

# Weekly tax table with no and half Medicare levy

For payments made on or after 1 July 2017

## Using this table

Use this table if you make payments to a prescribed person entitled to a full or half Medicare levy exemption. Prescribed persons include members of the defence force and certain recipients of repatriation and social security pensions and benefits.

You should use this table if you make any of the following payments to these payees on a weekly basis:

- salary, wages, allowances and leave loading paid to employees
- paid parental leave
- directors' fees
- salary and allowances paid to office holders (including members of parliament, statutory office holders, defence force members and police officers)
- payments to labour-hire workers
- payments to religious practitioners
- government education or training payments
- compensation, sickness or accident payments that are calculated at a periodical rate and made because a person is unable to work (unless the payment is made under an insurance policy to the policy owner).

If you make payments to these payees on a monthly or quarterly basis, you will need to convert their payments into weekly earnings. For more information, refer to 'Working out the monthly or quarterly withholding amounts'.

If you make fortnightly payments, refer to *Fortnightly tax table with no and half Medicare levy* (NAT 74228).

For this table to apply, your payee must have completed both of the following:

- a valid *Tax file number declaration* (NAT 3092) claiming the tax-free threshold
- a *Medicare levy variation declaration* (NAT 0929) claiming a full or half Medicare levy exemption.

Other tax tables may apply if you made payments to shearers, workers in the horticultural industry, performing artists and those engaged on a daily or casual basis.

For a full list of tax tables, visit our website at [ato.gov.au/taxtables](http://ato.gov.au/taxtables)

We have a calculator to help work out the correct amount of tax to withhold from payments to most payees. To access the calculator, visit our website at [ato.gov.au/taxwithheldcalculator](http://ato.gov.au/taxwithheldcalculator)

# Medicare levy adjustments

To claim the Medicare levy adjustment in certain situations, your payee must give you a *Medicare levy variation declaration* (NAT 0929) with their *Tax file number declaration*.

If a payee has claimed a half levy exemption from the Medicare levy and has also answered **yes** to questions 10 and 12 on the *Medicare levy variation declaration*, they may be entitled to a Medicare levy adjustment if their weekly earnings are \$702 or more. For instructions on working out the Medicare levy adjustment to half levy, see page 12.

## Eligibility for a full exemption

To obtain a full exemption from the Medicare levy, your payee must have completed section A of the *Medicare levy variation declaration* and answered **yes** to the following:

- question 5 'Do you qualify for a Medicare levy exemption?'
- question 6 'Do you want to claim a full exemption from the Medicare levy?'

## Eligibility for a half exemption

To obtain a half levy exemption from the Medicare levy, your payee must have completed section A of the *Medicare levy variation declaration* and answered **yes** to the following:

- question 5 'Do you qualify for a Medicare levy exemption?'
- question 7 'Do you want to claim a half levy exemption from the Medicare levy?'

## Working out the withholding amount

- 1 Calculate your employee's total weekly earnings – add any allowances and irregular payments that are to be included in this week's pay to the normal weekly earnings, ignoring any cents.
- 2 In column 1, find your employee's total weekly earnings.
- 3 Use the appropriate column to find the amount to withhold. If your employee is:
  - claiming full Medicare levy exemption, use column 2
  - claiming half Medicare levy exemption, use column 3.
- 4 Adjust the withholding amount found in step 3 if the following applies to your employee:
  - they have an entitlement to a tax offset (see 'Claiming tax offsets')
  - they are entitled to an adjustment for the Medicare levy – half levy (see 'Medicare levy adjustment to half levy')
  - they have advised you of a Higher Education Loan Program (HELP), Student Start-up Loan (SSL), Trade Support Loan (TSL) or Financial Supplement debt (see *HELP/SSL/TSL weekly tax table* [NAT 2173] or *SFSS weekly tax table* [NAT 3306]).

## Examples

### Full exemption from the Medicare levy

An employee has weekly earnings of \$518.40. Ignoring cents, find \$518 in column 1 and refer to the corresponding amount to be withheld of \$31.00 from column 2.

