Partial Withdrawal

Taxation Ruling

Income tax: foreign currency hedging transactions - applying the foreign income tax offset limit under section 770-75 of the *Income Tax Assessment Act 1997* and determining the source of foreign currency hedging gains

This Partial Withdrawal, excluding this paragraph, is a public ruling for the purposes of the *Taxation Administration Act 1953*. This Partial Withdrawal updates TR 2014/7 to remove the references to how the source of a foreign currency hedging gain is determined. The Commissioner's view is that, while source is always a practical matter of fact, the place where the hedge contract is formed is likely to be the most important factor in determining source for such gains. Subject to express or implied terms to the contrary, the place where the contract is formed will be the place where the acceptance is communicated to. Industry has advised the Commissioner that the administrative approach set out in paragraphs 13 and 14 of the original ruling has been understood as being an interpretative view, rather than an alternative administrative approach, and has raised a number of concerns in relation to the administrative approach. As a consequence, the parts of the Ruling addressing source have been removed. Further industry consultation on the alternative administrative approach is being conducted.
