Income tax: foreign income: is a foreign loss quarantined within a partnership?

1. A partnership's foreign losses are quarantined within the partnership and are not available for distribution to the respective partners.
2. A 'partnership loss' is defined in section 90 of the *Income Tax Assessment Act 1936* to be the excess (if any) of the allowable deductions, other than deductions allowable under section 79E, 80, 80AA or 82AAT, over the assessable income of a partnership calculated as if the partnership were a taxpayer who was a resident. However, section 79D denies a deduction in relation to a class of foreign income to the extent that the deduction would reduce that class of foreign income below nil. Consequently, a 'partnership loss' does not include a loss relating to foreign income. Accordingly, a deduction will not be available to a partner under subsection 92(2) for a foreign loss incurred by a partnership.
3. The partnership may carry the foreign loss forward, under section 160AFD, to offset against its income of later income years in accordance with the provisions of that section.