The employee has claimed a tax offset of \$500 on the *Withholding declaration*. To work out their weekly equivalent to their entitlement, take 1.9% of \$500 which is \$10 (rounded to the nearest dollar).

Subtract this amount from \$31.00 and the result of \$21.00 needs to be withheld.

### Half Medicare levy exemption

An employee has weekly earnings of \$480.90. Ignoring cents, find \$480 in column 1 and refer to the corresponding amount to be withheld of \$24.00 from column 3.

The employee has claimed a tax offset of \$1,000 on the *Withholding declaration*. To work out their weekly entitlement, take 1.9% of \$1,000 which is \$19.

Subtract this amount from \$24 and the result of \$5 needs to be withheld.

## Working out the monthly or quarterly withholding amounts

First calculate the weekly equivalent of monthly or quarterly earnings. If you pay:

- monthly – obtain the sum of the monthly earnings and the amount of any allowances subject to withholding (if the result is an amount ending in 33 cents, add one cent), multiply this amount by three and then divide by 13. Ignore any cents in the result and then add 99 cents.
- quarterly – divide the sum of the quarterly earnings and the amount of any allowances subject to withholding by 13. Ignore any cents in the result and then add 99 cents.

Then calculate monthly or quarterly withholding amounts as follows:

- monthly – work out the rounded weekly withholding amount applicable to the weekly equivalent of earnings, before any adjustment for tax offsets. Multiply this amount by 13, divide the product by three and round the result to the nearest dollar.
- quarterly – work out the rounded weekly withholding amount applicable to the weekly equivalent of earnings, before any adjustment for tax offsets. Multiply this amount by 13.

## Using a formula

The withholding amounts shown in this table can be expressed in a mathematical form.

If you have developed your own payroll software package, refer to *Statement of formulas for calculating amounts to be withheld* (NAT 1004) available on our website at [ato.gov.au/taxtables](http://ato.gov.au/taxtables).

## Tax file number (TFN) declarations

The answers your payees provide on their *Tax file number declaration* (NAT 3092) determine the amount you need to withhold from their payments. A *Tax file number declaration* applies to any payments made after you receive the declaration. If you receive an updated declaration from a payee, it will override the previous one.

If a payee does not give you a valid *Tax file number declaration* within **14 days** of starting a payer/payee relationship, you must complete a *Tax file number declaration* with all available details of the payee and send it to us.

### When a TFN has not been provided

You must withhold 47% from any payment you make to a resident payee and 45% from a foreign resident payee (ignoring any cents), if all of the following apply:

- they have not quoted their TFN
- they have not claimed an exemption from quoting their TFN
- they have not advised you that they have applied for a TFN or have made an enquiry with us.

If a payee states at question 1 of the *Tax file number declaration* they have lodged a *Tax file number – application or enquiry for individuals* (NAT 1432) with us, they have **28 days** to provide you with their TFN.

If the payee has not given you their TFN within **28 days**, you must withhold 47% from any payment you make to a resident payee and 45% from a foreign resident payee (ignoring any cents) unless we tell you not to.

Do not allow for any tax offsets or Medicare levy adjustments. Do not withhold any amount for:

- Higher Education Loan Program (HELP) debts
- Student Start-up Loan (SSL) debts (includes ABSTUDY SSL debts)
- Trade Support Loan (TSL) debts
- Financial Supplement debts.

### When your payee has a HELP, SSL, TSL or Financial Supplement debt

If your payee has a HELP, SSL, TSL or Financial Supplement debt, you may need to withhold additional amounts from their payments. Your payee will need to notify you of this on their *Tax file number declaration* or *Withholding declaration*.

To calculate additional withholding amounts for:

- HELP, SSL or TSL debts, refer to *HELP/SSL/TSL weekly tax table* (NAT 2173)
- Financial Supplement debts, refer to *SFSS weekly tax table* (NAT 3306).

## Allowances

Generally, allowances are added to normal earnings and the amount to withhold is calculated on the total amount of earnings and allowances.

