## Cohort Schedule P2P B2B

This information is a snapshot of industry readiness based on information provided to the ATO about P2P and B2B readiness. This will be updated fortnightly.

Where cohort sizes are large and it is possible, two SMSF providers will be assigned to the cohort and APRA funds will be split for testing purposes, otherwise some movement to other cohorts will be required. Where two SMSF providers are scheduled in the same cohort they will also test with one another.

It is important to note that these details are subject to change. Some cohorts are yet to contain the minimum number of test partners or use the same gateway - these will be realigned to ensure adequate testing coverage as readiness dates shift and are reported to us.
