the details of all changes.*]

1. The *Termination Payments Tax Imposition Act 1997* (the Act) provides that for each indexing financial year the indexable amount is to be an amount which reflects movements in full-time adult average weekly ordinary time earnings (AWOTE).
2. To ascertain an indexable amount, an indexation factor is calculated by dividing the index number for the last quarter in the current March year by the index number for the last quarter in the previous March year. The index number for a quarter is the AWOTE estimate for the middle month of the quarter published by the Australian Statistician.
3. The Australian Statistician's AWOTE estimate for February 1998 was \$721.30 and the estimate for February 1997 was \$696.10. This produces an indexation factor of 1.036. This factor, when multiplied by the indexable amount for the previous year, produces the indexable amount for the current year.
4. Superannuation Contributions Determination SCD 97/2 specified the previous indexable amounts for the 1997-98 financial year as \$1,046; \$73,220 and \$88,910.
5. For the purposes of section 6 of the Act, the indexable amounts for the 1998-99 financial year are:

**\$1,084**

**\$75,856**

**\$92,111.**