For more information, visit our website at [ato.gov.au/allowances](https://ato.gov.au/allowances)

## Holiday pay, long service leave and employment termination payments

### Payees who continue working for you

You must include holiday pay (including any leave loading) and long service leave payments as part of normal earnings, except when they are paid on termination of employment.

For more information, refer to *Withholding from leave payments for continuing employees* on our website at [ato.gov.au](https://ato.gov.au)

### Payees who stop working for you

This tax table does not cover any lump sum payments made to a payee who stops working for you.

If a payee has unused annual leave, leave loading or long service leave, refer to *Tax table for unused leave payments on termination of employment* (NAT 3351).

Any other lump sum payments that may be employment termination payments, refer to *Tax table for employment termination payments* (NAT 70980).

Do not withhold any amount for HELP, SSL, TSL or Financial Supplement debts from lump sum termination payments.

## Leave loading

If you pay leave loading as a lump sum, you need to use *Tax table for back payments, commissions, bonuses and similar payments* (NAT 3348) to calculate withholding.

If you pay leave loading on a pro-rata basis, add the leave loading payment to the earnings for that period to calculate withholding.

# Claiming tax offsets

If your payee chooses to claim their entitlement to a tax offset through reduced withholding, they must provide you with a *Withholding declaration*.

To work out the payee's annual tax offset entitlement into a weekly value, use the 'Ready reckoner for tax offsets'. Deduct the weekly amount from the amount shown in column 2 or 3 of the table.

If you pay your payee monthly or quarterly, use the following to calculate the relevant tax offset amount:

- monthly – 8.3% of the amount claimed at the tax offsets question on the *Withholding declaration*, rounded to the nearest dollar
- quarterly – 25% of the amount claimed at the tax offsets question on the *Withholding declaration*, rounded to the nearest dollar.

Do not allow for any tax offsets if any of the following apply:

- when a payee is not claiming the tax-free threshold
- you are using foreign resident rates
- when a payee does not provide you with their TFN.

### Example

An employee with full Medicare levy exemption has weekly earnings of \$563 and, if using column 2, the amount to be withheld is \$40.

The employee claims a tax offset entitlement of \$1,000 on their *Withholding declaration*.

Using the 'Ready reckoner for tax offsets', the weekly value is \$19.

The total amount to be withheld is worked out as follows:

Amount to be withheld on \$563	\$40.00
less weekly offset value	<u>\$19.00</u>
<b>Total amount to be withheld</b>	<b>\$21.00</b>

# Ready reckoner for tax offsets

Amount claimed	Weekly Value	Amount claimed	Weekly Value
\$	\$	\$	\$
1	—	400	8.00
2	—	500	10.00
3	—	600	11.00
4	—	700	13.00
5	—	800	15.00
6	—	850	16.00
7	—	900	17.00
8	—	1000	19.00
9	—	1100	21.00
10	—	1173	22.00
20	—	1200	23.00
30	1.00	1300	25.00
40	1.00	1400	27.00
50	1.00	1500	29.00
57	1.00	1600	30.00
60	1.00	1700	32.00
70	1.00	1750	33.00
80	2.00	1800	34.00
90	2.00	1900	36.00
100	2.00	2000	38.00
200	4.00	2500	48.00
300	6.00	2535	48.00
338	6.00	3000	57.00

If the exact tax offset amount claimed is not shown in the ready reckoner, add the values for an appropriate combination.

### Example

Tax offsets of \$422 claimed. For a weekly value add values of \$400, \$20 and \$2 from the weekly value column.

$$= \$8.00 + \$0.00 + \$0.00$$

$$= \$8.00$$

Therefore, reduce the amount to be withheld from weekly payments by \$8.00.

## Withholding declarations

A payee may use a *Withholding declaration* (NAT 3093) to advise you of a tax offset they choose to claim through reduced withholding from you.

Payees can also use a *Withholding declaration* to advise you of any changes to their situation that may affect the amount you need to withhold from their payments.

Changes that may affect the amount you need to withhold include:

- becoming or ceasing to be an Australian resident for tax purposes
- claiming or discontinuing a claim for the tax-free threshold
- advising of a HELP, SSL, TSL or Financial Supplement debt, or changes to them
- entitlement to a seniors and pensioners tax offset.

