

## Rollovers version 3 onboarding weekly update

The following update is designed to assist industry in their rollovers version 3 onboarding. We expect to deliver this update on a weekly basis while it continues to be useful. We will include:

- 1) EVTE status for SBR services and Rollover message
- 2) Onboarding status updates of entities participating in rollovers version 3
- 3) Guidance to provide further assistance during onboarding

### EVTE status for testing Rollovers V3

#### Active Issues

#	Issue	Resolution	Resolved on	Status	Rv3 Issues Register #
13	Fund initiated (Fund to ATO) USM testing	In progress		<p>30/06 - Issue has no impact on progressing G2B testing. EVTE update expected mid to late July.</p> <p>23/6 – ATO updating EVTE based on the revised set of USI and Gateway ESAs that have been provided by the various Gateways to date. Interim workaround in place for USM6.8-6.14, no impacts to progressing G2B testing.</p> <p>16/6 – Still awaiting fund data from some Gateways.</p> <p>09/06 Currently sourcing information from Gateways.</p> <p>02/06 Fund initiated USMR testing is currently limited to the USI and Gateway ESAs known within the EVTE environment.</p> <p>If an unknown USI is used, EVTE cannot automatically generate a USMOR.</p> <p>To ensure EVTE has the correct details to support USMR testing ATO will share the USI and Gateway ESAs currently available with Gateways and seek any additional fund details that Gateways have approved for Funds conducting RV3 testing and update our EVTE environment accordingly.</p>	19

## Closed Issues

#	Issue	Resolution	Resolved on	<a href="#">Rv3 Issues Register</a> #
14	<b>03.06.2021</b> <b>Schematron incorrectly applying USM validation on an RTR message.</b>	<ul style="list-style-type: none"> <li>11/06 Updated schematron and published on the software developers website.</li> <li>09/06 Discrepancy identified between the taxonomy in MIG V3 and the latest version of the schematron where validation was incorrectly conducted on the UnclaimedSuperannuationMoney.Date field, as part of an RTR message. The schematron has been updated to align with MIG V3 and address USM validation issues. The updated version has been scheduled for external publication (estimated availability from 11/06).</li> </ul>	11 June 2021	20
12	<b>12.05.2021</b> <b>G2B test scenario USM 6.6 currently unavailable to test.</b>	<ul style="list-style-type: none"> <li>18/05 System fix deployed and confirmed successful. USM6.6 available for testing.</li> <li>12/05 USM6.6 – currently under investigation.</li> </ul>	18 May 2021	18
11	<b>04.05.2021</b> <b>G2B test scenario USM 6.7 currently unavailable to test.</b>	<ul style="list-style-type: none"> <li>18/05 System fix deployed and confirmed successful. USM6.7 available for testing.</li> <li>11/05 USM6.7 – investigation complete, fix identified. ### EVTE status by test scenario grouping *(no change from last update)*

	Test scenario group	Status
1	ATO initiated USM Rollover Request	Available to test
2	Gateway respond to Test 1 with USMOR	Available to test
3	Gateway initiate USM Rollover Request	Available to test
4	ATO respond to Test 3 with USMOR (automatic)	Available to test
5	ATO initiate EPF for APRA to APRA (no gateway response)	Available to test
6	ATO initiate EPF for SMSF to SMSF (no gateway response)	Available to test
7	ATO initiate EPF for APRA to SMSF (no gateway response)	Available to test
8	ATO initiate EPF for SMSF to APRA (no gateway response)	Available to test
9	ATO initiate S20c Request	Available to test
10	Gateway respond to Test 9 with S20c Error Response	Available to test
11	ATO initiate RA Request	Available to test
12	Gateway respond to Test 11 with RAER	Available to test
13	Gateway initiate RAS Request	Available to test
14	ATO respond to Test 13 with RASOR (automatic)	Available to test
15	ATO initiate RA Request for SMSF	Available to test
16	Gateway respond to Test 15 with RAER for SMSF	Available to test
17	Gateway initiate RAS Request for SMSF	Available to test
18	ATO respond to Test 17 with RASOR (automatic) for SMSF	Available to test

### EVTE testing progress *(no change from last update)*

*(Gateway EVTE testing progress reflects completion of the 18 testing groups above)*

- All gateways have now completed testing.