When your payee provides you with a *Withholding declaration* it will take effect from the next payment you make. If you receive an updated declaration from a payee, it will replace the previous one.

A payee must have provided you with a valid *Tax file number declaration* before they can provide you with a *Withholding declaration*.

## PAYG withholding publications

You can access all PAYG withholding tax tables and other PAYG withholding publications quickly and easily from our website at [ato.gov.au/paygw](https://ato.gov.au/paygw)

Where your payee's earnings are more than \$2,500 but less than \$3,461, the weekly withholding amount is calculated as follows:

- weekly earnings – no Medicare levy: \$688 plus 37 cents for each \$1 of earnings in excess of \$2,500
- weekly earnings – half Medicare levy: \$713 plus 38 cents for each \$1 of earnings in excess of \$2,500.

Where your payee's earnings are more than \$3,460, the weekly withholding amount is calculated as follows:

- weekly earnings – no Medicare levy: \$1,044 plus 45 cents for each \$1 of earnings in excess of \$3,460
- weekly earnings – half Medicare levy: \$1,078 plus 46 cents for each \$1 of earnings in excess of \$3,460.

**For all withholding amounts calculated, round the result to the nearest dollar.**

# Medicare levy adjustment to half levy – table

## Using this table

Use this additional table if you make a payment to a payee who is entitled to an adjustment to their Medicare half levy.

## When your payee is entitled to a Medicare levy adjustment

Your payee is entitled to an adjustment if they meet **all** of the following requirements:

- they have provided you with a *Medicare levy variation declaration* in which they
  - claimed dependants
  - answered **yes** to question 5, 7, 10 and 12
- they have weekly earnings of \$702 or more, but less than the corresponding amount in column A of Table 1
  - for example, a payee who claims two dependent children must have weekly earnings of less than \$1,039 to be entitled to a Medicare levy adjustment.

If your payee claims more than 10 children, the column A amount is \$1,685 plus \$81 for each child claimed in excess of 10.

Column B shows the values used in calculating adjustments for payees with more than five dependent children. If your payee claims more than 10 dependent children, the column B amount is \$1,348.10 plus \$64.54 for each child in excess of 10.

For information about how to use Table 1 see 'Working out the Medicare levy adjustment' on this page.

**Table 1: Medicare levy adjustments**

Number of children	Column A	Column B
1	\$959	—
2	\$1,039	—
3	\$1,120	—
4	\$1,201	—
5	\$1,281	—
6	\$1,362	\$1,089.94
7	\$1,443	\$1,154.48
8	\$1,523	\$1,219.02
9	\$1,604	\$1,283.56
10	\$1,685	\$1,348.10

## Working out the withholding amount with Medicare levy adjustments

To work out the amount you need to withhold, you must:

- 1 Use column 3 on pages 6–11 of this tax table to find the weekly amount to be withheld from the payee's weekly earnings, allowing for any tax offsets claimed.
- 2 Reduce this amount by the amount of the Medicare levy adjustment.

Where the adjustment equals or exceeds the amount obtained in step 1 the amount to withhold is nil.

## Working out the Medicare levy adjustment

If you make payments to your payee on a monthly or quarterly basis, you will need to convert their payments into weekly earnings. For more information, refer to 'Working out the monthly or quarterly withholding amounts' on page 2. For payments made on a fortnightly basis refer to *Fortnightly tax table with no and half Medicare levy* (NAT 74228).

How you work out the Medicare levy adjustment varies depending on the number of dependent children your payee is claiming, refer to either:

- 'Payee claiming spouse and/or one to five dependent children' below
- 'Payee with more than five dependent children' on page 13.

## Payee claiming spouse and/or one to five dependent children

Use the 'Medicare levy adjustment to half levy – table' on pages 14–17 to find the payee's earnings in the 'Weekly earnings' column. Find the corresponding amount of Medicare levy adjustment from the appropriate number of children column.

### Example

The employee has weekly earnings of \$723.44 and is claiming four dependent children on the *Medicare levy variation declaration*. Find \$723 in the 'Weekly earnings' column and refer to the corresponding Medicare levy adjustment of \$1.00 from the '4 children' column.

## Payee with more than five dependent children

How you work out the Medicare levy adjustment for a payee with more than five dependent children varies depending on the weekly earnings of the payee, refer to:

- 'Weekly earnings less than \$1,025'
- 'Weekly earnings of \$1,025 or more but less than the column B amount that corresponds to the number of dependent children claimed'
- 'Weekly earnings of \$1,025 or more and greater than the column B amount but less than the column A amount that corresponds to the number of dependent children claimed'

### Weekly earnings less than \$1,025

Use the '5 children' column. Disregard any cents. Use the 'Medicare levy adjustment to half levy – table' to find the payee's earnings in the 'Weekly earnings' column. Find the corresponding amount of Medicare levy adjustment from the '5 children' column.

#### Example

The employee has weekly earnings of \$810.19 and is claiming six dependent children. Find \$810 in the 'Weekly earnings' column and refer to the corresponding Medicare levy adjustment of \$5.00 from the '5 children' column.

### Weekly earnings of \$1,025 or more but less than the column B amount that corresponds to the number of dependent children claimed

Round the weekly earnings down to the nearest dollar and add 99 cents. Take 1% of that amount and round to the nearest dollar.

#### Example

The employee has weekly earnings of \$1,121.29 and is claiming seven dependent children. Take 1% of \$1,121.29 (weekly earnings of \$1,121, rounded down to the nearest dollar, plus 99 cents). The amount of the Medicare levy adjustment is \$11.00, rounded to the nearest dollar.

### Weekly earnings of \$1,025 or more and greater than the column B amount but less than the column A amount that corresponds to the number of dependent children claimed

Complete steps 1–4 below:

- 1 Take 1% of the relevant column B amount. Round the result to the nearest cent.
- 2 Take 4% of the difference between the weekly earnings (round down to the nearest dollar, plus 99 cents) and the column B amount. Round the result to the nearest cent.
- 3 Subtract the result of step 2 from step 1.
- 4 Round the result to the nearest dollar.

#### Example

The employee has weekly earnings of \$1,252.79 and is claiming eight dependent children.

- 1  $1\% \times \$1,219.02$  (column B amount for eight children)  
= \$12.19
  - 2  $4\% \times (\$1,252.99 - \$1,219.02)$   
=  $4\% \times \$33.97$   
= \$1.36
  - 3  $\$12.19 - \$1.36$   
= \$10.83
  - 4 \$11.00 (\$10.83 rounded to the nearest dollar).
- Therefore, the Medicare levy adjustment is \$11.00.

## Using a formula

The Medicare levy adjustments shown in this table can be expressed in a mathematical form.

If you have developed your own payroll software package, refer to *Statement of formulas for calculating amounts to be withheld* (NAT 1004) available on our website at [ato.gov.au/taxtables](http://ato.gov.au/taxtables)

### Our commitment to you

We are committed to providing you with accurate, consistent and clear information to help you understand your rights and entitlements and meet your obligations.

If you follow our information in this publication and it turns out to be incorrect, or it is misleading and you make a mistake as a result, we must still apply the law correctly. If that means you owe us money, we must ask you to pay it but we will not charge you a penalty. Also, if you acted reasonably and in good faith we will not charge you interest.

If you make an honest mistake in trying to follow our information in this publication and you owe us money as a result, we will not charge you a penalty. However, we will ask you to pay the money, and we may also charge you interest. If correcting the mistake means we owe you money, we will pay it to you. We will also pay you any interest you are entitled to.

If you feel that this publication does not fully cover your circumstances, or you are unsure how it applies to you, you can seek further assistance from us.

We regularly revise our publications to take account of any changes to the law, so make sure that you have the latest information. If you are unsure, you can check for more recent information on our website at [ato.gov.au](http://ato.gov.au) or contact us.

This publication was current at **July 2017**.