### Gateway to gateway interoperability testing (update provided by GNGB) *(no change from last update)*

- All gateways have completed gateway to gateway interoperability testing for Rollovers v3.

## EVTE status for SVS and SMSFmemberTICK Service

- May 2020 - full suite of SVS and SMSF verification services available in EVTE
- Seven DSPs have been whitelisted for SMSFVRFY.
- Two DSPs have been whitelisted for SMSFMBRVRFY.
- Seven other DSPs are currently testing
- No issues have been identified requiring changes.

## B2B Testing

- Cohort 1 commenced Tuesday 15 June.
  - One fund administrator and two APRA funds have completed their testing with the SMSF provider to date. There are an additional three APRA funds currently undertaking this testing.
  - One fund administrator and two APRA funds using different gateways have successfully completed end-to-end testing with each other. There are an additional three APRA funds currently undertaking this testing.
  - Cohort 1 is scheduled to end on 2 July 2021.
- Cohort 2 commences on Monday 5 July.
  - Invites to the daily stand ups for the duration of this cohort have been issued and invites have been extended to the relevant gateway providers.

## G2B Testing

- Three funds/administrators/digital service providers (DSPs) have fully completed their G2B testing
- Nine funds/administrators/DSPs are currently undertaking G2B testing, one of which is only awaiting completion of the G2B test matrix in order to exit the G2B test phase.

## Testing support documentation

- Rollover v3 progressively released into EVTE through July to October 2020
- Conformance suite scenarios and test data for RA, RAS and EPF (initial version) was released on 12 December 2020 (standard monthly cycle)
- USM Reason Code taxonomy change was released on 12 December 2020 as planned (standard monthly cycle)
- RA & RAS ProductType Code taxonomy change was released in EVTE 16 January 2021 as planned (standard monthly cycle)
- [Rollover v3 Conformance testing guide](#) was updated to include Rv2 scenarios and published on 1 April 2021
- [SuperStream Rollovers V3 Test Data Scenario](#) spreadsheet was updated to include new test data (see active issue 8) and released on 12 April 2021
- [Rollover v3 Conformance testing guide](#) was updated to align testing scenarios, latest version (v0.8) published on 29 April 2021
- [Rollover Sample Message Instances](#) (payload samples) published 29 April 2021
- [MAAS Conformance Suites and payloads](#) published in SBR Sharefile 06 May 2021
- MAAS EVTE code deployed and DSPs re-whitelisted 10 May 2021
- [SMSF Alias Lookup Table](#) published 10 May 2021
- [MATS Conformance Suites and payloads](#) published in SBR Sharefile 18 May 2021.
- [SuperStream Rollovers V3 Test Data Scenario V1.1](#) spreadsheet was updated to remove invalid scenarios and provide clarity on expected outcomes, published 11 June 2021.
- [Rollover Schematron v3.0 20210607](#), updated to address RTR USM validation issue, published 11 June 2021.
- [Rollovers v3 Implementation and Onboarding Learning and Issues register](#), published 23 June 2021.
- [Rollover v3 Conformance testing guide V3.09](#) published 25 June 2021.

## ATO Superannuation services status and maintenance times

ATO Superannuation Dashboard Status

<https://sres.status.ato.gov.au/>

System maintenance | Australian Taxation Office (ato.gov.au)

<https://www.ato.gov.au/General/Online-services/System-Maintenance/>

## Other Updates

- SMSF ESA provider ato.gov.au content updates:
  - Documentation being finalised and expected to be escalated for publishing in early July.
- There are a number of publications available on the [SuperStream Rollover v3](#) wrapper page, of particular interest may be the following two documents which may provide assistance and guidance as you move into and through testing phases (please note, these publications are updated on a needs basis):
  - SuperStream Rollovers v3 Implementation and Onboarding Learnings and Issues Register – captures learnings and issues identified through various testing phases.
  - SuperStream Rollover v3 implementation and onboarding information – captures frequently asked questions raised through various channels.

## More information

Any questions, comments and feedback can be sent to [SuperStreamStandards@ato.gov.au](mailto:SuperStreamStandards@ato.gov.au).
